# Required Appendix K

#### **Budget Narrative**

Mark Casavantes, Ben Tice, Lin Cox, Martha Molina, Georgina Gonzalez and Joe Sandoval worked on the development of our budget.

We began with the budget prepared last application cycle by Curt Szarek. There have been various changes to our charter school model since then as well as a change to the estimated number of students we will enroll each year.

We began with creating our projected number of employees which is included as a spreadsheet.

We believe that the Vigil Group and other related entities charge about \$50,000 for their services. We budgeted for an Office Manager which is more expensive. Please consider that money from here could be used elsewhere.

#### 11000 2300 51100 1217

The cost of a Secretary was eliminated as we felt the services would be provided by our Office Manager, Vigil Group or other entity found on line 11000 2500 51100 1115 and clerical staff.

#### 11000 2500 53414 0000

The cost for other professional services was reduced to \$5000. It was decided that any tasks that would have been performed under this category would have to be performed by our existing staff.

Next this item was eliminated. Over \$426,000 would still need to be cut and our next cuts would probably be our staff. It was decided to eliminate anything that was not essential to the operation of our campus.

#### 11000 2300 55813 0000

The next item reduced was employee travel. It was believed that the Principal could do most of the travel until the budget could support others. Most travel to Albuquerque and Santa Fe can be done by driving up and back without the need of a motel so the majority of this expense would be for gas.

#### 11000 2300 55811 0000

Board travel was reduced as we were aware big cuts were needed to balance our budget.

#### 11000 2300 55811 0000

Board training was reduced to balance the budget. If actual costs are higher, then we could fill in this shortfall by using the Office Manager benefits as in our first years we intend to use the Vigil Group or other entity.

11000 2300 53413 0000

Legal fees were reduced.

11000 2400 53414 0000

11000 2400 53813 0000

11000 2400 53711 0000

Other professional services and other charges were eliminated as our goal of keeping as much of our staff intact was our major goal and all other items were considered a lower priority.

#### 11000 1000 55817 0000

Student travel was reduced or eliminated reluctantly. Discussions of fundraising, grants, federal money and other factors could allocate funds to this line item in the future. Options to not cut our staff was getting harder to find.

#### 11000 2100 51100 1214

The position of our Social Worker was reduced to a half-time position during the first few years as it was believed that it was more important to fund our educational staff to the best of our ability which was much more important for the support of our mission and success of our charter school.

11000 2100 51100 1215 11000 2400 51100 1112 11000 1000 51100 1411 11000 1000 51100 1412 11000 1000 51100 1415 11000 1000 51100 1711 11000 1000 51100 1712

The goal to not cut employees has been our major goal. We anticipated that may be the case eventually for some budget years that a teacher and/or educational aide may need to be cut to balance the budget. The staffing plan was redone with the idea of creating the smallest staff we could consider prudent rather than the previous plan which was our ideal staffing plan. This resulted in significant cuts to our budget. This was done in order to attempt to pay our staff according to our salary schedules using a middle salary amount. Academic Opportunities Academy seeks to pay our staff the highest reasonable salaries that we can based on budget limitations. It was initially decided to not budget annual pay raises in hopes we could keep as much of our staff as possible. After we created our new staffing plan we were able to budget in annual pay increases. Next was to cut the number of positions in order to preserve all other staff members' salaries in line with our salary schedule. We would evaluate our position in the future using our Campus Improvement Team, Community Advisory Groups, our Office Manager, the Vigil Group or other entity, our Principal, Finance Committee and our board. Also, the discussions of other funding sources are not included in this budget and when those funds are made available the amounts removed from the budget could be reinstated.

#### 11000 2300 51100 1114

Before Teacher and Educational Aides salaries were to be cut all other salaries would be looked at. It was decided that Administrative Assistants pay would be cut in line with Educational Aides of \$24,000 a year. Administrative Assistant positions were cut as our Clerk positions were retained.

#### 11000 2500 51100 1115

The Business Manager salary was cut to \$50,000 for the first year, but salary increases were preserved.

It was determined that salaries would need to be cut. The next step was to revisit our employee worksheet and prioritize our cuts.

A new employee spreadsheet was developed. It was decided to cut Educational Aides before teachers.

#### 11000 1000 51100 1711

The first cuts to positions was done to our Educational Aides. Despite these cuts we had significant work ahead of us to balance our budget, particularly in our first year.

Our meeting was adjourned for lunch. Some of our team would not be able to return in the afternoon.

Mark Casavantes, Lin Cox, Martha Molina, Georgina Gonzalez, Cynthia Moreno, and Joe Sandoval returned after lunch to work on the budget.

#### 11000 2300 51100 1114

Our clerical staff was reduced. This may cause these staff members to be overworked and adjustments must be made when other funds are made available to increase this staff.

#### 11000 2400 51100 1112

Principal salary is reduced to \$70,000 rather than a salary from the middle of our salary schedule. Before teacher cuts are initiated, Mark Casavantes felt his administrative salary should be cut.

If additional cuts are needed to operate the charter school Mark Casavantes would be willing to cut his salary to the degree necessary to operate our charter school.

#### 11000 1000 51100 1412

We know that hiring a Special Education Teacher is one of our first priorities regarding the staffing of our school. If the numbers are very low initially we will consider hiring this position as a contract employee on a part time basis through Cooperative Educational Services (CES).

#### 11000 1000 51100 1412

In the evolution of our charter school plan we have had many mission statements. During our last meeting with the New Mexico Public Education Department – Charter School Division we had another major revision of our charter school plan resulting in a major rewrite of much of our plan.

We know we have lots of work ahead of us to rewrite our charter school plan in the two months that remain.

#### Our new mission statement is:

Academic Opportunities Academy is committed to preparing students for high school success through individualized instruction and computer programming.

As a result we will be hiring teachers who can computer program. This is also helpful in implementing our Curriculum Mapping Database and Software which is a key component in improving student success. We will provide short cycle assessments in our plan, but we wish to monitor all our students in

close to real time so we can identify those students who are in need of assistance and then provide all the assistance needed to ensure every student's success.

We know our staffing numbers should be about 1/3 higher to support our extended day program, but our existing budget would not support those numbers. We hope when additional funds are made available that this shortfall can be addressed. Options that we could consider is reducing the extended day from two hours to one hour, reduce the number of days we offer an extended day, limit our extended day to only students who need remediation and/or have a higher student to teacher ratio. We would gladly accept the opinions and advice of the New Mexico Public Education Department – Charter School Division and the New Mexico Public Education Commissioners. We would involve our Campus Improvement Team, Community Advisory Groups, Principal, board, Office Manager, the Vigil Group or other entity, our CPA, our Finance Committee and other quality advisors to solve these problems. We intend to seek grants, donations and perform fundraisers to support our charter school and its mission.

#### 11000 1000 51100 1618

Academic Opportunities Academy would love to provide many more services than are included in this application. We plan to provide sports and academic competition into the services we provide in the future as soon as our capacity to perform these services is able.

#### 11000 1000 51100 1621

We are not sure how many students will participate in our after school program. We aim for 100% but we know that many parents will opt to pick up their students at the end of the regular school day. It is anticipated that we will have staff who work early and leave early, staff that arrive late and work late and some part time staff that will fill any gaps in our schedule. Since most of our after school staff will also work during our regular school day, they are included in 1411 and 1412.

From the advice of Mrs. JoAnn Myers of MAS I have looked at a variety of charter schools for ideas. I have met with Mrs. Myers on a few occasions and toured her school. I have been very impressed with her and I appreciate the NMPED-CSD for inviting her to present to us.

I reached out to Wasatch Institute of Technology, a computer science charter school in Utah. I will be reading their charter, and visiting their school.

#### Mark,

There are a million things I could share! You have to make sure you know the demographics of your area, not be surprised by the incoming student lack of knowledge, and know how to properly design software with practical experience. Far too often the typical approach employed in teaching programming is focused exclusively on language syntax. Just like learning another language, you need to learn far more than just the nouns.

I'd recommend carefully reading our website and our charter, and once you've done that I'd be happy to answer specific questions, speak with you on the phone, or perhaps even have you tag along for a few days at the Wasatch Institute of Technology.

David Moss School Director

#### Wasatch Institute of Technology

11000 1000 51100 1415 Salary Expense: Teachers Vocational and Technical

Academic Opportunities Academy plans to hire computer programming teachers for our after-school program. Some of their teaching will occur during the regular school day. They will probably be versed in mathematics, science and other content areas. These teachers will need to obtain a technology endorsement.

11000 1000 51100 1415 Salary Expense: Instructional Assistants Grades 1-12

Academic Opportunities Academy will have a Main Academic Space where students will work individually and in small groups on their learning activities, projects and assignments. Our Educational Aides will monitor, and provide incidental assistance as needed in order to have our students make the maximum progress possible. When any of our Educational Aides identifies a student who is in need of more than incidental assistance the Educational Aide will notify the appropriate Teachers for assistance.

11000 1000 51100 1415 Salary Expense: Instructional Assistants Special Education

This Educational Aide will work with the Special Education Teacher and all their special education students to ensure that their students are being taught according to their IEP's, being given all their appropriate modifications and providing all the necessary incidental assistance these special education students may need. If any of their special education students are not being successful, for whatever reason, the Educational Aide will notify the Special Education Teacher for appropriate action. The Educational Aide will also monitor all of the students to determine if a student may need special education services and make their observations known to the Special Education Teacher.

11000 1000 52111-52914 0000 Employee Benefits

The percentages for employee benefits was determined by Curt Szarek Business Manager of SIATech now Albuquerque Charter Academy before his retirement.

11000 1000 55817 0000 Student Travel

It has been discussed that travel during the first year would be minimal if at all, as the staff will have their hands full doing all that is necessary to obtain a successful first year. Field trips and having our students paint murals and other work in the community may require additional fund-raising or funding to meet all our student travel requirements.

11000 1000 56113 0000 Software

Edmentum will be our primary and initial curriculum for our core content areas aligned with the New Mexico Content Standards with Benchmarks, Performance Standards and Common Core. Academic Opportunities Academy will develop additional curriculum to supplement Edmentum. We are collaborating with Mr. David Moss of Wasatch Institute of Technology regarding our computer programming and computer science components of our charter school to align with our new mission statement. Wasatch Institute of Technology is a Utah charter school that provides a computer programming and computer science components in their curriculum. They have invited us to visit their

campus to collaborate on developing an outstanding computer programming and computer science charter school. They are very interested in collaborating with us. The web-site for Wasatch Institute of Technology is: http://www.wasatchinstitute.net/enroll/is-cs-for-me/. We are also collaborating with Mrs. JoAnn Myers of MAS in Albuquerque regarding developing a high performing, unique, innovative charter school.

The software to program computers is free. Computers with internet can run their programs on any browser. The software that we would use to support computer programming and our computer art program would be Photoshop, Illustrator and other related products.

11000 1000 56118 0000 General Supplies and Materials

Academic Opportunities Academy seeks to be as paperless as possible and to keep to a minimum any needed supplies. We anticipate that there will be a need for some supplies, particularly in art classes.

11000 1000 56118 0000 Supply Assets (\$5000 or less)

This line item is primarily for furniture and related items as well as office supplies to operate the campus.

11000 1000 51100 1214 Salaries Expense: Guidance Counselors/Social Workers

We have had a few debates over the preference of Social Workers to Guidance Counselors. We believe there is a great need for Social Workers who will address the needs of our students so they are able to come to school ready to work. Our students are facing more and more challenges than in the past.

We would like to have more Social Workers but in order to get our budget to balance we had to cut a position.

11000 1000 51100 1214 Salaries Expense: Registered Nurse

Our site is about two blocks from the Mimbres Memorial Hospital and Dr. Rene De La Vega of Las Cruces, New Mexico had originally planned for our proposed site to be a doctor's office. Our plan is to coordinate with Mimbres Memorial Hospital for nursing services or to use Cooperative Education Services (CES) for nursing services as needed.

11000 2100 52111-52914 0000 Personnel Services – Employee Benefits

The percentages for employee benefits was determined by Curt Szarek Business Manager of SIATech now Albuquerque Charter Academy before his retirement.

11000 210 53211-53414 0000 Purchased Professional and Technical Services

I am very much aware how important an excellent Diagnostician is to providing the appropriate needed services to help our special education students. We understand the percentage of students needing special education services from our meetings with the New Mexico Public Education Department — Charter School Division is 17%. Next we searched for information on the breakdown of what special education students need as services. The data in the next few lines are based on the integration of various web-sites as to the breakdown of services needed by students in special education. 15% figure

was used in our budget.

http://www2.ed.gov/about/reports/annual/osep/2014/parts-b-c/index.html

#### 11000 1000 56113 0000 Software

Alan Hodson who worked with Mark Casavantes in the El Paso Independent School District in Research and Evaluation is now retired and very knowledgeable in the IT world has informed me that there are so many free or low cost software that would drastically reduce a budget. Just going to a Lynux based operating system would save states and school districts hundreds of thousands of dollars if not millions. Academic Opportunities Academy installed Lynux Mint on our computers and they run much faster than using Microsoft 7, 8 or XP.

There are options to all Microsoft products such as Open Office. Mr. Hodson mentioned others, but at this time I cannot recall them.

Alan has been teaching computer programming to children using Scratch (a free software program developed by MIT). I think this may be an excellent bridge into using Python or other computer language for students with no computer programming experience. He also has been using the Hurri-Kano Raspberry Pi computers to teach children. These computers cost about \$150 but will need a monitor sold separately and some cords to connect the monitor. The following link from Amazon shows the Hurri-Kano kit. I have used the kit and it has all the function of any larger computer but it has limited memory and no external hard drive, or CD drives. The memory is a cell phone memory card.

We encourage our reviewers to consider going to Lynux to save money. The computer screen is slightly different but it has all the functions of any Windows product. You may wish to have an IT person perform this task. I was able to do it. You need to download Lynux, make a CD or use a flash drive and the boot from the CD or flash drive. To install it on your hard drive requires partitioning the hard drive and other skills.

#### 11000 2100 56113 0000 Software

This software is for educational software provided by Edmentum and other curriculum providers for our charter school.

#### 11000 2300 5110 1114 Salaries Expense

This is for our clerical staff to assist our Office Manager and school administrators with the operation of our campus.

11000 2300 52111-52914 0000 Personnel Services – Employee Benefits

The percentages for employee benefits was determined by Curt Szarek Business Manager of SIATech now Albuquerque Charter Academy before his retirement.

11000 2300 53411 0000 Auditing

11000 2300 53413 0000 Legal

Academic Opportunities Academy has been represented by Mr. Mark Berry for over five years. In consulting with him, he felt the figures presented in our budget would be adequate.

11000 2300 55811 0000 Board Travel

Travel to Albuquerque, New Mexico for training will be needed. There also may be additional meetings necessary with our board and the NMPED and/or NMPEC.

11000 230055812 0000 Board Training

Academic Opportunities Academy desires to have an excellent and well trained board. We seek to provide training beyond the minimum requirements.

11000 2400 51100 1112 Principal

11000 2400 52111-52914 0000 Personnel Services - Employee Benefits

The percentages for employee benefits was determined by Curt Szarek Business Manager of SIATech now Albuquerque Charter Academy before his retirement.

11000 2500 51100 1115 Salaries Expense: Assoc. Supt.-Fin/Business Manager

Academic Opportunities Academy knows that the Business Manager is a very important position for the successful operation of a charter school in full compliance with all the laws, regulations, procedures and controls necessary to ensure all funds are administered properly. We had initially budgeted \$60,000 for this position and if additional funding is obtained we would change the budgeted amount back to \$60,000.

It has also been decided that during our initial startup and during our beginning years to hire the Vigil Group or other entity so that our financial procedures would be in full compliance with all state and federal requirements.

11000 2500 52111-52914 0000 Personnel Services – Employee Benefits

The percentages for employee benefits was determined by Curt Szarek Business Manager of SIATech now Albuquerque Charter Academy before his retirement.

11000 2600 54311 0000 Maintenance and Repair – Furniture/Fixtures/Equipment

11000 2600 54311 0000 Maintenance and Repair – Buildings and Grounds

11000 2600 54311 0000 Electricity

11000 2600 54311 0000 Natural Gas (Buildings)

11000 2600 54311 0000 Water/Sewage

11000 2600 54311 0000 Communication Services

11000 2600 54311 0000 Rental - Land and Buildings

We wanted to prepare a budget that was realistic and permitted us to implement our mission. We know that there are funds available for facilities costs at the rate of \$700 per student. This results in about \$280,000 when we reach capacity.

11000 2600 55200 0000 Property/Liability Insurance

This amount was given to us by Curt Szarek Business Manager of SIATech now Albuquerque Charter Academy before his retirement for Property/Liability Insurance.

11000 2600 55915 0000 Other Contract Services

This amount is for custodial and maintenance costs for our facilities and grounds.

11000 2600 56118 0000 General Supplies and Materials

Supplies are included in a few sections of this application. These supplies are for the operation of the office of Academic Opportunities Academy.

11000 2700 55112 0000 Transportation Contractors

Academic Opportunities Academy anticipates other funds to provide transportation for our students needing transportation from home and school. Corre Caminos has been contacted to provide transportation for our students.

"Corre Caminos is made possible through federal funding provided through the New Mexico Department of Transportation, which is then funneled through the state," Assistant Director Amy Donaker said. "We are also funded by the municipalities we serve."

For more information call <u>1-866-934-3866</u>.

11000 3100 56116 0000 Food

Academic Opportunities Academy intends to contract out our food service to either Deming Public Schools or to another provider. We have consulted with Cien Aguas on their food service program where they have contracted with local farmers to provide produce and parents who prepare their food.

In meetings in Albuquerque with the Public Education Department, Ms JoAnn Myers of MAS informed us that she created her pay schedule using 5% over the local school district. We think this is an excellent idea, but it does not seem to be able to be supported with the budget figures presented. Our budget

represents the highest amount we could include for our budget and our anticipation of additional funding. The pay schedule may need to be adjusted based on our actual funding availability. Academic Opportunities Academy will aggressively seek out grants, donations and fund raising to improve our funding availability.
