And we're very excited that were a number of Commissioners that were present for 6 6 she's been named and looking forward to a director the report. And I want to publicly thank Dr. Perea 7 7 being appointed. I'm especially looking forward to for the time. 8 8 a director being appointed. Commissioners have been -- and Dr. Perea 9 did leave, for Commissioners, this big booklet. She 9 And we're very excited about the whole 10 10 theme that they shared with you yesterday about did ask, if you're not interested in it, to give it 11

11 back to her because they are costly. But there's a 12 lot of great information in this; so I would 13 strongly recommend, especially if you were not 14 present yesterday, to take a look through it. 15 Dr. Perea offered that her door is open. 16 So if Commissioners have any questions, want to 17 spend any time with her after you've had an 18 opportunity to go through any of this, please feel 19 free to contact her. She'll answer any questions. 20 But at this moment in time, I -- if a 21 Commissioner has a specific question they would like 22 to ask if you weren't here yesterday, Dr. Perea is 23 available. We can bring her over. 24 I told her yesterday that I didn't want to

have her just sit here waiting for something; so --

a director being appointed.

And we're very excited about the whole theme that they shared with you yesterday about collaboration and support, both internally and externally; so very excited about that.

Staffing. Besides the vacant director position, which I can't stress enough I'm eager to get filled, we have several others that I'm also very eager to get filled. So two of our four members of the authorizing team positions are vacant. We're still working to try to get that interviewed and hired.

One of three members of the training team

One of three members of the training team have been filled by Dolores. but Dolores hasn't been able to leave her executive secretary or admin assistant position yet; so that, thankfully, was posted on Wednesday. So we would be looking to fill that and then Dolores can transition more fully to

her new role.

And then the two other positions that are vacant are the data and financial analyst and the grant program coordinator. And both of those have had recommendations made by our team; but we're waiting on final approval from HR to actually offer those positions. So you can see that a lot of vacancies, we're a little bit overwhelmed with work, but looking to get those filled.

Site visits going full force this time of the year, extremely busy with only two members out there doing that. And they're earning lots of comp time trying to get all the reports done. I'm not sure when they'll be able to take their comp time; but they are earning comp time. And that's why Megan and Dylan were not here yesterday, nor today. They are actually at schools visiting for the site visits.

Training. We do have, as you know, lots of training going on for governing boards, new applicants, implementation year and renewal year. And I brought -- I'm just going to pass this around, if you don't mind, if you want to take one. This is a list of the training -- Melissa is going to do it for me. These are all the training opportunities

Page 12

Roswell was chosen. Once again, I love green
people; so -- but I just couldn't figure out -FROM THE FLOOR: Closer than Carlsbad.

THE CHAIR: I would question even Carlsbad because of where our schools are located. It's, like, how come there?

MS. KAREN WOERNER: We're obligated to also offer it for local charter -- local charter school boards. So -- but I'll let Laurel address the selection.

THE CHAIR: It just piqued my curiosity when I looked at the list. I thought --

MS. LAUREL PIERCE: I'm sure it did, Commissioner Gipson. Last year with the implementation of the new regulation that required all governing board members to attend PED-approved training, it created sort of an interesting situation, where Carlsbad has two schools and Roswell has one that are district-authorized that are extremely far flung from any other trainings in the area.

So last year, Director Poulos went down and did a training in Carlsbad for all the schools in the area. And apparently, they, internally, between Roswell and Carlsbad, have decided to

Page 11

that are going to be offered. They're on the

website, but I wanted to share a hard copy for all of you and extend an invitation. If any of you are interested in attending any of these trainings, feel free to do so.

THE CHAIR: Karen, can I, just for a second? I saw a number of them were in Roswell. Did I --

MS. KAREN WOERNER: In Roswell.

MS. MELISSA BROWN: Not "a number." One. It's the continuing member training; so most people do the whole eight hours; but -- because we let people take it a la carte.

THE CHAIR: But I was just curious as to why Roswell. That was my -- not the training. And no offense to anyone from Roswell. But we don't have --

COMMISSIONER ROBBINS: It's all on the same day.

THE CHAIR: I understand that. But who's -- no offense -- who's going to go to Roswell?

MS. KAREN WOERNER: Let me defer to the training team as to why they've selected the spots they've selected. Melissa?

THE CHAIR: I just couldn't figure out why

flip-flop year-to-year if they can get one down there. I said, "If you can get the minimum required members that need to train, we will make

arrangements for that."

This year, it ended up in Roswell. And since they didn't have enough intro people, because Melissa and I have been tag-teaming. We'll go up and do one intro training and one continuing member training, all-day training, on Saturday. They didn't have enough introductory people; so now we're just -- I'm doing the continuing member training on the 23rd in Roswell. And so that will catch that corner of the state that is sort of out-of-pocket for all the other trainings.

THE CHAIR: Right. Okay. Thanks.
MS. KAREN WOERNER: Excellent question.
THE CHAIR: It was just my little curious
nature. That's -- okay. Thank you.

MS. KAREN WOERNER: Thank you. So the other issue is, what Melissa is passing out now is the list of the new -- excuse me -- the renewal schools for this year. There were 18. And, of course --

THE CHAIR: How did we get one more? It used to be 17.

Page 17

Page 14

MS. KAREN WOERNER: I think there are 18. I may have miscounted; but I think it's 18. This is just a preliminary list with their school grades so you can kind of see who's coming up. We don't know yet if they're going to renew with the State or local; but those are the ones from State that are eligible.

We also have three locally authorized charters who are going to participate in our renewal training. We're not clear if that's because they're thinking of switching ship, or, also, if they're just -- their authorizer uses a similar application; because that does happen that they steal your good work and use it locally.

So we have three additional that have expressed an interest in the training, but haven't said what their plan is for renewal.

THE CHAIR: And just so everyone is aware, that this number could be --

MS. KAREN WOERNER: Be 21.

THE CHAIR: Well, even more than that, because we're not aware of all of the district charters whose contracts are up. So that this could be less; but it could be significantly more.

So what I wanted to ask you to do, once

the long list. And what I would say is that it's really difficult to do anything earlier than

3 November --

THE CHAIR: Okay.

MS. KAREN WOERNER: — given that — well, we don't know what's happening with school grades this year. But that doesn't normally come out till the summer. Then they need time to respond.

We were thinking of — and I agree with you. Last year, the word was given a little late. But they should be prepared to start as soon as Monday's training, telling them of that option, we'll be better prepared. But what we were thinking, if it's okay with the Commission, that we set a deadline of September 1st for early applications, and we try to do the site visits end of September, first of October, and then continue on with the October 1st deadline that we see in October site visits.

So the people who submit September 1st would be heard in November; October 1st, December. But given that we can start telling them that now, we may have more people -- we hope to have more people take advantage of that opportunity. But I think to try to do anything in October might be

Page 15

really difficult.

THE CHAIR: Okay. And -- you know, we're -- we're fine with that; certainly, we want to be thoughtful with -- with that time frame. And, yeah, the question about what a school report card is going to look like is kind of up in the air. So we want to be able to have some time to figure out if there are significant changes, how that's going

to be applied to those renewal schools.

So we may very well have to do a work session in October to -- if -- hopefully, we would have that information so that we could take a look in October and say, "Okay. How do we now have to

look at at least the last year to see how that plays out for the renewal application?"

So I'm fine with that. If you could, just send me an e-mail reminding me of those dates.

MS. STEWART: Sure.

THE CHAIR: So that if anyone questions -- and I'll have Beverly send it out to everyone. So if anyone gets a call about it, they can clearly say it's -- these are the dates.

MS. KAREN WOERNER: Sure. And Melissa just pointed out something to me that she wanted me to share. We are starting the renewal trainings a

again, as we did last year, I think the offer for early renewal would be a great idea; although it didn't work last year. We only had the one. But maybe we can get others -- because I think we made that decision later --

MS. KAREN WOERNER: A little late, yeah. THE CHAIR: -- than right now.

So I think it's important, if we can get even a couple of these schools to buy into an early renewal, we can start, I think, as early as October. That may be too early for the schools. But I'm more than willing to say, "Hey "-- but I don't -- my question was, would that work with you folks in order to be able to get the site visit and analysis of the renewal kit in an appropriate time? What would have to be done --

(Commissioner Caballero enters hearing.)
THE CHAIR: -- to alter that time

schedule; because October is when they drop the renewal application.

MS. KAREN WOERNER: So if I may, Madam Chair?

Melissa and I did discuss this. She was -- we were -- she was assuming that you would like some of them to come earlier, particularly with

MS. MELISSA BROWN: I'm also, on Monday, going to be offering them more than the three trainings that are scheduled. So there's a possibility there will be more training dates added.

THE CHAIR: Great. And that might also help them expedite what they're doing and -- and I think, for a lot of schools, they need to get the bulk of it done before the school year ends; because as we've identified, when it's just the head administrator that's spending the summer doing that renewal application, you can see it.

COMMISSIONER VOIGT: Yeah.

THE CHAIR: And it shouldn't be done that way, anyway. So it should be a collaborative effort with the whole school to engage in doing that. So, hopefully, offering that early will push them even to engage with the school before staff leaves and then they can come in in September, and they're almost done.

The only thing is, populating the data is more your burden than it is theirs. So I appreciate Commissioners are present for the record.

MS. KAREN WOERNER: So moving on, the implementation year is the other piece.

So new renewal and implementation. We have the two schools, as you know. The next submission is a large one, and it's due in March. So we'll be watching, and our staff will be looking through the checklists, making sure they get everything in and evaluating that.

We also are aware that we need to reevaluate one school's responses, which are due on February 28th. So we can give you feedback on that next month.

I also wanted to speak to the financial knowledge and expertise, particularly in light of the conversations around the financial framework.

As you know, the staff here is generalists in all areas, and we rely on the expertise of other bureaus. But one of the positions I mentioned earlier, the data and financial analyst position, is really intended to help review financial reports, look for those early warning signs as you've directed, and help educate governing boards and schools on those financial pieces, working with them to support that work, as well as other data. But

Page 19

that. So thanks. And let's just hope -- maybe we can offer free cookies or something to folks that come, you know. "We'll feed you if you -- if you take early renewal," you know, that it's -- so, hopefully, we can separate this out a little bit.

Otherwise, I would rent a casita up here for most of December; because it's going to be -it's going to be long. And we've also learned that if we pack a lot in in a day, it's not fair to the school; because we're not giving the school the time -- you just stop thinking. You can't remember what school you're actually looking at anymore.

And I don't like to have to say, "I'm sorry. Was it this application that I saw this," 'cause it makes the school feel like you really didn't read it. And I did; but I'm just trying to remember which one.

So we need to give the school their fair opportunity, and ourselves a fair opportunity, to be able to do this in a thoughtful process.

So we'll be working on that schedule after we work on the schedule for community input hearings later. So thank you.

COMMISSIONER ARMBRUSTER: Madam Chair, I'd just like to acknowledge that our other two

that was the primary purpose for that position to be added.

So I'm really looking forward to getting that filled. I think it will be really helpful, once we have that person in place and your financial framework in place to really move forward stronger in that area.

Also, the --

THE CHAIR: And just -- because we've also, as I mentioned yesterday, had a discussion with Deputy Secretary Bobroff about, I think, altering that position a little bit and being split time perhaps with the Budget Bureau, so that they would be able to do more of the work for us and not burden Budget and split that time somehow; so -- but we are looking forward to a little more financial support, however it looks.

MS. KAREN WOERNER: Absolutely. Thank you for that.

And then the -- of course, the NASBO Spring Budget Conference. I know several Commissioners are attending that. Also we've allocated funds for several staff to also attend that -- we'd like this person named by then so they could attend as well -- to help increase our

Page 25

Page 22

knowledge in that area as well.

So I think with that, I was going to move on to the revised CAPs for Alma d'Arte, unless there are any questions on anything I've said thus far.

THE CHAIR: Sure. I think we're good.

MS. KAREN WOERNER: So I know that the school is here. So if you want to bring them, I'm assuming, up to the front? We need a third chair, if you don't mind.

And so, in your packet, I believe -- I think it's in Section 6 --

THE CHAIR: It's in Item 6, yeah.

MS. KAREN WOERNER: -- you have the information that was also sent electronically regarding the CAPs that were revised by the school, and then the feedback from both the Special Education Bureau and the Language and Culture Bureau.

I will say -- remind you that the financial CAP was approved last month, so that doesn't need to be addressed. But the other two, the school was advised to submit their revisions based on the feedback they had received from those two bureaus, Special Education and Language and Culture.

So I sent a plaintive to Karen for,

"What's going on?"

So I appreciate her after-hours responses as well. So thank you.

So good morning once again.

MR. GENE ELLIOTT: Good morning. Gene Elliott. I'm the president of the governance council. And I very much thank you for your invitation. I hope that we continue this monthly gathering so that we can have the record for the most consecutive PEC meetings attended by a single school.

Not to make light of the issues here, but I do have one request before I turn the microphone over to Holly. And that is that it spoke to the question that you made -- or the issue that you raised here, because now we are asked again to go directly to another bureau. And, frankly, this gets a little confusing for us as to who -- which bureau we go to for what.

And Im not feigning ignorance here. But we now have PEC, the PED, Special Ed Bureau, and so forth, that we have to connect to directly. And it would really be helpful to us in clarifying the issues that we need to solve if we had one — one

Page 23

They did do that. Those were, again, reviewed by the two bureaus. And the -- of concern was that there are some repeated concerns listed in this review that were the same listed in the previous review.

So my recommendation would be that they need to revise those again and work directly with those two bureaus to do so to be sure that they're covering everything. But I don't know what has happened by the school since we received those just a little over a week ago.

So with that, I'm here to answer any questions. But I will defer to the school or to the Chair, whichever you want to do.

THE CHAIR: Right. And I'll let the school speak first. The only thing that I'd like to initially say is -- because I sent an apology note to Karen, because I read this, and I thought I had been sent the previous CAP. And it had been a long day. So I said, "Am I reading this right?"

And I was concerned that it looked like I was reading what had previously been submitted. So I was concerned that it didn't appear to me that there had been significant changes. And I thought maybe I was just missing something.

contact person that fed all that to us rather than us to go respond back to these separate bureaus. That's all I have.

THE CHAIR: And I'll just respond to that, you know. We're not a bureau; so that -- but for any school, whether you're a charter school or you're a traditional school, your -- when there are special ed issues or there are EL issues, that you have to go to those specific bureaus. That CSD -- it kind of -- no offense to them -- muddies things if they have to be a conduit for a school to be the conduit to that bureau.

Then it's like playing phone tag, you know. And things can -- you know, information can just get misinterpreted, lost, whatever you want to say; so that for any school, the recommendation always is when there are issues that are addressed by a specific bureau, your -- first and foremost, you contact that bureau for -- and it was identified in the prior submissions that it was the Special Ed Bureau and Bilingual Bureau that identified the concerns.

So -- and I apologize if that hasn't -- if that hasn't been known. But -- and I guess it's -- once again, it's an assumption by us that schools

Page 29

Page 26 1 know that they need to contact -- just like if you 2 had a budget issue, you would call Budget about it. 3 So if you've got a special ed concern, you've got to 4 go to the people who are the experts in that. 5 MR. GENE ELLIOTT: I guess what I'm saying 6 is in this case, the Special Ed Bureau came through 7 Karen and back to us again. And there was no

clear -- from what I've read -- now, I may be

wrong -- but there was not a clear instruction to

respond to this to experts in the Special Ed Bureau. THE CHAIR: Okay. There wasn't. We asked for a reach-out to the Special Ed Bureau to review this for us to see what concerns they may -- that they may have. So they identified them for us.

And once again, I'll apologize if it wasn't clear that based on the input that they gave the last time, that if there was any -- when we sent it back saying, "There's still concerns," if there was a -- a lack of clarity over what that concern was, the Special Ed Bureau should have been the bureau contacted for any clarification on what they had -- what they had communicated in their input. MR. GENE ELLIOTT: Okay. I'll leave it at

24 that. Thank you, Madam Chair. 25 THE CHAIR: Okay. Thanks. Item B for special education.

The EL concerns, I met directly with Kirsi Laine, and she helped me craft my final response to that and what we should be aware of for the site visit. So I feel really confident about that.

But we have crafted our intentions and the final responses on our part for Item A and Item B, if we can read that and maybe discuss from that feedback.

THE CHAIR: So what you have is different from what we have? Is that what I'm hearing?

DR. HOLLY SCHULLO: So you've got my feedback last Friday.

THE CHAIR: Right.

DR. HOLLY SCHULLO: And then I was told that you all would look at that, and then we would get more feedback. Well, I did receive more feedback to respond to. And it's getting confusing. Anyway, I have the final response.

THE CHAIR: I'm a little confused now; so I apologize.

22 DR. HOLLY SCHULLO: Thank you. Okay. 23 MS. KAREN WOERNER: Madam Chair, I think, 24 if I understand what's being said, the CAPs were due 25 last week.

Page 27

DR. HOLLY SCHULLO: Good morning. I'm Holly Schullo, the principal of Alma d'Arte. And I actually do want to thank Karen Woerner for helping streamline that feedback, and then I would send it back to her, and she would get input from the bureaus. And the feedback was excellent. I was unable to give my feedback for

Item A and Item B. I sent the feedback to Karen last, like, Friday. Then Sunday night, she let me know that we'll be coming to this meeting today. So I didn't respond. And -- but I brought that response with us today, as we crafted, you know, a stronger strategy moving forward.

THE CHAIR: Okay.

DR. HOLLY SCHULLO: But you don't have that CAP feedback.

THE CHAIR: For 2A and B? Or what "A" and "B" are you referring to?

DR. HOLLY SCHULLO: For special education, it says "Item A and Item B."

THE CHAIR: Hold on.

DR. HOLLY SCHULLO: And it's getting kind of chunky in the Excel sheet there for Item A, Item B. And I'm really comfortable with narrative. So

we did respond to -- moving forward for Item A and

THE CHAIR: Right.

MS. KAREN WOERNER: We had one-day turnaround for the bureaus to review them. That gave all the information for you electronically last Friday.

I then had to notify the school, also, of that feedback, and that based on the feedback and your -- my consultation with you, Madam Chair, that they would need to come to this meeting.

What I think I'm hearing -- and please correct me if I'm wrong, Dr. Schullo -- I'm hearing that they have taken that feedback and done something more, which, of course, would be too late to present to you all. And so she -- I'm hearing that there's a revised revision, and that we are not -- we do not have it in front of us.

THE CHAIR: Would you happen to have copies of it? Or no?

DR. HOLLY SCHULLO: So I wasn't really sure. And to be honest, I'm working in a mode of compliance, and I'm -- I didn't bring copies. But we can read it out loud. It's Item A and Item B. It's not very long. And I think it's really comprehensive about our intentions and what we need to do and what we will do to move forward to make

Page 30 our school not just compliant, but the best service model that we want to offer. MS. KAREN WOERNER: Madam Chair? THE CHAIR: Yeah. MS. KAREN WOERNER: If the Commission would prefer, we could have that e-mailed to us and make copies for all of you, if that's something you want to consider. THE CHAIR: Yeah. I think -- some people -- I'm okay. I think I can take notes. But if people want it --

DR. HOLLY SCHULLO: (Indicates.)
THE CHAIR: What? I'm not taking notes on that. I thought I could just jot down little notes on here. No.

So, yeah, if we could get a paper copy of that, I'd appreciate it. That's a little bit longer than I thought I'd just be able to jot a few little random notes down. So if we could do that quickly, I'd really appreciate that, so that we can -- so that we can see it. That would be very helpful.

MS. KAREN WOERNER: So she's going -- I think Holly just indicated she's going to e-mail it to me. I will then forward it to the printer. That may take a few minutes. Do you want to --

Dogo 22

MS. KAREN WOERNER: But not complete, and not -- there were still concerns. I think I heard Dr. Schullo say she's met with Kirsi Laine; but we haven't seen the results of that meeting with Ms. Laine. So at this point, understand that special education compliance was a priority; but I think the English Language Learner law and regulations are just as important.

So I'm concerned that both of those aren't prepared. And I'm not sure what the Commission wishes to do. I do think you need to see both.

THE CHAIR: I do. We do. We do. DR. HOLLY SCHULLO: And if I may, I understood that today was, again, another -- we continue to craft our work in the building and appear today. If I was able to send feedback on Monday morning, I would have just sent feedback again. But we missed it for your agenda.

THE CHAIR: But here -- but this is -- and I'm not trying to be curt about this. But our intention was to try to close out this CAP last month. We closed out the financial one. We're trying to close out the EL.

And I thought we communicated clearly last month that you were going to provide -- because you

Page 31

THE CHAIR: Can we do the --MS. KAREN WOERNER: -- move to something else? The next thing listed is governing --THE CHAIR: Can we do EL? Or is that --MS. KAREN WOERNER: I think we're going to have the same situation. THE CHAIR: Is that EL and the SpEd on

that sheet?

DR. HOLLY SCHULLO: This -- I only brought

special education with us, because when I looked at our site visit agenda, I saw Item A and Item B, and that is the primary concern for our coming-up spring site visit.

So I left EL on the table. I mean, I know what we were supposed to do. I didn't bring that crafted response with us today. I know special education is our primary concern.

THE CHAIR: So there's been no -- so correct me if I'm hearing this correctly. There's been no change to what had originally been submitted on EL?

MS. KAREN WOERNER: I think there was some change.

THE CHAIR: I thought there was.

indicated to us last month that you had made modifications, but because of the timing of the input last month, we didn't have the full story last month because of when things had to be submitted, so that you were going to clean that up, resubmit it to us, and our intention was to close out this CAP, that this is not to be an ongoing dialogue for us. As Mr. Elliott, we're not looking to make this a monthly appearance.

But we are talking about -- at this moment in time, we are talking about a compliance issue that we are having -- we're going to have to make a decision whether this school gets a letter of breach, that you're in breach of your contract for not compli -- for being out of compliance with, that this can't be a seesaw every month, that I thought we were going to come up here, we were going to talk about it again, and we were going to be able to fix it, and we're going to go back, and then next month, we're going to fix what still is hanging out there.

Our intention was to have this information and close it out this month. And the information -- and I fully understand. But we have to give Commissioners enough opportunity to be able to read this so that we can come here and have a responsible

Page 34 1 1 response; so that we can't just -- well, you know, THE CHAIR: Right. But the frustration 2 I -- it was going to be too late. Because we also 2 was this wasn't an intention to say, "We're going to 3 3 have Open Meetings Act compliance that -- so that we give you feedback; then we're going to be able to 4 can't just be changing things and posting items 4 provide even more feedback." 5 5 after we've already made the information available. The intention was the feedback that you 6 6 So it's -- I'm sure it's frustrating for were to provide was to be appropriate enough that we 7 7 vou. But it's becoming exhaustively frustrating to could close out this CAP; not -- we're still 8 8 us to not to be able to close this out. And I'm -seesawing with this, still just isn't -- this isn't 9 9 and I -- I know we were clear that EL was also a in full compliance. And I think by item, it's 10 10 part of this. fairly clear where you weren't in compliance. going to have another opportunity to respond back to

So that we figured because of the amount of 4 I hate to be coming back every month; but 5 5 feedback a month ago, everyone was clear in what that -- you know, we crafted that ourselves with a 6 needed to be done, so that it was really almost like 6 short amount of time we gave the school. 7 7 what I was -- I was hoping that what the Special Ed THE CHAIR: And I certainly appreciate 8 8 Bureau would have to review was going to be that. And I -- and we are desperately trying to 9 appropriate enough that all that we would have to do 9 move away from that culture of punishment. But the 10 is say, "It's okay," or if there was a minor --10 significant concern is that this school is hundreds 11 COMMISSIONER VOIGT: How long did you have 11 of hours behind in compensatory time for special 12 to wait for the response from the Special Education 12 education. So to also drag that on into months, 13 Bureau? 13 that's a serious concern that we have, that students 14 DR. HOLLY SCHULLO: I'm not sure. I'd 14 are not -- are potentially going without services. 15 have to check my e-mails again, because I think I 15 So that there is a time that we have to 16 e-mailed it on Tuesday, and I received feedback on 16 be -- we're a third of the way through the school 17 17 year -- almost halfway through the school year at 18 18 COMMISSIONER VOIGT: Do you feel that it this point in time. We're trying not to 21 have had on the agenda? 21 make this punitive. But we do have, I think, a 22 DR. HOLLY SCHULLO: I was directed on 22 significant concern. 23 23 Sunday evening that we would appear again here. So Karen? 24 I'm not sure how that works. To me, a Sunday 24 MS. KAREN WOERNER: Thank you, 25 25 evening, 7:21 p.m., says that window is shut. And Madam Chair. And I agree, Commissioner Caballero, Page 39 Page 41 1 1 we received additional feedback. And that's why that we need -- at this point is going to be another 2 2 we're here. And I'm sorry. It's additional review. 3 feedback. 3 But I do just want to remind the 4 THE CHAIR: And once again, we tried to 4 Commissioners of the history of this situation. So 5 5 create, to give them the greatest amount of time to in December, the school was before you for renewal, 6 6 be able to do the work. And we communicated that it and these concerns were raised. And, therefore, 7 7 would be a very tight turnaround. they were assigned -- or I don't know what the word 8 8 COMMISSIONER CABALLERO: Madam Chair, it is -- but charged by the Commission to draft these 9 seems like, in the effort to give the most amount of 9 Corrective Action Plans as part of the -- that 10 10 time, we ourselves set it up for this situation. meeting in December. So that gave them about a 11 11 It's obvious that the bureau didn't have enough time month to draft their Corrective Action Plans, which 12 to react. They had one day. And we see that not 12 were reviewed at that time by the Special Ed Bureau 13 everything is before us because of that. 13 and the Language and Culture Bureau, because as I 14 14 I can see how the -- our Department -mentioned earlier, we're generalists. And I do Therefore, I would have expected the 22 22 understand that the Commission has moved away from a school to have submitted, last week, something that 23 23 culture of punishment to a different culture, where included all of the feedback from the January 24 we give warnings and we help the schools get better 24 meeting. 25 and better. And I think we need to remind ourselves 25 However, as it turns out, there is some of

Page 42

the same concerns listed yet again on this review.

Therefore, yes, I agree. Sunday -- I don't like -- it's unfair that Sunday night is when they found out; but that's the earliest I could notify, because we had the feedback on Friday, that they would need to be here today.

I will say that I would have expected the school to, A, have submitted a revised CAP last week that included everything from the feedback, and if unclear, to contact the bureaus for clarification; and then, B, to show up here today with the revised plan based on the feedback they received.

I know it was short order, but I would have expected that, given the history that this has been going on since the December renewal meeting. So I have concerns about that that's not been done.

I am trying to be sure to provide that information through the bureaus. But, of course, the school can directly contact those bureaus and get this sealed up well for the students at the school.

Thank you.

THE CHAIR: And I'll just say that I appreciate the fact that the Deputy Director is willing to do this work on Sunday, you know, that

So are we still waiting for them to print the materials off?

MR. GENE ELLIOTT: Madam Chairman?
MS. KAREN WOERNER: It's been sent to the printer. Dolores went to go get it.

MR. GENE ELLIOTT: Madam Chairman, if I might, please?

THE CHAIR: Sure.

MR. GENE ELLIOTT: The report I have, the copy was indicated January 31st from the Special Education Bureau. That was a week ago yesterday. We got it on Friday. And I can assure you that Karen, doing a wonderful job on the weekend, is not the only one working on this issue on the weekend, because I've had to tell this lady right here to go home and get some rest, to go home and take the day off because she's been working nights and weekends on this, plus running the school.

But I would ask that you clarify for me. If we received the information on last Friday, when was the deadline that we could have to work on that, get it done and back to Karen before this meeting?

THE CHAIR: Okay. And, see, that's where I think there's a miscommunication here. The intention was not that that feedback was going to be

Page 43

Page 45

she could have just as easily have closed it out on Friday and not communicated anything and -- as I indicated before, I appreciated the fact that she responded to me, you know, after -- because I didn't get a chance to look at her e-mail until, like, quarter to 6:00 Friday night, so that, you know, she is gracious enough to do that work.

And I've gotten a number of e-mails on Saturdays from her; so that this isn't just, "We're not doing" -- you know, sometimes submissions are close of business day. But the rest of us are not just closing out at 5:00 and saying, "We're not doing any work."

And I do appreciate that. And unfortunately, you know, sometimes we do have these tough turnarounds, and we have to be also, you know, aware of what printing and the rest of that, where it becomes a challenge. And -- but it's frustrating for us sometimes when we can't put something on the agenda that we would really like to, either to close something out, and we can't because it's too late. It's -- I understand the reason for OMA. But sometimes it gets challenging and frustrating, because it's too -- it's beyond the time limit, and we can't do it.

to give you, once again, another opportunity to fix it. That feedback was really for us, and you're copied with it for your information.

But the full intention of last month was to outline, from the Special Ed Bureau and from us, what the issues were with -- what was communicated to us was, "We've basically fixed this, but because of timing last month, we weren't able to get it all in writing for you. So we will clean it up; we will put it on paper; we will send it to you."

So that there was no -- honestly, there was no further intention for you to be able to now go back and fix it once again from this second or third submission. The intention was you are clear with what our concerns were. You were going to go back; you were going to fix it; you were going to submit it. And it was either going to be okay, or it wasn't going to be okay at this point in time. That's -- that's what I believed --

COMMISSIONER ROBBINS: Yes. THE CHAIR: -- was the way it was going to be.

COMMISSIONER ROBBINS: Uh-huh. THE CHAIR: That this wasn't -- we weren't seesawing anymore. So that the feedback from Special Ed was just to communicate to us whether you got it right this time, or you didn't get it right.

And then we proceed from there as to what we need to do about that, that it wasn't -- and I'm sorry if that wasn't clear, that that feedback had the intention that you were going to be able to try it one more time.

MR GENE ELLIOTT: So then where are we in

MR. GENE ELLIOTT: So then where are we in this discussion?

THE CHAIR: Well, we need to take a look at what you -- what you have for us. And then we'll make a decision on where we are. Because I -- we still don't have eyes on the additional information. So more than willing to take a look at that now. So if we want to take a five-minute break and wait? Because we have to wait for the printing to be done.

So let's just take a break now and -- and that'll give us -- let's take 15, and that way, hopefully, we'll get the paper, and we'll have an opportunity to read it before we come back and discuss it, okay?

COMMISSIONER VOIGT: Quick question, Madam Chair. So also we don't have the ELL, as well?

THE CHAIR: We don't.

of those is what the school wrote and one of those

is what PED wrote? Or did you write both of those?
 DR. HOLLY SCHULLO: If you look at the
 Excel sheet --

COMMISSIONER ROBBINS: I'm looking at just what was given to us during the break.

DR. HOLLY SCHULLO: I wrote that with my special education coordinator in response to the feedback from last Friday from the Special Education Bureau. And they gave me Item A and Item B in response to what I wrote in our CAP.

COMMISSIONER ROBBINS: So this is what you wrote.

DR. HOLLY SCHULLO: In response to the new feedback last Friday, yes, sir.

COMMISSIONER ROBBINS: Okay. I guess the -- you know, it's Item B, the second part. It talks about, you know, the total number of minutes and things like that. But I don't actually see a definitive plan.

There's a letter that was sent out, apparently, to the parents. It's drafted; I don't know if it was sent out. I think that's the thing that's lacking perhaps in the response was no letter out to the parents. The parents were given to X

Page 47

Page 46

Page 49

COMMISSIONER VOIGT: So is that something that is also producible, if printed out?

DR. HOLLY SCHULLO: So to be honest, when I reviewed the EL, I didn't know how you would ask me to respond again. I wasn't sure what this meeting would be, whether you would want a written response or what my next directive would be.

So I continue to work on special education. And if you look at the EL feedback, it might just be the language that I crafted, you know. But I have a clear understanding of what we need to do. I have a committee on it. And we're moving forward.

COMMISSIONER VOIGT: All the boxes need to be filled in. That's where we need to be.

THE CHAIR: Okay. Thank you. We'll take a 15-minute break, and I think that'll be enough time. Thank you. I appreciate it.

(Recess taken, 10:02 a.m. to 10:30 a.m.)

THE CHAIR: Okay. Thank you once again.

And I think we've all had an opportunity to take a look at this. So I will ask Commissioners if they

have -- Commissioner Robbins?

COMMISSIONER ROBBINS: Yeah. There's two Item As and two Item Bs. Am I correct in saying one

date to give this back, that we are scheduling meetings with the parents.

What I see here is very general and doesn't specifically address the 235 minutes that's lacking and what is going to be done. Offering it is great. But what is the specific plan to meet that? Was the letter sent out? How many individuals have responded if the letter was sent out? These are the specifics I think that are lacking in a response to address the CAP.

The Corrective Action Plan is, "Well, we're going to do some of these things." It's -- we don't have deadlines; we don't have dates; we don't have numbers to look at to then measure are you meeting that? I mean, it's a kind of a general question. But --

DR. HOLLY SCHULLO: I guess my understanding, Commissioner, is that I was -- I'm making that plan. We have a plan for services there that should meet the demands of our CAP.

COMMISSIONER ROBBINS: But the intent from the December meeting and in January was that the plan would be completed and submitted for this meeting. And it was submitted; but it is still lacking the specifics. And you now -- what I just

Page 50 heard you say is you are working on the plan. DR. HOLLY SCHULLO: So I want to defer --we got new feedback last Friday. And it asks, like, specific things. Like, Item B, what would you do for a student who requires 900 minutes? At this time, I don't have that student in my building. I don't have that student. If I did, though, I know exactly how I would serve that student. And at that level, we -- you know, we will need new personnel. Ideally -- and that is the plan. We have a -- in March, for compensatory services, and the letter is finished. So that makes sense for our community and meeting one-on-one with them to serve those lost minutes. Moving forward, restructuring the model in our building for special education is content mastery classes for math and English, and then inclusion, where our special education teachers go in and work with students in those high-need classes, English and math. And that -- that makes the minutes. If I were to have inclusion, push-in and pullout, I would make almost 900 minutes per student. THE CHAIR: I just need a correction.

We are currently serving students now for the -- for the minutes that are on their IEP. But the compensatory is going to begin on March 1st.

You've got to give parents the time to -to respond and make sure that they are going to be
able to pick up their students from school at 6:00
in the evening; because you told us in the last
meeting that you did not want it in the summer, so
we are doing it after school.

THE CHAIR: I get that. But you understand the frustration with doing it after school as well. It's still almost punitive to that child, that if -- you know, "We didn't do this for you. But in order to make up for it, you're either going to not have to be able to go to work after school, and your parent is going to have to find a way to pick you up," that it's -- it's punish- -- "I have to stay after school to get the services that were required for this school to give me."

MS. REBECCA BEIDLER: During that time -- no, I understand.

THE CHAIR: And it is March. That we're not starting this, it's becoming exhaustive to think that these are kids we are not serving.

MS. REBECCA BEIDLER: They're being served

Page 51

DR. HOLLY SCHULLO: Yes, ma'am.

THE CHAIR: Because I don't think -- I
get -- I think the confusion that we're all having
at this moment in time is that we get the going
forward. "If someone comes in, this is what we're
going to be able to do."

The concern has always been -- was last

The concern has always been -- was last month, and still is from what I don't see -- is where -- the lost time. There is how many hundreds of hours -- because the last time you were here, you talked about the summer program, which -- you know, which -- I get that. But there's -- there's not that information.

And I'll be honest. From my perspective, to say that that letter still hasn't gone out to parents -- and it potentially isn't going to go out till -- did you say March?

DR. HOLLY SCHULLO: No. The letter says we will serve.

MS. REBECCA BEIDLER: We're going to begin serving students after school on March 1st. And we are going to do it.

THE CHAIR: So that's the makeup time.

MS. REBECCA BEIDLER: That's the compensatory service after school. After school.

currently.

THE CHAIR: But August, September, October, November, they were --

MS. REBECCA BEIDLER: They actually had services during August and --

THE CHAIR: But they were still -- well, you are hundreds of hours behind.

MS. REBECCA BEIDLER: Minutes, yes. THE CHAIR: So to say they were being

served, they weren't. They weren't. And that's -- and, you know, I've said this publicly. I understand the hour number. I understand that.

But my bottom line is if you were -- as I shouldn't be saying this publicly. But if you were serving those students appropriately -- and I could be okay with short hours. I'm not supposed to be, but I could be. But it's not the hours I'm concerned about.

MS. REBECCA BEIDLER: It's the quality. THE CHAIR: It's the quality and meeting the needs of those students. You have not been meeting the needs of those students. And in addition, you're out of compliance.

So my main concern is not meeting the needs of those students.

Page 54 If addition, we're a public entity. You're a public entity. And these are public funds. And you're out of compliance. And we've been desperately trying to get you into compliance, and we just -- and we can't. COMMISSIONER CABALLERO: Madam Chair, is there a State policy? THE CHAIR: I'm sorry. But I interrupted Commissioner Ruiz; so I will get to you. COMMISSIONER CABALLERO: Oh, okay. After

Commissioner Ruiz.

COMMISSIONER RUIZ: That's okay. So,
Ms. Schullo, I guess -- I was looking at revisiting
the transcript from last month. Because you keep
referring to the fact that you had insufficient
turnaround time.

And so my concern is, again -- and everybody that has spoken has restated this. So this was on the record in December. Again, revisited the minutes from last month. It was very clearly stated that you were insufficiently serving the needs of those students.

The bottom line here is we have to do what's best for kids. Those starting -- I'm sorry -- I have a cough drop in my mouth because I

And those kids -- and I'm talking about sufficiently service those kids.

And I -- I have a real problem waiting till March 1st.

MS. REBECCA BEIDLER: And I understand that. And I guess I misunderstood what the Commission was saying last time. Because I am actually serving those kids and have been serving those kids since November 12th. And I understand that we're looking at the compensatory services. And I misunderstood, because I was asked the question how was I going to make up those compensatory minutes. Am I going to pull those kids out of classes that they need right now, where they lose time in those classes currently?

I am pushing into classes to give them minutes, and they are getting sufficient minutes at this time. And they're getting over their minutes if you count the time that I'm actually being included in those classes.

So I guess it was my confusion, because I was thinking that the Commission was asking me to go and do compensatory services at a time given for the time that they lost between September and October. And so that's my -- my misunderstanding in the

Page 55

have a cough — starting those services at March the 1st is absolutely a detriment to those kids, because we've already missed all that time that we agreed last month that we were going to try to fix those compensatory hours. Those kids were not serviced. I realize you all are working with them now; but they were not sufficiently serviced.

And I have a real concern with that. I have a real concern with the fact that we're not going to truly change that for another two-and-a-half weeks. And this has been going on since December. And then we're about -- this sheet right here that you handed us that copies were made doesn't address that those special pullout services are being offered; occupational therapy, speech language therapy, any of those things.

language therapy, any of those things.

And so I have to tell you, I'm really concerned at this point because we keep, again, just revisiting the same thing. And I get that you're saying that the timeline is there. But the request from the Commission has never changed, ma'am. With all due respect, those kids weren't serviced sufficiently for several months. But when it came in December, the request from the Commission has not changed. And it's still a failure to service kids.

language that is written, because these students have been being served since November 12th, when I walked through the doors of the school.

I push into their English classes. I give them time in their English classes. I give them time in their math classes. I pull them out with me separately. And some of them are getting more than the minutes that were written -- that's written in their current IEP.

And so I see now exactly what is being asked. But I was under the impression that I needed to do a letter offering excessive compensato- -- the excess of compensatory services at a time given for the time that was lost; although, I am trying to recoup some of that time as we speak.

COMMISSIONER RUIZ: And I appreciate that. I want you to know that. I absolutely appreciate that you're trying to do that. But yet, and still, here we are. We are in February, and we are still discussing and trying to address the same issues that were brought forth in December. And so we can't keep doing this it. I mean, we can't just -- it's -- we just cannot continue this.

MR. GENE ELLIOTT: Madam Chair?

COMMISSIONER CABALLERO: Madam Chair?

Page 61

Page 58

2.1

THE CHAIR: Commissioner Caballero?
COMMISSIONER CABALLERO: I think all of us understand what was discussed then and what they had to do and what we have to do now. I don't -- I personally don't like to be put in the category of we will not do after-school unless there's a statute, a code, or a written policy internally that we will not do after-school.

2.1

But to say, "This is not what we're going to do," and include me in that -- when I read that letter and I understood the problem that we were facing was to make up time, and I thought about it within the hour that I was reading everything else, and I kept coming to the conclusion that that was probably the best solution, because you're not going to take away math and science and English and reading away -- take them away from that in order to make up time.

I don't think that's -- that's either good for children. So they're staying after school. Okay, so they're staying after school. They're not at fault. But they've got to do it in order to make up that time.

I was asked to stay -- time for my lunch hour, time after school, for English. And I never

their services through ancillary throughout this entire time.

COMMISSIONER VOIGT: Okay. So you have been contracting those out.

MS. REBECCA BEIDLER: We have a full-time psychologist that was on staff. I mean, she's been on staff there for many years there at Alma d'Arte. And she has served the time for the mental health minutes.

We have a social worker who is also on staff.

THE CHAIR: I'm sorry. Can I just interrupt? Can you introduce yourself for the record?

MS. REBECCA BEIDLER: Rebecca Beidler. I apologize.

And so the ancillary services have never been a question. They have received mental health minutes. We do not have any students with OT and have not missed ancillary service minutes.

COMMISSIONER VOIGT: Okay.

MS. REBECCA BEIDLER: If you go to
Las Cruces Public Schools -- and I'm not trying to
rat them out, but I worked for them. If you go to

Las Cruces Public Schools, and you look at what

Page 59

thought of it as a punishment, because I felt that the teachers were putting in extra time and giving me extra time; so I worked real hard for that.

If there is no policy, I think it should be the board that decides whether the after-school in order to make up this time is reasonable. I -- they were supposed to come in with a plan. That plan of 4:00 to 6:00, from March to May, seems to be like a plan for me in terms of making up that time.

Unless the board -- the Commission still feels that that's inadequate, that's a different story. But I think we need to get the feel from the Commission, rather than from one person speaking for all. And I personally don't think that I should be lumped --

COMMISSIONER VOIGT: Madam Chair?
THE CHAIR: Commissioner Voigt?
COMMISSIONER VOIGT: Thank you. So just for clarification, it sounds like you have been providing compensatory services since November.
However, what about the ancillary services? How have those been made up, as Commissioner Ruiz mentioned?

MS. REBECCA BEIDLER: Ancillary services have never been a problem. They have been given

is -- with speech, many of these kids that still qualify as speech-language on IEPs that come to Alma d'Arte have had their services suspended at Las

Cruces Public Schools, saying that their needs would be met in the -- in the general ed classroom.

So it's not Alma d'Arte that has changed that pattern, if you go back to the pre IEPs.

COMMISSIONER VOIGT: That answered my question.

In the second Item A paragraph on the copies that we were just given, you list as receiving inclusion services. Inclusion isn't a special education service. It's a methodology.

MS. REBECCA BEIDLER: Yes, it is. COMMISSIONER VOIGT: Okay. So it's not really providing a service, okay? So that's just kind of misnamed.

What Commissioner Robbins was referring to as a really specific plan -- okay, we're hearing some of the verbiage now that really fills in those gaps. But this is something that we never received before was something really specific that outlines your plan, a beginning and end time and hours and minutes and what you're going to do within those time frames I think would have been really helpful

Page 62 Page 64 for us. Okay? 1 1 COMMISSIONER VOIGT: Towards mastery. 2 2 Oh. And one more thing. On the second MS. REBECCA BEIDLER: Toward mastery, yes. 3 3 Item B, you talk about you're doing away with the COMMISSIONER VOIGT: Your regular 4 learning labs and you're implementing content 4 education students are also working toward mastery 5 5 mastery. Sometimes you have to bring it down to 10 Because mastery -- saying you're doing it and then 10 special ed levels, yes. 11 having the fidelity behind it to assess it properly 11 COMMISSIONER VOIGT: Thank you. 12 is -- they're two different things. 12 MS. REBECCA BEIDLER: Yes. 13 MS. REBECCA BEIDLER: Yes. I actually 13 THE CHAIR: I just have one question. In 14 14 taught math previously, so I have rubrics and stuff the -- I think it's the first Item B, you talk about 15 that go along with all of the math lessons that I am 15 hiring additional staff. What other additional 16 able to teach. And we ordered Step Up To Writing 16 staff are you looking to hire? 17 for writing. And I am still looking at reading 17 DR. Whatever is needed. 19 COMMISSIONER VOIGT: I'm not so much 19 THE CHAIR: We're asking you to identify 20 concerned about your programs, your curriculum, as 20 what that --21 in your methodology. 21 DR. HOLLY SCHULLO: Our greatest need 22 MS. REBECCA BEIDLER: Yes. So all of the 22 is -- okay. On my faculty, I have someone with a 23 23 methodology that is used is research-based Master's degree in Special Education and 24 methodology that has been --24 TESOL-endorsed. And she's my English teacher for 9 25 25 COMMISSIONER VOIGT: Aligned with rubric and 11. Yes. 2 I need someone highly qualified and SpEd-endorsed. 3 COMMISSIONER VOIGT: So if your special 3 There are 267 special education openings 4 education population is expected to reach mastery 4 in New Mexico. I have a plan for an EA to move 5 level, what is your regular ed population doing? 5 forward. I have someone from, you know, Virginia 6 Are they also expected to reach a mastery level? We've 8 population is reaching for mastery. 8 got our resources in the building. But right now, 9 MS. And that's what I'd 11 COMMISSIONER VOIGT: Are you using the 11 like to have. 12 content mastery program with your regular education 12 I'd also like to have an EA. But as you 13 students? 13 know our IDEA B money is -- it hasn't been approved 14 MS. REBECCA BEIDLER: That's the name of 14 yet. And this is things -- this is what we've been 15 it. To build skills. I don't know what else -- I 15 going back in time to correct. That work was not mean, this is a model that's been used in many, many 16 16 done properly from the beginning. And I guess what 17 of the public schools here throughout New Mexico. 17 you're reading now is my best assurance of what 18 So it would seem to me that the language that is 18 special education is going to look like at Alma 19 being used is language that's been seen before; but 19 moving forward. 20 it's to work on specific skills in reading, writing, 20 We need to do some hires. REBECCA BEIDLER: That's pulling them 24 THE CHAIR: Thank you. 25 out to work with them individually. 25 COMMISSIONER VOIGT: So to clarify, that's

Page 69

Page 66

the only position that you currently need to hire is a combined special education and ELA?

DR. HOLLY SCHULLO: Well, I would also like an assistant principal or a dean of students.

COMMISSIONER VOIGT: I'm talking about what you need to survive.

DR. HOLLY SCHULLO: Yes. But I know that I can't move -- I can't move over -- I have an amazing English teacher who has a Master's degree in special education right now in my building. She's TESOL-endorsed, and she's an expert in tutoring and serving students with dyslexia.

I'd like to just move her over for now for the next 62 days to help in my building, help our kids. If I had my way -- and I hope that Secretary Trujillo really helps us all follow through -- I have a nurse that comes in and helps us, you know, on an as-needed basis.

I want a nurse in my building. I want a social worker full-time. I want a counselor to serve our students. And I would like to have three special education teachers in my building next year. I want faculty. I want great personnel in my building.

THE CHAIR: Thank you.

nine students who are "C" level, which is twice the amount of service that the "B" level -- and this has nothing to do with you, either; you didn't do it, either -- but I just thought it was interesting that students went from "C" to "B," because "B" is like a class, maybe 46 minutes or whatever the class is, and "C" is double that.

MS. REBECCA BEIDLER: As we well know our percentages. I went back into those IEPs just to see what was going on. And, honestly, I think that that's where Dr. Schullo realized that they had a special ed problem when she first walked in. So she's really honestly tried.

I think that where the problem lies is in the ability to use the language that the Commission needs to hear so that she is truly trying to meet the needs of these students.

And so when I went in, I have -- I went back to the previous IEPs from all the previous schools. And there were nine "C" levels that were changed to "B" levels. This was not done under us. This was done before us.

And I do see the needs. And we have discussed those needs. And that is exactly why she is saying what she is saying when it comes to trying

Page 67

Commissioner Armbruster?

COMMISSIONER ARMBRUSTER: I'm sorry. I'm going to have to ask a few questions because I want to make sure I'm saying it correctly. So currently, Ms. Bidler [ph] -- Beidler? --

MS. REBECCA BEIDLER: Beidler.

COMMISSIONER ARMBRUSTER: -- sorry -- is the only special ed teacher, and there are no EAs?

DR. HOLLY SCHULLO: So our money right now in IDEA B is not accessible for that. I've earmarked it as soon as this money is available. And that should have been any day now.

I have an EA. I have three that we have informally interviewed, and we'd like to interview them and choose one to move forward.

COMMISSIONER ARMBRUSTER: Because I am concerned --

DR. HOLLY SCHULLO: I am, too.

COMMISSIONER ARMBRUSTER: -- about how much work Ms. Beidler has. And we don't want her to leave.

Secondly -- and I think this is your question, by the way -- is that I'm reading on the first "B" that you've reviewed all the IEPs. And it's kind of interesting, although maybe okay, that

to hire for next year, especially, that we have the adequate staff to meet the needs of these students.

We're working very hard to meet the needs of these students. But at the -- the way that we walked into this -- or I walked into this -- she walked into it, as well -- it was -- it was made to meet the needs of the school, not to meet the needs of the students.

COMMISSIONER ARMBRUSTER: Right. And that, of course, is a no-no. So it sounds to me -- what I'm getting is that -- how many children are there that you have?

MS. REBECCA BEIDLER: I think there are 31 with IEPs.

COMMISSIONER ARMBRUSTER: That's a lot.
MS. REBECCA BEIDLER: Yes. Mind you, some of those are As. Some of those are As. And they are emotionally disturbed students who receive only psychological services, and they have received their psychological services throughout. And so some of those are A-level students. But there are many students that had about 235 minutes per student. That needs to be made up.

COMMISSIONER ARMBRUSTER: Right. But right now, with the inclusion, you are able to

Page 70 1 1 either co-teach the class and re-explain what the between a rock and a hard place, because you can't 2 2 special ed kids might not understand. So you're take the kids out of science or music or whatever to 3 looking at not only doing the content mastery, but 3 make up their reading time. 4 looking at ways that that content mastery can be 4 And then when you -- generously, I might 5 5 actually shared with all kids. add -- offering to help by keeping them after 6 MS. REBECCA BEIDLER: Actually, that's 6 school -- and I know it's not punitive to you, but 7 7 it may be to them, as Commissioner Caballero was 8 8 COMMISSIONER ARMBRUSTER: I mean, it's -talking about; but -- you know, so you're really 9 like, "What?" MS. REBECCA BEIDLER: The practices are 9 10 10 good practices for whatever child it is. So I'm wondering if you have an EA, that 11 COMMISSIONER ARMBRUSTER: So that we're 11 if that couldn't make up some of your time. 12 looking into those kind of things we're talking 12 Because, say, you were in class -- I don't know --13 about, Step Up to Writing to do that; so it's 13 one class with ELA kids -- and this I- -- I'm sorry. 14 probably something with the whole class. It's not 14 In Los Alamos, we call them "IAs" -- an EA could be 15 really a pullout problem just for special ed, but 15 in another class where there are some other students 16 can be incorporated with all of your kids. So 16 doing English language arts, because you can only be 17 they're getting more time. And with this -- I'm 17 in one class at a time, or could be in the math 18 sorry. This part I never understand. 18 class, and that's where they could be getting help. 19 19 So the IDEA B is not approved because --Or they could be getting it in science, 20 did you answer that? 20 because if they can't read in English, they can't 2.1 THE CHAIR: No. I was going to ask. 21 read in science either. Or social studies. 22 COMMISSIONER VOIGT: Commissioner 22 So they could be getting extra time with 23 23 Armbruster, I don't believe -an EA. What I'm thinking is that may lower for you 24 THE CHAIR: Can we let the school answer? 24 the amount of hours that you have to make up. Is 25 COMMISSIONER VOIGT: Yes. But I have a 25 this making any sense? Page 71 Page 73 1 1 question for them as well after Commissioner COMMISSIONER VOIGT: No. I'm sorry. Let 2 2 Armbruster. me clarify and explain. An EA, an educational 3 3 DR. HOLLY SCHULLO: So I didn't bring Kate assistant, does not retain a teacher's license in 4 Shelton with me. She is our business manager. 4 order to provide those qualities of instruction, 5 5 We've submitted all of the materials on our end for okay? 6 IDEA B. We're just waiting for the approval. 6 And, also, for clarification, you don't 7 7 COMMISSIONER ARMBRUSTER: Truly, this is need to wait for your IDEA B funding to come through 8 8 in order to hire an EA. You don't need to wait for not my area of expertise by a long shot. So did 9 they have -- before you all were there, did they 9 that. 10 have that last year, and then it got taken away? Or 10 After you finish your reporting for your 11 you have to apply for it every year? Or what hoops 11 special education services, you submit that to 12 Budget. Then you would get the reimbursement should do you have to go through? 12 13 your EA be providing any type of support to your DR. HOLLY SCHULLO: So every year, that is 13 14 an application. And it ties back to our budget and 14 special education teacher. 15 our numbers. But I'm not an expert on IDEA B, you 15 So don't wait -- I mean, if you need an EA 16 know. We're waiting for that funding. And when 16 to survive, you don't need to wait for that IDEA B 17 that funding comes through, I'm looking at about 17 money to come through. 18 \$22,000 freed -- freed up here that I can, you know, 18 DR. HOLLY SCHULLO: Thank you. 19 hire an EA immediately. 19 MR. GENE ELLIOTT: Madam Chairwoman? 20 COMMISSIONER ARMBRUSTER: Yeah. It's 20 THE CHAIR: Sure. 21 about that much money with benefits and everything. 21 MR. GENE ELLIOTT: May I speak to 22 And that will help. And, actually, I would think 22 something? 23 that having an IA in a different class than you were 23 THE CHAIR: Yes. 24 in would make up some of those minutes that we're 24 MR. GENE ELLIOTT: I really would like to 25 25 talking about. Because -- I do see that you are make sure that everybody understands the conditions

Page 77

that the special education program was in when Dr. Schullo came on board and very shortly thereafter discovered the deficiencies and hired Mrs. Beidler to do the initial audit of the IEPs.

Now, that means that we have lost time. No question about it. But to try to say that we were at fault or deficient in not providing those services -- even though I understand they were not provided -- would indicate that Dr. Schullo had a file drawer full of ready to hire special ed teachers, and she could just pluck out a file and call them tomorrow and they come to work. That all takes time, as I understand it, to find the right person. And you heard her say how short they are.

So we will accept the criticism for being short on the services, because there were extenuating circumstances that we were trying to fix; did fix. We got rid of the teacher who caused the problem.

And I think that is a great credit to the management and the governance of this particular school is we found deficiencies and we tried to correct them. They did not meet the precise timetable of an abstract example.

But we did do it; and we are doing it.

31st of January.

Now -- excuse me. It was Friday, the 1st of February. I'm sorry. And she said, "I will" be -- "I will touch base with you on Monday to advise whether or not your attendance at the PEC meeting on Friday is recommended. I will confirm with PEC Chairwoman Gipson."

That timeline really doesn't give us much more time than to drive up here. And I -- I really object to the fact that we are somehow being defined by the fact of these short time frames. I -- you know, I'm retired. I've got all the time in the world. I couldn't respond to that in that time frame.

And another thing is -- the first time I heard that this communication from the bureaus was addressed to you all and not to us, it was a revelation to me; because when I got a copy of this, I assumed it was addressed to us, and we had to do something about it.

And, frankly, in that context, language is very unclear. It's clear when I understand it was written to you all: but it was not written to us. But in every effort to comply, Dr. Schullo responded to that when you say we didn't have to. That was

And so, therefore, whoever is -- be they parents or teachers or students -- have to work -- in any successful organization, one thing has to exist, and that's trust. And I think -- I know; I believe -that, we can be trusted to do this. And I think what we've said here today is an example of that.

Now, secondly, go back to that e-mail -regarding the information coming to us, I think I figured out the chronology here. On January 29th, Holly sent this packet of information addressed to all of you. And she sent it to Karen. Did you get this eight- or ten-page packet of information?

Right?

That was on January the 29th.

On January 31st, we got this e-mail -- a copy of this e-mail that the bureau sent to you; that's two days.

Then Holly received an e-mail from Karen that said, "Attached is the feedback from the Special Education Bureau, Language and Culture...," so forth and so forth. "Please review with your governing board and your staff and consider additional revisions. The information will be shared with the PEC...," which I'm assuming you were looking forward to. But that was on Friday, the

beyond our deadline.

So I'm just wanting to know -- I want specific direction where we go from here.

THE CHAIR: And that's what we're going to do next.

MR. GENE ELLIOTT: Okay.

DR. HOLLY SCHULLO: And if I may, did you all receive, like -- my faculty, before I joined them, like, we had EL -- three days' worth of teaching and learning for serving English Learners. And I sent the agenda items.

Now, I wasn't a part of that training. Every teacher has, like, a folder that they refer to strategies for working with English Learners. Did you receive all that?

COMMISSIONER DAVIS: I got it. COMMISSIONER CABALLERO: I got it. DR. HOLLY SCHULLO: I don't think -- this isn't the end of the story for me. This is just the information that I was able to capture, and, you know, collect from speaking with my faculty and doing the DASH plan and working with them to move forward.

So for me, this doesn't say that's the end of the story. This is just the beginning of what we know we have had training for and what we want to do in the future to serve. So I don't want you to think that that is my final answer and we've come to

a final solution. We're still working.

THE CHAIR: Okay. But here's our dilemma. This CAP has to be a final solution in terms of how we're clearing it out. This -- the CAP isn't intended to be an ongoing story; so that we create these CAPS to assure the Commission that things are being worked on, we're satisfied with the plan and how that plan is going to be carried out. And then we can close out.

So -- and I didn't -- I wasn't saying we didn't receive the material. What I was going to say is that it wasn't in the -- it wasn't in the CAP. And that's where things get muddled to a great extent for us. Because the plan is supposed to be -- and I know the boxes are small -- but it's supposed to be concise and in there, so that we capture what the plan is.

And we certainly understand that there is more information that goes with that. But we have to make a determination at this point in time if we are, in fact, going to -- so we have -- I will -- we have two choices at this point in time.

Page 80

letter comes from us that there's a breach; there's a non-compliance. So that's the choices for the

3 Commission at this point in time.

a Commissioner could, in fact, make a different motion if they so wish that is not part of those options, in that that's what the Chair sees, but it doesn't, of course, take away from the authority of each Commissioner to make their own motion.

COMMISSIONER CABALLERO: Madam Chair? But

THE CHAIR: No. And I'm willing to look at it -- you know, I'm looking at what I see as, you know, the options that we generally have in terms of the compliance ladder that we have; because we do have to fall within that framework as well.

But if, you know, someone has a different idea on it, it certainly --

COMMISSIONER VOIGT: Not a different idea.

I like those three options for succinctness. But I

just wanted to say, with -- in taking on a new

20 school, it's a huge, huge lift, and that you might

21 want to consider -- I mean, even coming from

Las Cruces High School, you know what your resources are in the community, right, to be able to tan into

are in the community, right, to be able to tap into that might be able to aid you more expediently than

waiting for something from PED in Santa Fe.

We have a choice to -- to close out the two CAPs, the EL CAP and the special ed CAP. And they are separate. Or -- well, I guess we have three choices. There's actually three choices. Because if you choose not to close out either one of the CAPs, there are two paths to go down at that point in time.

The one path is to extend it to March, to have that -- once again, to have a submission. And I'm going to tell you right now. We're sitting back at just about the same turnaround time; because that's what is challenging for us. And I thought we made an effort to make sure -- because we worked out that timeline with you; not just imposed it on you. And I think if you go back to the record, you're going to see that I asked, "Is that a fair turnaround time," so that that was agreed upon by us. So that that turnaround time is going to be just about the same, because we're looking at actually fewer days, because February is shorter. So it's --COMMISSIONER CABALLERO: And the next option is, Madam Chair?

THE CHAIR: The next option is a

non-compliance letter. That's the option, that a

There's a whole plethora of resources,

hopefully, that you can find within your community that will help you with the timeliness of getting -you know, of getting the support that you need to

bring yourself into compliance. I'm hoping that

you're able to tap into that.
 DR. HOLLY SCHULLO: Thank you.

8 MR. GENE ELLIOTT: Thank you.

COMMISSIONER VOIGT: I'd like to make a motion.

THE CHAIR: Certainly.

COMMISSIONER VOIGT: I would like to move that we close out the special education compliance CAP -- the special education CAP and move the

March -- to March, the ELL cap.

COMMISSIONER CABALLERO: Second.

THE CHAIR: There's a motion by --

18 COMMISSIONER VOIGT: Even though we were 19 expecting it today. But we'll move it to March.

THE CHAIR: There's a motion by

Commissioner Voigt and a second by

22 Commissioner Caballero.

Anthony, as you all know, it's been many

months of trying to get this all solved with several

25

1 legal issues. For those of you new on the 2 Commission, some of those revolved around a question 3 of whether portables and the way they were attached 4 to the land actually were attached to the landlord, 5 whether those are still truly portable, et cetera, 6 et cetera.

But those issues have been resolved. The GSD has agreed with the Commission and the PED's request that the portables go to the City of Anthony and the inventory to the other State charter schools.

However, it then moved on to the DFA to review. Apparently, a little history here is that there was -- there has been a legal case involving assets that were transferred without following the review by the State. And it was raised that the State, because they didn't do that, it was an illegal, inappropriate transfer of assets.

So we're trying to make sure we have everything covered so that we don't run into the same issue. And since this is a new, I suppose, process, the DFA -- the last e-mail I received was that the DFA is asking their legal counsel to review all this before they give us the official word.

So it looks like we're all in order, as I

1 as well. They took the --

2 COMMISSIONER ROBBINS: The axles.

THE CHAIR: -- the axles off the

portables. So that's where the challenge was. Are they really portable any longer? You know, they weren't on -- they were on those little pontoon-y

6 things.

> COMMISSIONER VOIGT: Most portables will sit on those type of pontoons.

MS. KAREN WOERNER: They were also welded to some bars that were laid in the concrete. So it gets a little bit deeper than that.

COMMISSIONER VOIGT: That's the standard installation for portables. They make them non-portable.

So I have a second question. Does PED have a school closure person currently? I know Ms. Beery was doing it. Do you have a person that does that?

MS. KAREN WOERNER: Yes. But no, we don't have an employee. We still have a contract. And I think I mentioned this last month. But it was a -a contract was signed in August with Southwest Regional Education Cooperative to provide school closure, to help handle the school closure

Page 95

Page 94

Page 97

1 mentioned last month; but I'm still waiting for official word. I will tell you that our legal 3 counsel here has done their due diligence to follow 4 up and request and continue to hound the agencies 5 that need to respond. 6

COMMISSIONER VOIGT: Madam Chair. I have a question.

MS. KAREN WOERNER: Yes.

COMMISSIONER VOIGT: So regarding the portables, were those purchased by the school?

THE CHAIR: No, they were purchased by --COMMISSIONER VOIGT: They were purchased with the property?

THE CHAIR: No. none of the above.

COMMISSIONER VOIGT: Okay.

THE CHAIR: The -- they were renting the property from the water authority, the water utility in Anthony. It was the water utility who purchased the portables for the school and moved them onto the property that the school was renting.

So the -- the water utility gave clear title to the school of the portables. They still rented the property that the portables were situated on. The water utility, when they did the site work -- and the water utility did all the site work

proceedings.

COMMISSIONER VOIGT: And inventory and --MS. KAREN WOERNER: All that. There's a lot of work primarily around inventory and files and records and those sort of things. In turn, Southwest Regional Educational Cooperative did indeed subcontract Sandy Beery. COMMISSIONER VOIGT: Oh, Sandy.

MS. KAREN WOERNER: So I am still working with Ms. Beery. She is halftime at McCurdy Charter Schools; but the other half, I guess, is available to do school closure proceedings. So she is the one who currently has the contract and who we're working with, at least for this year.

I do think that when we're fully staffed, there are some pieces that we could take on in-house. But I can't state now what -- how much we really could do, and if we'll still need some contract in the future. But currently, we have that contract till the end of June.

COMMISSIONER VOIGT: Okay. Thanks. THE CHAIR: And it's -- you know -- and I'm sorry. Because my understanding was, from the e-mail that I received, that we were good to go from DFA, that the only thing that needed to be done --

and there was -- for whatever reason, the concern about how the inventory -- how that list was going to be populated. So I don't see where that holdup still is, because DFA, my understanding is, has signed off on all of it.

MS. KAREN WOERNER: Oh. So that -- I'm sorry, Madam Chair. That may have been how I presented it. We had an e-mail from DFA that they didn't -- and from GSD -- that didn't show any opposition. But we haven't received the official sign-off. So it seemed like all was going to be good: but we had not received the actual official written confirmation that would allow us to proceed.

So -- and that is because they wanted to have -- and Aaron did follow up trying to get that documentation, and that's when we were told that they were having their legal counsel review it.

And then regarding the other, that was my concern about being new to school closures, how the inventory -- I know there are certain rules -- from my previous experience, certain rules in how disposal -- whatever the word is -- disposal of inventory and equipment needs to be handled, in a certain chain of command, certain entities and certain orders.

Page 100

10 of -- I do remember.

THE CHAIR: We did.

COMMISSIONER CABALLERO: We had our own policy. And so if they're saying that there is no policy, that -- yes, there is.

THE CHAIR: We do. There's no -- I think what Karen is referring to -- and correct me if I'm wrong -- that there is no outside rule that says, "This is how you have to dispose of the property."

There isn't. So it is our -- and you're absolutely correct.

COMMISSIONER CABALLERO: Now, do they follow it?

23 THE CHAIR: That's the continual e-mails 24 that I keep sending out saying, "This is my 25 frustration." So that in anticipation that this is

And I just didn't know if there was anything I needed to follow. That's what I was following up on. Turns out that legal counsel said that there is no guidance on that. So -- so all we need to do, then -- an e-mail has been drafted. I also need to reach -- I need to make contact -- and I've tried -- to the mayor of Anthony to just -- at some point, there was an agreement reached that the inventory -- you know this from before -- but I want to communicate to the mayor of Anthony and be clear that they are aware that they're getting the portables only.

THE CHAIR: They're very aware of that. MS. KAREN WOERNER: Okay. Awesome.

THE CHAIR: My concern is -- and I've expressed this. My concern is that the inventory still is there; because those portables have been sitting there, you know, since August.

> MS. KAREN WOERNER: Right. THE CHAIR: Actually, since July 1,

untended. So -- and what the quality of some of those computers -- because they've been un-air-conditioned through the summer and now. So

23 24 there's -- you know, there's serious concern about 25

1 going to be closed out, there's an e-mail. And I 2 thought two months ago -- my best guess -- two 3 months ago, we asked for an e-mail to be sent out to 4 the charters identifying the inventory that was 5 available so that those charters, first off, that 6 wanted the materials, they could weigh in on, "Yes, 7 this is -- this is what I want," and if it makes it 8 easier, that it get -- that the first offer is to 9 those schools within the geographic region, because 10 it's the quickest and easiest to pick up the 11 materials, to say to the charters that are there, 12 "Here's what's available."

> If they say, "No, we don't want it," then we extend it out, that that's done so that as soon as whatever comes from DFA, the phone call can go and say, "Hey, you can go down Tuesday and pick up the..." -- the whatever -- whatever it is.

MS. KAREN WOERNER: Yes. And. Madam Chair, Commissioner Caballero, my intent was not -- we are going to, of course, offer it to the State charter schools first. My concern was, was there any particular order or any way we needed to do it to be equitable and fair.

Apparently, there isn't an established procedure. So it will be offered to State charter

Page 102 Page 104 1 1 schools. THE CHAIR: Right. Yeah. 2 2 MS. KAREN WOERNER: So then, therefore, The e-mail that was drafted -- now that I 3 3 know that the mayor does know. I don't need to it'll just go to the existing State charter schools. 4 continue to try to reach her. But I will -- the 4 And then we'll see if they take everything. 5 5 THE CHAIR: Right. e-mail that was drafted was explaining that inventory will be available as soon as the sign-off 6 MS. KAREN WOERNER: And if not, then we'll 6 7 7 is -- it's not yet ready. As soon as we receive move to -- other charter schools? 8 8 official word, it will be distributed. THE CHAIR: I think the next school to be 9 9 The contractor -- I've spoken to the discussed is that -- falls into that other category. 10 10 So that if we're looking at the potential for contractor about how it best is that she has done 11 11 this in the past with getting who wants what. A closing Dolores Huerta, their inventory --12 12 MS. KAREN WOERNER: Would be available to form that she has them fill out that will be 13 13 approved schools. e-mailed to her to track. She has assured me that. 14 14 THE CHAIR: -- would be available to the generally speaking, she offers it to the schools 15 that are about to open first. It's up to the 15 approved schools. And that makes a little sense. 16 16 Commission if I send it to them first before all the Commissioner Caballero? 17 17 COMMISSIONER CABALLERO: Yes. others. 18 18 Madam Chair, just a clarification. I know when we But either way, she always negotiates it 19 19 crafted our policy, it didn't say just to the to try to balance. If lots of folks want certain 20 charter schools close by. 20 things, she tries to balance it out and works with 21 21 the schools directly to do that. THE CHAIR: No. 22 22 So the e-mail from me would be to just COMMISSIONER CABALLERO: And -- yeah -- so 23 say, "Here's what's happening. Here's -- we don't 23 that charter schools that may be far away are the 24 24 ones that have the least amount of money available yet know. When it is ready, you'll have to arrange 25 25 to put into supplies and stuff. come to the school to pick it up. We don't have the

Page 103

Page 105

capacity to store or transport it. An e-mail will come from Ms. Beery, so that she can have it in the format that makes it easier for her to track who wants what."

I anticipated having that done already this week; but I have not, mainly with the issue of reaching the mayor. With your knowledge that the mayor is aware, then we can send that even today.

THE CHAIR: But the only thing I'm going to say is I hesitate to make the offer to the schools that may open; because it is a "may open." So I hesitate to let someone pick up materials. And if we don't vote in June for a commencement of operation, now we have to get materials back from --so I think that muddies it. If it was that we had -- if it was a July closing --

MS. KAREN WOERNER: That makes sense. THE CHAIR: -- and we had already voted to open this school, I could see making those materials available. But I think at this moment in time, it wouldn't be appropriate to offer it to schools that have not yet received the commencement of operations.

MS. KAREN WOERNER: Excellent way. I guess, normally, this is happening at that time.

THE CHAIR: Correct. It'll be made
available. But I thought when -- there was an
express concern about having to actually get the
inventory. My one suggestion was, "Well, try to
offer to the ones closest, so maybe they can quickly
go down and get it."

But -- because I did not realize that Ms. Beery was still working; so, hopefully, we can move forward with this. I'm not going to say quickly any longer, because it's seven months now.

(A discussion was held off the record.)

THE CHAIR: Okay.

MS. KAREN WOERNER: So point of clarification, just to be sure I understand, inventory at Anthony should be offered to all currently existing State charter schools. Thank you.

THE CHAIR: But it is -- of course, it's on them that they have to come pick it up. And I think -- I've got no problem with Ms. Beery setting a time frame that the material has to be picked up within -- because we need to get those portables to the City of Anthony.

MS. KAREN WOERNER: Absolutely. THE CHAIR: So -- but I think a reasonable

time frame and -- you know, whatever she feels is --is appropriate to do it, because she -- I'm guessing she has to travel down to Anthony to oversee that. So -- and I have said I've got no problem. If someone can't get there, I'm more than willing to meet someone down there to help them if they need to pick -- so if she can't make it, and a school wants to pick something up and I'm not here, I will gladly meet them in Anthony to help expedite that. So please feel free to call me.

MS. KAREN WOERNER: I have shared that with Ms. Beery. And I also expressed that I would be interested in going down as well, just because I'm trying to learn about all of the closure process and how it's been handled, just for my own education.

THE CHAIR: Right. Right. it's a fascinating adventure. All right.

2.1

MS. KAREN WOERNER: So -- and then that moves us on to La Academia Dolores Huerta, a meeting that I haven't included in this group. As you know, they have filed an appeal with the Secretary of Education. There's a hearing on February 20th regarding that.

However, I have spoken to the school.

appeal is not granted in their favor, that they will have to be closing the school at the end of June -- or by June.

They have not actually specifically stated that in the letter. I think it's clear; but it's implied in the communication they've had thus far. So I did ask the head administrator to be sure that that was included in the next communication, just to be clear that if the appeal is not approved, the school will be closing.

I was also advised that they have had some conversations with Las Cruces Public Schools about a possible other option in terms of a magnet school; but it would not be a charter, per se. So that's just something that they shared with me.

Also, there's a letter from the PED that normally has gone out from the Deputy Secretary of Finance and Operations, which is the one deputy secretary we don't yet have, that normally goes out to the schools that kind of introduces the contractor and explains some of the process and expectations that I've been trying to get signed by the vacant deputy secretary.

And I've sent it to the Secretary's office. I have not received it back as to who will

Page 107

They are following the closure steps on the outline from the PEC. I would say that the only step they

3 haven't missed -- that they've missed in terms of

the timeline is the parent meeting, where they talk about student options and transfer of records. I

think they're waiting until after the hearing to have that meeting; so...

COMMISSIONER CABALLERO: That's a good move.

COMMISSIONER VOIGT: Where is that hearing at?

MS. KAREN WOERNER: Here, in this room. So they have sent -- they have communicated with the families and with the staff. They did send a letter to the staff. They also sent the -- they have communicated via their website, Facebook, and a Remind app, which the head administrator assures me that every student's family has access to this Remind app, which is a form of communication through your cell phones, where it sends a text message.

So they've sent those letters through those three mediums, the website, Facebook, and the Remind app, but haven't actually sent a hard-copy letter. They plan to send another note prior to the hearing that will specifically state that if this be signing that letter to send to introduce the contractor. And I'm not sure if that's related to the hearing that's coming up or not; but I have not been given the letter to send out and advised who should be signing that. So...

THE CHAIR: Yeah. Because my understanding is that letter is -- goes out -- you know, regard- -- it doesn't stall because of the hearing.

But I -- you know. But I -- maybe because of the vacancy that hasn't happened. But that's -- that's on them to do that.

MS. KAREN WOERNER: So it's at the Secretary's office to advise me who should be signing it.

THE CHAIR: Well, you know what? Regardless, there will be a decision fairly soon. So we'll see.

MS. KAREN WOERNER: That's all I know. THE CHAIR: All right. Thanks. I am remiss. Because I should have removed "7" from the agenda, because we decided to move that to March.

MR. CHAIKEN: Madam Chair, I think that was the financial frameworks.

THE CHAIR: I apologize. I'm looking at

Page 118 Page 120 1 COMMISSIONER ARMBRUSTER: Do we get to 1 the intent was not to do that. But the intent was 2 2 vote on that? that there would just be this 500 to 1,000 3 COMMISSIONER RUIZ: Only if you include 3 students -- because the number was in question, that 4 Commissioner Raftery this time. 4 would -- that some schools would be able to increase 5 5 THE CHAIR: Okay. But then what are you going to 10 remember if I did --10 do after that year?" 11 MR. CHAIKEN: Madam Chair, are we doing 11 So it really was very unclear. That has 12 12 the Legislative Strategy? been pulled out of SB 1. It is not in HB 5. 13 13 THE CHAIR: I thought we were doing that So that was a good effort by schools and 14 later. Sorry. I was leaving that. Actually, I 14 other community members to address that issue and 15 thought I was incorporating that into my report. 15 have that removed. 16 That's why I thought I'm okay. 16 There's a second piece in both HB 5 and 17 And I was; but no one came. 17 SB 1 that speaks for the charter application. And 18 So Discussion and Possible Action on PEC 18 it asks for a three-year enrollment projection. 19 19 And I've had numerous conversations with Legislative Bills and Strategy. 20 So a couple of updates. And that's why I 20 both Senators -- but I had a long conversation with 2.1 was kind of incorporating that into my report, so 21 the Chair of the House Ed Committee -- that I don't 22 that's why I sort of skipped it. But in my report, 22 understand why we're asking for a three-year 23 23 we can't take action; so this is better. enrollment projection when we currently ask for 24 24 I came up -- I've been up a lot. I came five. So why are we reducing the requirement and 25 up for SB 1 and the hearings for SB 1. There were a 25 giving us even less information to make a Page 119 Page 121 1 1 responsible decision on? And the response was, "We lot of -- it was amazing the community input in 2 2 favor of the charters in terms of not having the didn't know you asked for any." 3 enrollment cap that was rolled into SB 1, that the 3 So -- and -- I'm sorry -- my response is, 4 Albuquerque Chamber of Commerce came, Kids Can came. 4 "You're right. I don't have a phone," you know, 5 There were some real estate agents that -- that 5 "that it's not like you don't know who any of us 6 6 independently came up to speak against it. No are, it's not like we haven't been before you to 7 7 doubt, there was a great showing. show you, and it's not like all of this information 8 8 But Charter Schools, I made public comment is not on our website." 9 in regards to it. There was also public comment at 9 So if -- so I'm hoping that it's removed 10 10 that time about the age limit, because SB 1 and HB 5 out of HB 5 tomorrow. I -- everyone's fairly clear 11 included two things -- three things, actually --11 that it should be, because it doesn't make any 12 directly related to charters. The first is that 12 sense. 13 there was an enrollment cap that was embedded into 13 The third part of SB 1 and HB 5 is the age 14 14 the bill. cap. And the age cap that's embedded in HB 5 and 15 And it read that PED would be able to --15 SB 1 is 21 years; so that after the age of 21, 16 PED would determine what schools deserved to have an 16 students would no longer be eligible for funding. 17 increased enrollment cap and take enrollment from 17 So, therefore, our recovery -- any schools that are 18 other schools. That's how the bill was read --18 on recovery programs would not get funding for those 19 that's how the bill read. 19 recovery programs. So that there's a general 20 And I spoke specifically against that in 20 concern, without a doubt, about that, 21 21 terms of the concept of having to disenroll students And I wanted to have some discussion here 22 from a school so that another school could get 22 with the Commission in terms of their sense, because 23 23 additional students, and how do you -- talk about as I've said, I don't speak for the Commission 24 equity and trauma. 24 unless I understand what the -- what the 25 25 It was changed in the public hearing that Commission's direction is in this term.

I'll briefly identify what I think is a fair and reasonable system to be set up for this, and you can weigh in on what you agree or disagree or have a different take on it.

I still have five years of NCAA eligibility if I want to go back and play college ball. I do. Well, you know, I just -- when I grow up, I might. So I am -- I'm pretty much a supporter of the concept of giving students 17 or 18 years of school eligibility. And if they don't -- if they leave school when they're a sophomore, and they still have -- you still have four semesters or whatever you want to call -- you still have two years of eligibility to come back to school.

And whatever rule was created to say if you walk in the door on this given day, and you reenroll in a recovery program, and you're gone in two days, you've ticked off a semester, I'm okay with that, that you can't just -- I understand the bouncing back and forth.

But I think -- you know, we hear the stories of these adults that have had the opportunity to come back and get their high school diploma and the value of that high school diploma. And I think unfortunately, the narrative too

Page 124

1 it's going to be 21. So there has to be some kind 2 of compromise that's created to make it palatable 3 for those that are — we're not funding after 21.

So I'm open for suggestions.

Commissioner Raftery?

COMMISSIONER RAFTERY: Do we have -- don't we have special ed kids that go to school till they're 21?

THE CHAIR: We do. And, actually, they can go beyond 21. But they don't get services — no services have to be provided or will be provided after 21. But they could still go after 21. They're just not going to be funded. The law actually says services will not be provided after the age of 21.

COMMISSIONER RAFTERY: So we do already have kids going to school till they're 21.

THE CHAIR: Correct. Correct. But at this moment in time, because of the recovery programs, we have people -- I went to New America's graduation last summer. And there was a grandmother, a mother, and a daughter that graduated. So there -- you know, the recovery programs are servicing adults that far exceed the age of 21 at this moment in time.

Page 123

often -- and I sat next to a woman at the SB 1 hearing. And she said, "I wouldn't want my child sitting next to a 35-year-old man."

And I said, "They're not. I wouldn't want that, either." You know, that these are adults going in in the evening, and they're not a 35-year-old man sitting next to this little 14-year-old girl at 10:00 in the morning in Algebra I. That's not what it is.

So I think that narrative has to be cleaned up, because that's the vision that a lot of people have.

But I think it's -- I hope it's a fair alternative to say, "Give them 'X' amount of semesters," and say, "Here's your opportunity. If you don't avail yourself of it or if you decide, and it -- and you drop out, you've lost -- time ticks off."

And I -- you know, I hope that's the route that people go. But I'm certainly not going to express that publicly unless that's something that the Commission also supports.

So I'm here to have a little chat about that and see how Commissioners feel about it, because the -- you know, I think the alternative is, Page 125
COMMISSIONER CABALLERO: We could pick a number like 25, at least -- or no -- no age bracket,
I would say.

THE CHAIR: And, see, I'm more of the latter, mine, that it shouldn't be an age time, because I think 25 would cut off most of the people that are in our recovery programs. I'm still of the preference, give them a number of years that you have to get funded by education. And if you're 55, and you still have two years left to be funded, we can -- we'll still fund you, you know.

So -- but that's -- you know, I think the -- most of our charters would not be supportive of as low an age as 25 with that. Because I would bet -- I would just guess that the -- probably the average is somewhere around 35 or 40 that's coming back to those programs.

COMMISSIONER RAFTERY: Can I say something?

COMMISSIONER VOIGT: Go ahead.
COMMISSIONER RAFTERY: When I was in high school, we had a gentleman. He was about 40 years old. And he would go to class with us all day long.
And he graduated with us. And we knew him. And he was a real hard worker, and he was just -- you know.

Page 126 Page 128 1 But it didn't scare us. 1 THE CHAIR: They do. In addition to the 2 2 Of course, it was a different day and fact that you're absolutely correct. 3 time. But, anyway, I know that you're talking about 3 COMMISSIONER VOIGT: And it's never too 4 a night school; is that correct? 4 late to try to attain a dream, right? 5 5 THE CHAIR: Yes. THE CHAIR: Right. 6 COMMISSIONER RAFTERY: So it would not 6 COMMISSIONER VOIGT: I didn't become an 7 7 even be with the kid; so -- so I don't have a educator until I was in my 40s. And, you know, it's 8 8 problem with them -- you know, the age doesn't never too late. And we don't want to cap people's 9 9 matter to me. I think that this should -- if they dreams. 10 qualify, let them do it. Thank you. 10 THE CHAIR: No. And, you know, I'm -- I'm 11 THE CHAIR: Okay. Thanks. And it is a 11 amazed -- and I hate to say lack of humanity. But 12 12 new day. So a 40-year-old -- yeah. Commissioner it truly comes out to me as a lack of humanity when 13 13 Voigt? people hear these stories and then can't embrace the 14 14 idea of doing this for -- for these folks. COMMISSIONER VOIGT: Thank you, 15 Madam Chair. 15 And also, part of the narrative, saying, 16 The reengagement of adult learners, I 16 "Well, we're giving Higher Ed another \$5 million." 17 17 Well, they needed that anyway, you know, just to think is so important for our state, because we have 18 so many rural communities that have been excluded 18 fix -- because they also faced all those -- those 19 19 from access even to public education. When you look cuts. 20 at the Navajo Reservation, in itself, it's so vast; 20 And just -- just throwing money at 21 but also the hardships of a lot of our communities, 21 something doesn't make a good program. And 22 22 that's -- and I've also had this discussion. If you just economically: girls getting pregnant at 16 and 23 23 having to raise kids -- you know, for them to be could create a program that would give that high 24 24 able to have the opportunity to come back and be school diploma through that avenue, then fine. But 25 25 reengaged as an adult learner, I think if we didn't you can't say, "We're going to eliminate this, pull Page 127 Page 129 1 1 do this, it's telling them, "We don't care about the rug out from under you, and we've got no safety 2 vou." 2 net for you to say, 'But you can go here and get the 3 3 same opportunity." And the GED? I'm sorry. That's not an 4 option. A high school diploma outweighs the value 4 And that's not there. And that's --5 of a GED by so much. And so when we look at this 5 that's what I'm concerned about. COMMISSIONER VOIGT: Right. And then also 6 reintegration of adult learners, I think it's 6 7 7 crucial to stand by our communities to support them just the overall value aspect of a GED and a high 8 8 to get a high school diploma. And I'm all for it. school diploma. What's more valuable? We know 9 THE CHAIR: And, you know, what has been 9 which one is, right? 10 expressed -- and I have a good friend who teaches in 10 And so a GED is basically, "Here's your 11 a GED program. And most of the GED programs, the 11 GED. Go work at McDonald's." That's the same thing 12 12 presumption is you have the skills. You just left as saying, "We don't care about you." 13 school for whatever reason. 13 THE CHAIR: Commissioner Crone? 14 And, therefore, the programs that they're 14 COMMISSIONER CRONE: I partially disagree 15 15 starting with, the success rate is so low with the with that. There's an exemplary program at Northern GED programs because the students aren't getting the 16 New Mexico College that the graduation rate is close 16 17 services they need to be able to move out of that 17 to 100 percent. And the majority of those graduates 18 18 GED program, because that's not embedded in the GED go -- enroll in the college. It's an open 19 program. 19 admissions college. And so you can do it right. 20 20 But it is in those reengagement recovery But I'm not disagreeing with anything 21 programs, that they do provide those -- that --21 you're saying. But I just wanted to -- there's 22 22 those ancillary services to try to move them ahead. something good about Northern. Did you hear me say 23 23 So that's why -- and the GED programs have also an it? 24 abysmal success rate. 24 THE CHAIR: Thank you. 25 25 COMMISSIONER VOIGT: They do. COMMISSIONER CABALLERO: Just as an

addition, it's very -- it's not difficult to figure out that the need is great. Because for many, many years, the State went at 50 percent graduation. It has slowly improved, but, still 65, 75 percent only is still a huge percentage of 10, 15, 20, 30 percent non-graduates.

And those folks are out there. And they've been out there for many years. And you need to improve our population.

THE CHAIR: You're absolutely right. But I'm going to give a shout-out to Las Cruces, because we have an 85 percent graduation rate. So it's -- there's -- through a lot of effort. And it's -- considering the diverse population, it really -- it's good hard work that's being accomplished.

So. Commissioner Robbins?

COMMISSIONER ROBBINS: Just for clarification, the graduation rate that's generally reported is a four-year graduation rate. If you're in special ed, and you're there until 21, like my son was, the year he turned 22, he ended school. But he spent basically six-and-a-half, seven years in high school. So he didn't count in the four-year or the five-year or the six-year graduate. But he did graduate.

Page 132

You know, I struggle with this. I mean, part of me says, "Yes," and I can remember a very early vote where I did this, by the way. And a part of me says, "Well, you know, we look at the schools. They're getting SEG money for 25 kids, and five are graduating." Not the four-year, you know, but for this group. That's a lot of money going.

Then I'm listening to Tim and checking about the GED issue, which is at least you can get a job or go on to college.

And so how long do you want to go without either the high school diploma or the GED? And by offering the high school diploma, then you still have a lot of years where you're really not employable, because you have not matriculated from a higher education.

So I truly have this conflict. I was just asking Tim if -- you can't just go get a GED, because you have to have some information to be able to pass the test. And I don't know what it's called anymore. But, regardless, we all know what that means. He was saying -- what I understood you to say was --

COMMISSIONER CRONE: Let me correct something. You can just go take the GED. When

Page 131

He was special ed. He was D-level special ed. Does that high school diploma — does that high school diploma mean the same as someone who was in advanced math or advanced science? No. But he does have a diploma.

So -- and my daughter got a GED because she was home-schooled the last two years of her high school. We home-schooled her. And she went to a private program. She got her GED. She went to college, got her Associate's degree, became a Registered Nurse.

And when she ended nursing when she started having kids, she was making over \$30 an hour. So a GED doesn't mean you can't get a job.

THE CHAIR: So the sense of the Commission, are we in support of a maximum number of years to say you are eligible for funding and --

COMMISSIONER CABALLERO: I am. COMMISSIONER ROBBINS: Uh-huh.

COMMISSIONER ARMBRUSTER: I'm sorry,

Madam Chair. So we're talking about whether we want to have an unlimited age --

THE CHAIR: Uh-huh.

COMMISSIONER ARMBRUSTER: -- to go back to school?

David was talking about his daughter, there are a

number of students at Northern -- and other

colleges, not just Northern -- that enter at 14, 15, 16. And with the dual credit and concurrent

enrollment, a lot of them are doing it that way.

But some young people just don't like high

school. And they take the GED and go right to college; so that happens as well.

COMMISSIONER ARMBRUSTER: Right. But if they go to a community college because they dropped out of high school when they were a sophomore, they're now 20, but they don't have the skills to pass the math or the skills to pass the reading -- and I'm asking you this. Do -- are there classes that prepare them to be able to pass it?

COMMISSIONER CRONE: Yeah. That's -- there is an instruction program where they prepare you to pass the test.

COMMISSIONER ARMBRUSTER: So I guess my conflicted feeling is that I would say we should limit it; because I think that we're paying SEG money where they could be going to get it -- I don't know. It's, like, a terrible --

THE CHAIR: And I'm going to add that in my area in particular, there is a transportation

challenge to get to the community college. If you don't live within the city limits of Las Cruces, if you live anywhere in Doña Ana -- outside of Doña Ana County, for you to get yourself to the branch of the community college, for many of these people, they can't do that, because we don't have public -- we do not have good public transportation in Doña Ana outside of the city limits.

So that option really isn't — and a lot of it is timing, as — you know, to some extent, for when those — because when and where those programs are offered is —

COMMISSIONER ARMBRUSTER: So then is this bill that all high schools will offer that?

THE CHAIR: No, no, no. The bill says, "We will not provide SEG money after the age of 21," period. That's it.

COMMISSIONER ARMBRUSTER: So right now, does every high school — because we're talking about transportation. So does every high school allow older students?

THE CHAIR: You have to have a recovery program accepted through --

COMMISSIONER ARMBRUSTER: So the transportation may be still an issue is what I'm

of those allow anyone over the age of 21, because the GED option is there. And we have a lot of success rate.

And at the junior college, they even offer classes for those students who are pursuing a GED that are not even at a cost to the student. They have — it is at our junior college campus. But they're free classes in the evening, and it enables those people that are over the age of 21 to pursue that avenue.

So I don't know. I'm kind of torn here. I'm really torn. I see that it's going to affect charter schools; but -- I don't know. I don't think having a -- just, all these older kids or adults -- they're not kids; they're adults -- is necessarily a good thing.

But, I mean, we don't do it in Hobbs. And we've never had an issue there. And I know we're just one district; but --

COMMISSIONER VOIGT: You know, a school that comes to mind right away is Gordon Bernell, which is an APS charter school. But they have probably -- at least 99.8 percent of their population is over 21 that have been incarcerated, or still are, but are eager to learn and get their

Page 135

high school diploma.

I know there are several charter schools that have evening programs exclusively for their older learners that are reintegrating. And I think that's the operative word here is "reintegration." It's recovery. It's not integration into, you know, an existing community population.

These are adults that have made the concerted effort and are motivated to -- to get their high school diploma.

And I like -- if there were some amendment or some type of conditions based on SB 1 about the reintegration of adult learners who stay enrolled for 18 consecutive months, you know, or something like that, as -- because of the commitment of the SEG, the State funding.

Now, as a breakdown to the State funding, age groups receive various amounts -- different amounts within the SEG. So I don't know what that amount is for 20-year-olds and over. I know it's a lot less for middle school and it's a lot less for elementary-school-age kids. Do we know what that is?

THE CHAIR: I hate to say 100 percent. But I think it's funded at whatever high school --

saying. Yes?

THE CHAIR: It could be. But I think if you're limiting it, it becomes more widely available when it's a local school, as opposed to having to get to a branch of the community college, which in my area, is in Gadsden. And it's in the City of Las Cruces. So if I'm living in Hatch, I've got a little bit of a hike, you know.

COMMISSIONER ARMBRUSTER: And so Hatch has Hatch High School, if that's what it's called.

THE CHAIR: I can't speak and say they have a recovery program. I do not know. But I think if it's available, there are more opportunities for recovery programs to stay where they already are and potentially expand.

But I'm not saying that this is going to open the door for a lot of new programs. But the opportunity is there. But right now, I'm -- what I am absolutely saying is there will most likely be charter schools that have to close if the recovery program -- if the recovery program closes. That will -- I can guarantee you that will happen.

COMMISSIONER RUIZ: I was just going to say, we have credit recovery in Hobbs. And even in our main campus or our alternative campus, neither

COMMISSIONER VOIGT: Okay. That makes sense.

THE CHAIR: I'm pretty sure. Because I think part of the narrative is, can we potentially create a separate SEG funding formula for those reengagement programs so that it would be funded at the same level as a traditional high school student would be?

So that that is -- and to tie into what you said a little bit, there were -- there was testimony that was -- that was offered by a number of individuals that stated that they broke probation to go back into the detention center so they could go get their high school diploma. They felt that that was their only alternative, because they wanted a high school diploma, and they knew they could get it if they went back to the detention center. So they violated their probation.

 $COMMISSIONER\ VOIGT:\ That\ speaks\ volumes.$

THE CHAIR: It's the same environment. So I think that does speak volumes to the importance of keeping that option open in communities for the -- and I know in my area, the local traditional school actually directs students to those referral programs that are in the charters.

Page 140

to allow a time frame rather than restricting -THE CHAIR: A number of semesters.

COMMISSIONER VOIGT: Yeah, I like that.
THE CHAIR: A number of semesters funded?
COMMISSIONER ROBBINS: Uh-huh.
COMMISSIONER CABALLERO: I go for the number of years left.

THE CHAIR: Okay. Yeah, that's what -- okay. All right.

So if we can move on, there was a -- just to keep you updated, Representative Trujillo did drop a charter moratorium by last week.

COMMISSIONER CRONE: Which Trujillo? THE CHAIR: Christine. And I think that's 429 maybe. I'll get the number. There has been no hearing set for that right now. I'll keep you posted on that.

You know, there's a number of concerns with the concept of moratorium. You know, there's a concern about the new applicants, what's going to happen with them in terms of the timing.

But what many people don't understand is that the -- a moratorium being passed dries up funding for schools in terms of being able to get financing for facilities that they need. It drives

Page 139

That's the expectation. You can go there and you can get it. So if we're — so they may not have the program; but they know the program exists within their community through those charter schools. So they know the opportunity is there, and they direct the students to there. And we're — you know, we're looking to close those programs.

COMMISSIONER VOIGT: Yeah. And some of those schools here in Albuquerque are the, quote, unquote, dumping grounds, and they've even been acknowledged as that by other educators, like RFK Charter School. They have older students.

Now, a lot of these students, keep in mind we're looking at this just from the charter school lens, right? The evening programs that I know of, like at Cesar Chavez and Gordon Bernell and New America School, they're part-time. Those kids even go part-time because a lot of them are working, like maybe a .5 student. So they're assisting these adult learners around their schedule to give them the classes that they need to get their high school diploma.

THE CHAIR: So I'll ask once again. I'm trying to get a sense of the Commission.

COMMISSIONER ROBBINS: I think it's better

up the interest rate, because the -- the State has a moratorium.

So the word "moratorium" sends a message out to grant providers and lenders that the State is no longer charter-friendly. And by that, I'm not saying we're looking to open up a whole bunch of new charters; but the concern is if there's a moratorium, are we going to start closing as well.

So that they -- lenders, in particular, aren't going to dig into the minutiae of a bill. They just look at that. So it drives up interest rates for schools that have an obligation, by statute, to get into public facilities, and now they're being hampered in their opportunity to try to pursue that, because lenders are no longer going to lend the money, or they're driving up interest rates to exorbitant -- and I know there is a charter facility funding bill as well. But it's not going to be the panacea for all schools. It's a baby step in terms of making the money available.

So -- and schools that are relying on grants coming in, grants dry up when a moratorium is created by the state. So it -- it stops schools from being able to offer programs that they wanted to, because they were relying on grant money. So

Page 144

Page 142 1 1 that it has effects that people don't see. 2 So we'll track that bill and see what --2 3 3 what comes up with it. I provid- -- Beverly sent 4 out SB 423, which was dropped last Wednesday. And I 4 5 5 think it was made available on Friday. I had given 6 6 the opportunity for Lisa Grover, who wrote the bill, 7 7 to come and speak today. I spoke with her on 8 8 Friday. 9 9 Commissioner Crone, myself, and 10 10 Commissioner Caballero, at the last regular LESC 11 11 meeting, each of us were given the opportunity to 12 speak right after they presented on the concepts of 12 13 13 the virtual charter. And we -- I think we gave them 14 14 a pretty clear picture. 15 So Lisa had reached out to me when she did 15 16 16 finally drop the bill. I kept looking, and I 17 couldn't find it. And then she called me and asked 17 18 18 me if I would meet with her because she knew how we 19 19 felt. 20 20 And I had a long conversation with her. 21 It didn't persuade me to change my mind. But I 21 school. 22 don't speak for everyone. We have three new 22 23 Commissioners on. So I was clear what the sense of 23 24 24 the full previous Commission was. And I said I want 25 25 to give everyone an opportunity to weigh in on this. Page 143 1 1 And without prejudicing individuals by my 2

policy, come out against virtual schools. In fact, they support them. So as a representative of that organization, she feels an obligation to make this -- and Senator Stewart is the sponsor of the bill.

COMMISSIONER ARMBRUSTER: Mimi Stewart?

THE CHAIR: Senator Stewart. Because it's on the name -- I'm pretty sure her name is on the top of the copy that I sent you.

COMMISSIONER CABALLERO: I think that the main concern, Madam Chair, was that the regs and

main concern, Madam Chair, was that the regs and everything, the statutes were void of what a charter school could do, whether they should be around.

There are senators and representatives that feel that they should change the laws to read, "No virtual charter schools allowed in the state."

And so the sentiment is still there. So this at least puts something there to regulate what the -- what they don't want.

THE CHAIR: It doesn't. It allows for the school.

COMMISSIONER CABALLERO: Right. THE CHAIR: So it doesn't regulate it, any more than -- so, honestly, it doesn't regulate the virtual schools except for the fact that it caps for

Page 145

       interpretation of the bill, I offered her the
 3
       opportunity to come here. She's not here.
 4
            So I'm going to, you know, open it up and
 5
      see. Excuse me?
 6
            COMMISSIONER ARMBRUSTER: Four new
 7
       Commissioners.
 8
            THE CHAIR: Oh, I'm sorry, yes. Four new
 9
       Commissioners.
10
             COMMISSIONER VOIGT: Clarifying question.
11
       So is House bill 429 the moratorium and the online
12
       bill?
13
            THE CHAIR: No. 423 - SB 423.
14
            COMMISSIONER VOIGT: Oh. Is the online
15
       bill. And it was dropped by Grover.
            THE CHAIR: She wrote --
16
17
             COMMISSIONER VOIGT: She wrote the bill?
18
             THE CHAIR: Yes. Why?
19
            COMMISSIONER VOIGT: Because I didn't
20
       think she would be a proponent.
21
            THE CHAIR: Okay. This is what came up in
22
      the conversation. Because she is a representative
23
       of a national organization, the National Charter
      School Alliance, I believe is the formal name. The
24
```

National Charter School Alliance does not, as a

the first year a maximum number of 200 students.
But outside of that, it doesn't place any additional regulations outside of what we may -- if it is a

State charter.

And the bill reads that if you're going to take students outside of your school district, then it has to come to the PEC, and it's a statewide charter. It limits to 200 students the first year, and it limits to grades. But in terms of other regulations, it's our policies and processes that would monitor that.

So it doesn't -- it doesn't put any more regulations on that school in that bill. So that's -- for me, that's the --

COMMISSIONER CABALLERO: The weakness.

THE CHAIR: When we had the renewal hearing with Connections, it was the overall concern expressed directly by the head of the governance council of that school that his -- I think his opening statement was, "Do you know how big New Mexico is?"

"Well, sort of, you know. Didn't you?"
When -- and the concern was we've got
students all over New Mexico. So how do we keep
track of all of these students and the problems with

doing whatever the statewide-required assessments are, the problems of getting students to test sites.

They don't want to come. The reason why they're going to these schools is, "I don't want to travel." There's -- they had to travel, some of them, 50 miles to get to a test site because we've got broadband issues. So many of these students are in very remote areas of the state. So now to find a testing site -- and I know this bill does address, "Oh, we're going to ask the local school district if they'll allow us to be a testing site."

Well, Connections did that. The school district said, "No, we're not going to -- we're not going to do that."

So -- "Yeah, we're going to ask the Boys and Girls Club if we can use them as a testing site."

It just created these -- these challenges.

We know that there's challenges with the governance council meetings. How do we monitor the governance council meetings? Because we're talking about governing councils that are all — members are all around the state. They never meet in person.

COMMISSIONER CABALLERO: Right. That's what I was about to say.

allowed to have lease reimbursement.

COMMISSIONER VOIGT: Okay. Yeah. Makes sense.

THE CHAIR: But then the concern becomes, so where are they housing student records?

COMMISSIONER VOIGT: They must have business offices or something. I mean -- you know.

THE CHAIR: So how do they pay -- and I fully agree that they shouldn't have lease reimbursement. And we're reducing the SEG. So now they're going to say, "We have even less money to offer programming because we have to rent this space."

It's just -- there's -- and I haven't -- well, I have multiple issues. But if we're talking about a cap, an enrollment cap on this level through SB 1 and HB 5 initially, and saying it was really 500 students, but we're going to say -- but we're going to allow 200 students in that virtual school, I'm not willing to give away 200 seats of the 500 that they think are out there to a virtual school that doesn't mean -- when I met with Lisa, she said this they addressed the issues that the LESC and the LFC had addressed. And those are primarily the financial ones, the SEG money and the lease

Page 147

THE CHAIR: And they don't -- they don't make available, really, public comment in those meetings. It's -- you know, I know they've had -- CSD has had difficulties in trying to get on when they've been having these virtual governance council meetings. So now if you're even a parent and you want to express a concern at their governance council meeting, there's challenges.

COMMISSIONER CABALLERO: You can't.

THE CHAIR: And there's challenges with -you know, there's also that challenge of where is
this curriculum coming from? You know, we face
that. Is it going to be one of these big companies
again, so that we're buying into that? They did put
in there there's a different funding formula for
those students.

COMMISSIONER VOIGT: For the for-profit schools.

THE CHAIR: No, no, no. We will never use the word "for profit" because they're not. And we do not authorize a for-profit school. But there's a different funding formula, because they don't need the State SEG.

COMMISSIONER VOIGT: Facilities, yeah. THE CHAIR: And, in fact, they're not

Tage 147

reimbursement.

It wasn't the monitoring concerns. And that's what I told her. "It's easy. You're not the authorizer. You're not having to deal with the challenges of the oversight of a statewide charter."

So that's my conversation with Lisa. The hearing is Monday morning.

COMMISSIONER CABALLERO: One of the problems that I tried to -- and I asked many questions about the teacher-student ratio, because Patricia was teaching, at that time, Internet courses. And she felt that in the beginning, oh, 45 students through Internet, no big deal. And it is overwhelming.

And they never answered -- they never answered that question at all: How much -- how much of what you get per student do you have to pay out for your program or software?

Never answered. So it is problematic.

THE CHAIR: Yeah. And you're absolutely right. That student-teacher -- because you think, oh, yeah, it's all online. But if you're doing an AP course, there's still got to be papers you have to grade. And on the whole other end, I have some serious concerns about special ed services that are

Page 150 Page 152 1 1 provided 100 percent online. know. But I'll be honest. There is no NOI, from 2 COMMISSIONER VOIGT: Right. 2 what I can see -- I've looked at the NOIs. I do not 3 3 THE CHAIR: I just can't see that. believe there is an NOI for a full-time -- for a 4 COMMISSIONER VOIGT: You can even do PE 4 full-time online this year. So I don't think she's 5 5 got a school that is interested now. So I don't online now, which is perfect, because I was a PE 6 6 teacher. But, you know, my biggest concern is also think it would come up. 7 7 the rigor of the academics, you know. And then the But -- and here's what some individuals 8 8 have said to me. "So just say no when a school assessment piece, you know, the fidelity behind 9 9 assessment. Is the kid taking his physics test at comes up." It's, like -- but do you know the 10 home with his uncle that works at Los Alamos Labs, 10 manpower that's involved in doing that application 11 or whatever. But I'm totally down with you on what 11 and doing the review of the application and the time 12 12 and effort and energy, when it's like, "Oh, just say vou've said. 13 13 no when it comes up"? THE CHAIR: And I think there is that 14 14 whole other -- well, "We've recorded that you logged There's also that appeal process. So we 15 on, but you don't know that I've logged on." And 15 can't just randomly say no. 16 16 through their own testimony, you never had to --COMMISSIONER VOIGT: So back to what you 17 there's no interaction. And I never had to 17 were saying about the whole complete online stuff, 18 18 participate in a live lesson. So they're all enough of our charter schools already provide a 19 19 record. So I could be there, and you could -- if it blended learning environment. For those unique 20 20 was live, you could e-mail -- or, you know, cases or snow days or whatever, there's already 21 whatever -- a question. 2.1 that. 22 But, of course, there's -- there's no 22 And I don't think the need for an 23 23 actual visual; so that they can't see who's -- who exclusively all-online charter school is something 24 24 you're interacting with. that we really need to have in our state. 25 25 But if I didn't want to log on then, I THE CHAIR: I'm sorry. I just got a text Page 151 Page 153 1 1 could just see that lesson recorded, so that I never from Lisa Grover. 2 2 had to do a live lesson. So who knows whether your COMMISSIONER VOIGT: Ask her if her ears 3 3 older brother is doing it for you, and if there's were burning. 4 three students in the home that are all part of 4 COMMISSIONER ARMBRUSTER: Well, I mean, 5 5 this, who knows who's doing what for whom? the thing is that both Connections and the virtual 6 6 That's -- you know, I prefer an school, who is not one of ours, the fact that they 7 7 opportunity for a school district to do this. And buy their curriculum from those companies is a 8 8 they always have that option to knock on the door profit for those companies. I understand that they 9 9 and say, "Where have you been? What are you doing?" themselves are not classified as profit. But when 10 You know. 10 you're giving millions of dollars from our SEG --11 And I think there's the need for a very, 11 because, remember, they can take 2,000 students. 12 12 very small number of students that need this all the COMMISSIONER VOIGT: But textbooks are 13 13 time. I fully understand that. I think there's a for-profit also. 14 14 need for students that need it for short-term. I've THE CHAIR: So just to be clear, they 15 15 got an injury; I've got an illness; I have a job. can't take 2,000 students. This is capped at 200. 16 16 I -- I think I've told people. I had a COMMISSIONER ARMBRUSTER: The new ones, 17 student who was a model. And she would go off to 17 yeah. 18 18 photo shoots. And she would be able to keep up. THE CHAIR: The new ones are capped at 19 But she would be gone for a week, two weeks, and 19 200. But just for a year. And then if they do 20 20 then she'd come back, and she was able to keep up swell, we can just increase their cap. 21 because our curriculum was there online. 21 COMMISSIONER ARMBRUSTER: This is better 22 22 But, otherwise -than what probably exists. I'll say that. One 23 23 COMMISSIONER CABALLERO: So the moratorium thing before Karen goes, who knows more than I do. 24 24 But you know what? Because -- the fact 25 25 THE CHAIR: No, no, no. That's -- oh, I that whatever we want to think about the PARCC test

and whether the testing was fair and all that doesn't really matter. The fact is that their kids were not doing all that well, even though I know this last year they got a "D"; but they didn't have enough kids tested. That's why they got an "F." "D" is not just, like, high on my ability to think that it's great.

And their lowest performing quartile, my kids, are still "F"s. So they weren't doing particularly well with any group, regardless. And we have already somehow convinced a school who was going to do K-12 online virtual schools. But it's not only discriminatory, because every child who does not have a -- an adult, whether it's a parent, aunt, uncle, whatever, cannot be in virtual schools until you're -- what? Ten in New Mexico?

THE CHAIR: Something like that. You have to have someone who signs off as your, quote. unquote, instructional coach, if you're under that age.

So I kind of felt I knew where the Commission was -- was going to land on this. My bigger question is, is this something that we want to simply just say, "Whatever, whatever"? Or is it something that you expressly want me to speak

charter starts out well, small, and does well and can demonstrate they're doing well.

The problem currently is a charter can come in unlimited. They have -- you know, they say, "We're going to do all this," and then after three or four or five years, they're not doing, yes, you can close it down.

But there is a need and there is an opportunity for a lot of people in this state -- the same thing we were talking about with recovery programs and being able to provide a funding mechanism for that -- there are students in the state who are capable of doing a 100 percent charter -- 100 percent virtual. There are adults that are doing 100 percent college -- 100 percent college virtual.

And I know some that are teenagers. I'm talking about 16- and 17-year-olds getting full college credit online, and they will get a degree online, and they can take that degree and go get a job. And they will have 100 percent -- they're 16 or 17 years old, because they're motivated and dedicated.

I think this is the challenge for a charter school. Charter schools are not for

Page 155

against? That was --

COMMISSIONER VOIGT: Madam Chair. I would encourage you to speak against it.

COMMISSIONER CABALLERO: I would, too. And if you could get a meeting with Senator Stewart, if you think that's a good idea, with some of us and --

THE CHAIR: The problem is it's being heard in Senate Ed Monday morning. It fast-tracked because it just dropped. And I -- that's one of the bills I'm tracking through -- actually, thank you, Commissioner Armbruster. She sent me a bill tracker. And it's actually working.

And I got the ding late last night that it's set for -- that it's -- that it's on the agenda for Senate Ed on Monday morning. So it offered no time to speak to anyone. And that's unfortunate.

COMMISSIONER DAVIS: Is that by design?

THE CHAIR: Ooh, who knows?

COMMISSIONER ROBBINS: I have a -- I have

a slightly different take on this. To say -- if

you're opposed to this bill, which I think there's a lot of good things in here in terms of restrictions

24 and limiting and everything, to give this Commission 25

the ability to provide greater oversight, if a

students that dropped out. They are not for students who do not have strong oversight or dedication for themselves. And the thing it comes

4 into, how is that charter marketing itself? How is 5 it supporting the student? I think that's something

we would have to come up with the rules of

7 engagement and things like that. 8

I think this bill -- to just say throw this bill out and say no, well, we're back to where we're at right now to where you have unlimited. And I would rather put some controls in place, reasonable controls in place that we have the opportunity, where we see that there is a true need, and a charter is truly trying to meet that need of permitting that, rather than saying, "We're just going to pull the rug out."

It's kind of the same thing. In a way, if a charter -- even an existing charter -- all of a sudden, well, if this is the first step -- you know, if we take this away, well, do you just open up the floodgates and then you have challenges where everyone comes in and if we say no, now you have challenges for all of that?

So I would rather have some statutory backup that we can lean on to say, "You have to meet Page 158

these conditions." And we can put those conditions on virtuals, I think, rather than saying, "Let's vote against this and throw it out," and we're right back to square one. That's just my take.

THE CHAIR: Right. And I get it. And as I've expressed, I don't disagree that there's a need for a virtual charter school. I think it's better for the district to establish that charter, so there's greater oversight there. I give you one possible alternative that might — if this bill went through, might ease some angst for individuals with the concerns about these virtual charters.

And I think one of the concerns is the companies that provide the -- the platforms for the virtual schools, they fall into the category of a charter management organization. That's what they are.

And so here's my alternative: That there's statute that does not allow charter management organizations in the State of New Mexico. And, therefore, if a virtual charter was proposed, it would have to be an absolutely home-grown school, and there would be no outside bigger organization that would -- that money would be going to.

And here's another concern about CMOs.

Page 160

COMMISSIONER VOIGT: Yeah, hence this bill. When I opened Media Arts Collaborative School in 2007, K12, Inc. knocked at our door. They wanted to provide an online platform. They brought pastries from Le Chantilly Bakery. There was a team of 12 from Virginia that called on us to buy their online platform.

They were going to fly us to Virginia. And they guaranteed us within three years we would have 3,000 students. Like that's what we wanted, right?

We put them on hold. We said, "Let us check it out. We'll think about it," myself and our governing board.

Well, we found them on the NASDAQ, K12, Inc., and then we made our decision, which was no. But I know they're here. They're at New Mexico Virtual School, K12, Inc. is. And they are an educational management platform.

But so is Edgenuity. And Edgenuity is a credit recovery program that probably at least 87 percent of our schools and school districts utilize, in addition to Plato, which is another online platform for credit recovery.

So there's -- the online curriculum, the

Page 159

Even if it's in the state somehow, you're creating another layer of where the state money is going to

3 profit someone -- not necessarily profit, but to

enrich their salary to oversee this. And then you have those other layers that have to be in the

school; so that there's a number of issues with

7 CMOs.

And just as K12 -- although some consider them educational management organizations, which are for-profits, but in New Mexico, because we don't allow for-profits it's a CMO. KIPP. KIPP schools are CMOs. And there's -- there's multiple others.

So if we were able to get in a statute -because right now, the statute allows CMOs. But if we could block CMOs, that might take away some of the angst if this did happen.

COMMISSIONER VOIGT: Madam Chair? And, you know, because our statute does allow CMOs, I am shocked that we haven't had a stampede for KIPP, Green Dot, all these -- the MET [ph] schools; I mean, all these CMOs that exist around the country that are doing well with their student bodies come knocking at our door. It's really surprising that we haven't.

THE CHAIR: They're at the door now.

Page 161

canned curriculums, they're out there. But when

schools are innovative, like most charter schools
 are, they will utilize a blended platform, which

Salman Khan has a great story about how he developed his online studies.

COMMISSIONER CABALLERO: Madam Chair, I actually don't like virtual -- 100 percent virtual.

To me --

THE CHAIR: Tell us -- be specific about this.

COMMISSIONER CABALLERO: I will tell you, I just don't like them, and I don't think they're good for students.

I know there's a need for students to be on the computer and online. But we do have some that are a mix. And they have an actual school; students can go there and be talked to, somebody face-to-face. They get services.

The adults that are now doing a lot online, they have a campus they can go to for tutoring. They have a campus to go to for whatever

| 1 | is it that they need, and it's there. | 1 | that building would go if the school was closed. |
| 2 | But 100 percent online, I it's just | 2 | And I think that closes that gap as well. So right |
| 3 | beyond me how students can actually thrive. But | 3 | now, I think that's all that's on the horizon. |
| 4 | there is a need, and maybe locally, we can have the | 4 | We've still got a lot of days left in the |
| 5 | blended. But I thought they would be more | 5 | Legislature. |
| 6 | successful, because I was trying to give the benefit | 6 | MS. KAREN WOERNER: Madam Chair, I just |
| 7 | of the doubt. But when the school came here, it | 7 | wanted to share with you all that it might be more |
| 8 | was it was bad. Wow. | 8 | pressing than you think about virtual, because we've |
| 9 | THE CHAIR: It was bad and sad. You know, | 9 | * * * |
| 10 | it really was. | 10 | had some interest in attending some of our trainings by the New Mexico Virtual Academy that Farmington |

| 13 | students that got hurt by that | 13 | So I just wanted you to be aware that |
| 14 | THE CHAIR: Absolutely. And that's | 14 | because you mentioned that this and I don't think |
| 15 | what ultimately, that's what we're supposed to be about. So I'll ask again. Is this something that | 15 | any of these schools |
| 16 | | | THE CHAIR: What trainings? |
| 17 | we want to speak out against? | 16 | MS. KAREN WOERNER: They want to come to |
| 18 | COMMISSIONER RAFTERY: Yes. | 17 | renewal; but I don't think they're eligible for |
| 19 | COMMISSIONER DAVIS: Yes. | 18 | renewal. |
| 20 | COMMISSIONER CABALLERO: (Indicates.) | 19 | They want to come to training; but I don't |

Page 166 Page 168 1 because, the issue came up -- when we didn't renew 1 facilities bill, I wanted to mention that at the 2 Anthony, they tried to reorganize and go to Gadsden 2 same day, there was a digital -- digital media bill 3 3 School District. And I had that conversation with that was for special funding for a digital media 4 the Gadsden School District, that that's not an 4 program. And there were a number of people that did 5 5 option. Once you're not renewed, then you have to come up and speak for that. 6 6 go back to square one. I had not seen it before; so I didn't know 7 7 So -- yeah, they want to -anything about it. But there were two young girls 8 COMMISSIONER ARMBRUSTER: I don't know if 8 that were standing behind me, and they had a camera 9 9 they did. But I know Gene Schmidt, who is the and they were recording it for their school project. 10 superintendent, talked about not going to renew 10 And it ended up that they were from Roots & Wings, 11 11 them, that they would start their own virtual online which is one of our schools; so that it was exciting 12 12 thing. So I don't know if they didn't renew them to see. And they spoke very eloquently about the 13 and -- I'm sure you can find out -- or they are not 13 importance of the program, which certainly speaks 14 14 going to. I'm not sure. way more than what any of the adults can offer when 15 MS. MELISSA BROWN: Their December meeting 15 they can see that. 16 16 minutes aren't posted; so... And it did get a do-pass through. So 17 THE CHAIR: But, yeah. If they show up 17 that's -- I was -- I was a little disappointed I 18 18 and they indicate that they have not been renewed, didn't -- vou know. I felt uninformed, because I 19 which would kind of be indicated by the fact that 19 didn't know that was there at that time. So -- but 20 20 they're sitting, that, you know, if there's any -there's a lot of -- there were a number of schools 21 they can, I guess, contact our attorney. 21 that -- in addition that did speak for that. 22 MS. KAREN WOERNER: Okay. 22 So I thought I had asked Commissioners 23 23 THE CHAIR: And they can make it clear before, but I guess I did not. And so one of the things -- and I have pointed this out to, I think, one of the Commissioners yesterday -- they have laptop computers set up. And all of the stuff that we have in our book is on your laptop computers. And it's a touch screen, and you can move things.

You don't get to take the computer with you, which would have been nice. But it is there. You have printouts if you want paper; but they have it all there so you can go through things very, very quickly. It's very easy to find things.

I was very impressed that they have that set up and everything, that PSFA, actually their IT people set all that up and everything. And I thought, wow, wouldn't that be neat if PED would use some of the funding they get from our charters to do that for us?

Anyway...

COMMISSIONER ARMBRUSTER: We've heard this before.

21 COMMISSIONER ROBBINS: And I think I told 22 most of you before when I started on the APS Board, 23 first week I started, they gave me a laptop 24 computer, a carrying case, which back then, it was a 25 pretty big -- it was decent size; it wasn't overly

of the reallocation, which, to me, was kind of amusing, since right now their mill rate on property taxes is about 2 mills higher than the state average.

So that's a very interesting thing. They collect a lot in property taxes for capital, higher than the state average; but yet they still are allowed to get 50 percent match on certain projects for schools in the district. And I live there. And people think why don't you support that?

I said, "Look, I'm all about being cost-effective with the monies. And I think there's probably better ways that this money" -- but since these were the projects that were available for the reallocation of funding, that's where it went. And some of it was for security upgrades for the APS schools. Okav.

THE CHAIR: The only thing I'm going to say is to remind -- I think most of the schools did get the reminder -- now that you mention security, there is additional funds that's available through PSFA. And PSCOC will be looking to making those awards, so that if you're talking to any charters, please remind them.

I'm -- I know that message went out to all

Page 179

burdensome, gave me a cell phone. I had an APS e-mail address, which as far as I know, it's probably still active because Board members from 20 years ago still have active e-mail addresses at APS, which is kind of funny.

But it was a good meeting. Two of the things that I wanted to mention that were done here. the Roswell School District was looking at funding and getting some funding from PSFA and the PSCOC for an elementary school. And the bids originally came in a little bit higher than what the total monies that the school district and the PSCOC had allocated.

So they went back, they did some tweaking, value engineering, things like that, rebid it, got it down to where it all met the needs. And so that was moving forward, about a \$24 million elementary school, which is about \$10 million or \$15 million less than what APS spends on elementary schools -iust an aside.

They also had a little over \$500,000 of funding that had not been utilized, and deadlines had passed. So they reallocated -- somewhere around \$500,000 was reallocated. And the bulk of that went to APS, just as an aside. They got about 85 percent

Page 181 the charter leaders for that. But there is money

2 that's out there. It does become difficult, because 3 oftentimes there has to be matching money, and the 4 charters do not have that kind of funding. And 5 that's what makes it so frustrating. But --

Commissioner Ruiz?

COMMISSIONER RUIZ: I'll be brief. First of all, I want to thank Commissioner Crone and Commissioner Chavez and Chairwoman Gipson, because I've had some technical difficulties with my ramp. And so had it not for these three, I wouldn't be sitting here.

The other thing I was going to say really quickly, just about NMPSIA, Commissioner Crone and I met with NMPSIA yesterday. And so Sandy Hook, they are forging ahead with that, and they are going to have regional trainings. When we get those dates, we'll share them with the community. It is free.

A lot of people didn't get into the other program because there was such a huge cost for it. But the Sandy Hook Promise is going to be free and available to schools.

And I also wanted to say -- and I think I told you this before the meeting -- that I really appreciate our attorneys, because they do a whole

And every one of those computers was returned to me for a variety of reasons. And so and at that time, I did ask for e-mail addresses from the Department for the Commissioners. And at that time, I was told and I can't remember what the reasons were, and to go back in my notes and try to find it. But it was something about security and that type of thing. THE CHAIR: Right. MS. FRIEDMAN: Yesterday, I did write them again and ask them about the e-mail addresses. And, actually, they said that they are asking, "Do it." Right now, it's in the process. And we're going to have to check with Kara, the Deputy Secretary Bobroff on it. But all of the four people that I wrote in the positions that need to approve it approved it.
