

Want more lesson plans? Try “tryengineering.org”. There are over 100 lesson plans in various STEM fields—sortable by age level and science/engineering content.

Not sure about these lesson plans, or think you might want some help? We have a list of volunteers from the greater Albuquerque area who have agreed to try answering questions by phone or e-mail. (Don’t contact the first person on the list—find someone whose name is close to yours alphabetically!)
