Coordinated School Health & Wellness Bureau
Administrative Review Corrective Action Plan**

SFA Name: Jal Public Schools
 Administrative Review Conducted on: 11/10/2016
 Sites Selected for Review: Jal Elementary

Date Corrective Action Plan was provided to SFA: 20-Dec-16

Due Date for Corrective Action Plan: 19-Jan-17

The following pages address the findings that were identified during your Administrative Review. For each finding you will be presented with the following:

The finding, and details specific to the SFA regarding the finding	A summary of the regulation / requirement
The Code of Federal Regulations citation number or alternate resource citation	Suggested guidance for the SFA in order to achieve compliance SFA area for reply to state how, when and by whom corrections will be made

Please provide a detailed response to each finding in the spaces provided.

Finding #1
410. For the week of menu review, the K-8 breakfast menu did not meet the minimum daily requirement of 1 ounce equivalent grain. A grain was provided, however the minimum required portion size was not met and not all grains served were whole grain-rich and creditable.
Technical Assistance Provided
During the review, the portion sizes required by the meal patterns were discussed with the SFA. The SFA must ensure that all meals counted for reimbursement contain the required components in the minimum portion size required for the specific grade group. The SFA should review all menus to ensure that at least the minimum portion size is planned for the specific grade group. The SFA should also provide additional training to the kitchen staff on the requirements of a reimbursable meal. The training should include what to do if a certain planned menu item is not available or if the item runs out during service. The USDA FNS website can be used for training materials, resources and guidance on the meal pattern. http://healthymeals.nal.usda.gov/

Regulation / Citation and Summary
220.8(c) Meal pattern for school breakfasts. A school must offer the food components and quantities required in the breakfast meal pattern established. K-12: 1 oz. equivalent of grains daily.
SFA Suggested Guidance for Compliance
To come into compliance with meal pattern requirements, the SFA must provide the State Agency with a written plan that will be implemented to ensure future compliance. The plan should include; a statement that all menus will be reviewed to ensure that all portion sizes planned meet at least the minimum required amount for the specific grade group, a process for sites to reference when they do not have one of the planned menu items or there is insufficient quantities, a statement that the serving line will be visually reviewed prior to service to confirm that all required components are available and that additional menu training for all SFA staff will be provided. Provide the outline and dates for the trainings that will be completed. In addition please submit the name(s) and title(s) of the SFA representative(s) that will oversee this area and ensure future compliance. Submit the menu from the week of review with the corrections that were made to the menu to bring it into compliance moving forward. Provide any needed documentation to support the changes such as labels, recipes, production records, etc.
SFA Response

Finding #2
410. For the week of menu review, the K-8 breakfast menu did not meet the minimum weekly requirement of 8 ounce equivalent grain.
Technical Assistance Provided
During the review, the portion sizes required by the meal patterns were discussed with the SFA. The SFA must ensure that all meals counted for reimbursement meet the weekly requirements as well as the daily requirements for grains required for the specific grade group. The SFA should review all menus to ensure that at least the minimum daily and weekly requirement is planned for the specific grade group. The SFA should also provide additional training to the kitchen staff on the requirements of a reimbursable meal. The training should include how to determine the total number of weekly servings if there are multiple menu items each day. The USDA FNS website can be used for training materials, resources and guidance on the meal pattern. http://healthymeals.nal.usda.gov/
Regulation / Citation and Summary
220.8(c) Meal pattern for school breakfasts. A school must offer the food components and quantities required in the breakfast meal pattern established. K-8: minimum 8 oz. equivalents of grain weekly.
SFA Suggested Guidance for Compliance

To come into compliance with meal pattern requirements, the SFA must provide the State Agency with a written plan that will be implemented to ensure future compliance. The plan should include; a statement that all menus will be reviewed to ensure that all weekly requirements for grains are met for the specific grade group, a process for sites to reference when they do not have one of the planned menu items or there is insufficient quantities, a statement that the serving line will be visually reviewed prior to service to confirm that all required components are available and that additional menu training for all SFA staff will be provided. Provide the outline and dates for the trainings that will be completed. In addition please submit the name(s) and title(s) of the SFA representative(s) that will oversee this area and ensure future compliance. Submit the menu from the week of review with the corrections that were made to the menu to bring it into compliance moving forward. Provide any needed documentation to support the changes such as labels, recipes, production records, etc.

SFA Response

Finding #3

410. For the menu review week, the K-8 breakfast menu did not meet the 100% Whole Grain Rich requirement. Not all grains provided were Whole Grain Rich.

Technical Assistance Provided

During the review requirements for the meal pattern were reviewed with the SFA. All grains provided as part of the reimbursable meal must be Whole Grain Rich. To be considered Whole Grain Rich the item it must be comprised of at least 50% whole grain ingredients. An easy way to determine if a pre-purchased item is whole grain is to look at the ingredient list. If the first ingredient is whole grain, it is a Whole Grain Rich product. If the first ingredient is water, but the second is a whole grain it is also a Whole Grain Rich product. If the SFA is using a recipe as long as the whole grain ingredient is the largest by weight of all of the grain ingredients combined it is a Whole Grain Rich product. For additional information on whole grains visit the USDA FNS website. <http://healthymeals.nal.usda.gov/menu-planning/whole-grains>

Regulation / Citation and Summary

220.8(c)(2)(iv) Grains component. (A) Enriched and whole grains. All grains must be made with enriched and whole grain meal or flour, in accordance with the most recent FNS guidance on grains. Whole grain-rich products must contain at least 50 percent whole grains and the remaining grains in the product must be enriched. Effective July 1, 2013 (SY 2013-2014), schools may substitute meats/meat alternates

SFA Suggested Guidance for Compliance

To come into compliance with meal pattern requirements, the SFA must provide the State Agency with a written plan that will be implemented to ensure future compliance with the Whole Grain Rich requirements. The plan should include; a statement that only Whole Grain Rich grain products will be used as part of the reimbursable meal, a statement that all labels/recipes/manufacturer statements will be kept on file to document the Whole Grain Rich compliance, and a statement that additional menu training will be provided to SFA staff. Provide the outline for the training and the dates that the training(s) will be completed. In the plan include the name(s) and title(s) of the SFA representative(s) that will oversee this area and ensure future compliance. In addition to the plan please submit a revised menu from the week of review that clearly identifies the products that have been changed to bring the menu into compliance, submit any needed supporting documentation such as labels, recipes, and/or manufacturer statements.

SFA Response

Finding #4

410. For the week of menu review, the K-8 lunch menu did not meet the minimum daily requirement of 1 ounce equivalent grain. A grain was provided, however the minimum required portion size was not met and not all grain products served were whole grain-rich and creditable.

Technical Assistance Provided

During the review, the portion sizes required by the meal patterns were discussed with the SFA. The SFA must ensure that all meals counted for reimbursement contain the required components in the minimum portion size required for the specific grade group. The SFA should review all menus to ensure that at least the minimum portion size is planned for the specific grade group. The SFA should also provide additional training to the kitchen staff on the requirements of a reimbursable meal. The training should include what to do if a certain planned menu item is not available or if the item runs out during service. The USDA FNS website can be used for training materials, resources and guidance on the meal pattern. <http://healthymeals.nal.usda.gov/>

Regulation / Citation and Summary

210.10(c) Meal pattern for school lunches. Schools must offer the food components and quantities required in the lunch meal pattern established: K-8: 1 oz. equivalent daily grain.

SFA Suggested Guidance for Compliance

To come into compliance with meal pattern requirements, the SFA must provide the State Agency with a written plan that will be implemented to ensure future compliance. The plan should include; a statement that all menus will be reviewed to ensure that all portion sizes planned meet at least the minimum required amount for the specific grade group, a process for sites to reference when they do not have one of the planned menu items or there is insufficient quantities, a statement that the serving line will be visually reviewed prior to service to confirm that all required components are available and that additional menu training for all SFA staff will be provided. Provide the outline and dates for the trainings that will be completed. In addition please submit the name(s) and title(s) of the SFA representative(s) that will oversee this area and ensure future compliance. Submit the menu from the week of review with the corrections that were made to the menu to bring it into compliance moving forward. Provide any needed documentation to support the changes such as labels, recipes, production records, etc.

SFA Response

Finding #5

410. For the week of menu review, the K-8 lunch menu did not meet the minimum weekly requirement of 8 ounce equivalent grain.

Technical Assistance Provided

During the review, the portion sizes required by the meal patterns were discussed with the SFA. The SFA must ensure that all meals counted for reimbursement meet the weekly requirements as well as the daily requirements for grains required for the specific grade group. The SFA should review all menus to ensure that at least the minimum daily and weekly requirement is planned for the specific grade group. The SFA should also provide additional training to the kitchen staff on the requirements of a reimbursable meal. The training should include how to determine the total number of weekly servings if there are multiple menu items each day. The USDA FNS website can be used for training materials, resources and guidance on the meal pattern. <http://healthymeals.nal.usda.gov/>

Regulation / Citation and Summary

210.10(c) Meal pattern for school lunches. Schools must offer the food components and quantities required in the lunch meal pattern established: K-8: minimum of 8 oz. equivalent of grains per week.

SFA Suggested Guidance for Compliance

To come into compliance with meal pattern requirements, the SFA must provide the State Agency with a written plan that will be implemented to ensure future compliance. The plan should include; a statement that all menus will be reviewed to ensure that all weekly requirements for grains are met for the specific grade group, a process for sites to reference when they do not have one of the planned menu items or there is insufficient quantities, a statement that the serving line will be visually reviewed prior to service to confirm that all required components are available and that additional menu training for all SFA staff will be provided. Provide the outline and dates for the trainings that will be completed. In addition please submit the name(s) and title(s) of the SFA representative(s) that will oversee this area and ensure future compliance. Submit the menu from the week of review with the corrections that were made to the menu to bring it into compliance moving forward. Provide any needed documentation to support the changes such as labels, recipes, production records, etc.

SFA Response

Finding #6

410. For the week of menu review, the K-8 lunch menu did not meet the 100% Whole Grain Rich requirement for grains. Not all grains provided were Whole Grain Rich.

Technical Assistance Provided

During the review requirements for the meal pattern were reviewed with the SFA. All grains provided as part of the reimbursable meal must be Whole Grain Rich. To be considered Whole Grain Rich the item it must be comprised of at least 50% whole grain ingredients. An easy way to determine if a pre-purchased item is whole grain is to look at the ingredient list. If the first ingredient is whole grain, it is a Whole Grain Rich product. If the first ingredient is water, but the second is a whole grain it is also a Whole Grain Rich product. If the SFA is using a recipe as long as the whole grain ingredient is the largest by weight of all of the grain ingredients combined it is a Whole Grain Rich product. For additional information on whole grains visit the USDA FNS website. <http://healthymeals.nal.usda.gov/menu-planning/whole-grains>

Regulation / Citation and Summary

210.10(c)(2)(iv) Grains component. (A) Enriched and whole grains. All grains must be made with enriched and whole grain meal or flour, in accordance with the most recent grains FNS guidance. Whole grain-rich products must contain at least 50 percent whole grains and the remaining grains in the product must be enriched.

SFA Suggested Guidance for Compliance

To come into compliance with meal pattern requirements, the SFA must provide the State Agency with a written plan that will be implemented to ensure future compliance with the Whole Grain Rich requirements. The plan should include; a statement that only Whole Grain Rich grain products will be used as part of the reimbursable meal, a statement that all labels/recipes/manufacture statements will be kept on file to document the Whole Grain Rich compliance, and a statement that additional menu training will be provided to SFA staff. Provide the outline for the training and the dates that the training(s) will be completed. In the plan include the name(s) and title(s) of the SFA representative(s) that will oversee this area and ensure future compliance. In addition to the plan please submit a revised menu from the week of review that clearly identifies the products that have been changed to bring the menu into compliance, submit any needed supporting documentation such as labels, recipes, and/or manufacturer statements.

SFA Response

Finding #7

410. For the week of menu review, the K-8 lunch menu did not meet the minimum daily requirement of 1 ounce equivalent meat/meat alternate. The chicken nuggets served on 9/13/16 did not have a CN label or Product Formulation Statement to confirm the meat/meat alternate crediting.

Technical Assistance Provided

During the review, the portion sizes required by the meal patterns were discussed with the SFA. The SFA must ensure that all meals counted for reimbursement contain the required components in the minimum portion size required for the specific grade group. The SFA should review all menus to ensure that at least the minimum portion size is planned for the specific grade group. The SFA should also provide additional training to the kitchen staff on the requirements of a reimbursable meal. The training should include what to do if a certain planned menu item is not available or if the item runs out during service. The USDA FNS website can be used for training materials, resources and guidance on the meal pattern. <http://healthymeals.nal.usda.gov/>

Regulation / Citation and Summary

210.10(c) Meal pattern for school lunches. Schools must offer the food components and quantities required in the lunch meal pattern established: K-8: 1 oz. equivalent meat/meat alternate.

SFA Suggested Guidance for Compliance

To come into compliance with meal pattern requirements, the SFA must provide the State Agency with a written plan that will be implemented to ensure future compliance. The plan should include; a statement that all menus will be reviewed to ensure that all portion sizes planned meet at least the minimum required amount for the specific grade group, a process for sites to reference when they do not have one of the planned menu items or there is insufficient quantities, a statement that the serving line will be visually reviewed prior to service to confirm that all required components are available and that additional menu training for all SFA staff will be provided. Provide the outline and dates for the trainings that will be completed. In addition please submit the name(s) and title(s) of the SFA representative(s) that will oversee this area and ensure future compliance. Submit the menu from the week of review with the corrections that were made to the menu to bring it into compliance moving forward. Provide any needed documentation to support the changes such as labels, recipes, production records, etc.

SFA Response

Finding #8

410. For the week of menu review, the K-8 lunch menu did not meet the minimum weekly requirement of 9 ounce equivalent meat/meat alternate.

Technical Assistance Provided

During the review, the portion sizes required by the meal patterns were discussed with the SFA. The SFA must ensure that all meals counted for reimbursement meet the weekly requirements as well as the daily requirements for meat/meat alternates required for the specific grade group. The SFA should review all menus to ensure that at least the minimum daily and weekly requirement is planned for the specific grade group. The SFA should also provide additional training to the kitchen staff on the requirements of a reimbursable meal. The training should include how to determine the total number of weekly servings if there are multiple menu items each day. The USDA FNS website can be used for training materials, resources and guidance on the meal pattern. <http://healthymeals.nal.usda.gov/>

Regulation / Citation and Summary

210.10(c) Meal pattern for school lunches. Schools must offer the food components and quantities required in the lunch meal pattern established: K-8: minimum of 9 oz. equivalent of meat/meat alternate per week.

SFA Suggested Guidance for Compliance

To come into compliance with meal pattern requirements, the SFA must provide the State Agency with a written plan that will be implemented to ensure future compliance. The plan should include; a statement that all menus will be reviewed to ensure that all weekly requirements for grains are met for the specific grade group, a process for sites to reference when they do not have one of the planned menu items or there is insufficient quantities, a statement that the serving line will be visually reviewed prior to service to confirm that all required components are available and that additional menu training for all SFA staff will be provided. Provide the outline and dates for the trainings that will be completed. In addition please submit the name(s) and title(s) of the SFA representative(s) that will oversee this area and ensure future compliance. Submit the menu from the week of review with the corrections that were made to the menu to bring it into compliance moving forward. Provide any needed documentation to support the changes such as labels, recipes, production records, etc.

SFA Response

Finding #9

409. The SFA is not maintaining Child Nutrition labels or Product Formulation Statements for all processed menu items. This information was not available for the chicken nuggets served on 9/13/16, during the week of menu review.

Technical Assistance Provided

During the on-site review, CN labels and Product Formulation Statements were discussed with the SFA. The SFA must ensure that CN labels or Product Formulation Statements are being maintained in order to document an item's compliance with the meal pattern. The SFA should have a folder or a binder to keep labels for all menu items, that way they are easy to find and can be referenced when determining menu compliance.

Regulation / Citation and Summary

210.7(d)(2) School food authorities certified to earn performance-based cash assistance must maintain documentation of compliance, including production and menu records, and other records, as specified by FNS. School food authorities must make appropriate records available to State agencies upon request.

SFA Suggested Guidance for Compliance

To bring this area into compliance the SFA must submit a written assurance that includes; a statement that labels (nutrient labels, ingredients labels, CN labels and manufacturer statements) will be maintained for all menu items, a process for maintaining labels, and a statement that additional training will be provided to the SFA staff, include the training outline and the dates that the trainings will be held. In addition please submit the name(s) and title(s) of the SFA representative(s) that will oversee this area and ensure future compliance.

SFA Response

Finding #10

709. The SFA is not charging enough for paid lunches, or has not identified enough non-federal funds to make up for a paid lunch price deficiency.

Technical Assistance Provided

During the review, it was determined that the SFA did not raise paid lunch prices as required for the review year or the current school year. A \$.10 price increase was required for both years, but the SFA’s board voted against a price increase. Paid lunch prices have not been increased since before SY 10-11. The SFA should complete the Paid Lunch Equity Tool annually and, if the tool shows you have a price requirement increase, you need to do one of the following: 1) Raise paid lunch prices as required (no more than \$.10 per year is required, but you can raise more than \$.10 and carryforward the credit), or 2) Use non-federal funds to supplement paid lunches. The general fund would need to transfer funds to Fund 21000 specifically to support paid lunch prices. If the nonfederal fund option is selected, you must complete the NonFederal Calculator tab on the PLE Tool to determine the exact amount needed to transfer into the food service account. In-kind transactions do not qualify as non-federal funds; if the district wants to pay for food service expenditures to supplement paid lunches, they must transfer the funds into the food service account and the food service account will pay for the expenditures. For the SY 15-16, the general fund would have needed to transfer \$785 into the food service account to supplement paid lunches. For the current year, \$1,062 in non-federal funds were required.

Regulation / Citation and Summary

7 CFR 210.14 Resource management. (e) Pricing paid lunches.

(3) Average lunch price is lower than the reimbursement difference. When the average price from the prior school year is lower than the difference in reimbursement rates as determined in paragraph (e)(1)(iii) of this section, the school food authority shall establish an average price for the current school year that is not less than the average price charged in the previous school year as adjusted by a percentage equal to the sum obtained by adding: (i) 2 percent; and (ii) The percentage change in the Consumers Price Index for All Urban Consumers used to increase the Federal reimbursement rate under section 11 of the Act for the most recent school year for which data are available. The percentage to be used is found in the annual notice published in the Federal Register announcing the national average payment rates, from the prior year. (4) Price Adjustments. (i) Maximum required price increase. The maximum annual average price increase required under this paragraph shall not exceed ten cents. (ii) Rounding of paid lunch prices. Any school food authority may round the adjusted price of the paid lunches down to the nearest five cents. (iii) Optional price increases. A school food authority may increase the average price by more than ten cents. (5) Reduction in average price for paid lunches. (i) Any school food authority may reduce the average price of paid lunches as established under this paragraph if the State agency ensures that funds are added to the nonprofit school food service account in accordance with this paragraph. The minimum that must be added is the product of: (A) The number of paid lunches claimed by the school food authority in the previous school year multiplied by (B) The amount required under paragraph (e)(3) of this section, as adjusted under paragraph (e)(4) of this section, minus the average price charged.

SFA Suggested Guidance for Compliance

As the corrective action response, please explain the process that will be put into place to ensure that the Paid Lunch Equity Tool will be correctly completed before each school year to ensure the minimum required paid lunch price is charged or sufficient non-federal funding will be transferred to the food service account to support paid lunch prices. Identify by position title the person who will be responsible for ensuring paid lunch equity requirements are met. Additionally, explain your plan for raising paid lunch prices or designating nonfederal funds for paid lunch support.

SFA Response

Finding #11

Resource Management Comprehensive Review - NonProgram Food Compliance:
The SFA did not correctly complete the USDA Nonprogram Food Revenue Tool.

Technical Assistance Provided

The SFA submitted an incomplete copy of the NonProgram Food Revenue Tool to PED. No non-program revenue was input into the tool. The NonProgram Food Revenue Tool should be completed every year. You can use a one-week reference period instead of gathering numbers for an entire year. This tool should include adult meals & extra milks as your nonprogram foods. If the tool shows you are out of compliance, you need to increase nonprogram food prices (even if you are meeting the USDA adult meal pricing guidelines). A copy of the tool and a link to the USDA memo was sent in an email during this review. Both documents can be found on the USDA website. The reviewer completed the tool for last year using information provided by the SFA and sent a copy to the SFA. Per the tool, the SFA was in compliance with nonprogram food requirements for the SY 15-16.

Regulation / Citation and Summary

7 CFR 210.14 (f) Revenue from non-program foods. Beginning July 1, 2011, school food authorities shall ensure that the revenue generated from the sale of non-program foods complies with the requirements in this paragraph.

(1) Definition of non-program foods. For the purposes of this paragraph, non-program foods are those foods and beverages; (i) Sold in a participating school other than reimbursable meals and meal supplements; and (ii) Purchased using funds from the nonprofit school food service account.

(2) Revenue from non-program foods. The proportion of total revenue from the sale of non-program foods to total revenue of the school food service account shall be equal to or greater than: (i) The proportion of total food costs associated with obtaining non-program foods (ii) The total costs associated with obtaining program and non-program foods from the account.

SFA Suggested Guidance for Compliance

As the corrective action response, please explain the process that will be put into place to ensure that the USDA Nonprogram Food Revenue Tool is completed correctly each year. This should include a timeframe for when the tool will be completed, and proper training for the person responsible for completing the tool.

SFA Response

Finding #11

325. The SFA has claimed meals in error based on inaccurate counting and/or claiming procedures. The counts by category were not correctly used in the claim for reimbursement.

Technical Assistance Provided

During the review, counting and claiming were discussed with the SFA. The SFA has claimed meals in error based on inaccurate counting and/or claiming procedures. The counts by category were not correctly used in the claim for reimbursement. To be in compliance, the SFA must ensure that meal counts are being recorded accurately and that claims are being filed correctly. Proper counting and claiming procedures were reviewed with the SFA. The SFA acknowledged the finding and will implement needed changes immediately.

Regulation / Citation and Summary
210.7(c) Reimbursement limitations. To be entitled to reimbursement under this part, each school food authority shall ensure that Claims for Reimbursement are limited to the number of free, reduced price and paid lunches and meal supplements that are served to children eligible for free, reduced price and paid lunches and meal supplements, respectively, for each day of operation.
SFA Suggested Guidance for Compliance
To come into compliance with the requirements for counting and claiming, the SFA must provide the State Agency with an assurance that the appropriate staff understand these requirements, and the SFA must put a plan in place to ensure future compliance. Please submit the assurance and plan to the State Agency. The plan must include: an indication that the SFA has corrected inaccurate counting and/or claiming procedures, a description of the new process that has been implemented, a description of the training that was provided to staff to inform them of the new process, the date the training was completed and the name and title of the SFA representative that will ensure compliance moving forward. Additionally, SFA staff will need to complete the Meal Counting and Claiming training found in the School Nutrition Toolbox at http://www.schoolnutritiontoolbox.org/snt-v3/index.php .
