

AGENDA ITEM EXECUTIVE SUMMARY

- I. Public Education Commission Meeting Date: July 19, 2017
- II. Item Title: Vote on Charter School Amendment – School of Dreams Academy Charter School is requesting to amend the Article VII, Section 8.01, Authorized School Grades (3Y/4Y)
- III. Executive Summary and Proposed Motions:

Request and Rationale

School of Dreams Academy Charter School requests to amend the grade levels served. The school's current contract states that the school is authorized to serve Grades K-2 and 7-12.

The school is requesting to change the grades they are authorized to serve to include 3Y/4Y (Developmentally Disabled) Program to grades served as allowed under IDEA Part B in public schools.

The school states the following rationale for its request: *The Individuals with Disabilities Education Act-Part B requires public schools to conduct Child Find services and provide programming for 3 and 4 year old students qualified under developmental disabilities. When initially chartered and as part of renewal, School of Dreams Academy signed assurances to comply with this and other statutory requirements. This year (2016-17) School of Dreams Academy began such a program and, to date has identified 26 children in need of services. Currently we have two classrooms with certified teachers and teaching assistants offering developmentally appropriate programming in compliance with each student's IEP. SODA offers the full range of services including Speech/Language Pathology, Social Work, and Diagnostician, in a welcoming and family friendly environment. This request is to codify our 3Y/4Y program as part of our charter.*

School History

School of Dreams Academy Charter School was approved in September of 2008 by the New Mexico Public Education Commission (PEC) and granted a five year renewal beginning July 1, 2014.

Amendments

In 2011 the school was granted an enrollment cap increase from 199 students to 525 students.

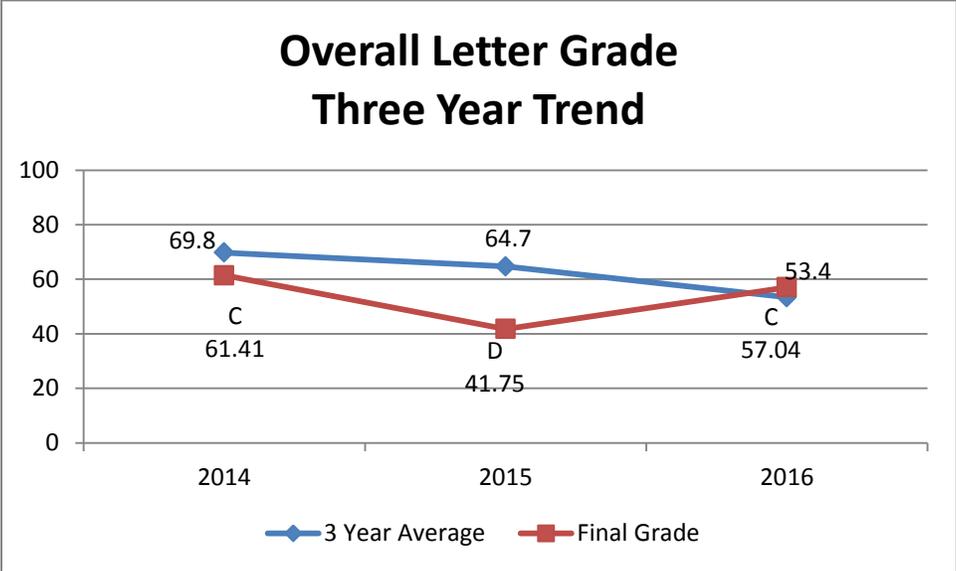

In March 2014, the school was granted an amendment to change its mission statement to indicate the school provides a STEAM curriculum.

In April 2016, The Public Education Commission approved an amendment that allowed School of Dreams Academy to move to a new location at 906 Juan Perea Road, Los Lunas, New Mexico. Additionally at the May 2016 PEC meeting, the Public Education Commission approved the addition of Kindergarten through second grades as grade levels the school is authorized to serve. At the same meeting, the Public Education Commission approved an increase of 100 students to the school's enrollment cap and the addition of a night school/credit recovery program.

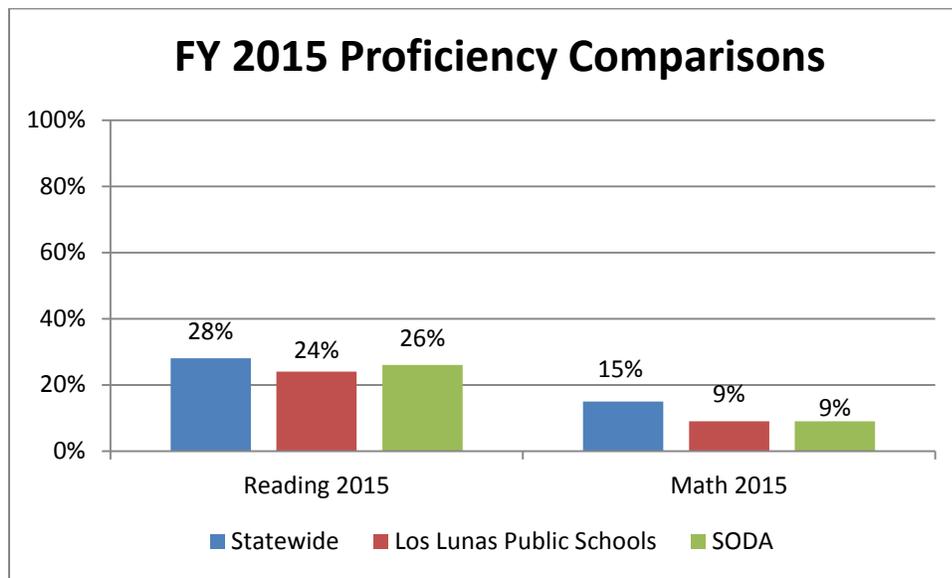

School Performance

School of Dreams Academy Charter School has received the following school grades:

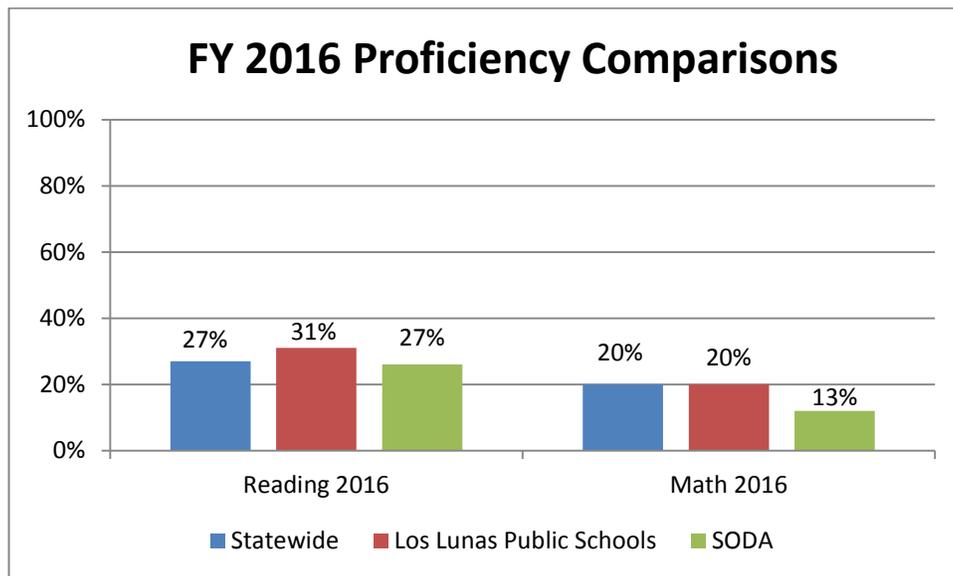

In 2013-14 the school grade was a C. In 2014-2015 the school grade was a D. In 2015-16 the school grade was a C. The school has a 3 year average of a C grade (53.4).

The tables below show a comparison of the school’s state assessment proficiency data to the statewide data for the same grade levels and the Los Lunas Public Schools District data for the same grade levels. This comparison for 2015 indicates that the school scored a slightly lower proficiency percentage in reading than the statewide average and a slightly higher percentage than Los Lunas Schools’ proficiency rates in reading. The school’s math proficiency rate was also lower than the statewide average and was equivalent to the Los Lunas Public Schools’ proficiency rates in math.

The 2016 state assessment performance data demonstrate an improvement in math from the prior year, but lower improvement than the state and Los Lunas Public Schools. The table below shows a comparison of the school’s state assessment proficiency data to the statewide data for the same grade levels and the Los Lunas Schools District data for the same grade levels. This comparison for 2016 indicates that the school scored a lower proficiency rate as compared to Los Lunas Public School’s proficiency rate in reading and equivalent to the state's. This comparison for 2016 indicates that the school scored a lower proficiency rate as compared to the statewide average and Los Lunas Public Schools’ proficiency rates in math.

Special Education Corrective Action Plan

School of Dreams Academy Charter School was placed on a Corrective Action Plan (CAP) by the Special Education Bureau as a result of the January 30, 2017 audit. This document is attached to the report and found on pages 8-9 of the packet. This CAP required the school to complete the following seven items:

1. District must reconvene an eligibility determination team for each student and re-evaluate seven children, and report to the Special Education Bureau (SEB) by September 15, 2017.
2. District must re-evaluate twelve children, and report to the SEB by September 15, 2017.
3. Establish IEP team, including parents, for each child identified in No. 2, above. Convene the IEP team to develop an IEP for each eligible child, and report to the SEB by September 15, 2017.
4. All related service providers must create logs, notes and/or billing statements evidencing that the related services required in each student's IEP have been provided to the student. Providers must state whether each session is an individual or group session, what services were provided, when, where, the length of the session and how the child responded. The school must report to the SEB by September 22, 2017.
5. District must complete a Memorandum of Understanding (MOU) or Interagency Agreement between both the LEA and Part C Lead Agency to ensure a smooth and effective transition from Part C to Part B programs for preschool children with disabilities within the agency's educational jurisdiction. The school must report to the SEB by August 18, 2017.
6. The district's Superintendent and Special Education Director

must ensure that all eligibility determination teams are trained in the procedures for determining eligibility for special education services. The district must conduct trainings consistent with the NMPED's Technical Evaluation and Assessment Manual (T.E.A.M.). The school must report to the SEB by October 20, 2017.

7. Prior to the start of the school year 2017-2018, the district must provide training for school staff and contracted staff on all newly developed and/or updated internal processes and procedures on how to conduct an evaluation using the PED T.E.A.M. when identifying eligible students. The school must report to the SEB by August 25, 2017.

School's Progress on Special Education CAP

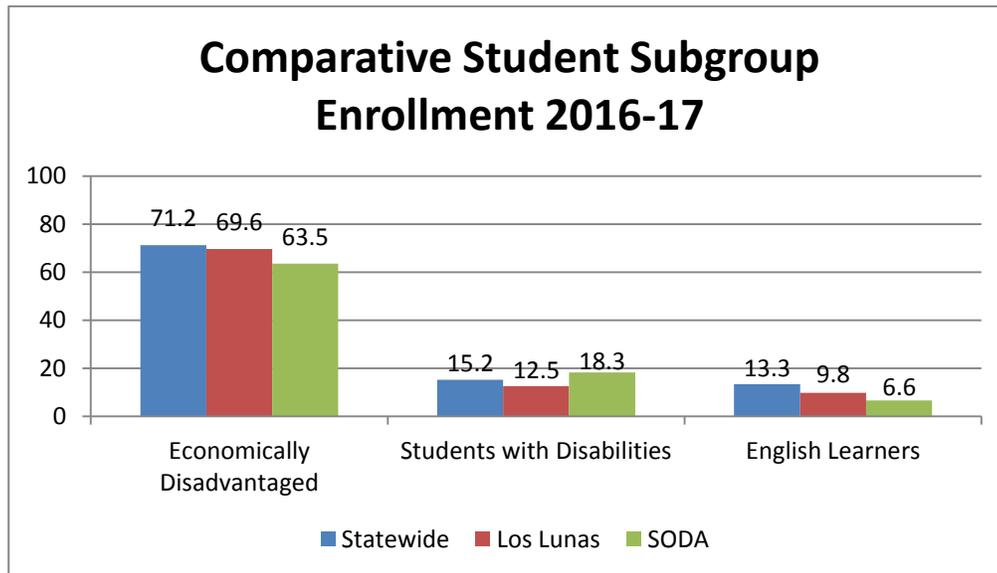

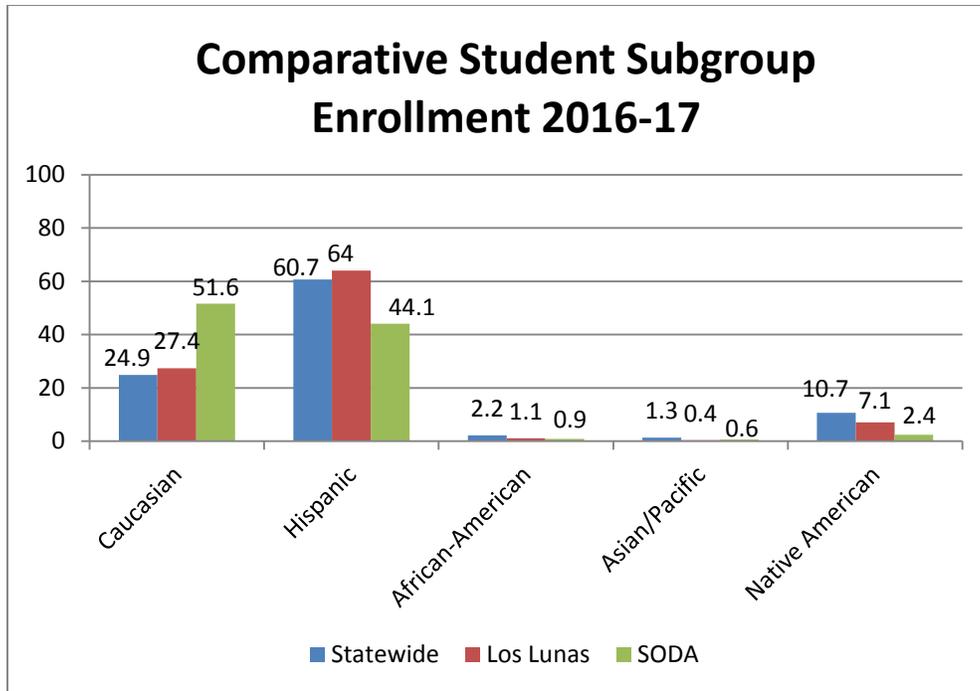

As of 7/13/17, the school leaders have only completed one item in the Special Education Corrective Action Plan. The completed item is the signed Memorandum of Understanding (MOU) between the LEA and Part C Lead Agency, Item 5.

School Enrollment and Demographics Data

The 120th day enrollment count at School of Dream Academy was 503 students for the 2016-2017 school year and 378 students for the 2015-2016 school year. This demonstrates an increase in total enrollment by 125 students.

Student demographics and subgroup enrollment for School of Dreams Academy for the 2016-17 40th day reporting, as compared to the Los Lunas Public School District and statewide data is provided below. The data demonstrates a lower Hispanic and Native American population when compared to both the statewide and Los Lunas Public School District percentages of the same populations.

The STARS data indicates the school has a slightly lower percentage of Economically Disadvantaged students and of English Learners enrolled than the percentage of such students enrolled in schools across New Mexico. School of Dreams Academy has a slightly higher percent of students with disabilities as compared to the local district and statewide percentages.

Additional Analysis

The state’s letter grading system, required by law starting in 2012, results in each school being assigned a letter grade of A, B, C, D, or F annually. The law requires that a public school rated D or F must prioritize its resources toward proven programs and methods linked to improved student achievement until the public school earns a grade of C

or better for two consecutive years. Based on the criteria from the letter grading law the school has not yet demonstrated sustained improvement.

Recommendation

Consistent with other PEC decisions and PED recommendations, PED recommends that the amendment request be denied at this time and reconsidered at a later date when the school is able to demonstrate the improvement shown in the 2016 school year has been sustained for at least two years. PED makes this recommendation based on the requirements of law laid out in the letter grading statute, NMSA 1978 § 22-2E-4(E), which requires that a school that has earned a letter grade of D prioritize its resources toward proven programs and methods linked to improved student achievement until the public school earns a grade of C or better for two consecutive years.

Additionally, the school is currently under a Special Education Corrective Action Plan due to unsatisfactory organizational performance. Specifically, the school is under a corrective action plan due to legal deficiencies in operating the school's special education program.

PED therefore cannot support an amendment allowing the school to adopt additional special education programming until the school can demonstrate proven, successful implementation of the school's corrective action plan in which the school has addressed all underlying legal deficiencies with the school's original program. Proven and successful implementation of the school's corrective action plan will be one in which the school can show successful completion of the corrective action plan and has received no special education findings for a period of at least one year.

Proposed Motions

- Move to deny the amendment request presented by presented by School of Dreams requesting to amend the grade levels served to include a 3Y/4Y (Developmentally Disabled) Program because the school is currently under a Special Education Corrective Action Plan due to unsatisfactory organizational performance and because the school has not yet demonstrated sustained academic achievement as required by NMSA 1978 §22-2E-4(E) which requires a school that has earned a letter grade of D to prioritize resources toward proven programs and methods linked to improved student achievement until the school earns a grade of C or better for two consecutive years.
- Move to approve the amendment request presented by requesting to amend the grade levels served to include a 3Y/4Y (Developmentally Disabled) because [PEC TO PROVIDE RATIONALE].

Dear Madam Chair,

School of Dreams Academy (SODA) is submitting this amendment request to amend grade levels served to add a 3Y/4Y DD (Developmentally Disabled) program as allowed under the Individuals with Disabilities Education Act – Part B (IDEA-B). IDEA-B requires public schools to conduct Child Find services and provide programming for 3 and 4 year old students qualified under developmental disabilities. When initially chartered and as part of our renewal, School of Dreams Academy signed assurances to comply with this and other statutory requirements. Currently SODA's authorized grade levels do not include services to 3Y/4Y DD students. At the May 13, 2016 PEC meeting significant discussion centered around this issue as we had initially requested adding grades Pre-K through 2nd. Our intention, from the beginning was to implement a 3Y/4Y DD program but the issue was calling it "Pre-K". When the Commission approved us adding grades K-2 we left with the understanding that we could proceed with implementing the 3Y/4Y program and that we needed to work the details out with the state. So that is what we did. In October 2015 SODA submitted projections to the PED Finance Division indicating our intent to add 3Y/4Y DD students pending approval of elementary grades increase by the PEC. This Year School of Dreams Academy began offering a 3Y/4Y program and, to date has identified 26 children in need of services. Currently we have two classrooms with certified teachers and teaching assistants offering developmentally appropriate programming in compliance with each student's IEP. SODA offers the full range of services to comply with IEP's including Speech/Language Pathology, Occupational Therapy, Social Work, Counseling, Psychological and Diagnostician, in a welcoming and family friendly environment.

On October 10, 2016 I received an email from Director Poulos (attached) requiring us to submit this amendment because the 3Y/4Y program under IDEA is a "public school program and needs to be included in your grade level cap". This request is to codify our 3y/4y program as part of our charter. Thank you, in advance, for placing this amendment request on the PEC agenda at your earliest convenience.

Sincerely,

Subject Required Amendment Request
From Poulos, Katie, PED <Katie.Poulos@state.nm.us>,
To Ogas, Mike <mogas@sodacharter.com>,
Date Oct 10 2016 4:10 PM

Good Day Mr. Ogas:

I am writing to you to inform you that you need to submit an amendment request to amend grades levels served to the Public Education Commission because your school offers a 3Y/4Y DD (Developmentally Disabled) program.

Whereas, the PEC has previously elected to exclude "PreK" programs from the grade level authorization it grants to charter schools. This decision has been made because these programs do not fall under "public school programs". However, the 3Y/4Y DD (Developmentally Disabled) program is a public school program and needs to be included be included in your grade level caps.

Your current authorized grade levels do not reflect the PEC's authorization for you to serve students in the at 3Y/4Y DD public school program.

In addition to submitting an amendment requests to incorporate 3Y/4Y DD programs into their grade level authorization, you may need to amend your enrollment cap if the students in your 3Y/4Y DD (Developmentally Disabled) program are pushing you past your current enrollment cap of 525 students.

Please let me know if you have any questions about this.

Terms Requiring Amendment.

Any modification of the Performance Frameworks requires an amendment that must be agreed to and executed by both Parties. Each Party must vote on this amendment in an open public meeting prior to execution of the amendment. The School will submit the requested amendment to all entitled to notice in Section 2.02 and request that the Authorizer place the amendment on the agenda of the Authorizer for approval.

Along with your [amendment request](#) please include the Governing Board (GB) meeting notes at which the GB approved the proposed amendment request.

Warm regards,

Katie

Native American Professional Parent Resources (NAPPR)	Chief Executive Director
Alberta House, Positive Outcomes	Director
PEI (Presbyterian Ear Institute)	Executive Director

PURPOSE

The purpose of this agreement is to facilitate the integration and coordination of services to children with special needs ages 0 to 5 in order to create a service system flexible enough to meet the needs of children and families within available resources. Through interagency planning and family involvement, it is our goal to help children and families transition, adjust to and experience success in all settings.

OBJECTIVES

1. Ensure that any children with suspected disabilities and children with or at risk for developmental delays are identified as early as possible and referred to the appropriate agency(ies).
2. Ensure that children with disabilities and children with or at risk for developmental delays as defined by the Individuals with Disabilities Education Act (IDEA) and the Head Start Disability Services Performance Standards receive appropriate and necessary services.
3. Maximize education, health and developmental outcomes for families whose children have special needs.
4. Support families to be equal partners and informed decision makers in the education and transition process.
5. Provide for successful transitions between, among and within agencies.
6. Provide services that are culturally relevant and linguistically appropriate.
7. Ensure that the privacy requirements for handling confidential, private child and family information contained in HIPAA (Health Insurance Portability and Accountability Act) and FERPA (Family Educational Rights and Privacy Act) are followed.

DEFINITION OF TERMS

FERPA - Family Educational Rights and Privacy Act

FIT - Family Infant Toddler (FIT) Early Intervention Service Programs in this agreement refer to:

- Alberta House, Positive Outcomes
- La Vida Early Intervention
- Native American Professional Parent Resources (NAPPR)
- UNM/CDD FOCUS Program

Part B - Assistance for Education of all school age children with disabilities

Part C - Services for infants and toddlers with disabilities (birth-3) or risk for developmental delay and their families

LEA - Local Education Agency in this agreement refer to:

- Belen Consolidated Schools
- Los Lunas Schools
- School of Dreams Academy (SODA)

IEP - Individualized Education Program

IFSP - Individualized Family Service Plan

EDT - Eligibility Determination Team

IDEA - Individuals with Disabilities Education Act

NMSD - New Mexico School for the Deaf Parent Infant Child Program serves children statewide

NMSBVI - New Mexico School for the Blind and Visually Impaired serves children statewide

PEI - Presbyterian Ear Institute serves children in the near-Metro area; private preschool and kindergarten services to children with hearing loss (with or without other impairments) seeking the listening and spoken language option

Potentially eligible - Those children eligible under the Part C's "established condition" or "developmental delay" category

IMPLEMENTATION OF AGREEMENT

A copy of this agreement will be provided to each listed stakeholder and will be available on line at <http://cdd.unm.edu/ec/Transition/teams.ECT.htm>. Each participating agency involved in the development of this agreement will assure, either through policy and procedure and/or staff training, all individuals implementing or participating in the requirements to meet the required activities of this MOU understand their role and responsibility.

EFFECTIVE DATE AND TERMINATION:

This agreement will be effective April 1, 2017 and will remain in effect for four (4) years or until such time that any provider wishes to modify or cancel this agreement, at which time written notice and explanation must be submitted to all providers with thirty (30) days notice and the transition team must reconvene to discuss modification to or termination of the agreement. The agreement will be reviewed and updated, if needed, annually.

Trailblazers will convene a meeting of stakeholders at least once each year to review and evaluate the effectiveness of the MOU and collaborative efforts related to this process. If no changes are made, date of review will be noted in meeting minutes.

INTERAGENCY DISPUTE PROCESS

The event of a dispute or concerns relating to the MOU and/or transition process, all cooperating agencies agree to contact the specific agency in which the concern arises in an attempt to resolve concerns. If the concerns cannot be resolved in this way, or if the concerns affect the larger group, concerns will be addressed during the quarterly Trailblazer Meetings.

ALL AGENCIES AGREE TO:

1. Share information about trainings, available resources, and collaborate on the development of needed resources.
2. Plan and conduct collaborative Child Find/ identification and screening activities.
3. Work collaboratively to coordinate evaluation and assessment activities.
4. Inform families about options for services available that are appropriate to the unique needs of each child and family.
5. Provide education and training within their agencies to personnel regarding the terms of this agreement.
6. Work together to advocate for resources to address the needs of families and children in the communities we serve.

(CYFD), information will include only the CYFD representative and CYFD address. • If no children are transitioning to the district, the EI representative will send a statement indicating such. 	<ul style="list-style-type: none"> • The LEA will protect this information as an educational record under FERPA in a manner which will not permit personal identification of Part C children and their parents to anyone other than the LEA. • The LEA will not contact the family directly at this early stage of the transition process 		

TRANSITION PLANNING

- Individualized steps and services added to IFSP

NMAC 7.30.8.13 (C)

- (1) A transition plan shall be developed with the parent(s) for each eligible child and family that addresses supports and services after the child leaves the FIT program.
- (2) The transition plan shall be included as part of the child's IFSP and shall be updated, revised and added as needed.
- (3) The following is the timeline for developing the transition plan:
 - (a) at the child's initial IFSP meeting, the transition plan shall be initiated and shall include documentation that the family service coordinator has informed the parent(s) regarding the timelines for their child's transition;
 - (b) by the time child is 24 months old, the transition plan will be updated to include documentation that the family service coordinator has informed the parent(s) of the early childhood transition options for their child and any plans to visit those settings; and
 - (c) At least 90 days, and not more than nine months before the child's third birthday, the transition plan shall be finalized at an annual IFSP or transition conference meeting that meets the attendance requirements of this rule.

6.31.2.11(A)(4)

Each public agency shall develop and implement appropriate policies and procedures to ensure a smooth and effective transition from Part C to Part B programs for preschool children with disabilities within the agency's educational jurisdiction, in compliance with 34 CFR Sec. 300.124. Each LEA and other public agencies as appropriate shall make reasonable efforts to establish productive working relations with local Part C programs and when given reasonable notice shall participate in the transition planning conferences arranged by local Part C providers.

6.31.2.11(A)(5)

- (b) Each LEA shall promote parent and family involvement in transition planning with Part C programs, community programs and related services providers at least six months before the child is eligible to enter the LEA's Part B preschool program.
- (c) Each LEA shall establish and implement procedures to support successful transitions including parent training, professional development for special educators and general educators, and student and parent self-advocacy training and education.
- (d) Each LEA shall assist parents in becoming their child's advocates as the child makes the transition through systems.

INITIAL COMPREHENSIVE EVALUATION FOR PART B

- Part B team reviews current available assessment data (including Part C assessments)
- Part B team determines additional data and assessments needed.
- Part B team conducts initial comprehensive evaluation process in all areas of suspected disability

6.31.2.10

E. Procedural requirements for the assessment and evaluation of culturally and linguistically diverse children.

1. Each public agency must ensure that tests and other evaluation materials used to assess children are selected, provided and administered so as not to be discriminatory on a racial or cultural basis and are provided and administered in the child's native language or other mode of communication, such as American sign language, and in the form most likely to yield accurate information on what the child knows and can do academically, developmentally and functionally, unless it is clearly not feasible to select, provide or administer pursuant to 34 CFR Sec. 300.304(c)(1).
2. Each public agency must ensure that selected assessments and measures are valid and reliable and are administered in accordance with instructions provided by the assessment producer and are administered by trained and knowledgeable personnel.
3. Each public agency must consider information about a child's language proficiency in determining how to conduct the evaluation of the child to prevent misidentification. A child may not be determined to be a child with a disability if the determinant factor for that eligibility determination is limited English proficiency. Comparing academic achievement results with grade level peers in the public agency with similar cultural and linguistic backgrounds should guide this determination process and ensure that the child is exhibiting the characteristics of a disability and not merely language difference in accordance with 34 CFR Sec. 300.306(b)(1).
4. Each public agency must ensure that the child is assessed in all areas related to the suspected disability.
5. Policies for public agency selection of assessment instruments include:
 - (a) assessment and evaluation materials that are tailored to assess specific areas of educational need; and
 - (b) Assessments that are selected ensure that results accurately reflect the child's aptitude or achievement level.
6. Public agencies in New Mexico shall devote particular attention to the foregoing requirements in light of the state's cultural and linguistic diversity. Persons assessing culturally or linguistically diverse children shall consult appropriate professional standards to ensure that their evaluations are not discriminatory and should include appropriate references to such standards and concerns in their written reports.

6.31.2.11 (A) (3)

To ensure effective transitioning from IDEA Part C programs to IDEA Part B programs, each public agency must conduct a full and individual initial comprehensive evaluation at no cost to the parent and in compliance with requirements of 34 CFR Secs. 300.300, 300.301, 300.302, 300.304 and 300.305 and other department rules and standards before the initial provision of Part B special education and related services to a child with a disability. All AGENCIES AGREE TO:

1. Share information about available resources and collaborate on the development of needed resources.
2. Plan and conduct collaborative Child Find/ identification and screening activities.
3. Work collaboratively to coordinate evaluation and assessment activities.
4. Inform families about options for services available that are appropriate to the unique needs of each child and family.
5. Provide education and training within their agencies to personnel regarding the terms of this agreement.
6. Sponsor, conduct and inform participating agencies of training and in- service opportunities for staff development.
7. Work together to advocate for resources that address the needs of families and children in the communities that we serve.
8. Inform the Trailblazers team when an individual agency changes an internal process that affects the team. This communication will occur at least two weeks prior to the changes taking effect so that team members can plan accordingly. If needed, a detailed description of the process will be provided in writing along with contact information for those members who may need additional clarification.
9. Participate in review, evaluation and effectiveness of this MOU and the process of transition and coordination of services at least annually.

CONFIDENTIALITY

Confidentiality of information is required for the protection of children and families. Information shared between agencies will need a signed release by the parent/guardian. Consent to release information may be revoked at any time by the parent/legal guardian. Agencies that are known as Covered Entities will be compliant within the guidelines and regulations set by the Health Insurance Portability and Accountability Act (HIPAA) and Family Educational Rights and Privacy Act (FERPA).

Mission-Specific Indicator	Analysis												
<p>2.a. Mission Specific Indicator - ACADEMIC: As a means of measuring the academic rigor set forth in the STEAM element of our Mission, students in 9-12 grade who have already attended School of Dreams Academy (SODA) for one academic year (July 1 of the previous academic year – June 30) will demonstrate at least one year’s growth in their short cycle assessment scores. (Note: “One year’s growth” will be defined by NWEA’s MAP assessment in their technical manual).</p>	<p>Analysis: Only 9th-11th grades NWEA report for 2016-2017 school year was submitted. 9th and 10th grade NWEA report included “projected growth” RIT for each student, while 11th grade NWEA report did not include projected growth RIT. Twelfth (12th) grade did not appear to have been administered the NWEA during the 2016-2017 school year as evidenced in the NWEA “Student Growth Summary Report” provided by the school. Below are grade-level percentages of students achieving their individualized projected growth RIT (see figure 1 and 2):</p>

Total Ave =	56.05%

COMPOSITE AVERAGE = 57.45%

Procedure:

CSD staff identified students who “met or exceeded projected growth” on the NWEA report provided by school. Only students administered both fall and spring assessments were included and findings were compared with NWEA summary report.

Overall composite average excluded 11th and 12th grade results as well as language usage results since projected growth RIT were not identified on any of the NWEA reports.

Summary: School’s composite average based on available data was 57.45%. Consequently, less than 80% of students for which data was available did not meet projected growth targets as established by the assessment vendor.

*School defined “1-year’s growth” as a gain of at least 2-RIT points. However, NWEA does not

	<p>provide a definition for “1-year’s growth,” but instead provides individualized projected growth RIT for individual student. Consequently, a student who gains 2-RIT points (or more in some instances) would not necessarily have met projected growth at the end-of-the year. Projected growth as established by NWEA is a more appropriate measure in determining whether or not the mission-specific indicator has been met.</p>

2.b. Mission Specific Indicator -COLLEGE READINESS: Graduates of SODA who have been at the school since at least the beginning of their sophomore year (these students define the cohort referred to below) will demonstrate College and/or Career Readiness as defined by;

a. Measures of college readiness established by academic scores earned on any of the following assessments: PSAT®, SAT®, ACT®, ASVAB, KUDER, and COMPASS® and

b. Successful completion of dual enrollment, concurrent enrollment or honors courses earned throughout high school (NOTE: Exceptions for students with special instructions recorded in their IEP), and

c. Successful completion of a Next Step Plan (as documented in the ILP) or an IEP Transition Plan and as such are “ready for post-secondary success”.

2.b. Did the school meet its mission-specific indicator(s)?

Exceeds Standard:

The school surpasses the targets of this indicator if 80% or more of the students in the cohort demonstrate success in the following:

a.) Earn “college and/or career readiness” scores in any of the following assessments: PSAT®, SAT®, ACT®, ASVAB, KUDER or COMPASS®, (Note: SODA will utilize each assessment’s established metric that defines “college readiness” as its measure), AND

b.) Complete 2 or more College Readiness courses through any combination of dual enrollment, concurrent enrollment or honors courses with a passing grade, AND

c.) Successful completion of a Next Step Plan (as documented in the ILP) or an IEP Transition Plan

Meets Standard:

The school surpasses the targets of this indicator if 65 – 79% or more of the

Analysis:

College-readiness assessment. The school provided ACT performance data and compared it with state-wide performance data for “*graduating class 2016.*” The specific cohort did not meet state benchmark averages for all areas (see figure 3). STARS report indicates that there were 67 12th grade students at EOY 2015-2016. Fifty-two (52) students from the class of 2016 were identified as having been administered the ACT. 77.6% of class of 2016 were administered the ACT.

Figure 3. Average ACT scores for class of 2016. National averages are higher than state averages in all areas.

Dual credit enrollment. The school provided data on dual credit passing rates from fall 2014 through spring 2016. Average passing rates across semesters was 89.25%. The school did not provide data outlining the number college readiness courses each student had completed during this time period.

students in the cohort demonstrate success in the following:

- a.) Earn “college and/or career readiness” scores in any of the following assessments: PSAT[®], SAT[®], ACT[®], ASVAB, KUDER, or COMPASS[®], (Note: SODA will utilize each assessment’s established metric that defines “college readiness” as its measure), AND
- b.) Complete 2 or more College Readiness courses through any combination of dual enrollment, concurrent enrollment or honors courses with a passing grade, AND
- c.) Successful completion of a Next Step Plan (as documented in the ILP) or an IEP Transition Plan

Does Not Meet Standard:

The school does not meet the standard set forth in this indicator if 50 – 64% or more of the students in the cohort demonstrate success in the following:

- a.) Earn “college and/or career readiness” scores in any of the following assessments: PSAT[®], SAT[®], ACT[®], ASVAB, KUDER, or COMPASS[®], (Note: SODA will utilize each assessment’s established metric that defines “college readiness” as its measure), and/or
- b.) Complete 2 or more College Readiness courses through any combination of dual enrollment, concurrent enrollment or honors courses with a passing grade, AND
- c.) Successful completion of a Next Step Plan (as documented in the ILP) or an IEP Transition Plan

Falls Far Below Standard:

The school falls far below the standard set forth in this indicator if less than 50% of the students in the cohort demonstrate success in the following:

- a.) Earn “college and/or readiness” scores in any of the following assessments: PSAT[®], SAT[®], ACT[®], ASVAB, KUDER, or COMPASS[®], (Note: SODA will utilize each assessment’s established metric that defines “college readiness” as its measure) OR
- b.) Complete 2 or more College Readiness courses through any combination of dual enrollment, concurrent enrollment or honors courses with a passing grade.

Next Step Plans. The school did not provide data to support 100% completion of Next Step Plans (NSPs). During the February 27, 2017 annual site visit the PED team randomly examined and observed incomplete NSPs (e.g., NSPs did not address ‘career and occupation’ and ‘post-secondary goal information and degree plan sections were not completed by a number of students’).

Procedure:

CSD staff examined data presented by school (e.g., PowerPoint Slide and ACT report), annual site visit report, and STARS report to determine membership count for identified cohort.

Summary: “Success” as used in the goal statement is difficult to determine even with state and national benchmarks provided by school for comparative purposes (i.e., school vs. state performance on the ACT). Nevertheless, the PED team presents the following based on data examined:

- a. Student participation rate on ACT for class of 2016 (only data presented). *Result:* 77.6% school participation rate falls within the “meets standard” criteria.
- b. Completion rate for dual credit courses during 2014-2015 and 2015-2016 school years. *Result:* 89.25% completion rate falls within “meets standard” or “exceeds standard” criteria.
- c. Completion of Next Step Plans (NSP). *Result:* No data provided falls within “does

	<i>not meet standard" or "falls far below standard" criteria.</i>

2.c. **Mission Specific Indicator - GRADUATION:** -Track and improve graduation rates for two distinct cohorts.

-Cohort 1: Seniors on the 40th day who begin their 9th grade year enrolled at the School and remain for the entirety of their high school career.

-Cohort 2: Seniors on the 40th day who enrolled for less than their full high school career but are defined as part of a graduation cohort established by their enrollment into 9th grade.

2.c. Did the school graduate its students?

Exceeds Standard:

The school surpasses the targets of this indicator if the following rates are met for each Cohort:

Cohort 1. 85% or more of Cohort 1 students graduate AND

Cohort 2. 85% or more of Cohort 2 students graduate OR if it is less than 85%, there is an increase of 5 percentage points from the average of the previous two years for Cohort 2 students.

Meets Standard:

The school surpasses the targets of this indicator if the following rates are met for each Cohort:

Cohort 1. 75-84% of Cohort 1 students graduate AND

Cohort 2. 75-84% of Cohort 2 students graduate OR if it is less than 75%, there is an increase of 5 percentage points from the average of the previous two years for Cohort 2 students.

Analysis:

The school provided 2014-2015 data in which 35 of 35 seniors (100%) who began at the school since 9th grade graduated (Cohort 1).

The school provided 2014-2015 data in which 14 of 14 seniors (100%) who “did not begin with us in 9th grade” graduated (Cohort 2).

Note that STARS report identified 77 seniors at the EOY for 2014-2015 school year.

Incidental data provided by the school included 2015-2016 data in which 57 of 63 seniors (90.5%) graduated. CSD could not verify which students began their academic careers at school since 9th grade which ones enrolled after 9th grade based on the data provided.

Procedure:

CSD staff examined data presented by school (e.g., PowerPoint Slide as well as STARS report to determine membership count for specific cohorts.

Summary: The school has a 100% graduation rate for cohorts 1 and 2 based on data provided by the school.

<p><i>Does Not Meet Standard:</i></p> <p><input type="checkbox"/> The school does not surpass the targets of this indicator if the following rates are met for each Cohort:</p> <p><u>Cohort 1.</u> 65-74% of Cohort 1 students graduate AND</p> <p><u>Cohort 2.</u> 65-74% of Cohort 2 students graduate OR if it is less than 80%, there is an increase of 5 percentage points from the average of the previous three years for Cohort 2 students.</p>	
<p><i>Falls Far Below Standard:</i></p> <p><input type="checkbox"/> The school falls far below the standard if it fails to meet any of the standards set forth above.</p>

Details of Each Grade Indicator

These next pages show the school's results divided into smaller groups to show how specific classes of students are doing. The information explains how a school compares to other schools and identifies groups within the school that are performing well or that need additional instructional support based on achievement. Points that the school earned on each of the indicators are provided in more detail and when summed will equal the totals on the first page summary.

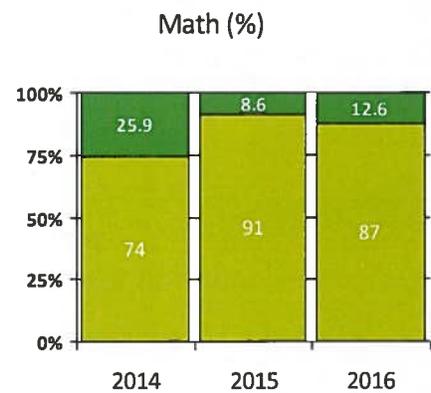

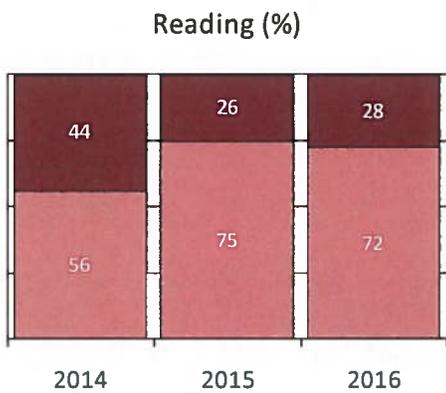

Current Standing

Knowing how many students are proficient in a given year is a measure of the school's overall success. Single-year performance will vary with differing classes of students. Therefore, Current Standing uses up to 3 years of data to provide a more accurate picture of the school's achievement. Current Standing is augmented with Value-Added Modeling (VAM) by capturing the school's size, student mobility, and prior student performance. Details of VAM can be found in the PED's School Grading Technical Guide at <http://webapp2.ped.state.nm.us/SchoolData/SchoolGrading.aspx>.

3-Year Summary

Performance is considered on grade level when students score either Proficient or Advanced.

School Growth

School growth compares the students enrolled in the current year to the same students from prior years. Unlike Current Standing, School Growth accounts for improvement of all students, not just those reaching proficiency.

Growth in proficiency is calculated with Value-Added Modeling (VAM), which accounts for the school's size, student mobility, and prior student performance. Details of VAM can be found in the PED's School Grading Technical Guide at <http://webapp2.ped.state.nm.us/SchoolData/SchoolGrading.aspx>.

	<i>Reading</i>	<i>Math</i>
Value-Added Score	-0.100	-0.210
Points Earned	2.31	2.08

School growth is expressed as a score that can be both negative and positive. When it is positive, the school performed better than was expected relative to its peers with the same size, mobility, and prior student performance.

Student Growth

Just like schools, individual student achievement is expected to improve over time. Student growth is shown as a value-added score (VAS) that accounts for all students in each group for up to 3 years. Student groups are further divided into highest and lowest performing subgroups. Every student's prior test scores are used to estimate how they should perform today.

- Above 0 means that the group, in general, scored higher than expected. This is an exciting finding when students are below the proficiency line, because they are closing the achievement gap and catching up to their higher-performing classmates.
- Near 0 means that the group scored about as expected compared to their academic peers. While some students may have performed better than anticipated (positive growth), they were balanced by students that did poorer (negative growth).
- Below 0 means that the group performed below expectations and students are losing ground when compared to their peers.

Details of student growth and value added scores are explained in PED's School Grading Technical Guide at <http://webapp2.ped.state.nm.us/SchoolData/SchoolGrading.aspx>. Note that separate analytic techniques are used for the school overall and for the subgroups.

Opportunity to Learn (OTL)

The successful school invites students to be part of a thriving learning culture that uses proven teaching methods. A school's learning environment is reflected in a survey of classroom practices and in student attendance.

	All Students	Gender		Race / Ethnicity					Economically Disadvantaged	Students with Disabilities	English Language Learners
		F	M	White	Afr Amer	Hisp	Asian	Am Indian			
Attendance (Average)	95.0	94	96	96	97	96	100	88	94	93	94
Attendance (Points)	3.01										

Survey (Average)	39.9	Surveys consisted of 10 questions with answers from 0 (Never) to 5 (Always), yielding a maximum score of 50. A typical question includes "My teacher introduces a new topic by connecting to things I already know." Schools that scored higher demonstrated better classroom teaching practices.
Survey (Points)	4.43	
Count of Surveys (N)	815	

Graduation

Students are expected to graduate in 4 years. However, some students require longer and are captured in 5-year and 6-year rates. Similar to school and student growth, the expectation is that the school increase the percent of successful 4-year graduates over time. SAM (Supplemental Accountability Model) schools are a subset of schools that target returning dropouts or students with disabilities. These schools receive an additional rate that reflects their ability to graduate any student, not just cohort members, in a given year. Details of the federally approved graduation rules are in the Graduation Technical Manual on the PED website at: <http://ped.state.nm.us/Graduation/index.html>.

College and Career Readiness (CCR)

High school students are expected to participate in at least one college or career readiness program. These activities include one of the following:

- 1) College entrance assessments (SAT, SAT Subject Test, PSAT, ACT, PLAN, Compass, ACT Aspire, or Accuplacer)
- 2) Evidence that the student can pass a college-level course (Advanced Placement, Dual Credit, or IB)
- 3) Eligibility for an industry recognized certification (Career Technical Education, SAM School Supplemental)

Points are given separately for students' participation and for their success. To be considered successful, students must meet established benchmarks. Details are in the School Grading Technical Guide on the PED website at <http://webapp2.ped.state.nm.us/SchoolData/SchoolGrading.aspx>.

CCR follows the Shared Accountability model used for cohort graduation rates. Cohorts are fully described in the Graduation Technical Manual on the PED website at <http://ped.state.nm.us/Graduation/index.html>.

Similar Schools While statewide comparisons are helpful, schools may want to see how they rank next to their peers that have similar students and settings. The figures below show how this school contrasts with other schools in the state that are most like it in student characteristics.

Schools are grouped into categories that have similar proportions of English language learners (ELL), students with disabilities (SWD), ethnicities, economically disadvantaged (ED), and mobile students. Different schools are in each category set. A composite score incorporates all categories into a general measure of at-risk students.

End Notes

- 1 The Statewide C grade was established in the first year of A-F School Grading as the midpoint of all schools. It was fixed in 2011 as the framework for all future letter grades and is not recalculated each year.
- 2 For high schools that do not have members of 4-year, 5-year, or 6-year graduation cohorts, the scale is abbreviated, and letter grades are adjusted to account for the school's remaining non-cohort indicators or non-cohort years.
- 3 A dash is substituted where a school has too few students (N<10) to meet confidentiality requirements for reporting.
- 4 Feeder schools are schools that do not have students in tested grades 3-11.
- 5 Schools that administered tests on computers received bonus credit based on the number of students participating.

Note for Families: If your child is enrolled in a school that has earned two "F" grades in the last four years, New Mexico state law allows you to transfer your child to a school with a higher school grade. Please call (505) 827-6909 to learn more. For information about other schools in your community and their grading history, please see the school grading web page at <http://aae.ped.state.nm.us/>.

Statewide C Benchmark

	Grade	School Points	Possible Points
Current Standing How did students perform in the most recent school year? Students are tested on how well they met targets for their grade level. 	F	5.76	30
School Growth In the past 3 years, did the school as a whole increase performance? For example, did a schoolwide reading program advance reading scores over the prior years? 	F	2.31	10
Student Growth of Highest Performing Students How well did the school help individual students improve? The highest performing students are those whose prior scores placed them in the top three quarters (75%) of their school. Individual student growth over the past 3 years is compared to the state benchmark. 	D	2.50	10
Student Growth of Lowest Performing Students How well did the school help individual students improve? The lowest performing students are those whose prior scores placed them in the bottom quarter (25%) of their school. Individual student growth over the past 3 years is compared to the state benchmark. 	F	1.79	10
Opportunity to Learn Does the school foster an environment that facilitates learning? Are teachers using recognized instructional methods, and do students want to come to school? 	B	7.19	8
Graduation How does the school contribute to on-time graduation? On-time means within 4 years, and, to a lesser extent, within 5 and 6 years for students who require longer. 	F	6.20	17
College and Career Readiness Are students prepared for what lies ahead after high school? Schools receive credit when students participate in college entrance exams and coursework leading to dual credit and vocational certification. The school receives additional credit when students meet success goals. 	B	11.00	15
Bonus Points Does the school show exceptional aptitude for involving students and parents in education, reducing truancy, and promoting extracurricular activities? 		5.00	5

Details of Each Grade Indicator

These next pages show the school's results divided into smaller groups to show how specific classes of students are doing. The information explains how a school compares to other schools, and identifies groups within the school that are performing well or that need additional instructional support based on achievement. Points that the school earned on each of the indicators are provided in more detail, and when summed will arrive at the totals on the first page summary.

Current Standing

Knowing how many students are proficient in a given year is a measure of the school's overall success. Single-year performance will vary with differing classes of students. Therefore, Current Standing uses up to 3 years of data to provide a more accurate picture of the school's achievement. Current Standing is augmented with Value Added Modeling (VAM) by capturing the school's size, student mobility, and prior student performance. Details of VAM can be found in the PED's School Grading Technical Guide at: <http://webapp2.ped.state.nm.us/SchoolData/SchoolGrading.aspx>.

School Growth

School growth compares the students enrolled in the current year to the same students from prior years. Unlike Current Standing, School Growth accounts for improvement of all students, not just those reaching proficient.

Growth in proficiency is calculated with Value Added Modeling (VAM), which accounts for the school's size, student mobility, and prior student performance. Details of VAM can be found in the PED's School Grading Technical Guide at <http://webapp2.ped.state.nm.us/SchoolData/SchoolGrading.aspx>

	<i>Reading</i>	<i>Math</i>	School growth is expressed as a score that can be both negative and positive. When it is positive the school performed better than was expected relative to its peers with the same size, mobility, and prior student performance.
Value Added Score	-0.516	-0.999	
Points Earned	1.51	0.79	

Student Growth

Just like schools, individual student achievement is expected to improve over time. Student growth is shown as a value added score (VAS) that accounts for all students in each group for up to 3 years. Student groups are further divided into highest and lowest performing subgroups. Every student's prior test scores are used to estimate how they should perform today.

- Above 0 means that the group, in general, scored higher than expected. This is an exciting finding when students are below the proficiency line, because they are closing the achievement gap and catching up to their higher-performing classmates.
- Near 0 means that the group scored about as expected compared to their academic peers. While some students may have performed better than anticipated (positive growth), they were equally balanced by students that did poorer (negative growth).
- Below 0 means that the group performed below expectations and students are losing ground when compared to their peers.

Details of student growth and value added scores are explained in PED's School Grading Technical Guide at <http://webapp2.ped.state.nm.us/SchoolData/SchoolGrading.aspx>. Note that separate analytic techniques are used for the school overall and for the subgroups.

Opportunity to Learn (OTL)

The successful school invites students to be part of a thriving learning culture that uses proven teaching methods. A school's learning environment is reflected in a survey of classroom practices and in student attendance.

	All Students	Gender		Race / Ethnicity					Economically Disadvantaged	Students with Disabilities	English Language Learners

A typical question includes "My teacher introduces a new lesson by reminding us of things we already know." Graduation

Students are expected to graduate in 4 years. However, some students require longer and are captured in 5-year and 6-year rates. Similar to school and student growth, the expectation is that the school increase the percent of successful 4-year graduates over time. SAM (Supplemental Accountability Model) schools are a subset of schools that target returning dropouts or students with disabilities. These schools receive an additional rate that reflects their ability to graduate any student, not just cohort members, in a given year. Details of the federally approved graduation rules are in the Graduation Technical Manual on the PED website at: <http://ped.state.nm.us/Graduation/index.html>.

College and Career Readiness (CCR)

High school students are expected to participate in at least one college or career readiness program. These activities include one of the following:

- 1) College entrance assessments (SAT, SAT Subject Test, PSAT, ACT, PLAN, Compass, or Accuplacer)
- 2) Evidence that the student can pass a college-level course (Advanced Placement, Dual Credit, or IB)
- 3) Eligibility for an industry recognized certification (Career Technical Education, SAM School Supplemental)

Points are given separately for students' participation and for their success. To be considered successful, students must meet established benchmarks. Details are in the School Grading Technical Guide on the PED website at <http://webapp2.ped.state.nm.us/SchoolData/SchoolGrading.aspx>.

Bonus Points

While most schools provide a sampling of athletics, club participation opportunities, and parent meetings, a few schools stand out among the rest. These schools are recognized for their extraordinary dedication to keeping students invested in school and their efforts in empowering parents to engage actively in their child's education. Bonus points indicate those schools that have gone above and beyond the others.

- Student Engagement
- Parental Engagement
- Extracurricular Activities
- Truancy Improvement
- Other

Participation

Schools must include all of their enrolled students in the annual statewide assessment. If the percentage of students is less than 95%, the school's letter grade is reduced by one grade. Supplemental Accountability Model (SAM) schools and small schools with fewer than 100 students receive special consideration.

Reading (%) 98
Math (%) 100
School exempted because of SAM status.

School Growth Targets

Customized targets, called School Growth Targets (SGTs), guide a school's path toward proficiency. These goals increase every year and challenge schools to identify student groups that might be struggling to keep up with their peers.

Student Promotion

Students who are prepared and progress to a higher grade each year (matriculate) indicate that the school is successfully moving students toward graduation. However, if the school's achievement in reading and math is subpar and yet most students are being promoted, the school may be inattentive to a student's need to repeat grade-level instruction before moving on.

End Notes

- 1 The Statewide C grade was established in the first year of A-F School Grading as the midpoint of all schools. It was fixed in 2011 as the framework for all future letter grades and is not recalculated each year.
- 2 For high schools that do not have members of 4-year, 5-year, or 6-year graduation cohorts, the scale is abbreviated, and letter grades are adjusted to account for the school's remaining non-cohort indicators or non-cohort years.
- 3 A dash is substituted where a school has too few students (N<10) to meet confidentiality requirements for reporting.
- 4 Feeder schools are schools that do not have students in tested grades 3-11.
- 5 During the 2013-2014 and 2014-15 school years, schools across New Mexico conducted assessments on computers. To recognize these efforts, schools that offered the SBA on computers received bonus credit based on the number of students participating.

Details of Each Grade Indicator

These next pages show the school's results divided into smaller groups to show how specific classes of students are doing. The information explains how a school compares to other schools, and identifies groups within the school that are performing well or that need additional instructional support based on achievement. Points that the school earned on each of the indicators are provided in more detail, and when summed will arrive at the totals on the first page summary.

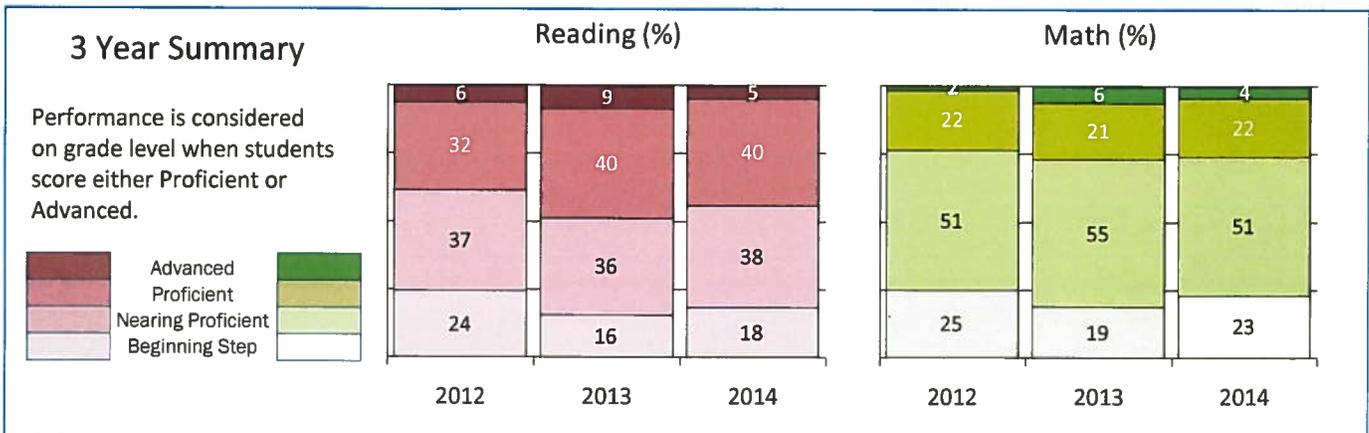

Current Standing

Knowing how many students are proficient in a given year is a measure of the school's overall success. Single-year performance will vary with differing classes of students. Therefore, Current Standing uses up to 3 years of data to provide a more accurate picture of the school's achievement.

Current Standing is augmented with Value Added Modeling (VAM) by capturing the school's size, student mobility, and prior student performance. Details of VAM can be found in the PED's School Grading Technical Manual at: <http://webapp2.ped.state.nm.us/SchoolData/SchoolGrading.aspx>.

School Growth

School growth compares the students enrolled in the current year to students from prior years. While these are partly different sets of students, the school that is improving will do a better job each year of impacting their achievement. Unlike Current Standing, School Growth accounts for improvement of all students, not just those reaching proficient.

School Growth is augmented with Value Added Modeling (VAM) which accounts for the school's size, student mobility, and prior student performance. Details of VAM can be found in the PED's School Grading Technical Manual at: <http://webapp2.ped.state.nm.us/SchoolData/SchoolGrading.aspx>

Difference from Expected Growth (SS Points) Points Earned	Reading	Math
	0.493	0.481
	2.16	2.74

School Growth is shown in scaled score points, which range from 0 to 80 for both reading and math. A school that grows an average of +2 scaled score points a year shows that the school is generally improving their ability to increase student achievement.

Student Growth

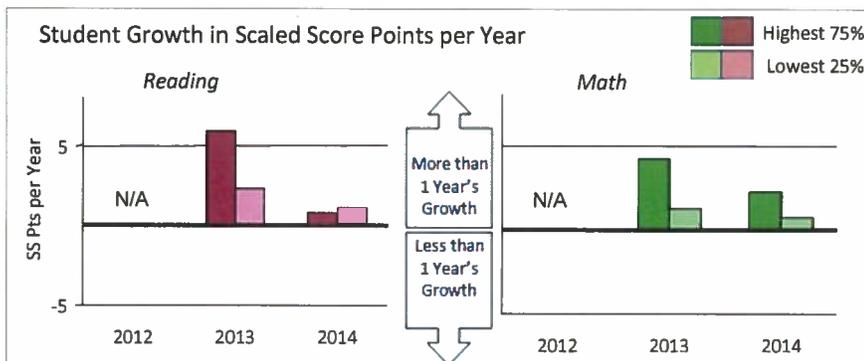

Just like schools, individual student achievement is expected to improve over time. Student growth is shown as the average change in scaled score (SS) points per year, and is averaged for all students in each group for up to 3 years. Student groups are further divided into highest and lowest performing subgroups.

Scores on the assessment range from 0 to 80, and a score of 40 indicates that a student is proficient or on grade level. A student's prior test scores are used to estimate how the student should perform today. When growth is positive (+) students score better than expected in the current year:

- Above 0 means that the group, in general, scored higher than expected. This is an exciting finding, especially when students are below the proficiency line, because they are closing the achievement gap and catching up to their higher-performing classmates.
- Near 0 means that the group scored about as expected. While some students may have performed better than anticipated (positive growth), they were equally balanced by students that did poorer (negative growth).
- Below 0 means that the group performed below expectations and students are losing ground when compared to their peers.

Details of Student Growth and scaled scores are explained in the Technical Guide on the PED website: <http://webapp2.ped.state.nm.us/SchoolData/SchoolGrading.aspx>

Opportunity to Learn (OTL)

The successful school invites students to be part of a thriving learning culture that uses proven teaching methods. A school's learning environment is reflected in a survey of classroom practices (OTL Survey) and in student attendance.

Graduation

Students are expected to graduate in 4 years. However, some students require longer and are captured in 5-year and 6-year rates. Similar to School Growth, the expectation is that the school increase the percent of successful 4-year graduates over time.

SAM schools (Supplemental Accountability Model) are a subset of schools that target returning dropouts or students with disabilities. These schools receive an additional rate that reflects their ability to graduate any student, not just cohort members, in a given year. Details of the federally approved graduation rules are in the Graduation Technical Manual on the PED website

College and Career Readiness (CCR)

High school students are expected to participate in at least one college or career readiness program. These activities include one of the following:

- 1) College entrance assessments (SAT, SAT Subject Test, PSAT, ACT, PLAN, Compass, or Accuplacer)
- 2) Evidence that the student can pass a college level course (Advanced Placement, Dual Credit, or IB)
- 3) Eligibility for an industry recognized certification (Career Technical Education, SAM School Supplemental)

Points are given separately for students' participation and for their success. To be considered successful students must meet established benchmarks. Details are in the School Grading Technical Guide on the PED website at <http://webapp2.ped.state.nm.us/SchoolData/SchoolGrading.aspx>.

CCR follows the Shared Accountability model used for cohort graduation rates. Cohorts are fully described in the Graduation Technical Manual on the PED website at <http://ped.state.nm.us/Graduation/index.html>.

Bonus Points

While most schools provide a sampling of athletics, club participation opportunities, and parent meetings, a few schools stand out among the rest. These schools are recognized for their extraordinary dedication to keeping students invested in school, and their efforts in empowering parents to engage actively in their child's education. Bonus points indicate those schools that have gone above and beyond the others.

Supplemental Information

Similar Schools

While statewide comparisons are helpful, schools may want to see how they rank next to their peers that have similar students and settings. The figures below show how this school contrasts with other schools in the state that are most like it in student characteristics.

Schools are grouped into categories that have similar proportions of English language learners (ELL), students with disabilities (SWD), ethnicities, economically disadvantaged (ED), and mobile students. Different schools are in each category set. A composite score incorporates all categories into a general measure of at-risk students. Higher ranking schools had more points in that indicator.

School Growth Targets

Customized targets, called School Growth Targets (SGTs), guide a school's path toward proficiency. These goals increase every year and challenge schools to identify student groups that might be struggling to keep up with their peers. Students who are not proficient but have made large enough gains to become proficient in the next 3 years are considered "on track" to proficiency and are included in the percentages below.

		Gender		Race / Ethnicity				Am Indian	Economically Disadvantaged	Students with Disabilities	English Language Learners	Redesignated English Proficient

For high schools graduation rates for the Cohort of 2013 are available on page 5.

Participation Schools must include all of their enrolled students in the annual statewide assessment. If the percentage of the All Students group is less than 95%, the school's letter grade is reduced by one grade. Supplemental Accountability Schools (SAM) and small schools with fewer than 40 students receive special consideration.

School History Student performance over time can demonstrate the success of interventions and school reform. Scaled scores (SS) range from 0 to 80, and 40 is the threshold for proficiency (on grade level). For a more detailed history see the NMPED website: <http://www.ped.state.nm.us/AssessmentAccountability/AcademicGrowth/NMSBA.html>

Student Promotion Students that are prepared and progress to a higher grade each year (matriculate) indicate that your school is successfully moving students toward graduation. However, if the school's achievement in Reading and Math is subpar, and yet most students are being promoted, the school may be inattentive to a student's need to repeat grade-level instruction before moving on.

End Notes

- 1 The Statewide C grade was established in the first year of school grading as the midpoint of all schools. It was fixed in 2011 as the framework for all future letter grades and is not recalculated each year.
- 2 Final letter grades are established at the 90th and 50th percentiles, which represent 75 and 50 points respectively. For high schools that do not have members of 4-year 5-year or 6-year graduation cohorts, the scale is abbreviated and letter grades are adjusted to account for the school's remaining non-cohort indicators or non-cohort years. However high schools that were graded on this restricted scale have their points adjusted upward to the 100 point scale in order to report 3-year averages.
- 3 A dash is substituted where a school has too few students (N<10) to meet confidentiality requirements for reporting.
- 4 Feeder schools are schools that do not have students in tested grades 3-8, 10, or 11. These school are rated using the performance of their alumni.
- 5 Redesignated English Proficient are students that were once English Language Learners and have since become fluent. New Mexico began this reporting category in 2012 and some data systems have not yet caught up. These fields are marked with "N/A" (not yet available).
- 6 During the 2013-2014 school year, schools across New Mexico piloted assessments on computers. To recognize these efforts, schools that offered the SBA on computers received bonus credit based on the number of students participating.
