SECTION III: NARRATIVE

BILL SUMMARY

Synopsis:

HB 39 establishes the Native New Mexican Teacher Incentive Pay Act which provides for the implementation and administration of an incentive pay program for native New Mexican teachers who agree to teach in in elementary schools in which at least 85 percent of students are ethnic minorities and which earned a rating of D or F in the most recent year.

HB 39 contains a $2 million appropriation from the General Fund.

FISCAL IMPLICATIONS

HB 39 appropriates two-million dollars ($2,000,000.00) from the general fund to the Native New Mexican Teacher Incentive Fund for use in fiscal year 2019 through fiscal year 2028 to implement the provisions of the Act.

HB 39 creates the Teacher Incentive Fund.

Any funds remaining in the Native New Mexican Teacher Incentive Fund at the end of FY29 shall revert to the general fund.

The appropriation contained in HB 39 may not be sufficient to meet the anticipated need of schools in a chronic D or F status. Additional appropriations will likely be needed in future years.

SIGNIFICANT ISSUES

Currently, about 50% of teachers in New Mexico come via interstate reciprocity. This legislation limits incentive opportunities for high-performing teachers not born in New Mexico.

HB 39, in two different sections has differing requirements for eligibility; when read together it appears that HB 39 requires that for a teacher to be eligible to take advantage of the Teacher Incentive Pay program, a teacher must hold a level 3-A teaching license, and hold either a Master’s Degree plus eight additional credit hours or hold a national board for professional teaching standards certification (NCBT). This provision may serve to reduce the pool of candidates incentivized to serve in high-need schools. Incentivizing level 2 teachers with the commensurate experience and effectiveness ratings would provide a larger pool for recruitment into these positions.
Limiting stipends to only elementary schools may cause challenges in staffing for middle and high schools that have the same population, school grade and need for the best teachers. The criteria for teachers pose another limitation. Teachers must be native New Mexican who have a valid New Mexico birth certificate, hold a level 3A license, have a masters plus at least eight (8) additional credit hours, or national board certification and be rated highly effective or exemplary. Limiting these stipends to only native New Mexican level 3A teachers may mean that a significant population of highly effective and exemplary teachers at each level of licensure who are not native New Mexicans already teaching in these locations might choose to leave to teach elsewhere.

**PERFORMANCE IMPLICATIONS**

**ADMINISTRATIVE IMPLICATIONS**

HB 39 calls upon the department to establish, promulgate rules, and administer the ten year teacher incentive pay program but does not outline funds to cover the cost of additional work required.

**CONFLICT, DUPLICATION, COMPANIONSHIP, RELATIONSHIP**

Relates to HB 42 Teacher Incentive Pay bill

**TECHNICAL ISSUES**

While HB 39 requires that a native New Mexican teacher be rated highly effective or exemplary to receive the incentive pay, on Page 5, lines 16 through 22 provides “If a native New Mexican teacher falls below highly effective in the native New Mexican teacher’s annual evaluation or if the qualified school does not improve its school grade, the school principal, in consultation with the local superintendent or the local superintendent’s authorized representative, may refuse to renew the teacher recipient’s incentive contract with the qualified school”. The use of the word may imply that the district could continue to pay the teacher rated less than highly effective.

**OTHER SUBSTANTIVE ISSUES**

HB 39 would require a native New Mexican teacher recipient who does not complete their term of service to repay the funds received but does not provide guidance on how and when repayment should occur.

**ALTERNATIVES**

**WHAT WILL BE THE CONSEQUENCES OF NOT ENACTING THIS BILL**

**AMENDMENTS**
