Questions from Accuroster Webinars
February 2019

Q. Why are we doing Accuroster this year, I thought that there wasn’t going to be student growth used on NMTEACH summative reports? I thought there weren’t going to be teacher evaluations this year.

A. The NMPED will continue to comply with all elements of our ESSA plan until we hear from the US Department of Education on the status of our amendments. Note that per the Governor’s Executive Order PARCC will not be part of teacher evaluation.

Q. Can we just delete the one in the course type column to disassociate the teacher, student, course link?

A. No, to disassociate a teacher, student, course link a 2 must be entered into the course type column. Refer to pages 9-11 of the Accuroster PowerPoint for additional information.

Q. If a student wasn’t reported in STARS are we able to add them to Accuroster?

A. No, you may not a teacher, student, course link to Accuroster that wasn’t already reported in STARS.

Q. The Teacher Type columns prepopulate with a 1, 2, or 3 what do these numbers signify?

A. 1=primary teacher, 2= team teacher, and 3= resource teacher. The weighting of the growth score is the same for a teacher designated a 1, 2, or 3.

Q. Will teachers have access to their own Accuroster report?

A. No, teachers do not have direct access to the system. The best practice is for the building level administrator to share the data with their teacher’s so they have the opportunity to review and sign off on the data.
