Reviewer Comments

Reviewer #: 1 Reviewer Background: Teacher for 24 years- Endorsed in Language Arts, Health, PE, TESOL, Psychology K-12 Comments: This text offers a comprehensive look at the concepts and concerns of today’s youth in the areas of physical, social, and emotional health. The strategic pedagogy embedded within activities and discussions allow for critical thinking opportunities for teachers and students.

Reviewer #: 2 Reviewer Background: Teacher for 15 years, Level 3; K-8 License with endorsements in PE and Health; 7-12 License with endorsements in PE, Health and Science Comments: Interesting book with topics that are relevant to today's teens. I think the book allows teens to understand their place in the world around them and how their "footprint" has an effect. I did not find the teacher edition to be user-friendly. One would need to keep referring back to the beginning of the book to get strategies and answers to student question- teacher prompts, strategies, etc., are not embedded within the text

Reviewer #: 3 Reviewer Background: Teacher for 5 years, Level 2 Endorsed in Family and Consumer Sciences, Health, Vocational Technical 800 level II Licensure Comments: Activities were good and broad enough to ensure student choice and individual learning styles were addressed.
