THE CHAIR: So before we do the approval of the agenda, I have two changes to make. And one is to the Consent Agenda. And that is removing from

			3 (Pages 6 to 9)
	Page 6		Page 8
1	Community School.	1	THE CHAIR: No. I'm sorry. We made a
2	It's under "Governing Membership" the	2	they're not coming well, I had a discussion
3	Albuquerque Institute of Math and Science is under	3	with with the Deputy Director. And we said the
4	B, Change Notifications, Governing Board Membership	4	best that we could do at this point in time is we'll
5	Changes. And Raíces del Saber is No. 7 under School	5	at least give them a heads-up by the early afternoon
6	Location Within District. So those two were	6	as to where we were. Oh, no. Then we decided we
7	removed; and, off of the regular agenda in Item	7	would do it Friday, and that was it.
8	No. 7-C, removing McCurdy Charter School and Monte	8	MS. KAREN WOERNER: Because I told the
9	del Sol Charter School.	9	school.
10	COMMISSIONER RUIZ: Madam Chair, I move	10	THE CHAIR: We had so many conversations
11	that the agenda be adopted.	11	about this, I had to remember the final decision.
12	THE CHAIR: I'm not done yet.	12	So, yes, they've been notified that they're on the
13	COMMISSIONER RUIZ: Okay.	13	agenda for Friday. And we can just move on with
14	THE CHAIR: Before we do any of that, I do	14	other pieces of the agenda. Alma and Altura were
15	need to make another change. Because,	15	both notified that they're on for Friday, okay? So,
16	unfortunately, with the transcript of our July	16	thanks.
17	Community Input Hearing, the location was incorrect.	17	COMMISSIONER ARMBRUSTER: Sorry. I just
18	So we have to make a change. And I have to do that	18	didn't hear it.
19	by separate motion; so that I am going to move that	19	THE CHAIR: No, we've gone round and round
20	the transcript for the July 17th, 2019, PEC meeting	20	with that; so I think we are finally at a good point
21	be amended to show that the location of the PEC	21	with that.
22	meeting was New Mexico Activities Association, Hall	22	So there was a motion to adopt the agenda,
23	of Honor, 6600 Palomas, Northeast, Albuquerque,	23	as amended, and there was a second by Commissioner
24	New Mexico 87109.	24	Voigt. And we voted on that.
25	MS. VOIGT: I second.	25	COMMISSIONER ARMBRUSTER: No.

	Page 10		Page 12
1	COMMISSIONER RUIZ: So move.	1	Robbins.
2	THE CHAIR: There's a motion by	2	Any discussion?
3	Commissioner Ruiz, a second by Commissioner Voigt.	3	(No response.)
4	All in favor?	4	THE CHAIR: If not, roll-call vote,
5	(Commissioners so indicate.)	5	please.
6	THE CHAIR: Opposed?	6	COMMISSIONER ARMBRUSTER: Commissioner
7	(No response.)	7	Caballero?
8	THE CHAIR: Hearing no opposition, the	8	COMMISSIONER CABALLERO: Yes.
9	motion passes.	9	COMMISSIONER ARMBRUSTER: Commissioner
10	We are now on to Item No. 5, which is	10	Ruiz?
11	Discussion and Possible Action on the Charter	11	COMMISSIONER RUIZ: Yes.
12	Contracts and Performance Frameworks, Including the	12	COMMISSIONER ARMBRUSTER: Commissioner
13	Mission Goals.	13	Crone?
14	And we did have the opportunity, while we	14	COMMISSIONER CRONE: Yes.
15	were on the community input hearing tour, to squeeze	15	COMMISSIONER ARMBRUSTER: Commissioner
16	in those negotiations. I want to thank the schools	16	Raftery?
17	that were incredibly cooperative in working around	17	COMMISSIONER RAFTERY: Yes.
18	our schedules and the Commissioners that	18	COMMISSIONER ARMBRUSTER: Commissioner
19	participated. Thank you so much. Because it's	19	Gipson?
20	it's really those nice times that we get to sit down	20	THE CHAIR: Yes.
21	and talk with the schools and learn a lot more about	21	COMMISSIONER ARMBRUSTER: Commissioner
22	what the school actually does when we do those	22	Davis?
23	contract negotiations. So I appreciate that time	23	COMMISSIONER DAVIS: Yes.
24	for that reason as well.	24	COMMISSIONER ARMBRUSTER: Commissioner
25	So and I we told the schools that	25	Armbruster votes "Yes."
	Page 11		Page 13
1	they really didn't have to come up because there	1	Commissioner Voigt?
2	shouldn't be an issue, I hope, with it.	2	COMMISSIONER VOIGT: Yes.
3	Commissioners have had the opportunity to look at	3	COMMISSIONER ARMBRUSTER: Commissioner
4	those mission goals that have that were	4	Robbins?
5	negotiated.	5	COMMISSIONER ROBBINS: Yes.
6	So do I have a motion to approve those	6	COMMISSIONER ARMBRUSTER: It's a nine-zero
7	contracts?	7	vote. It passes.
8	COMMISSIONER RUIZ: So move.	8	THE CHAIR: The motion passes nine-zero.
9	THE CHAIR: There is a motion by	9	Thank you very much.
10	Commissioner	10	So now, I'll entertain a motion for South
11	MS. AMI JAEGER: Hold on.	11	Valley Prep.
12	(Chair consults with Commission counsel.)	12	COMMISSIONER CABALLERO: So move.
13	THE CHAIR: We need to do one for each	13 14	THE CHAIR: There's we need the school
14	school individually, a motion.	15	and the dates in the motion.
15	COMMISSIONER RUIZ: Okay. So I move that	16	COMMISSIONER CABALLERO: Okay.
16 17	the Public Education Commission approve the charter	17	THE CHAIR: Thanks. COMMISSIONER CABALLERO: I thought it was
18	contract and performance framework, including	18	
19	mission goals, for the Albuquerque School of Excellence.	19	very easy. THE CHAIR: It's under Item No. 5.
20		20	COMMISSIONER CABALLERO: No. 5.
21	COMMISSIONER ROBBINS: Second. COMMISSIONER RUIZ: Oh. For the years of	21	THE CHAIR: And it's B.
22	2019 through 2020.	22	COMMISSIONER CABALLERO: Okay. Thank you.
23	COMMISSIONER ROBBINS: I'll second.	23	I move that the Public Education
24	THE CHAIR: That's good. There's a motion	24	Commission approve the charter contract and
25	by Commissioner Ruiz, a second by Commissioner	25	performance framework, including mission goals, for
	- jinduction really a devoted of commissioner		1

2	THE CHAIR: We need the years.	2	(Chair and Commission counsel confer with
3	COMMISSIONER CABALLERO: For school years	3	school representative.)
4	2019-2020.	4	THE CHAIR: So the Charter School Division
5	THE CHAIR: Thank you. There's a motion	5	has 15 minutes to present.
6	by Commissioner Caballero.	6	MR. ALAN BRAUER: Good morning,
7	COMMISSIONER ROBBINS: Second.	7	Madam Chair, members of the Commission, members of
8	THE CHAIR: A second by Commissioner	8	the Polaris Charter School team. I'm going to
9	Robbins.	9	review the process that the applicants went through
10	Any discussion?	10	with the Charter School Division and our peer
11	(No response.)	11	reviewers. I'll walk through a quick walk-through
12	THE CHAIR: If not, roll call, please.	12	around the scores, and then I'll close out with our
13	COMMISSIONER ARMBRUSTER: Commissioner	13	overall recommendation.
14	Robbins?	14	So on Page 7, the explanation regarding
15	COMMISSIONER ROBBINS: Yes.	15	use of the of the score sheets.
16	COMMISSIONER ARMBRUSTER: Commissioner	16	In the Recommendation and Final Analysis,
17	Caballero?	17	the Charter School Division has considered the
18	COMMISSIONER CABALLERO: Yes.	18	overall score on the written application evaluation
19	COMMISSIONER ARMBRUSTER: Commissioner	19	and the ratings on responses during the capacity
20	Ruiz?	20	interview, feedback from the community input
21	COMMISSIONER RUIZ: Yes.	21	hearing, and letters of support or opposition.
22	COMMISSIONER ARMBRUSTER: Commissioner	22	Those components are summarized on the following
23	Voigt?	23	pages.
24	COMMISSIONER VOIGT: Yes.	24	The written application evaluations and
25	COMMISSIONER ARMBRUSTER: Commissioner	25	capacity interview scores were provided by an
	Page 15		Page 17
1	Crone?	1	external team of four peer reviewers. Those were
2	COMMISSIONER CRONE: Yes.	2	made up of a licensed New Mexico school
3	COMMISSIONER ARMBRUSTER: Commissioner	3	administrator, a licensed New Mexico teacher, a
4	Armbruster votes "Yes."	4	licensed New Mexico school business official, and a
5	Commissioner Gipson?	5	team leader with administration experience.
6	THE CHAIR: Yes.	6	Also please note two additional
7	COMMISSIONER ARMBRUSTER: Commissioner	7	considerations. Also please note two additional
8	Davis?	8	considerations. First, the community input hearing
9	COMMISSIONER DAVIS: Yes.	9	is not scored, but is referenced in this
10	COMMISSIONER ARMBRUSTER: It's a	10	recommendation and final analysis to summarize and
11	nine-to-zero vote. Passes.	11	to document any pertinent information offered. The
12	COMMISSIONER RAFTERY: You didn't call on	12	transcripts provide further details.
13	me.	13	Second, if the applicant school did not
14	COMMISSIONER ARMBRUSTER: You're right. I	14	answer any prompt or question because that prompt
		15	did not apply to the applicant school for
15	didn't. I'm sorry. Sit up.		ard not apply to the approach sensor
15 16	didn't. I'm sorry. Sit up. Commissioner Raftery?	16	instance, the applicant school will be an elementary
		16 17	instance, the applicant school will be an elementary school, and so did not provide responses to
16	Commissioner Raftery?	16	instance, the applicant school will be an elementary school, and so did not provide responses to graduation-related prompts then the Charter
16 17	Commissioner Raftery? COMMISSIONER RAFTERY: Yes.	16 17 18 19	instance, the applicant school will be an elementary school, and so did not provide responses to graduation-related prompts then the Charter School Division adjusted the total possible points
16 17 18	Commissioner Raftery? COMMISSIONER RAFTERY: Yes. THE CHAIR: The motion passes nine-zero.	16 17 18 19 20	instance, the applicant school will be an elementary school, and so did not provide responses to graduation-related prompts then the Charter School Division adjusted the total possible points in the application section where the nonapplicable
16 17 18 19	Commissioner Raftery? COMMISSIONER RAFTERY: Yes. THE CHAIR: The motion passes nine-zero. So moving right along, we're on to Item	16 17 18 19 20 21	instance, the applicant school will be an elementary school, and so did not provide responses to graduation-related prompts then the Charter School Division adjusted the total possible points in the application section where the nonapplicable items is found, as well as in the score sheet.
16 17 18 19 20	Commissioner Raftery? COMMISSIONER RAFTERY: Yes. THE CHAIR: The motion passes nine-zero. So moving right along, we're on to Item No. 6, which is the what will be the bulk of our day, which is the new charter applications. So we have our first applicant for the	16 17 18 19 20 21 22	instance, the applicant school will be an elementary school, and so did not provide responses to graduation-related prompts then the Charter School Division adjusted the total possible points in the application section where the nonapplicable items is found, as well as in the score sheet. For this reason, you may see varying total
16 17 18 19 20 21	Commissioner Raftery? COMMISSIONER RAFTERY: Yes. THE CHAIR: The motion passes nine-zero. So moving right along, we're on to Item No. 6, which is the what will be the bulk of our day, which is the new charter applications. So we have our first applicant for the day is Polaris Charter School. So if the folks from	16 17 18 19 20 21 22 23	instance, the applicant school will be an elementary school, and so did not provide responses to graduation-related prompts then the Charter School Division adjusted the total possible points in the application section where the nonapplicable items is found, as well as in the score sheet. For this reason, you may see varying total possible points from one application to another.
16 17 18 19 20 21 22 23 24	Commissioner Raftery? COMMISSIONER RAFTERY: Yes. THE CHAIR: The motion passes nine-zero. So moving right along, we're on to Item No. 6, which is the what will be the bulk of our day, which is the new charter applications. So we have our first applicant for the day is Polaris Charter School. So if the folks from Polaris would please come forward, and you can take	16 17 18 19 20 21 22 23 24	instance, the applicant school will be an elementary school, and so did not provide responses to graduation-related prompts then the Charter School Division adjusted the total possible points in the application section where the nonapplicable items is found, as well as in the score sheet. For this reason, you may see varying total possible points from one application to another. I wanted to I'll just briefly share
16 17 18 19 20 21 22 23	Commissioner Raftery? COMMISSIONER RAFTERY: Yes. THE CHAIR: The motion passes nine-zero. So moving right along, we're on to Item No. 6, which is the what will be the bulk of our day, which is the new charter applications. So we have our first applicant for the day is Polaris Charter School. So if the folks from	16 17 18 19 20 21 22 23	instance, the applicant school will be an elementary school, and so did not provide responses to graduation-related prompts then the Charter School Division adjusted the total possible points in the application section where the nonapplicable items is found, as well as in the score sheet. For this reason, you may see varying total possible points from one application to another.

Page 18 1 has, you have the breakdown of the overall score 1 Education Commission to enter into an implementation 2 2 sheet for each of the different components of the vear. 3 3 However, it is also recommended that the application and the capacity interview. 4 4 school take the feedback provided via the evaluation And overall, Polaris received 369 points 5 5 of the 431 points that were available to them, which process and resubmit a stronger application next 6 comes out to 85.61 percent of the total points 6 year in 2020. I also wanted to just close and share that 7 7 possible. 8 8 On Page 5, which is unnumbered, but it's the Polaris team did submit a response to the 9 right behind the page that I just mentioned, this is 9 initial recommendation from the Charter School 10 10 the thorough score sheet that provides detailed Division. And that's also in your packet here 11 scores for each of the different components of the 11 after -- after the community support or opposition 12 academic framework, the organizational framework, 12 documents here. 13 the financial framework, and the evidence of support 13 Thank you. 14 from Part C of the written application. It also 14 THE CHAIR: You still have about 13 15 includes the capacity interview responses and 15 16 school-specific questions that the capacity 16 MS. MELISSA BROWN: Nine. Nine. 17 interviewers asked. 17 THE CHAIR: Nine. 18 Each of those components received either a 18 Thank you very much. And I would ask you 19 Meets and Approaches or a Falls Far Below score. 19 to please identify yourselves and spell your last 20 Overall, the application submitted by 20 21 Polaris Charter School is complete, yet inadequate. 21 MR. BILL HARGRAVES: Good morning, 22 During both the application review process and the 22 Madam Chair and Commissioners. You're going to need to 2 2 charter school at this time. be a little bit closer. 3 The minimum scoring expectation set by the 3 MR. BILL HARGRAVES: Good morning, 4 Public Education Commission, from Page 3 of the new 4 Madam Chair and Commissioners. Thank you very much 5 charter school application, are as follows: 5 for entertaining us today. My name is Bill 6 6 Hargraves. I'm representing the Polaris Charter No scoring area received a score of Falls 7 7 Far Below the criteria. School today, and not representing -- let's be 8 8 No more than three responses were clear, I'm not representing the Los Alamos School 9 evaluated as Approaches the criteria in any one 9 Board of which I'm also a member. 10 10 section of the application. Los Alamos Schools are good schools. 11 11 And the applicant must earn at least They're -- depending on the measure you want to use, 12 80 percent of the available points in order for a 12 they're in the top -- top in the state or the top 13 positive recommendation by the independent 13 two or three in the state. One example is the 14 reviewers. 14 Healthy Schools Initiative which was started about 15 15 five years ago, which was intended to improve staff Though the proposal received a score of 16 85.61 percent, there were three indicators that were 16 and student well-being. 17 17 scored as Falls Far Below the criteria, and four That's, I think, a model that could be 18 18 used in other schools in the state. So there are responses scored as Approaches the criteria in the 19 19 organizational section. many things the school does good. Yet many of our 20 20 students still do not graduate; 13 percent for only In addition, there were nine Approaches 21 21 the last five years on average, and it's relatively the criteria ratings for the response to the 22 22 flat. It's not improving or decreasing. capacity interview questions. 23 23 And some of those students who do graduate The Charter School Division recommends

denial of this application. The scoring does not

meet the minimum expectation set by the Public

24

2.5

do not have the skills, confidence, and self-esteem

to successfully move into the next phase of their

24

25

lives. And those are the students that I think Polaris School can address.

If you'll look at these charts real quickly -- I won't go through the data, specifically, but I want you to see -- this is the PARCC test at the middle for the years 2015 through 2017. And you'll see that the best school score is that 55 percent of our middle-school students have been able to pass, for example, the ELA part of the score.

The second chart is representative of the Hispanic population, and the scores are even lower in that regard. So I think clearly, there's room for improvement in the proficiency of the students in our school.

Secondly, you'll see a series of drafts that come from the Youth Risk and Resiliency Survey that's done by the Department of Health. You can see the numbers here. In some cases -- and I won't go through them all. But in some cases, our numbers are better than the State average. In some cases, our numbers are worse than the State average.

What I want to point out, though, is what's disturbing to me is that on each of these charts that go from the 2009 to 2017 surveys, you'll

meet these needs. First is the culture. Culture shift is difficult, no matter in the corporate world, education world, or in society in general. To change a culture in a school district would require years and years of work, training, professional development.

Polaris can begin a new school from day one with a new culture, a culture that's different than what's currently in the Los Alamos district schools, and a culture that meets individual students where they are in their educational journeys and their self-realization journeys in life

The second is the program delivery. Traditional schools typically implement student support through various and fragmented targeted programs to students. This is effective for some students. But if you look at the charts, again, it's not effective for all the students in Los Alamos.

Polaris will take a different approach. Student learning and social emotional focuses are integrated. Students' experiences become a major part of their learning process. Students help direct and plan each of their individual learning

Page 23

see -- you'll see that they're either flat or decreas- -- or getting worse in some cases. There is little improvement. And these are very important social emotional measures of our student health.

Again, I think there's room for improvement, and Polaris can do that. So let me go -- let me explain a little bit, real quickly, why I think Polaris, I think, can improve on these scores.

First of all, I think we need to identify what needs to be done to meet the needs of the 50 percent of the students that are not proficient in some of their PARCC scoring in the middle school and how can the social emotional aspects of student lives be included in the learning framework.

Right now, Los Alamos has a myriad of additional programs to support students. There are six pages, if you look at them, single-space, of programs that Los Alamos implements to aid at-risk students and students in need.

However, you still see from the charts that the -- it's basically a flat line in terms of improvement in these measurements.

So how can learning become relevant? So I think Polaris School is designed specifically to

journeys. Polaris integrates learning with life, developing self-awareness and place in community

developing self-awareness and place in communit
 through experiences.

We ask that you give us the opportunity to demonstrate this. Thank you.

MS. LIZ MARTINEAU: Good morning,
Madam Chair and Commissioners. My name is Elizabeth
Martineau. Los Alamos is considered an affluent
community that some in New Mexico describe as a
utopia of high-achieving students. That's a nice
picture. But the reality is that the current school
system and climate does not meet the needs of all
students.

You may not hear about our failures, about the 13 percent who do not graduate, our larger proportion of non-fatal suicide attempts, or our students who are struggling emotionally. But the statistics show that they are there.

In education, every student matters; not 70 percent, not 80 percent, but every single student.

We are really excited that Polaris has applied for a State charter, because a student's attendance at our school will not be determined by his or her ZIP code. We're looking forward to

serving students who, despite having parents who drive into town to work every day, do not have access to the district school or the resources in Los Alamos.

We look forward to serving those students wherever they're from, Española, Pojoaque, the Jemez Mountains, who need other options as well.

Although we scored well on the application overall, the CSD recommendation for denial was based on an incomplete or inadequate application. We strenuously disagree with the review committee and, hence, CSD's Staff's adverse evaluation of several sections of our application.

Let's start with the three in which our responses were evaluated as Failing to Meet the criteria.

Section 2C(3). The evaluators seemed to criticize the fact that we include State statutes. Throughout our application, we do consistently mention statutes, because we understand that we are under legal obligation to follow these rules. Many of the rules and statutes leave little room for variation, and we intend to follow those rules, including making sure our school board members take the classes to be on the board.

specifically addressing our place-based philosophy is addressed through professional development opportunities and our mentoring plan on Page 236.

The mentoring plan is for teachers new to Polaris, which includes teachers who arrive in the middle of the year.

Extension 3B(2). The assertion that the operational budget is unbalanced is simply wrong. There seems to be no way to change this score. But not only is it balanced each year, but revenues exceed expenditures, allowing us to build up an operating reserve. CSP grant revenues and expenditures are balanced in the planning year.

There's a minor error in Appendix G spreadsheet. One cell displays an incorrect SEG revenue in Year 5, but the correct amount is in all calculations.

Water, sewer and refuse charges were one expense we missed. But this is a relatively small amount that will not require large changes to the budget.

We believe the application contains a realistic, complete, and balanced budget that does meet the criteria.

We would similarly disagree with many of

Page 27

The evaluator mentioned that we failed to identify the process for conveying the roles and responsibilities of the head administrator. The roles and responsibilities of the head administrator, including indicators and objectives, are specifically outlined in the next section, C(4), which met the criteria. Maybe this should have been included in C(3) as well.

Section 2D(3). The evaluator noted that we had incorrect ERB contribution amounts. This year's legislature increased the ERB contribution after this Section D was drafted. The assumed amount is clearly identified and easily updated. The impacted dollar amount is actually relatively small. We clearly understand the budget process and can adapt these to these kinds of changes as the years go by.

The evaluator asked where we listed life insurance and long-term disability. They were listed in the application on Page 219, Appendix G, Page 239, and Page 298.

There were questions about training days and on-boarding. Professional development is specifically identified in our calendar and included in our budget. Middle-of-the-year on-boarding Page 29

the evaluations that asserted the respective sections only Approached criteria. Time doesn't permit us to detail each of those. We hope you have reviewed our written response.

Despite the evaluators' comments, we still have a high score overall for a charter school application.

About a facility, we've looked at many potential properties. Some of those properties have become unavailable during the two years of writing this application; so we're careful about publicly committing to a location without a legally signed contract.

We currently have two potential properties and are working with a Realtor who is committed to helping us secure one of those locations.

Our team includes a former county council member, an executive director of a nonprofit, those with school board experience, and school leaders. In addition to our main team, we also have a whole group of people who have agreed to be part of our advisory team including a lawyer, Realtor, scientist.

We have engaged EdTec, a well-respected state expert, to provide budget support to meet our

Page 30

THE CHAIR: Is that -- that's it? Okay.

Thank you.

So thank you once again. And above all else, we do appreciate, because we know the time and

effort and energy that goes into all applications and the personal investment that goes into these.

So we truly do appreciate this.

So, Commissioners?

COMMISSIONER CABALLERO: I have something.

THE CHAIR: Many of you were at the community input hearing. But this is an opportunity, as a result of responses that have been made and time after the community input hearing, if you've had additional thoughts, any questions that you have.

Commissioner Caballero?

COMMISSIONER CABALLERO: Thank you,

Madam Chair. I do have some questions.

First of all, I would like to thank you for providing the visual handouts that you just gave us. And, in fact, I had made some comments at that meeting in Los Alamos that zero in on Hispanic population.

One of them was my concern that there were no community-based organizations that deal with

successfully meet those challenges.

Governor Michelle Lujan Grisham named
Dr. Stewart as the new secretary of the New Mexico
Public Education Department. In her introduction,
she said -- and I quote here -- "I share
New Mexico's sense of urgency about our schools.
And it's our responsibility to deliver the
transformation our students and schools deserve."

We've joined the Place Network to advise

We've been working on this idea for two years; so we

us about implementing the Place-based framework.

are committed. We understand this is an enormous

responsibility and that we will have challenges; but

we have the experience and the support network to

responsibilities.

The urgency and transformation that the Governor describes require bold initiatives. We know that schools need to change. But systemic change has proven to be very difficult for schools.

One of the benefits of charter schools, especially Polaris, is that we can be a small incubator for change and innovation. Our team is experienced and dedicated to this innovative Place-based framework that includes personalized mastery learning, real-world experiences, social

Page 31

Page 33

emotional learning, and restorative practices.

We're proposing a school framework that we know can benefit students in Los Alamos and our surrounding communities. But we also believe that Place-based education could benefit schools in Peñasco, Chama, Farmington, Roy, Springer, and Anton Chico.

I visited every one of those places.

New Mexico has beautiful environments and rich cultures. And a Place-based framework uses those to engage students. Polaris can demonstrate how this works, and then help other communities not to make schools that look like ours, but to design schools that fit the strengths and needs of their specific population.

We respectfully ask that you give us an opportunity to implement this bold initiative framework and help us begin changing education in New Mexico today.

We understand the role of the Public Education Commission as authorizers; but we also view you as collaborators who can help us succeed. Thank you.

MR. BILL HARGRAVES: Thank you. That's all of our presentation.

Hispanic, nor Hispanic parents, that there was a void of parents. I was a little disappointed with that. And I hate to assume that we do things to avoid that type of participation.

However, I do have -- with what you gave us in visuals -- and you mentioned that 13 percent of Los Alamos School District children still don't graduate. And, yes, we do feel that -- that that area is very affluent and very successful in their education.

But I would like to know if -- what's the breakdown within that 13 percent that doesn't graduate? Specifically, how many Hispanic? How many Native students do not make it? I'm trying to remember the total percentage of students in the school -- in the area going to school in the area, that are Hispanic.

MR. BILL HARGRAVES: Thank you for the question. I don't know the breakdown in terms of the graduation rate in terms of the Hispanic community. I do know that -- approximately, depending on the year, approximately 27 to 32 percent of the student population is Hispanic.

We have about 125 Native students who are in the district, some out-of-district students that

are Native and Spanish both. But I can't tell you off the top of my head the breakdown, and I've not seen one in terms of the actual graduation rate.

I think many of the out-of-district kids, which, by the way, the school district will have to stop taking out-of-district kids. And they may have already started this past year, the reason being Los Alamos is a growing school district. We don't even have enough space for the projected enrollment of in-district kids.

So the 625 currently out-of-district kids currently enrolled at Los Alamos will hopefully be allowed to continue through the process. But we will not be able to accept, in the school district, additional out-of-district kids, which I think underscores the need for something like a State charter in Los Alamos that can meet the needs of the people we feel like they need to bring their families from off The Hill to school there because they either work at the laboratory or some other organization in town. And there are approximately several

thousand of those people who come to work at the Lab or in town every day. Thank you.

COMMISSIONER CABALLERO: Before I ran for

schools should be going anyway.

I think it's helpful for different -- for the diversity of the state that we use the great resources that these small communities have. I mean, I've been to Anton Chico and some of those locations. And they are amazing. They have amazing places. And I think that we can leverage some of those to make our schools better.

COMMISSIONER CABALLERO: Thank you, Madam Chair.

THE CHAIR: Thank you. Commissioner Ruiz?

13 COMMISSIONER RUIZ: Good morning, and 14 thank you all again for being here and for all the 15 work and time that you take to put in this 16 application.

> And I also want to thank you for your responses. I did read through them a couple of times. And just a few things I wanted to just talk to you about.

I was thankful that you added -- let me see. You added -- because we did talk about diversity and the lack thereof on the board at our initial meeting with you. And so I was glad to see that you had added Dr. David Olivas and Anna Vargas

office for the organization, Public Education Commission, I had heard that Los Alamos School District had a lot of charter schools, but they were very small, multiple very small charter schools. Is there any basis to that?

MR. BILL HARGRAVES: No, sir. There are no charter schools in Los Alamos at this time.

MS. LIZ MARTINEAU: There aren't even any private schools for middle school and high school level, either.

COMMISSIONER CABALLERO: Okay. So that must have been just rumor. Okav.

MS. MARTUCCIO: We wish that was true.

COMMISSIONER CABALLERO: The other thing is she mentioned something about faith-based.

What -- can you elaborate on that? I think -- I didn't quite pick up what you mentioned.

MS. LIZ MARTINEAU: Place-based. Place.

THE CHAIR: Place-based, not faith. I think he was panicking.

MS. LIZ MARTINEAU: I'm speaking way too fast. I just wanted to get through my 15 minutes.

23 Place-based education uses the environment and the 24

community as the basis for learning. So I really believe place-based education is the way New Mexico Gutierrez.

I guess the thing is my hope would have been that you would have already thought of that and done that prior -- you know, prior to us having to recommend that; because diversity, again, like I stated then -- you know, we live in New Mexico. This is such a rich cultural tapestry of so many different races.

And so I'm glad that you did that, you know. I'm really glad, because we really have to be inclusive of all populations.

And I'm glad that you were able to explain the differences. I know that you -- when I read it, I looked down, and it -- you actually did mention some of the things -- because I kept looking for it and I didn't see those.

I still think we need some work where it comes to diversity. And that's a -- you know, because we have to service our kids. And, you know, I really want to see that inclusiveness and that consideration of all students and, you know, all ethnicities, also socioeconomic levels. And so I'm hoping that you will continue to consider that.

MS. LIZ MARTINEAU: And I will say, we did take your comments to heart after that meeting.

2.5

the time, in Ancon, New Mexico. My wife and I commuted, and with -- our kids commuted with us. Some of those -- we did everything in the car when we commuted.

They were still young. We sang and ate doughnuts and all the things you do with your kids when you're driving. And it was actually a nice time to get them ready for the day and then to let them wind down on the way home.

What I -- my experience was that parents in Los Alamos, parents outside of Los Alamos who work in Los Alamos, do see the value in bringing their kids with them to school in the town they work in. The reason is if I had my schools in Velarde, for example, and there was a play at 1:00, for me to drive from Los Alamos to Velarde and back would mean I would have to take half-a-day off work.

Having them in Aspen School meant I could drive five minutes to the school and attend all their presentations.

There are advantages that families do recognize in that regard. It's not uncommon.

Los Alamos has a waiting list of out-of-the-district kids whose parents work in town and want to bring their kids there for school. So I don't think that

charter is because it allows us to accept some of those students from diverse situations.

COMMISSIONER RUIZ: Thank you.

Because diversity, to us, is really important. We

had reached out to San Ildefonso and some of the

these two people were new to our list; so -- but I

think we really did take those comments to heart,

because one of the reasons we want to be a State

other pueblos around. But these three -- well,

THE CHAIR: And so -- oh, I'm sorry. I want to tail in on that --

MS. VOIGT: Okay.

high school?

a lot of growth.

THE CHAIR: -- train of thought.

In your application, you did identify somewhere -- and I wrote the page number down, and I can't find it now -- that you still anticipated that most of your students were going to come from Los Alamos. You sort of reinforced that with the comment that you made that Los Alamos is going to have to stop taking students from out of district, because it's growing.

So to me, what would compel a family to send their child out of district to a middle school when there's literally no hope that they're going to be able to continue with this cohort of students

because they're not going to be able to get into the

to happen because of what's happening with the --

articles in the paper where -- the new contract and

So if Las Cruces -- "Las Cruces," sorry.

So when we're looking at that rich

tapestry, it's -- it's less likely that that's going

with the growth -- I think we've all seen the

Page 39

is a barrier for parents that are really motivated to do that.

Secondly, in terms of leaving their eighth-grade school and going to their own home district high school, our intention is to prepare kids to be resilient, to improve their self-awareness and self-esteem to prepare them to be successful in whatever school they need to be part of after they leave eighth grade; because that skill is necessary for them to be able to start their lives after they graduate from whatever high school they go to. So that's our approach there.

THE CHAIR: And I appreciate that concept of the resiliency. And I don't -- I'm not dismissing that. But the reality is if I'm a sixth-grader, and I have no shot at getting into that high school, for parents to make that decision, that -- that's a piece of a decision to be made, because the school district is limiting -- or maybe even stopping -- the out-of-district placement.

So that's -- to me, that's a significant factor in making a decision for the middle school, because I know my child has -- will have no opportunity to make it into the high school.

MR. BILL HARGRAVES: It is. But people do

If Los Alamos has to restrict who's coming in, what -- you know. Most -- most students kind of want to stay with their friends. That's -- that's one of the reasons, you know, parents make choices. If I'm going to make these friends, I'm not going to be able to keep them, because I have no shot at getting into the high school.

So we spoke about this to some degree at

So we spoke about this to some degree at the -- at the community input, that -- you know, what's the likelihood that this school is going to offer a diverse experience for the students?

MR. BILL HARGRAVES: I have a partial answer. I have a partial answer, and it's partly based on my own experience.

My daughter started in Los Alamos elementary schools out-of-district. And I lived, at

it now. And I think people will choose to do it in the future. You know, I can't argue that the parents may prefer their kids to go to Los Alamos High School. Los Alamos High School currently does not accept anybody -- any kids in high school unless they're in-district and hasn't done that for years.

What we do is accept pre-K and K students and work them through the system all the way through high school out-of-district. But we have not, for several years, accepted out-of-district kids, either at the middle school or the high school level. So that's not a new thing.

MS. LIZ MARTINEAU: I think -- I think you're correct. But that's one thing parents might want to consider. But I think parents should have the choice. And there are some issues with some other surrounding schools as well. And I think there are some parents who will choose to send their students to Polaris for that -- those grade levels, because it's an improvement over their home school.

I mean, I think that's going to happen. MR. ROBERT GIBSON: I'm Robert Gibson. G-I-B-S-O-N.

Two things. One is we have not had that discussion with the school district yet about what out-of-district kids will have a chance to be friends for three years. And I suspect those bonds

3 will last a long time, as they did in that prior 4 experience. 5

COMMISSIONER ROBBINS: Madam Chair?

6 THE CHAIR: Commissioner Voigt? 7 COMMISSIONER VOIGT: Okay. Thank you. I 8 want to reiterate appreciation for the work that goes involved -- that's involved in completing your 9 10 application.

I just had a question about program.

The unique place-based education model, if you could address that and how -- how would that work for a student -- for all of your students, possibly, in your school. How would they address that place-based project, perhaps, that -- for a student in Pojoaque? Would all students be involved in that place-based model, or only those students coming to your school from Pojoaque?

MS. LIZ MARTINEAU: I'm not sure I understand the question; but -- so the place-based model --

MS. VOIGT: Yes.

MS. MARTUCCIO: -- uses your community as a framework for developing projects. So the idea

Page 43

their policy would be with respect to graduates of Polaris and whether they would have any favorable treatment towards getting into the high school. So we don't know for sure that it wouldn't happen. We haven't had the discussion yet.

I'd like to address a separate aspect of this, though, from personal experience. My wife lives in Los Alamos, but she worked with the Española Schools for several years before retiring. After she retired, as a volunteer, she set up a program called "Juntos" the purpose of which was to get kids from the Valley, Española in particular, and Pojoaque and Los Alamos, together, to know -- to get to know each other and to work with each other and to bridge some of the cultural gaps that have existed for a long time in that region.

It was very successful. The kids really got to know and understand the kids from the other place. It made a huge difference for those kids in how they viewed young people from the other location. Many of them, a decade later, remained friends with each other.

So having that mixture, even if the -- the out-of-district kids do not go on to Los Alamos High School, they will -- both Los Alamos and

Page 45

that we would engage with our community to come up with -- well, that the students would help to come up with projects that are meaningful to them that meet the standards. There are going to be -- we are going to meet the standards.

MS. VOIGT: Can you define "community" then? How do you establish a community within your school that involves the students' communities where they're coming from?

MS. LIZ MARTINEAU: Absolutely. One of the ways is by giving students choices. So there are choices in what kind of books they read, what kind -- they have some choices related to their own culture, as long as they're meeting certain standards.

In terms of the projects, our goal is to start local and kind of branch out from there. So we would have local projects to Los Alamos; but then we would branch out to projects in Alcalde, Velarde, other places in New Mexico.

And ultimately, our goal for eighth-graders is to have them take what they know about how things work in New Mexico and help solve problems around the world. So it's this start local and work outward. Does that --

MR. BILL HARGRAVES: Yeah. I'd also like to comment that we -- we have already discussed the partnerships with several facilities outside of Los Alamos, including the Los Luceros Historical State Park now, which is in Alcalde, New Mexico.

We've also discussed the Moving Arts Dance Theater in Española and Roger Montova's program, and its involvement with our students and their students.

We've discussed some options with some Santa Fe organizations, such as the Opera and other facilities that encourage educational opportunities

So we -- our project-based programming will be regional and not local specifically. It will involve both parents and students from outside Los Alamos.

MR. ROBERT GIBSON: I think Bill just hit on what I was going to say. Community is not just in Los Alamos. It's certainly the areas from which all of our students come; but even -- ultimately broader than that. We hope to expand into Northern New Mexico.

MR. KEN HOLMES: Yes. So this is the beauty of place-based with Polaris. As you all know

That, to me, seems like it's a minor area. And if the description is there and the professional development is there, I think at least we could say that it's Approaching, even though it may not achieve. This is my personal opinion.

The staffing plan also, it appeared that the staffing plan is termed as Not Meeting or Failed, in part, because some of the percentages are off slightly.

Well, one of the things that's really funny is I hear them talking now about PERA and ERB contributions increasing next year or the year after. We can't anticipate what's going to happen in the future. And we understand that, yes, the numbers are off a little bit. But as you mentioned in your response, it's a fairly insignificant amount.

And when we look at the five-year budget, they say it's not balanced. Your numbers show that it is balanced and actually builds a reserve, which I think we desire in every school.

So, again, how can they say it's not balanced when it's actually showing a surplus? Yes, it's not balanced. You're not spending every penny. Revenues and expenses are not equal. I wouldn't

Page 47

historically, Los Alamos, with the Manhattan Project, was a secret city. And there is this

3 culture of, "We are self-contained." But Polaris

4 really is redefining what community is. And we are

5 a community in Northern New Mexico surrounded by the 6 richness of the hysteric [verbatim] -- excuse me --

Hispanic culture and also the Native American

culture.

11

12

13

14

15

16

17

18

20

21

So, again, our community is off The Hill; it is everything that surrounds us. And that's different than this just focusing on ourselves, the Los Alamos community.

MS. VOIGT: Okay. Thank you.

THE CHAIR: Commissioner Robbins, did you

have your hand up?

COMMISSIONER ROBBINS: Uh-huh.

THE CHAIR: Okav.

COMMISSIONER ROBBINS: Thank you. I

19 appreciate your responses to the CSD's

recommendation and the three areas that they

specified, which really leads to their denial, I

22 think. The principal job description, which in your

23 response, you specifically state that the

24 description is in a separate section; it's just

maybe not in the correct section.

Page 49

want them to be equal. I would expect revenues to be slightly above what expenses are. And I think there's enough cushion in there to cover these what

will I consider minor discrepancies in the benefits that can be covered through what you have.

So I would look at those three areas as Approaching. Even though they're not perfect, they're Approaching. And I think -- so it takes away a lot of the argument of denial, because if those approaches were included, rather than saying "Fails," you'd probably have a score in the upper 80s instead of only 85.

And I think, you know, really, the denial is basically -- it looks like it's being denied because of three Fails.

I think your responses do address that they are not failing. They may not be ideal; but I don't think they're failing, either. And I think we need to take that in consideration.

I, also, at the presentation that we had in July, mentioned the fiscal and how important the fiscal is. And, you know, I think there's recognition by the individuals here. Los Alamos is made up of scientists and a lot of number-crunching and number-calculating individuals. So precision is

very, very important.

2.5

Again, we can't predict changes in those numbers later on. But I think you've demonstrated the ability to anticipate any changes in your surplus. Projected surpluses are there.

I empathize with the concern that people have of students from middle school can't be accepted into a high school.

High school and middle school students have very different cultures. Most high school students are driving; most middle school students don't drive. So you have a totally different culture and a different makeup.

When I was in middle school, I went with kids that, you know, I didn't go to elementary school with. Very few of the students I associated with in middle school I went to elementary school with. And many of the students I dealt with in middle school were going to go to different high schools. I mean, there were three different high schools that were feeding into the middle school -- or at that time, junior high school -- that I started at, and then later on, there were two different high schools that they were -- and then it became three.

if this Commission -- you know, regardless of the decision they make, stay true to your mission and goal and continue to work on this.

I think the one thing that I would be concerned about this time -- I know you have a planning year -- is location. That's so important. And, again, it's difficult. It's difficult to get someone to agree to something without an approval. It's the cart -- the whole chicken-and-the-egg thing. And there's not probably a lot of available locations, and they have probably other alternatives that might be coming up with the projected growth that's happening.

But I would -- I would, you know, say that that's one of the things that needs to be addressed in any reapplication, or as you go through the planning year. Thank you.

THE CHAIR: So I just have a couple of things.

When we had the community input hearing -now that we're talking a little bit about finances,
when we talked at the community input hearing, I
felt that one of the significant weaknesses in terms
of finances was not -- you know, not the number
crunching and your ERB was off a little bit -- I

Page 51

So, again, the fact that you're going to not stay with that cohort from your middle school to a high school I think is less important a consideration than whether or not this school can meet an educational need of the students that it's trying to address. And I'm concerned that if Los Alamos is not addressing the need of high school students and they're having to say, "Well, we'll take you in elementary school, we'll take you in middle school, but we won't take you in high school," well, you know, Los Alamos Public Schools themselves are failing their high school students and their families, I think, by not addressing that.

I think with projected growths in Los Alamos and things like that, there's limits, statutory limits -- and I've talked with Commissioner Armbruster about this, as far as how quickly Los Alamos Public Schools are going to be able to add capacity.

Their statutory limits, I don't agree with all of those, necessarily, and I think there needs to be some flexibility when they're projecting growth. But I think a charter school of this nature can assist the demand that Los Alamos has.

So I would encourage you that, you know,

Page 53

understand the fluctuations from year to year with
that -- but that too many of your responses in the
community input hearing was reliance on a foundation
that was going to be able to support the
programming.
And historically, we don't have

foundations of schools in New Mexico that can do that significant support. And that's where, to me, your budget didn't show the support for the ed programming that you truly wanted to implement for your mission, that the answers were too often, "Well, we're going to have a foundation, we're going to have a foundation."

And then you gave the example of New Mexico School for the Arts and what they can do, which is -- you know, everyone would love to have half of the budget that that foundation can do.

That's not a realistic goal; so that that -- to me, that was a significant shortfall with your responses. And I'll just add in one more thing. The statute is clear with us that the -- one of the criteria for us to vote for an application is an assurance of a facility; not, "We've got some possibilities."

And these possibilities didn't even seem

that realistic; so that that is -- that is our statutory obligation, not going forward that you've got -- that you can get a plan, but that you absolutely have that plan now.

And it is shown to be the most significant weakness and inability of a school to be able to open and open on time is that facility. And the statute is clear in terms of what our obligation is, not that there's a plan for a facility, but there is a facility.

MR. BILL HARGRAVES: Yeah. I think the budget does cover the cost of implementing our program. And although we emphasize some of the foundation support we'd like to have -- and I think we still would like to have -- I think the basic educational programs are supported by the SEG operating budget.

MS. KATIE RARICK: My name is Katie Rarick. I work with EdTec. I helped with finances on this organization. So we use the funding sources we know now to do what we knew had to be done to support this school, to support the program, to make sure that it could operate in the way it needed to.

If there are more programs they would like to add to the school to enhance it, depending on the certain things we have to do. We have certain things we have proposed to do. And we've identified

funding as adequate for those. But obviously,

there's a lot of other things that we would like to
be able to do. And how much of that we can do may
depend, to some degree, on foundation support.

THE CHAIR: Okay. Thank you.

Commissioner Armbruster?

COMMISSIONER ARMBRUSTER: It's really embarrassing to be from this area, you know, when you're trying to do this. But I'm going to --

MS. LIZ MARTINEAU: You should say you're proud.

COMMISSIONER ARMBRUSTER: I am proud. I am proud of you. I wanted to say a number of things.

One is that Los Alamos Public Schools, in the ten years that I've been gone, have really addressed a lot of issues. And I'm really proud to see that. I'm proud to see the diversity. I'm proud to see the inclusion of people of color and different religions and backgrounds and cultures.

I am also proud that they have worked to work to improve the suicidal ideation, that they're working to build strong people. And I think that's

Page 55

funding sources and the year, we would allocate those to support those programs, whether it's a foundation or whether it's a State-funded or a grant, various different things.

Every year, to Commissioner Robbins' point, the budget is going to change. The five-year budget is a snapshot based on what we know and what we needed to make sure the school could do what they wanted to do. And I feel like the budget does do that, giv- -- given the funding streams we had available.

And then as things change, unit value, ERB, all of those different things that change every year, including grant applications and foundation revenues, then the team would adjust their budget to meet whatever programming needs they wanted that year.

THE CHAIR: Thank you.

MR. ROBERT GIBSON: I believe that anyplace the application or our responses to questions in the earlier hearings indicated foundation support, it was for optional items. It was for enhancements to the basic program, not the basic program.

The -- obviously, we know that we have

Page 57

great. I'm really happy that LAPS is doing that.

But I want to address a couple of things in addition to that, which is that your concept is pretty unique in terms of our portfolio of different schools. It's a place-based one. It's not a project-based learning, which everyone does some parts of. But this is actually the whole basis of this school.

The other thing is, you know, I'm now paying more attention to this diversity issue. But what we say to applicants is, "Does this reflect your community?"

And this does reflect our community. Whether that's good or whether that's bad, it is reflective of Los Alamos, which is where you opened -- are hoping to open a charter school.

The -- so I like the fact that -- I think at the hearing, I said one thing, and now I think I'm changing my mind, which is that I was thinking that more Los Alamos kids would apply to come to this school.

But I actually think now that a number of people, when they look at middle school -- anybody, whether they're on The Hill or they're in The Valley or in Jemez or wherever -- middle school is like the

worst two or three years of your life. And that's why I wear a crown given to me by Chairwoman Gipson.

So -- so the thing is, I do believe that people would say, "Well, I can -- I know I can get a really good education in Los Alamos," because kids do get a good education in Los Alamos. "So I would rather have my children go to six, seven, eight, middle school, granted that it's not where I live or where I might be, even if they cannot go to the high school, because they can get three years of strength to go and be successful at whatever high school they happen to attend."

I think it's -- this is not just Los Alamos or a Pojoaque. It's pretty statewide on middle schools. They just seem to be different. I'll just leave it at that.

THE CHAIR: That's a good way of putting it.

COMMISSIONER ARMBRUSTER: I'm trying to be kind here. So I don't think that that is -- so I'm now thinking it is a little different because of all the housing that Los Alamos is building. Because the labs are increasing by thousands a year. And these people are coming in and probably of child-bearing age, as opposed to, you know, 65. So

Page 6

problem with the grant applications at this point.

MS. LIZ MARTINEAU: But I'd say we're not giving up. And we have a grant writer on our team who is really excited to continue to work that. Because I do think we can -- I do think we can get some grants to get this program going.

MR. BILL HARGRAVES: Yeah. I think what we'll have -- I mean, this is the way I think it'll play out.

As we open the school -- and I think Commissioner Armbruster, you're correct that we will see more out-of-district students applying than we currently expected, just because of the growth in Los Alamos and the needs that exist in other communities surrounding Los Alamos.

So I think we will see more out of -- what I would call out-of-district to Los Alamos families applying to our school because it is a State charter. I think the demographics of the student population in our school will be significantly different from the Los Alamos district schools, that we will probably be in a better position to apply and get and receive foundation funding in the future.

MS. LIZ MARTINEAU: We also have the

Page 59

we are going to get more. Okay.

So I have a question regarding money, always a question. So I know that you are going to ask for the CSP grant. So did you look at other places to get money or get grant funds?

MR. BILL HARGRAVES: Yes. We've done extensive work with -- with -- applying for grants. We applied with Excellent Schools New Mexico, with the Walton Foundation, with some place-based rural foundations that support both place-based and rural education. Probably, in total, six or seven grant applications over the past two years.

The problem has always been the demographic of the projected student population and the location. So, again, we're located in Los Alamos. Immediately, that's viewed by foundations as an affluent place. They look at the student demographics in Los Alamos, and there's -- within Los Alamos, there's 10 percent of low-income families. They immediately -- and this is kind of what's happened. They immediately reject our application at that point, and we don't proceed further.

So even though we have a unique program, the demographics of the community have been the

Pinocchio problem. So we're not a real school. So when we applied for grants, that's always an issue. "Well, are you authorized?"

"Well, no, but..." -- so I think that will help after we're authorized.

COMMISSIONER ARMBRUSTER: And I will repeat, just because I've said this in the past. It concerns me that we give children living in poverty, which is a majority of our state, unfortunately, choices of what -- how they can learn. I think it's not necessary -- I think it's just as important to give kids who are just basic run-of-the-mill, middle-class kids a choice.

And it seems that the cards are stacked against us, whether it's Los Alamos or another community who is not dealing with the poverty levels that the State is dealing with, that we're saying, "You don't get a chance. You either make it or don't."

I'm finding that hard to deal with. And I'm particularly now becoming aware of that, because before, we haven't had any schools, really, who have not had areas of extreme poverty to deal with. And we want them to do better; that's the whole goal of education.

THE CHAIR: Commissioner Caballero? COMMISSIONER CABALLERO: Thank you. I wanted to hit two areas. One is through the material, there's a mention of the -- the problem with the school board member, also a founding member. And the question I'm going to throw out is how do you -- how are you going to work it out so that the general view -- and I'm not going to say that it -- you cannot be in both unless there's a statute specifically that says you can't.

But how are you going to -- you guys are going to deal with it so that the perception, at least, while you're still a board member, you're going to work it out internally?

MR. BILL HARGRAVES: Yes. I -- well, I have -- I -- being on the school board in one of my roles, I don't always rely 100 percent on the attorneys that are available to the school board; not because they're not good, but because they may have a position.

I've consulted my own attorney in terms of conflict of interest. And at this point what I know you that. But my position is that I would not serve on two boards. If Polaris is authorized, at that point in time, I would make a decision as to which service to continue with, and I would withdraw at

least from the other one.

COMMISSIONER CABALLERO: Okay. Thank you for your answer.

Now, the -- it's -- I know that it's a challenge for Los Alamos School District by not accepting out-of-the-district students. If they --I don't know if they do it only in the high schools or they allow some in the middle schools but not in the high schools.

But I can tell you if you look at the census track, the trends in the last 10, 20 years, you have got a reduction of kids, because it's happening -- El Paso has gotten hard-hit. They're closing down several elementary schools because their student population has dropped.

When I went to school, there was just a tidal wave of children. And I was part of that.

So the competition for students is going to be rather high. And at some point, Los Alamos is going to have to attract students if they want to keep their -- their budget; because the acceptance

Page 63

is that there's no statutory requirement that prevents me from serving on both boards. The school board in Los Alamos has never had a conflict-of-interest policy.

But there's one that we're now hearing, and we will implement and document and -- and adopt. If I read that policy, which was presented at the last board meeting, my situation does not violate any of those existing conflict-of-interest criteria that's in those school board policies.

So my -- and I say this just to say that my position, from my own homework, is that I could serve on both boards legally and ethically and without a conflict of interest.

Now, my personal position -- because I like to put in as much time as possible. I'm retired. I would posit that I work harder than any school board member in Los Alamos, partly because I am retired and I have the time.

serve on two boards because I would want to dedicate my time to one or the other.

MS. MARTUCCIO: Ours.

MR. BILL HARGRAVES: So that I would not -- if you wanted a decision today, I can give

My position personally is that I would not

of minority students is going to increase budget tremendously. And so that helps. But my concern is is whether it's

Los Alamos or a charter school, is if the students are brought in -- and I know that some high schools even in El Paso, bring in minority students, but not necessarily to educate them the best but just to have them, because they receive additional monies, and instead of adding to their resources so they can do better, they spread it out to everybody. To me that's not quite good.

I mention all this because I think that by not going after students -- minority students internally in Los Alamos, and you concentrate on the outside, it will provide the challenging educational experience to those kids that come from school districts that are not doing very well.

That's my primary interest. How many of those Chicanitos, Hispanos are going to get a better education?

And I can tell you middle school is crucial to any success. Middle school is crucial to any success. I went to one of the best middle-school experiences that -- for the next two years in high school, I didn't do anything, because

it was already covered in middle school. And the -- all the students that were in my math class became engineers.

And that math class stayed constant for three years until we ended up at Jefferson High School. And some left to other high schools, and they still flourished, because they took the middle-school students that were nothing but gangs -- we were nothing but gang members; that's it. That was our calling. We would fight after school every day, every single day. We would choose another guy to fight with.

But it was a transformation. And so it was a waste of time in high school for two years, and we coasted. We had a lot of fun, because we were repeating material. And so had we not had that middle-school experience, we probably wouldn't have succeeded, because it was a turning around.

So now I am concerned, how are you going to recruit and bring in -- and I know very little about Los Alamos. If you're saying that they're coming in already, that population is coming in to drive to work, and it's easy to just drop them off and that's the answer; but the other thing is recruitment. Recruitment is going to have to be

Page 68

Los Alamos, right now, is set to hire about 1,000, I think -- I think I heard 1,000 workers a year over the next five years. So we know the student population is going to -- is going to boom in Los Alamos and in students or people traveling to Los Alamos.

So I don't think that's going to be a problem. We actually have a -- a pretty good relationship with Los Alamos Public Schools, and I think we're actually going to be a benefit to them rather than a hindrance in terms of being able to serve the student population. I don't think we're going to be arguing over students. I really -- I don't see that as a problem.

MR. BILL HARGRAVES: Yeah, I can reinforce that. The school board is now redoing their five-year facility master plan. And they were redoing it a year early because the Laboratory budget had exploded in the past couple of years, or three years. And the projections through the facility master plan final draft will be released in September. But the projection so far is that Los Alamos will grow over the next five years, the student population by 300 to 500 students at the district.

Page 67

community-based, down on the ground, as if you were doing a political campaign, knocking on doors, going through all kinds of organizations and bringing kids in.

Because the need is great out there, both Hispanic and Native American. And these are the population that if we don't educate them, we're not going to succeed in the state for economic purposes. We cannot. We get tracked solely based on the high percentage of dropouts. That's our draw. And that has to change. Thank you.

THE CHAIR: Thank you.

Commissioners, any other questions?

Comments?

Okay.

MR. BILL HARGRAVES: Do you want us to reply to that as well?

COMMISSIONER CABALLERO: Excuse me? MR. BILL HARGRAVES: Do you want us to reply to that?

THE CHAIR: Okay. I'm sorry.

MS. LIZ MARTINEAU: First of all, we totally agree. Middle school is the critical -- those years are absolutely critical, which is why we

chose our grades for Polaris, absolutely.

Page 69

Now, what that means is that we don't have enough schools built in Los Alamos to actually house those students. Our elementary schools, with the exception of one, are already over 400 and some over 450. The one that's small is about 260. And they still use six portables that they've used since 1963.

So their proposal -- one proposal to deal with that is the construction of a sixth-grade academy. The school board hasn't made decisions yet. But Los Alamos will have to expand not only their -- their acceptance of in-district students, but their facilities that address that.

So that's the other reason that I think -- I just learned about this in the past -- this projection in the past month. But that's another reason I think that the larger community outside Los Alamos, out-of-district kids, will not be accepted anymore in Los Alamos, and they will look at Polaris as an alternative; at least my neighbors do in Ancon.

MS. MARTUCCIO: In terms of recruitment, we've done a lot of community outreach; but we know that we will have to do significantly more. We are aware of that and that will start (indicates). We

were already started; but it will ramp up, I think, once we're --

MS. KATIE RARICK: Commissioners, the one thing I'll say about recruitment, I've worked with multiple schools in their planning year, their first year. And you're right. The way to recruit students from various communities, wherever you want, is you have to hire someone from the community, and they have to go throughout the community to talk about the school.

And that has been the best recruitment strategy at the schools I work with that I have seen. That's through the planning year. Then if you're doing the things you should be doing in year one, for all students, word-of-mouth gets out. And then your year two gets bigger, and your year three, and it snowballs.

So if we are authorized and are awarded the CSP grant, which we have applied for, there is significant funding in there for recruitment to hire local community members to go into the various communities in and around Los Alamos to do that kind of recruiting work.

MR. KEN HOLMES: My name is Ken Holmes. Commissioners -- Commissioner, I really appreciate

But now when you bring other children in who have different backgrounds, who have had different struggles, who have had poverty, who have had trauma, and you can go on from there, it gives them a look at what is possible. And by the same token, it gives our kids who have parents who are scientists what it's like to not be a child of a scientist and to live that way.

And the way that is accomplished is by having models. If in -- you're in school that's total poverty, I don't know how many models you have. Clearly, you have some. But we have a lot of really positive models in Los Alamos.

Just even thinking about special education, which you know I taught forever, why do we have our kids in inclusion classes? So they have models of how to act, how to answer, how to behave.

So in this same sense, I think what Los Alamos has done in the years that I've been gone, the last ten years, is by bringing in students of different cultures to see what other people are like. And by the same token, it's benefited both sides of that, because it's helped our kids who think they're such hot stuff. Well --

MS. LIZ MARTINEAU: Brought them down to

Page 71

what you said. That really hit home to me, how your mid-school made that much difference to you. And it sounds like you just went back into the regular high school. You didn't go into an exceptional school, as your mid-school.

That's what Polaris is all about. Though we don't have gang fighting in Los Alamos, we still have students that are falling through the cracks, that aren't being addressed, that aren't learning with the traditional way of things. And we do believe Polaris is going to make, we hope, the same difference in our children's lives as it made in your life.

So, really, we -- I appreciate you bringing that to the forefront.

COMMISSIONER ARMBRUSTER: Madam Chair? THE CHAIR: Commissioner Armbruster?

COMMISSIONER ARMBRUSTER: Yeah. So I've obviously been sitting here listening to this. And

what came to mind was Brown versus Board of Education, Topeka, Kansas, 1954, Supreme Court decision, that separate cannot be equal. And one of

the good things -- and I will say that about
 Los Alamos Public Schools as well -- is that our

kids lived in a bubble. I've used that word before.

earth.

COMMISSIONER ARMBRUSTER: -- they think they're tough; but it's a little questionable at times. So it shows them both, so they both grow from that. So the fact that you probably have more out-of-district students, for the reasons we've discussed, I think that's a more positive look at what can happen.

And, you know, as we said, no one knows what will happen. How fast will those houses get built? Will people live in Santa Fe? Will they bring their kids up? We don't know these things. But we certainly know in Los Alamos, we will get more children. It's going to be a growing district, where it was a declining enrollment for quite some time.

So, again, thank you.

THE CHAIR: Commissioners, anything else?
COMMISSIONER DAVIS: I have a question for the Commission. Okay?

THE CHAIR: Sure.

COMMISSIONER DAVIS: So I'm wondering - I'm looking at the possible motions.
 THE CHAIR: Oh, no. We're not -- we're

THE CHAIR: Oh, no. We're not -- we're not even close to that.

As you 3 3 time, and we do sincerely encourage you to continue know, Jeron is from Detroit. I'm a Black Latina in 4 with the -- with the application process. 4 STEM. So I understand how important it is that 5 5 And we're going -- so do we want to take a girls and people of color, impoverished students and 6 lunch break? Is that what you want to do? 6 children, first-generation children, really have the 7 7 COMMISSIONERS: (Indicate.) opportunity to kind of overcome the challenges, 8 8 THE CHAIR: Up to the will of the folks financial challenges, environmental challenges, 9 here. But it needs to be reasonably short. If you 9 educational and linguistic challenges. 10 10 want to take a break, now is a more natural break to And what makes ACES Tech really special is 11 do it. 11 not only all of the data and the research that's 12 12 been done in putting together the curricula for the I know folks are here; but I'm going to 13 ask Commissioners to -- I'd really appreciate it if 13 students, but the founder and the board members come 14 14 it was before 1:00, you know. So, you know, I'd from these varied communities of -- that are similar 15 15 really appreciate you back at 1:45. to the challenges that kids in Southeast Albuquerque 16 16 COMMISSIONER ARMBRUSTER: 12:45. face. 17 17 THE CHAIR: 12:45. Sorry. Don't come And so in addition to providing an 18 18 back at 1:45. environment that is conducive to learning, we really 19 19 So we're in recess until 12:45. understand the -- the constructs and the exposure 20 (A recess was taken at 11:55 a.m., and 20 that's really needed to ensure that the students are 21 21 reconvened at 12:57 p.m., as follows:) successful. 22 22 THE CHAIR: Okay. Bringing back out of And so I just wanted to reiterate that I'm 23 recess the Public Education Commission. And I would 23 prepared to provide professional and personal 24 like to make a note that Commissioner Chavez was 24 mentorship to these students, as are many of my 25 here from the beginning of the hearing for Polaris. 25 colleagues in medicine, not only from the standpoint Page 83 Page 85 1 1 So please let the record note that. Thank you. of children that might be interested in going into 2 And -- and Commissioner Caballero has not 2 the health-care field, but who would be 3 rejoined us yet. 3 first-time -- or first-generation college students, 4 So we are back on our agenda. And we've 4 and, really, what that means in pursuing higher 5 got our second school to hear from. And that is 5 education, but also being successful in the 6 ACES. So I would ask those folks, if you want to 6 industry. 7 7 come up now and sit. (Commissioner Caballero reenters 8 8 (A discussion was held off the record.) meeting room.) 9 THE CHAIR: So there is three people that 9 FROM THE FLOOR: So I think I just have a 10 did sign up to speak for the school. So that there 10 couple of other talking points I want to make sure I 11 is 15 minutes allotted for that. So if these folks 11 don't miss. But my eyes are failing and my 12 want to take two-and-a-half minutes -- oh, no, more 12 handwriting has devolved --13 than that. 13 THE CHAIR: We all understand that, every 14 COMMISSIONER ROBBINS: Five. 14 part of that. 15 THE CHAIR: Five. Thank you. I told you 15 FROM THE FLOOR: -- over time. 16 I wasn't a math teacher. You don't have to take the 16 I think I've hit pretty much all of the 17 full five minutes. But you do have five minutes 17 key points that I -- that I wanted to -- to say. 18 apiece. And the first person is Stephanie Garcia. 18 Yeah. I think that's it. 19 FROM THE FLOOR: Where should I --19 THE CHAIR: So while you're pausing, could 20 UNIDENTIFIED SPEAKER: Oh, the mic? 20 the record please indicate that Commissioner 21 THE CHAIR: Is it on green? 21 Caballero is here? Thank you. 22 FROM THE FLOOR: Good afternoon. So my 22 COMMISSIONER CABALLERO: (Indicates.) 23 name is Stephanie Garcia Campbell. I'm Jeron 23 FROM THE FLOOR: Very good. I think 24 Campbell's wife. I'm also a physician at 24 that's all for now. Thank you so much for your 25 Presbyterian in Albuquerque, and I do work at Gallup 2.5 time.

Page 86

THE CHAIR: We appreciate this.

Next is Theresa Carson.

FROM THE FLOOR: Good afternoon,

Madam Chair, and the Commissioners. My name is

Theresa Carson. I'm a retired senior manager from

Madam Chair, and the Commissioners. My name is Theresa Carson. I'm a retired senior manager from Sandia National Laboratories. Currently, I am the president and CEO of the African American Chamber in Albuquerque.

I'm here in support of ACES Tech. I was the program manager at Sandia National Laboratories' Hands-On Minds-On Technology Program for eight years, and I had the opportunity to see firsthand the benefits of a focused STEM program. In this ever-changing, increasingly complex world, it is important that -- that we in our nation, as well as our states', youth are prepared to bring knowledge and skills to solve problems, make sense of information, and evaluate evidence to make decisions.

These are the types of STEM skills that ACES Tech will actually bring to its students.

If we want a state where our future leaders are neighbors, and workers have the ability to understand as well as to solve some of the complex challenges of today and tomorrow, as well as a passion to get out of school, because I didn't want to be in school.

And so I -- I did not want to go to college, okay. But as far as advocating for ACES Tech, I would say had I been exposed to some other things, I might have taken a totally different route. And I really believe -- recently, I read the book, the Marva Collins' Way, okay? And most of you probably know of Marva Collins as just being an outstanding educator who had really a passion for education.

And that's what I see in Dr. Campbell is someone who has a passion for education, someone who also has a passion for underrepresented children that may not get opportunities that otherwise they could have.

And I think that's what we need in our school systems. A lot of times, we have sincere, you know, qualified educators. But I think sometimes there may be that spark of passion that is needed that wants to see each child get a chance to make a difference in this world.

And I listened to Mr. Caballero and his story. And here's -- and, I think probably the people surrounding us -- I'm preaching to the choir,

Page 87

to meet the demands of the dynamic and evolving workforce, we must make sure that no matter where children live, they have access to quality learning environments. A child's ZIP code should never determine their STEM fluency.

Your vote in favor of the implementation of ACES Tech is a good step in helping these targeted students succeed for jobs that have not yet been created and will be needed for the remainder of the 21st Century as well as beyond.

But my personal hope for the school is that it will provide future local resources for our three DOE facilities that we actually have here in the state.

Thank you.

THE CHAIR: Thank you. And finally, is Michael Carson.

FROM THE FLOOR: Good afternoon, I'm Michael Carson. I'm a retired Sandia manager, and came up the non-traditional route. I came up through the trades. I'm of the age category where I went through T-VI. But a lot of that that drove me to go to T-VI -- because I was really -- I decided in high school, I wanted to go to trade school. Okay. So I took a non-traditional route. But I had

basically -- you-all are here because you have a passion for education, okay?

I want to advocate that you would vote for this school so that the passion that is in Dr. Campbell can be transferred to students that would transform them, and maybe they would look at some different opportunities that they wouldn't have otherwise.

Had I been exposed to something like this, maybe I would have taken a different career path. But I -- you know, what I was exposed to in school didn't inspire me. I just wanted out. And I knew I had to do something to better myself.

Well, it did help me, every time I wanted to advance in my career. I worked in the trades for a while. I did that for about a five-year apprenticeship and three years in the trades. And then I moved on to supervision and management. I worked my way up the rank.

Well, it was a spark of being dissatisfied, and I used education to advance me into other areas.

And I think that's what this school can do. It can take children from where they are and help them to advance into a technical career that

will be very needed in the state and in the world at large, and help them to be citizens of the world that will make a difference in our society.

And that's why I really advocate this school.

THE CHAIR: Thank you so much.
Okay. Now we're on to the CSD portion.
MS. KAREN WOERNER: So, Madam Chair -excuse me -- Commissioners, applicant team and
guests, as you know, ACES Technical Charter School
proposes to serve Grades 6 through 12 in the
Albuquerque area. And I'm going to do similarly, as
Alan did earlier, go over the pieces in your packet
and explain a little bit, mostly for the audience,
since the Commission has it in front of them, about
the score, the process, and then, finally, our

So first, if you are looking in the book, obviously, there's -- it's in Item 6, the second yellow sheet is ACES. If you're online, Commissioners, it's Page 309 is where the overall score sheet is.

recommendation from the depart- -- division.

And as indicated, this school earned a total of 353 points out of the possible 399, scoring at 88.47 percent.

questions; but if they do something not applicable, those points didn't count towards their total overall

So you will see a difference in the scores for each of the schools we're seeing today.

On ACES Technical Charter School, I wanted to explain something that might have caused a bit of confusion.

The total -- this card with the -- color-coded in your packet is a list of all of the questions in the packet. The first column is the number of points that were possible in the application. The second column is the number of points earned by the school. And, obviously, the color-coded is the score Meets, Approaches or Falls Far Below.

I want to point out that the first column has some indicators that are -- numbers written out rather than in numerical format. Those did not apply. If you look at the last column, they're either blank or not applicable for this school.

For an example, third-party relationships and third-party contracts. The peer review team didn't score this team on that, because there were none to provide. So those points don't count in

Page 91

And as Alan, Mr. Brauer, explained earlier, in this recommendation and analysis, the CSD has considered the overall application ratings and the responses during the capacity interview, as per the peer review team, as well as feedback from the community input hearing and letters of support, which are included on the pages in your packet.

Again, for the sake of the audience, the written application evaluations and capacity interview is actually scored by an external team of four peer reviewers; a licensed administrator, a licensed New Mexico teacher, a licensed New Mexico school business official, and a team leader with administration experience. And then the CSD's job is to put it in a packet for you-all based on that review.

Two additional considerations. The community input hearing is not scored; but it's referenced, and it has been provided, as well as the full transcript has been provided to the Commissioners, particularly for those who were unable to attend.

And, also, again, if the applicant school didn't answer any specific prompts that were not applicable to the school, of course, they can't skip

their total number of points; nor did they earn or lose any points for it. So I wanted to explain that there

The next few pages, Commissioners, are, of course, the sections of the application. And any areas that did not Meets per the peer review team, the peer review comments are what's included here.

And all the way to the end, our recommendation is towards the end of this section.

Overall, the application is complete and adequate. During both the capacity interview and the community input hearing, the applicant team demonstrated the capacity to implement the educational, organizational, governance, and financial plans as described in the application.

The team is strong and represented by experts in the finance, legal, and education arenas.

It explains the minimum scoring expectation set by the Public Education Commission. From Page 3 of the new charter school application are: No scoring area received a score of Falls Far Below. No more than three responses were evaluated as Approaches in any one section. And the applicant must earn at least 80 percent of the points.

This proposal, as I mentioned earlier,

scored 88.47 percent and received no Falls Far Below ratings.

On the written application, five responses were scored as Approaches in the organizational section. Five were scored as Approaches in the financial section. And four of their capacity interview questions were rated as Approaches.

25

However, the peer review team determined that the responses by the school during the capacity interview adequately addressed the majority of the concerns identified during the review of the written application itself.

The peer review team members commented, both during and after the capacity interview, that the applicant team presented a much stronger proposal than was understood from their reading of the application. The peer reviewers recommended that the school use the purpose in their application that they described in their application as their mission, which would lead to a development of more appropriate mission-specific goals.

The Public Education Commission seemed to arrive at the same conclusion at the community input hearing, as is noted in the packet a little bit earlier here on Pages 8 and 9.

in math class.

So -- 'cause I'm -- I'm done with it at this point. But if I could just ask someone, because I can't figure out why there -- where the discrepancy is.

MS. KAREN WOERNER: And I absolutely --Dylan has pulled out his calculator to double-check.

THE CHAIR: I'll give you my cheat sheet if you want to compare it. I did it by 2s, 3s, 4s, 6s, 8s, 16s and 12s. They -- I added it up that way.

MR. DYLAN WILSON: Was it in a specific section?

THE CHAIR: No. It was the total for the points earned. Not the possible points, but the total points earned by the school, the total score, I get a completely different answer.

So I'm just going to ask that it just be checked so that we have the record clear. That's all. Sorry.

21 DR. JERON CAMPBELL: Okay. 22 MS. KAREN WOERNER: He'll check. 23 THE CHAIR: You were done; right? I 24 didn't interrupt?

MS. KAREN WOERNER: No, ma'am, you did

Page 95

Page 94

The applicant team has clearly demonstrated their preparedness to open a high-quality charter school, and the CSD recommends approval of this application.

I further want to mention that no letters of support or opposition were received by the Charter School Division; nor did the school choose to submit a response to our recommendation.

Thank you.

THE CHAIR: Thank you. And I'm just going to ask for a double-check. And it has -- I'm not Looking to -- because I'll qualify this once again. I'm not a math person.

But the score doesn't add up for their -the points. I don't get the score to add up with their points achieved that this does. And that's --I just want the record to be clear. I'm not looking to affect anything. But I think the record has to be clear.

So if I could just ask someone at some point in time to check this out, 'cause I don't get the same number. And I spent too much time last night trying to get it to that number. And I couldn't get it to that number. So I'm going to leave it to a higher authority that paid attention

not.

THE CHAIR: Thanks. I appreciate that. So now you have your 15 minutes of fame so do with it what you want.

DR. JERON CAMPBELL: All right. Thank you, Madam Chair. Again, thank you all for having us here. We're very appreciative of this opportunity, very excited by the possibility of opening this new ACES Technical Charter School in Albuquerque.

We've been very pleased with the process up to this point, all the phases.

THE CHAIR: Can I just interrupt you and ask you to identify yourself for the record?

DR. JERON CAMPBELL: Sure. Jeron Campbell, lead founder for ACES Technical Charter School.

FROM THE FLOOR: Finnie Coleman, founding board member.

20 DR. JERON CAMPBELL: Okay. 21 MR. ALAN BRAUER: All right. THE CHAIR: Dan Hill, Counsel.

22 23 DR. JERON CAMPBELL: One thing I'll say, 24 Madam Chair, is I actually didn't get the numbers 25

that they had at first; but I did a separate

DR. JERON CAMPBELL: All right. Thank you all once again. I just have a few points in terms of overview. Obviously, you all are very familiar with the application that we wrote. And we did have the other meeting, community hearing.

But for the sake of maybe people in the audience who haven't heard us speak, in terms of overall purpose, people would ask me, "Well, why do you want to start a charter school?"

And I really have a two-word answer I always give. And it's, "The need"; right? There is a need for better educational opportunities for a lot of students.

As my wife indicated earlier, I grew up in Detroit, Michigan, what is -- if you look in NAEP scores, it is the worst large city in the country. It has been ever since the NAEP started.

And so I came through a K-to-12 system that I didn't know at the time did not give me a lot of opportunities I really deserved.

However, I really liked school as a

tech-heavy state. There is need for a lot of

- 2 skilled labor for these wonderful jobs at our
- 3 hospitals. Our universities are looking for
- 4 qualified students; our businesses are looking for
- 5 qualified folks. And our labs, our national labs
- 6 here that we have been fortunate to have, often have 7 to go out of state to recruit a lot of their talent.
- 8 That's something we can do a better job of doing
- 9

something about here in New Mexico.

In our targeted area, there are 12 K-to-5 schools. I'm looking at three ZIP codes; 106, 108, and 123 in Albuquerque. If you look at the 12 elementary schools, the ELA average on our State test ranges from 6 to 42 percent. The math average goes from 9 to 46 percent. So there's not one elementary school out of the 12 where even half of the students are proficient. And this goes on year after year.

If you look at the middle schools, the middle schools gets worse. So ELA ranges from 12 to 29 percent; in math, 7 to 22 percent. So now you're down to a quarter of the students at the middle school level. They haven't gotten to high school yet, and it's going in the wrong direction.

So this is something we really need to

Page 99

student. I decided to be an engineer when I was 12 years old, and nothing was going to stop me from that goal. I was the first person in my family to ever go to college. My parents didn't know what to tell me to do. But I made it happen, and I successfully graduated, two engineering degrees, and then later, obviously, a doctorate in education from Harvard.

So coming from being on welfare your entire youth, coming from Detroit, which, at that time was, and still is, a very dangerous neighborhood, and also being a first generation, that's a testimony that I have not seen repeated often enough; right?

I know that if I can do that and I'm able to tell students and look them in the eye at this point and say, "If I did it, you can do it," that's the attitude I bring.

ACES Tech will provide a high-quality STEM program to families in this particular city, Southeast Albuquerque. It is the most diverse part of Albuquerque if you look at the data in terms of demographics and also, of course, one of the lowest income areas.

As we know, New Mexico is a very

Page 101

address. And so it's something that I have taken on as part of my own personal mission to change as a person who has accomplished and was able to get through my own K-to-12 experience and be successful.

We believe that our program will change these statistics. We're going to offer a comprehensive program. A lot of people think when you say STEM, you're somehow anti-art and anti-music. That couldn't be further from the truth. I played cello in school. I understand the value of music, and it will be available for students at ACES Tech.

And the same for the arts. I think that visual and performing arts are very important for students to be exposed to in school, and we will have those programs in our school in addition to the four core subjects.

We're going to be a very supportive educational environment. So for one, we're going to focus on SEL, social emotional learning. I know that students bring a lot with them. I was one of those kids when I was young. And you look for resources and people who care. So we're looking at training our teachers in character education and mindfulness.

Another type of support, I intend to develop specific programs for ELL and SpEd students. It won't be just some out-of-the-box, maybe we do it, maybe we don't, we don't have any idea how it's working. It will be a specific targeted program for the kids in our school who come in; because I know we're going to get a strong percentage of ELLs and SpEd students, at least I'm anticipating it.

And the third thing is what I'm calling Tech Time. It's one of the innovative features that you saw in my application. And essentially, there's going to be an hour block in the middle of every day, half of which is designated for lunch, half of which is designated to what we call Tech Time.

And during this time, students who are below will get mandatory tutoring right there during the school day on a daily basis.

Students who are ahead -- because people say, "Well, what about the students doing very well?"

They're going to have student-led, project-based projects in their learning in their --during that time. So the students will be able to have a project. But at first, they won't know what to do; they probably won't be used to that kind of

put this thing together. That's the hardware side.

What about the software, coding?

One of the major programs out there is called Python. Instagram, if you're familiar with Instagram, is written in Python; right? So it is fast becoming the most common computer language in the country.

And my students will be, at sixth grade, learning Python, right, on these -- in fact, it will be the Kano machines. It's going to start from day one. So whether they know English or not is irrelevant. You can learn Python even if you're an ELL student, even if you're a SpEd student. That doesn't stop you from being able to learn these other skills that are outside the core, but are still very important for preparing you for your future.

Community support. As you know from our application, we got community support letters from several neighborhood associations, La Mesa, Kirtland, Singing Arrow. I went to Silver Hills, Elder Homestead, just to name a few of the neighborhoods. And we have support from the neighborhoods on the Southeast side.

I went to the Dean of Engineering and he

Page 103

freedom. But we're going to offer it for them. As time goes on, the students will come up with some very interesting projects, and we're going to support them to accomplish those things during that time

So we're going to address low-performing students and high-performing students every single day in our school.

And the last thing I want to talk about is in terms of the curriculum, it's going to be very technology-rich.

If I can just give you an example, one of the ideas I just had one day was what if our kids built their own computers. So Googled that. Come to find out there is a computer called the Kano PC, a Microsoft partnership.

This is a computer that comes in a kit. The students will put them together and they learn Windows 10. So they have Microsoft Office on it. The thing won't even be out until October. But I already know about it. I'm already looking at it. I will be ordering one and learning how to use it this planning year so we can make sure it's ready.

So our students will not just be thrown a computer or a Chromebook. They're going to have to

gave us a letter of support from UNM. And a vice chairwoman of the UNM Health Sciences Center, Dr. Romero, gave us a letter of support.

So I'm going not just into neighborhoods, but also into the resources that we have in this community because I want to find ways to get them engaged with the school, and our students as well, as time goes on.

We plan to promote strong parent involvement. I absolutely believe you will not have a successful school without strong parent involvement. So we're going to have programs available for parents to be involved and engaged in the school.

We did a survey. 86 of the parents agreed that for parents, STEM is important, even for people who may or may not think that STEM is worth doing. And then 96 percent agreed that students will complete a work certification. So as you saw from another one of our innovative features, our students will be completing certifications; not might.

They will complete work certifications before they leave, both in the health-care industry, like my wife was speaking about, but also in engineering, like CompTIA certification. There's no

reason why high school students shouldn't be able to get those certifications. And they can get jobs with or without a college degree with those certifications. So we will be putting them on a pathway way to earn those.

In closing, ACES Tech is built around a belief that all students -- "all" means "all" -- can achieve at high levels. And all students have gifts. So we will expose them to a variety of things. Because you don't know which skill or gift the kid has if you don't expose them. It robs them of the opportunity to start at an early age for developing those gifts. So you will see a very comprehensive -- when I say "comprehensive," it will be very broad -- things we're exposing our students to. Our environment will be one that's welcoming, safe and inspiring, right? It has to be all of those, and it will be.

We believe that the structure and academically rich environment will help us to achieve our mission of ensuring that every student is prepared for college and career when they graduate.

And so with that, I will let Dr. Finnie Coleman speak.

So when I came to New Mexico, I didn't come here with the notion that somehow students in New Mexico are less prepared or don't have ability. I came here with a positive understanding of what

our students bring to the table.

It chafes me when I hear people low-rate the educational system in the State of New Mexico, because I've worked directly with the freshmen every year that I've taught at UNM. I've always tried to make room to teach freshmen. I don't have to teach freshmen. But as a tenured professor, I think it's important that they have that experience.

The reason I bring that up is because this school attracted me because it does some things that I think are extremely important to prepare young people to come to the University. Now, I'll be the first to admit that over the last five or ten years -- and I'm sure you all are aware of this -- there has been a significant increase, if you will, in the gap between the students who are well-prepared coming to the University of New Mexico and those who are under-prepared.

That's not a dig upon APS or anything else. And that's not a way of saying that ACES is doing something because there's failure other

Page 107

DR. FINNIE COLEMAN: Thank you. Good afternoon. And thanks for this opportunity from the President of the Commission and also from the Commissioners.

I am a faculty member at the University of New Mexico. I've been a faculty member since 2015. I came here to direct Africana Studies at UNM. I've served as the Dean of the University College at UNM, our freshman college. And I am currently serving as the president of our Faculty Senate at UNM.

I've been asked to talk about my reasons for joining the board, to talk about the board's role in running the institution, and also my experience as a teacher.

I actually want to start with a point from Texas A&M University, where I ran the honors program at Texas A&M before I came here to UNM. That program has had a very successful national scholarships program. In fact, we've had multiple Rhodes Scholars, Marshall Scholars, Mitchells, et cetera.

One of those Rhodes Scholars was a young man that we were able to recruit from New Mexico. So one of the -- Texas's Rhodes Scholars is from here.

Page 109 places. We see remarkable opportunity. And that opportunity is bound up -- I think you see in the

passion from -- from Dr. Campbell.

Lean tell you that that passion

I can tell you that that passion is infectious. The role of this board would be to make sure that, of course, the nuts and bolts of running of the school are taken good care of. I'd be serving on that board. I've served on charter school boards here for several years now. I'm on the board of Amy Biehl High School.

And I can tell you the passion that Jeron has brought to this process, not only has it energized board members like me, but I think also the community, the people who have come up from Albuquerque to share in this excitement about what we're trying to do at ACES Tech.

Initially, I joined because Jeron is a captivating person. He's a -- he's a good guy. But I remained on this project because I became vested in it as well. I bought into -- drank the Kool-Aid, so to speak.

This is a remarkable opportunity for our community. As someone who teaches our incoming freshmen, the curriculum that I see here is exactly the kind of curriculum that I want to see young

Page 110 1 1 people bringing into my college classroom. COMMISSIONER DAVIS: And I'm wondering if 2 2 you could just talk about that. So one was the And so with that said, thank you all for 3 3 five-year budget, budget adjustments, financial the positive recommendations that we've had so far. 4 And hopefully, you'll continue to support us, and we 4 oversight, financial staff, and governance. Have 5 5 you -- can you help me out? hope to have a positive vote this afternoon, and 6 6 hopefully, ACES Tech can do all of the things that DR. JERON CAMPBELL: Sure. I would say I 7 7 Jeron has convinced us that it's going to be able to disagreed with the scoring, all right? 8 8 COMMISSIONER DAVIS: Okay. 9 9 THE CHAIR: Thank you. Are you done? DR. JERON CAMPBELL: That's putting it 10 10 DR. JERON CAMPBELL: Yes, ma'am. lightly. There's nothing about the budget that 11 THE CHAIR: All right. Thanks. 11 doesn't add up, all right? I do a lot of math and 12 12 it adds up, all right? Appreciate it. 13 13 THE CHAIR: God bless you. DR. JERON CAMPBELL: Thank you. 14 DR. JERON CAMPBELL: When I looked at, for 14 THE CHAIR: So, Commissioners, any 15 15 questions? Comments? I -- you know, without a instance, the point -- the part in the finance that 16 16 I lost the most points on -- I'm sorry, which -- are doubt, I want to say once again, thank you for all 17 17 you talking about Section 2 or 3? the time and effort and energy that you -- that you 18 18 COMMISSIONER DAVIS: 3. put into this. And I certainly appreciated that 19 19 community input hearing; because as I indicated DR. JERON CAMPBELL: Okay. It is 3. 20 then, it was such a different story than what we 20 Good. It was B(2), the five-year budget plan; 21 21 read on that flat paper, that I had concerns, you right? And it's half your points. 22 22 know, going in. And the -- the feeling that we So, again, my complaint -- and I wrote 23 23 walked out with was significantly different, at a -- I think it's an eleven-page response to the PED 24 24 least for me. So I appreciate that. based on the scores arguing for all of my points 25 And I overwhelmingly appreciate the fact 25 that I feel that -- I did that within a day, all Page 111 Page 113 1 1 that we don't have to talk facilities with you, you right? Once I got -- I was so disappointed with 2 know? It is so refreshing. And I know programming 2 what I felt was -- nothing was wrong. They 3 is what we're here for. But you can't get it up and 3 interpreted it differently. And therefore, I'm, 4 running unless you've got a building to bring those 4 like, well, if that's your personal preference, 5 kids to. And that is the -- unfortunately, that is 5 that's fine. But that doesn't make it wrong. I'm 6 the hurdle that more and more schools are facing 6 sorry. That doesn't make it wrong. 7 than anything else. 7 So when you look at B(2), I have no idea 8 8 So I do appreciate it. And I appreciate why I didn't get all my points. It says, in B(2), 9 the comment about the mission and the purpose; 9 "Evaluation does not..." -- I know B(2) was one 10 10 where the -- I don't see their comment. Make sure I because we did discuss that. And if there is a 11 11 get it right. B(2). Okay. positive vote, that's certainly something that we're 12 So while they have also a kind of a 12 going to have to look at fixing. Because you do 13 have a mission right there in that purpose, and I 13 contract services, "...it didn't allocate specific 14 14 think that will help the school drive for their ones such as diagnosticians." 15 15 So if you think about diagnosticians, performance framework. It'll give it a clearer 16 that's in the special ed area. So in the special ed 16 sense of what you need to do. 17 17 area, there is a general line you can use that is So, are there any other questions? not as specific as diagnostician. 18 COMMISSIONER DAVIS: I have a question. 18 19 19 And so for me, when I put together a THE CHAIR: Sure. 20 20 budget, I'm very conservative. And the reason is I COMMISSIONER DAVIS: So I'm looking at the 21 don't know what kids are going to walk in. So I'd 21 financial framework. 22 rather put it into General Specialists than 22 DR. JERON CAMPBELL: Got you. 23 23 diagnostician, because if I put it in Diagnostician, COMMISSIONER DAVIS: And there is five 24 I have to spend it on that. If it put it in General 24 approaches: Evaluation --25 25 DR. JERON CAMPBELL: Right. Specialist, I can still get a diagnostician or any

Page 114

service a student might need.

I checked out with Mike Vigil, my finance person. He's here in spirit. He said, "That's

fine, because you don't know what's going to -- you know, what the students are going to need when they show up."

So to me, that's -- an opinion that I should put my money in particular lines. But it's not that I put it -- it's wrong. It's that they feel -- whoever the finance person was that graded it -- that I should have put my money in different

Well, I did the budget. It balances. There's nothing wrong with my budget. I have money for special ed. It's just on a different line than you would have done it if you would have done the budget. I did the budget.

Nothing is wrong with my budget. I should have gotten my points. We can go back and forth with that; but, you know, that's my opinion even today. So that's one of them.

Okay. Yeah. I mean, on B(4), somebody said, you know, I'm pessimistic. I'm, like, you know, did you read my application? I mean, you know, it's, like, I'm going into the poorest, most

1 there's any inadequacies?

DR. JERON CAMPBELL: Absolutely not. I would challenge somebody to show me inadequacy. Absolutely, yes, ma'am.

THE CHAIR: Commissioner Robbins?

DR. JERON CAMPBELL: The finance guy with New Mexico --

THE CHAIR: I wish you could really tell us how you feel so we could get to the bottom of it.

COMMISSIONER ROBBINS: I have a little bit of finance and budget background. So I do appreciate what you had to say, and I will second what you said.

A lot of times people have different opinions. And my experience has been a lot of times people think, "Well, your lease payments for your copier should be expenses." But if you have a contract for it, then it goes in your contract area. But it's an expense, for differences of opinion.

DR. JERON CAMPBELL: Right.

COMMISSIONER ROBBINS: As I said, in the meeting that we had back in July with the presentation of the public input, the concerns -- the only concerns I had -- and they were more cautionary than real concerns -- is the finance

Page 115

diverse part of town, and I'm a pessimist? It's like, you know, come on, you know.

So for me, it's really opinion that was used to judge my budget. There was not one point that said my numbers were off or that there was a required something that I didn't do. I didn't read one comment that said that. So I don't know if you have a particular part of the budget?

COMMISSIONER DAVIS: No, I was just wondering -- I just wanted you to address that and explain why it's "Approaches." And so what I'm hearing --

DR. JERON CAMPBELL: I'm looking for that explanation as well.

COMMISSIONER DAVIS: So what I'm hearing is that when you created your spreadsheet, you put the numbers in this line, and somebody thought they should have been in this line.

DR. JERON CAMPBELL: That was the biggest points right there. B(2). I lost half of my points for that. That's just -- well, it's the process. But that was unfortunate, you know. When you think about the time I put into this budget, you know, and it balances, to -- to --

COMMISSIONER DAVIS: So you don't feel

Page 117

staff and the governance. These are the issues that tend to cause charter schools, and especially new charter schools, to have issues.

And I appreciate your attention to the detail, the fact that you put together this budget, that you are such a numbers person. I have no reason to believe you won't stay on top of that. And I think that's very, very important; and for your governance council and the finance requirements that that council is going to take on, that is very, very important.

You know, a lot of times the governing council, they want to get involved -- or boards, they want to get involved in the day-to-day. And it's, like, let the professionals do that. You do the policies; you do the direction; and let the professionals carry out the details. So that would be my thing.

But monitoring and managing the finances will continue to be -- and, again, a lot of it is opinion. But those are the cautionary things that I saw in this.

But I think given your background, given your dedication and everything, I have every confidence to believe you will stay on top of it.

	Page 118		Page 120
1	And I have no reason to believe you won't.	1	COMMISSIONER CABALLERO: Yes.
2	So thank you very much.	2	THE CHAIR: Motion passes, ten-zero.
3	DR. JERON CAMPBELL: Thank you, sir.	3	Thank you.
4	THE CHAIR: And I don't remember. Did you	4	(Closed Session conducted off the record.)
5	indicate that you have already made any agreement	5	THE CHAIR: So I move that the Public
6	with a management group to do your finances? Or no?	6	Education Commission end Closed Session. The

			32 (1 uges 122 to 123)
	Page 122		Page 124
1	THE CHAIR: There's a motion by	1	interpreter from the New Mexico Public Education
2	Commissioner Voigt, a second by Commissioner	2	Department. Laura Henry will also support us during
3	Caballero.	3	the public comment.
4	Any discussion?	4	THE CHAIR: I need to know who's available
5	If not, roll call, please.	5	on the phone, because I need to divide this time
6	COMMISSIONER ARMBRUSTER: Commissioner	6	out. So we need to know, and also, for the record,
7	Gipson?	7	so we need to have it accurate who is speaking.
8	THE CHAIR: Yes.	8	So I've got the people who are here,
9	COMMISSIONER ARMBRUSTER: Commissioner	9	that I've got. It's the folks on the phone. I need
10	Robbins?	10	an accurate who is actually there on the phone.
11	COMMISSIONER ROBBINS: Yes.	11	MS. KAREN WOERNER: So, Elisha, you
12	COMMISSIONER ARMBRUSTER: Commissioner	12	mentioned to me that Ms. Jaramillo is a board
13	Caballero?	13	member, but she's not going to be able to stay and
14	COMMISSIONER CABALLERO: Yes.	14	talk.
15	COMMISSIONER ARMBRUSTER: Commissioner	15	MS. ELISHA VARELA: Yeah. She has a
16	Voigt?	16	client coming in five minutes. She took the morning
17	COMMISSIONER VOIGT: Yes.	17	off for us; but she can't take the afternoon off.
18	COMMISSIONER ARMBRUSTER: Commissioner	18	MS. KAREN WOERNER: So she will not be
19	Raftery?	19	speaking.
20	COMMISSIONER RAFTERY: Yes.	20	MS. ELISHA VARELA: She won't be able to,
21	COMMISSIONER ARMBRUSTER: Commissioner	21	no.
22	Crone?	22	MS. KAREN WOERNER: But the other board
23	COMMISSIONER CRONE: Yes.	23	members on the line will be able to speak?
24	COMMISSIONER ARMBRUSTER: Commissioner	24	MS. ELISHA VARELA: There's one more on
25	Armbruster votes "Yes."	25	the line waiting, yes.
	Amoraster votes 1 es.		
	Page 123		Page 125
1	Commissioner Davis?	1	MS. KAREN WOERNER: These were on earlier
2	COMMISSIONER DAVIS: Yes.	2	but eight but are not there now.
3	COMMISSIONER ARMBRUSTER: Commissioner	3	THE CHAIR: This person is there now.
4	Ruiz.	4	MS. KAREN WOERNER: Yes.
5	COMMISSIONER RUIZ: Yes.	5	
6	COMMISSIONER ARMBRUSTER: Commissioner	6	THE CHAIR: This person is not? MS. KAREN WOERNER: Correct.
7	Chavez?	7	
8	COMMISSIONER CHAVEZ: Yes.	8	THE CHAIR: This person is not? COMMISSIONER CRONE: Correct.
9	THE CHAIR: Ten-to-zero vote. The motion	9	
10	passes, ten-zero. Congratulations. Thank you very	10	THE CHAIR: This person is not.
11	much. You'll be receiving a letter from us	11	MS. KAREN WOERNER: Correct. And these
12	confirming that, and we look forward to the upcoming	12	are all (Chair consults with Ms. Woerner).
13		13	MS. KAREN WOERNER: And I don't know if
13	year. DR. JERON CAMPBELL: Thank you. Thank	14	
15	•	15	Araceli Milner is still on the phone? Not. THE CHAIR: No?
16	you, everyone.	16	
17	THE CHAIR: Thank you. And I'm going to indulge everyone in a short break so I can run to	17	MS. KAREN WOERNER: Okay. 16 divided by
	•	18	13.
18	the ladies' room. Sorry.	18	THE CHAIR: So there are 13 people total
19	(Recess taken, 2:09 p.m. to 2:18 p.m.)		who have expressed an interest in speaking. So
20	THE CHAIR: So the third school we have on	20 21	there's approximately 1.2 seconds 1.2 minutes.
21	the agenda for today is Explore Academy-Las Cruces.		MS. MELISSA BROWN: 1.15.
22	So folks can come down. And I don't have a sheet, a	22	THE CHAIR: 1.15 minutes.
23	sign-up sheet.	23	MS. MELISSA BROWN: If someone is speaking
24	MR. ALAN BRAUER: Madam Chair, members of	24	in Spanish, I'll pause and let the interpreter
25	the Commission I also want to share that we have an	25	THE CHAID. We do not count the time where
25	the Commission, I also want to share that we have an	25	THE CHAIR: We do not count the time when

			33 (Pages 126 to 129)
	Page 126		Page 128
1	someone is yes yeah. Yeah.	1	on the line as well, on the list?
2	MS. KAREN WOERNER: So folks on the line?	2	MS. KAREN WOERNER: Yes.
3	THE CHAIR: How are we going to notify	3	THE CHAIR: Yes.
4	time-up for folks that can't well, she always has	4	TELEPHONIC SPEAKER: I don't want to make
5	a dinger on; but I don't know if the folks on the	5	a comment. I just want to listen in if that will be
6	line will be able to hear as well. But they'll need	6	okay. I do have other things to attend to.
7	to know.	7	THE INTERPRETER: Okay. Thank you.
8	MS. MELISSA BROWN: I can change it to a	8	THE CHAIR: So Maria is not.
9	louder sound.	9	COMMISSIONER ROBBINS: We're back up to
10	MS. KAREN WOERNER: Folks on the line,	10	69 seconds.
11	this is Karen Woerner. I just wanted to let you	11	THE CHAIR: So we're back to the same
12	know, because 13 people have signed up to speak,	12	time. Okay. So I'll jump a little out of order and
13	both in person and on the phone, each person will be	13	Salvador may speak now.
14	given one minute and two seconds to speak. It will	14	THE INTERPRETER: Is it okay that you
15	be timed, and we'll have to interrupt you when your	15	can't listen?
16	time is up if you're on the phone.	16	THE CHAIR: Yes. Okay.
17	(Interpreter interprets.)	17	We're having challenges because there is a
18	FROM THE FLOOR: I don't want to talk.	18	record being made of this. So we need to know what
19	THE INTERPRETER: Okay. Can he speak now,	19	people are saying.
20	or will you let him know when he can speak?	20	THE INTERPRETER: Yes. I will be
21	THE CHAIR: Is that Salvador? Will it be	21	translating for Salvador.
22	easier to let him go first? We can do that. That's	22	TELEPHONIC SPEAKER: My name is Salvador.
23	no problem. But did I also because I can't hear	23	I'm here in Las Cruces. And along with three or
24	from that little box, really, at all.	24	four other people, representing the school. I am
25	But did I also hear someone say they	25	here supporting the Explore Academy. I have two

2 3 4 5 6 7 8 9 10 11 12 13	didn't want to speak that was on this list? That's what I need to know. THE INTERPRETER: Yes. THE CHAIR: I thought I heard someone say they don't want to speak. There isn't. Okay. MS. KAREN WOERNER: And also Araceli Milner has joined again. She's been on all day waiting and just rejoined. THE CHAIR: Does she want to speak? Because that's going to reduce the amount of time. THE INTERPRETER: Oh, I'm sorry. Did you want to provide a public comment today?	2 3 4 5 6 7 8 9 10 11 12 13	children, and there aren't very many options here where they can attend school. I want them to receive a better education, and I believe that this is the place where they can receive that education. I believe it will be good for my children, but not only my children, but other children to have options for a better education. That's it. That's it. Thank you. THE CHAIR: All right. Thank you very much. So first on the list is Araceli Milner. THE INTERPRETER: Araceli? She just asked, "Can I begin," and I said, "Yes."
2 3 4 5 6 7 8 9 10 11 12 13 14	didn't want to speak that was on this list? That's what I need to know. THE INTERPRETER: Yes. THE CHAIR: I thought I heard someone say they don't want to speak. There isn't. Okay. MS. KAREN WOERNER: And also Araceli Milner has joined again. She's been on all day waiting and just rejoined. THE CHAIR: Does she want to speak? Because that's going to reduce the amount of time. THE INTERPRETER: Oh, I'm sorry. Did you want to provide a public comment today? TELEPHONIC SPEAKER: I did want to say	2 3 4 5 6 7 8 9 10 11 12 13	children, and there aren't very many options here where they can attend school. I want them to receive a better education, and I believe that this is the place where they can receive that education. I believe it will be good for my children, but not only my children, but other children to have options for a better education. That's it. That's it. Thank you. THE CHAIR: All right. Thank you very much. So first on the list is Araceli Milner. THE INTERPRETER: Araceli? She just asked, "Can I begin," and I said, "Yes." TELEPHONIC SPEAKER: I just wanted to
2 3 4 5 6 7 8 9 10 11 12 13 14 15	didn't want to speak that was on this list? That's what I need to know. THE INTERPRETER: Yes. THE CHAIR: I thought I heard someone say they don't want to speak. There isn't. Okay. MS. KAREN WOERNER: And also Araceli Milner has joined again. She's been on all day waiting and just rejoined. THE CHAIR: Does she want to speak? Because that's going to reduce the amount of time. THE INTERPRETER: Oh, I'm sorry. Did you want to provide a public comment today? TELEPHONIC SPEAKER: I did want to say that I'm	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	children, and there aren't very many options here where they can attend school. I want them to receive a better education, and I believe that this is the place where they can receive that education. I believe it will be good for my children, but not only my children, but other children to have options for a better education. That's it. That's it. Thank you. THE CHAIR: All right. Thank you very much. So first on the list is Araceli Milner. THE INTERPRETER: Araceli? She just asked, "Can I begin," and I said, "Yes." TELEPHONIC SPEAKER: I just wanted to share that I also wish that the school passes,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	didn't want to speak that was on this list? That's what I need to know. THE INTERPRETER: Yes. THE CHAIR: I thought I heard someone say they don't want to speak. There isn't. Okay. MS. KAREN WOERNER: And also Araceli Milner has joined again. She's been on all day waiting and just rejoined. THE CHAIR: Does she want to speak? Because that's going to reduce the amount of time. THE INTERPRETER: Oh, I'm sorry. Did you want to provide a public comment today? TELEPHONIC SPEAKER: I did want to say that I'm THE CHAIR: Not yet.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	children, and there aren't very many options here where they can attend school. I want them to receive a better education, and I believe that this is the place where they can receive that education. I believe it will be good for my children, but not only my children, but other children to have options for a better education. That's it. That's it. Thank you. THE CHAIR: All right. Thank you very much. So first on the list is Araceli Milner. THE INTERPRETER: Araceli? She just asked, "Can I begin," and I said, "Yes." TELEPHONIC SPEAKER: I just wanted to share that I also wish that the school passes, because here in Las Cruces, there are a lot of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	didn't want to speak that was on this list? That's what I need to know. THE INTERPRETER: Yes. THE CHAIR: I thought I heard someone say they don't want to speak. There isn't. Okay. MS. KAREN WOERNER: And also Araceli Milner has joined again. She's been on all day waiting and just rejoined. THE CHAIR: Does she want to speak? Because that's going to reduce the amount of time. THE INTERPRETER: Oh, I'm sorry. Did you want to provide a public comment today? TELEPHONIC SPEAKER: I did want to say that I'm THE CHAIR: Not yet. THE INTERPRETER: Not yet. But we're just	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	children, and there aren't very many options here where they can attend school. I want them to receive a better education, and I believe that this is the place where they can receive that education. I believe it will be good for my children, but not only my children, but other children to have options for a better education. That's it. That's it. Thank you. THE CHAIR: All right. Thank you very much. So first on the list is Araceli Milner. THE INTERPRETER: Araceli? She just asked, "Can I begin," and I said, "Yes." TELEPHONIC SPEAKER: I just wanted to share that I also wish that the school passes, because here in Las Cruces, there are a lot of schools that aren't doing the job that they should
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	didn't want to speak that was on this list? That's what I need to know. THE INTERPRETER: Yes. THE CHAIR: I thought I heard someone say they don't want to speak. There isn't. Okay. MS. KAREN WOERNER: And also Araceli Milner has joined again. She's been on all day waiting and just rejoined. THE CHAIR: Does she want to speak? Because that's going to reduce the amount of time. THE INTERPRETER: Oh, I'm sorry. Did you want to provide a public comment today? TELEPHONIC SPEAKER: I did want to say that I'm THE CHAIR: Not yet. THE INTERPRETER: Not yet. But we're just trying to figure out how many people are on the call	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	children, and there aren't very many options here where they can attend school. I want them to receive a better education, and I believe that this is the place where they can receive that education. I believe it will be good for my children, but not only my children, but other children to have options for a better education. That's it. That's it. Thank you. THE CHAIR: All right. Thank you very much. So first on the list is Araceli Milner. THE INTERPRETER: Araceli? She just asked, "Can I begin," and I said, "Yes." TELEPHONIC SPEAKER: I just wanted to share that I also wish that the school passes, because here in Las Cruces, there are a lot of schools that aren't doing the job that they should be doing, especially schools that do the PARCC
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	didn't want to speak that was on this list? That's what I need to know. THE INTERPRETER: Yes. THE CHAIR: I thought I heard someone say they don't want to speak. There isn't. Okay. MS. KAREN WOERNER: And also Araceli Milner has joined again. She's been on all day waiting and just rejoined. THE CHAIR: Does she want to speak? Because that's going to reduce the amount of time. THE INTERPRETER: Oh, I'm sorry. Did you want to provide a public comment today? TELEPHONIC SPEAKER: I did want to say that I'm THE CHAIR: Not yet. THE INTERPRETER: Not yet. But we're just trying to figure out how many people are on the call so we can divide up the time accurately. So we just	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	children, and there aren't very many options here where they can attend school. I want them to receive a better education, and I believe that this is the place where they can receive that education. I believe it will be good for my children, but not only my children, but other children to have options for a better education. That's it. That's it. Thank you. THE CHAIR: All right. Thank you very much. So first on the list is Araceli Milner. THE INTERPRETER: Araceli? She just asked, "Can I begin," and I said, "Yes." TELEPHONIC SPEAKER: I just wanted to share that I also wish that the school passes, because here in Las Cruces, there are a lot of schools that aren't doing the job that they should be doing, especially schools that do the PARCC testing. THE INTERPRETER: She said that she believes that if this school opens up, they
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	didn't want to speak that was on this list? That's what I need to know. THE INTERPRETER: Yes. THE CHAIR: I thought I heard someone say they don't want to speak. There isn't. Okay. MS. KAREN WOERNER: And also Araceli Milner has joined again. She's been on all day waiting and just rejoined. THE CHAIR: Does she want to speak? Because that's going to reduce the amount of time. THE INTERPRETER: Oh, I'm sorry. Did you want to provide a public comment today? TELEPHONIC SPEAKER: I did want to say that I'm THE CHAIR: Not yet. THE INTERPRETER: Not yet. But we're just trying to figure out how many people are on the call so we can divide up the time accurately. Thank you very much. So first on the list is Araceli Milner. THE INTERPRETER: Araceli? She just asked, "Can I begin," and I said, "Yes." TELEPHONIC SPEAKER: I just wanted to share that I also wish that the school passes, because here in Las Cruces, there are a lot of schools that aren't doing the job that they should be doing, especially schools that do the PARCC testing. THE INTERPRETER: She said that she believes that if this school opens up, they mentioned that they would not be doing PARCC
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	didn't want to speak that was on this list? That's what I need to know. THE INTERPRETER: Yes. THE CHAIR: I thought I heard someone say they don't want to speak. There isn't. Okay. MS. KAREN WOERNER: And also Araceli Milner has joined again. She's been on all day waiting and just rejoined. THE CHAIR: Does she want to speak? Because that's going to reduce the amount of time. THE INTERPRETER: Oh, I'm sorry. Did you want to provide a public comment today? TELEPHONIC SPEAKER: I did want to say that I'm THE CHAIR: Not yet. THE INTERPRETER: Not yet. But we're just trying to figure out how many people are on the call so we can divide up the time accurately. So we just need to know if you do want to provide a comment. Yes?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	children, and there aren't very many options here where they can attend school. I want them to receive a better education, and I believe that this is the place where they can receive that education. I believe it will be good for my children, but not only my children, but other children to have options for a better education. That's it. That's it. Thank you. THE CHAIR: All right. Thank you very much. So first on the list is Araceli Milner. THE INTERPRETER: Araceli? She just asked, "Can I begin," and I said, "Yes." TELEPHONIC SPEAKER: I just wanted to share that I also wish that the school passes, because here in Las Cruces, there are a lot of schools that aren't doing the job that they should be doing, especially schools that do the PARCC testing. THE INTERPRETER: She said that she believes that if this school opens up, they mentioned that they would not be doing PARCC testing. I asked her to repeat the last thing that
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	didn't want to speak that was on this list? That's what I need to know. THE INTERPRETER: Yes. THE CHAIR: I thought I heard someone say they don't want to speak. There isn't. Okay. MS. KAREN WOERNER: And also Araceli Milner has joined again. She's been on all day waiting and just rejoined. THE CHAIR: Does she want to speak? Because that's going to reduce the amount of time. THE INTERPRETER: Oh, I'm sorry. Did you want to provide a public comment today? TELEPHONIC SPEAKER: I did want to say that I'm THE CHAIR: Not yet. THE INTERPRETER: Not yet. But we're just trying to figure out how many people are on the call so we can divide up the time accurately. So we just need to know if you do want to provide a comment. Yes? THE CHAIR: So we can't add for one school	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	children, and there aren't very many options here where they can attend school. I want them to receive a better education, and I believe that this is the place where they can receive that education. I believe it will be good for my children, but not only my children, but other children to have options for a better education. That's it. That's it. Thank you. THE CHAIR: All right. Thank you very much. So first on the list is Araceli Milner. THE INTERPRETER: Araceli? She just asked, "Can I begin," and I said, "Yes." TELEPHONIC SPEAKER: I just wanted to share that I also wish that the school passes, because here in Las Cruces, there are a lot of schools that aren't doing the job that they should be doing, especially schools that do the PARCC testing. THE INTERPRETER: She said that she believes that if this school opens up, they mentioned that they would not be doing PARCC testing. I asked her to repeat the last thing that she said.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	didn't want to speak that was on this list? That's what I need to know. THE INTERPRETER: Yes. THE CHAIR: I thought I heard someone say they don't want to speak. There isn't. Okay. MS. KAREN WOERNER: And also Araceli Milner has joined again. She's been on all day waiting and just rejoined. THE CHAIR: Does she want to speak? Because that's going to reduce the amount of time. THE INTERPRETER: Oh, I'm sorry. Did you want to provide a public comment today? TELEPHONIC SPEAKER: I did want to say that I'm THE CHAIR: Not yet. THE INTERPRETER: Not yet. But we're just trying to figure out how many people are on the call so we can divide up the time accurately. So we just need to know if you do want to provide a comment. Yes? THE CHAIR: So we can't add for one school and not for another. That, we can't do.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	children, and there aren't very many options here where they can attend school. I want them to receive a better education, and I believe that this is the place where they can receive that education. I believe it will be good for my children, but not only my children, but other children to have options for a better education. That's it. That's it. Thank you. THE CHAIR: All right. Thank you very much. So first on the list is Araceli Milner. THE INTERPRETER: Araceli? She just asked, "Can I begin," and I said, "Yes." TELEPHONIC SPEAKER: I just wanted to share that I also wish that the school passes, because here in Las Cruces, there are a lot of schools that aren't doing the job that they should be doing, especially schools that do the PARCC testing. THE INTERPRETER: She said that she believes that if this school opens up, they mentioned that they would not be doing PARCC testing. I asked her to repeat the last thing that

Page 130 Page 132 1 renders their learning ability versus how they 1 Rebecca Nelson is going to be first, 2 learn. So she's against the PARCC testing. 2 according to their list. And she is currently 3 3 TELEPHONIC SPEAKER: And that is why I muted. Ms. Nelson, can you hear me? 4 believe that Explore Academy will be a good option 4 TELEPHONIC SPEAKER: I can. 5 5 for students -- for children, for all students. MR. JUSTIN BAIARDO: Okay. Okay. You 6 THE INTERPRETER: Especially her son who 6 have 69 seconds, as they divided up the time among 7 is in fifth grade, that's going to be entering sixth 7 all the speakers. So I'll let you go. Go ahead. 8 grade this upcoming year. She believes it would be 8 TELEPHONIC SPEAKER: It's been a very 9 a good opportunity. 9 long -- originally, I'll just paraphrase some of it. 10 10 THE CHAIR: Okay. Thank you. My three children are entering -- will be entering 11 TELEPHONIC SPEAKER: That's all. Thank 11 ninth and sixth grade next year. And they're both 12 12 very excited about the academy. [Inaudible] allows 13 13 THE CHAIR: Thanks. Could we just check? them to become more engaged in their education. 14 Is there anyone else, as long as you're there, that 14 They are both frequently [inaudible] in 15 15 needs -traditional public schooling, and there's not 16 MS. MELISSA BROWN: If I could let the 16 adequate ways for the teachers to address that in 17 17 large classrooms. Furthermore, children frequently Commissioners know, I'm only timing when the person 18 is speaking and not when the interpreter is 18 fall through the cracks as teachers just can't 19 speaking. 19 [inaudible] enough to know that bad things are 20 TELEPHONIC SPEAKER: Hello. So sorry. I 20 happening. 21 21 actually couldn't hear the question. But my name is As far as school choice in Las Cruces, we 22 22 Clara Graham, and I am the STEM program manager at do not have enough options. Even with the four high 23 the College of Engineering at New Mexico State 23 schools that we have, you can really only go to the 24 University. 24 school that you're in-district for. And the -- two 25 THE INTERPRETER: The question was if 25 of the charter schools are pretty specific, like the Page 131 Page 133 1 1 anyone else needed interpretation services. Alma d'Arte. J. Paul Taylor has a two-year waiting 2 2 TELEPHONIC SPEAKER: Okay. Thank you so list. 3 much. 3 We just -- we don't have enough options 4 MR. ALAN BRAUER: Madam Chair, was Clara 4 other than one-size-fits-all in giant classrooms 5 5 on that list? [inaudible]. 6 6 THE CHAIR: She is on that list to speak, MR. JUSTIN BAIARDO: Thank you. 7 7 THE CHAIR: Thank you so much. yes. 8 8 TELEPHONIC SPEAKER: Thank you. MR. ALAN BRAUER: So we're good on the 9 9 THE CHAIR: Kristen Chastine? interpretation. 10 10 TELEPHONIC SPEAKER: Hi. My name is MS. KAREN WOERNER: Thank you. 11 11 Kristen Chastine. And I am in support of the THE CHAIR: Thank you so much. We appreciate it. 12 12 Explore Academy coming to Las Cruces. I have a 13 13 second-grader and also [inaudible] who will be So next I have Rebecca Nelson. 14 14 MS. KAREN WOERNER: She's on the phone, entering middle school next year. And I just 15 15 believe this is a great opportunity for him. He's but she's muted right now. 16 not a traditional inside-the-box kind of kid, and I 16 MR. JUSTIN BAIARDO: If we put the mic 17 17 think this is exactly what he needs and what so many closer to this, would that help? 18 THE CHAIR: Not too close. There's an 18 kids in Las Cruces can benefit from. 19 19 And I think our community would really upset child up there. 20 20 welcome and open their arms to a charter school like MS. KAREN WOERNER: She's still muted if 21 21 this. And I just also want to speak on behalf of she's there. 22 the few parents that weren't able to be on this 22 MR. JUSTIN BAIARDO: Hi. We're looking to 23 23 call. [Inaudible.] see if Rebecca Nelson is there, and, if so, if she 24 THE CHAIR: Unfortunately, we're -- are we 24 could unmute the phone or her side of the line. 25 25 Rebecca Nelson? losing the whole connection, or just that

	Page 134		Page 136
1	individual?	1	TELEPHONIC SPEAKER: I am sorry. I am
2	MS. KAREN WOERNER: Just her. We're good.	2	very much in favor of the Explore Academy. My son
3	MR. JUSTIN BAIARDO: Thank you.	3	has the public schools just haven't been able to
4	THE CHAIR: Yes, sorry.	4	serve him. This is the one school he's been excited
5	Joseph Lang.	5	about. We've gone to the meetings, and there will
6	MR. JUSTIN BAIARDO: Is Joseph Lang there?	6	actually be subjects that he can relate to, and
7	TELEPHONIC SPEAKER: Yes, I am.	7	that's got him excited about learning.
8	MR. JUSTIN BAIARDO: All right. You're	8	And so it's good to have it there for more
9	up.	9	opportunities. Otherwise, I'm home-schooling him
10	FROM THE FLOOR: Good afternoon. Thank	10	right now, and I can continue. But he'd much rather
11	you for having me. My name is Joseph Lang. My wife	11	go to Explore Academy.
12	and I have four children ranging from 13 to	12	THE CHAIR: Thank you. The next is Claren
13	21 months old. And [inaudible] Explore Academy, and	13	Wilson.
14	this is exactly what we've been looking for. My	14	MR. JUSTIN BAIARDO: Claren is on our
15	wife and I have home-schooled; we've put our kids in	15	school board. She was going to speak during our
16	numerous private schools in town and public school	16	during our time; so
17	systems. And Explore Academy is what we've been	17	MS. KAREN WOERNER: She's going to speak
18	looking for.	18	during the school portion.
19	So we are hoping and praying that you guys	19	THE CHAIR: Oh, all right. Armando
20	approve it, and looking forward to being a part of	20	Vargas.
21	this academy. [Inaudible] thank you.	21	MR. JUSTIN BAIARDO: Armando Vargas?
22	THE CHAIR: Thank you.	22	MS. KAREN WOERNER: He's got himself
23	Heather Eyer [ph].	23	muted, and I can't unmute him.
24	MR. JUSTIN BAIARDO: Heather Eyer [ph]?	24	MR. JUSTIN BAIARDO: Armando, it looks
25	TELEPHONIC SPEAKER: We need to figure	25	like you're muted on our end. If Armando Vargas is
20	TEEE HOME SI EMEER. We need to figure	-	ince you're indeed on our cird. If Armando vargus is

2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	when we can all go out again. Hey. Have a good day. THE CHAIR: You, too. Oh, that didn't sound good. MR. JUSTIN BAIARDO: Is there a Heather Eyer [ph]? I think it's Eyer [ph]. It looks like E-Y-E-R or MS. KAREN WOERNER: Is there a Heather? MR. JUSTIN BAIARDO: Is there a Heather? Is there anyone there? TELEPHONIC SPEAKER: Hello. MR. JUSTIN BAIARDO: Is there a Heather? TELEPHONIC SPEAKER: Hello. Can you hear me? MR. JUSTIN BAIARDO: Are you Heather? TELEPHONIC SPEAKER: Oh, sorry. Yes, I am. Sorry. I do not have it on speaker because I was picking up my daughter from school. MR. JUSTIN BAIARDO: No problem. You're up.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	there, we need to unmute. MS. KAREN WOERNER: Someone else is not muted; but Armando is. MR. ALAN BRAUER: Maybe just ask him one more time? MR. JUSTIN BAIARDO: Armando, are you there? Armando, we see you on the line, but you are muted currently. THE CHAIR: Yeah. If 'cause he was the last person on the list for phone. MS. KAREN WOERNER: So since we have two that didn't speak, do you want to make sure no one else joined? MR. JUSTIN BAIARDO: Is there anyone else who joined recently who would care to speak? TELEPHONIC SPEAKER: I would. THE CHAIR: They can't; they didn't sign up. TELEPHONIC SPEAKER: Armando said his computer will not let him unmute, no matter what he
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	when we can all go out again. Hey. Have a good day. THE CHAIR: You, too. Oh, that didn't sound good. MR. JUSTIN BAIARDO: Is there a Heather Eyer [ph]? I think it's Eyer [ph]. It looks like E-Y-E-R or MS. KAREN WOERNER: Is there a Heather? MR. JUSTIN BAIARDO: Is there a Heather? Is there anyone there? TELEPHONIC SPEAKER: Hello. MR. JUSTIN BAIARDO: Is there a Heather? TELEPHONIC SPEAKER: Hello. Can you hear me? MR. JUSTIN BAIARDO: Are you Heather? TELEPHONIC SPEAKER: Oh, sorry. Yes, I am. Sorry. I do not have it on speaker because I was picking up my daughter from school. MR. JUSTIN BAIARDO: No problem. You're up. TELEPHONIC SPEAKER: Oh.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	there, we need to unmute. MS. KAREN WOERNER: Someone else is not muted; but Armando is. MR. ALAN BRAUER: Maybe just ask him one more time? MR. JUSTIN BAIARDO: Armando, are you there? Armando, we see you on the line, but you are muted currently. THE CHAIR: Yeah. If 'cause he was the last person on the list for phone. MS. KAREN WOERNER: So since we have two that didn't speak, do you want to make sure no one else joined? MR. JUSTIN BAIARDO: Is there anyone else who joined recently who would care to speak? TELEPHONIC SPEAKER: I would. THE CHAIR: They can't; they didn't sign up. TELEPHONIC SPEAKER: Armando said his computer will not let him unmute, no matter what he does.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	when we can all go out again. Hey. Have a good day. THE CHAIR: You, too. Oh, that didn't sound good. MR. JUSTIN BAIARDO: Is there a Heather Eyer [ph]? I think it's Eyer [ph]. It looks like E-Y-E-R or MS. KAREN WOERNER: Is there a Heather? MR. JUSTIN BAIARDO: Is there a Heather? Is there anyone there? TELEPHONIC SPEAKER: Hello. MR. JUSTIN BAIARDO: Is there a Heather? TELEPHONIC SPEAKER: Hello. Can you hear me? MR. JUSTIN BAIARDO: Are you Heather? TELEPHONIC SPEAKER: Oh, sorry. Yes, I am. Sorry. I do not have it on speaker because I was picking up my daughter from school. MR. JUSTIN BAIARDO: No problem. You're up. TELEPHONIC SPEAKER: Oh. MR. JUSTIN BAIARDO: Yeah. So going down	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	there, we need to unmute. MS. KAREN WOERNER: Someone else is not muted; but Armando is. MR. ALAN BRAUER: Maybe just ask him one more time? MR. JUSTIN BAIARDO: Armando, are you there? Armando, we see you on the line, but you are muted currently. THE CHAIR: Yeah. If 'cause he was the last person on the list for phone. MS. KAREN WOERNER: So since we have two that didn't speak, do you want to make sure no one else joined? MR. JUSTIN BAIARDO: Is there anyone else who joined recently who would care to speak? TELEPHONIC SPEAKER: I would. THE CHAIR: They can't; they didn't sign up. TELEPHONIC SPEAKER: Armando said his computer will not let him unmute, no matter what he does. MS. KAREN WOERNER: I cannot control that.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	when we can all go out again. Hey. Have a good day. THE CHAIR: You, too. Oh, that didn't sound good. MR. JUSTIN BAIARDO: Is there a Heather Eyer [ph]? I think it's Eyer [ph]. It looks like E-Y-E-R or MS. KAREN WOERNER: Is there a Heather? MR. JUSTIN BAIARDO: Is there a Heather? Is there anyone there? TELEPHONIC SPEAKER: Hello. MR. JUSTIN BAIARDO: Is there a Heather? TELEPHONIC SPEAKER: Hello. Can you hear me? MR. JUSTIN BAIARDO: Are you Heather? TELEPHONIC SPEAKER: Oh, sorry. Yes, I am. Sorry. I do not have it on speaker because I was picking up my daughter from school. MR. JUSTIN BAIARDO: No problem. You're up. TELEPHONIC SPEAKER: Oh. MR. JUSTIN BAIARDO: Yeah. So going down the list of speakers, you are up next, and you have	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	there, we need to unmute. MS. KAREN WOERNER: Someone else is not muted; but Armando is. MR. ALAN BRAUER: Maybe just ask him one more time? MR. JUSTIN BAIARDO: Armando, are you there? Armando, we see you on the line, but you are muted currently. THE CHAIR: Yeah. If 'cause he was the last person on the list for phone. MS. KAREN WOERNER: So since we have two that didn't speak, do you want to make sure no one else joined? MR. JUSTIN BAIARDO: Is there anyone else who joined recently who would care to speak? TELEPHONIC SPEAKER: I would. THE CHAIR: They can't; they didn't sign up. TELEPHONIC SPEAKER: Armando said his computer will not let him unmute, no matter what he does. MS. KAREN WOERNER: I cannot control that. THE CHAIR: If they did not sign up when

THE CHAIR: Okay. They need to know that they need to mute themselves; because we would like some Pop Tarts as snacks as well.

MR. JUSTIN BAIARDO: All right. We are going to move the public comment to the folks who are here in person. And so they've muted the line.

Claren, if you're there, we will unmute you during the school comment portion. How's that?

MS. KAREN WOERNER: Do you know the last four of her phone number so I know which person on here that is?

FROM THE FLOOR: I have -- MR. JUSTIN BAIARDO: -8555.

THE CHAIR: The first one on the list here

is Kim Blanton.

FROM THE FLOOR: Hello. I'm Kim Blanton. I'm also speaking on behalf of the following Las Cruces parents and families: [Various names read.]

As a teacher, it would be a dream to have Explore Academy in Las Cruces for all the creativity and support that the teachers are given. Those teachers produce critically thinking students. Their innovation will be concurrent with completely

standards-based outcomes.

learn in a different way and for us to teach and let the kids have an opportunity to be creative inside the classroom, outside the classroom, let that creativity grow.

For my own children I have elementary and school-age children. The choice is amazing. It seems amazing. The accountability that's there -- as a math teacher, the foundation that will be built in not being able to move on just because it's a new day, but really let them learn. And when they're not there, they get to redo it till they get it, which is big. And small class sizes and flex periods.

And I just feel in Las Cruces, we really need opportunities like Santa Fe and Albuquerque seem to have a lot of choices. And down here sometimes it just doesn't seem like we have it all the time.

So if we can open that up, that would be great. Thanks.

THE CHAIR: Thank you. Next is Jessica Ortega.

(A discussion was held off the record.) FROM THE FLOOR: Hello. My name is Jessica Ortega. I am speaking on behalf of -- in

favor of Explore Academy, and I'm also speaking in

Page 139

This model has a proven track record of excellence for their own students and should not be overlooked. For my own child who is in elementary school, she would benefit most from that transition from middle school to high school and [inaudible] and culture initiative.

She will also benefit from the choice offered.

Our kids need options. We keep doing things the same way, and we keep getting the same results. So we need a school that can create career and college-ready students and students who can think outside of the box.

I drove all the way here because I'm passionate about education and giving students a much higher chance at success. Thank you.

THE CHAIR: Thank you. Next is Felicia Blea.

FROM THE FLOOR: Hello. So I'm Felicia Blea, and I speak in support of a couple of people as well: Deborah Hudson, the Ogas Family, Amy Ramirez, the Roger [ph] family, Linda Davis, Linda Heckler, and Roberta McMillan.

And as a teacher as well, I think it's just a great opportunity to give the kids freedom to

Page 141

favor of other family friends from Las Cruces: Tim
 Burns, Heather Edgar, Raphael Lovato, Brittany
 Ortiz, Joseph Fermi and Cara Sena.

And as a parent, I feel that Explore Academy is -- has a very intriguing philosophy. I think the idea of my child attending Explore Academy would be a really great option for her, especially coming and making that transition from elementary to middle school, which is very difficult.

Middle school is a hard transition for students. I think the idea of choice in their learning and the idea of learning the standards through different topics and concepts is exciting to her. The idea of having five classes of her core classes and an elective out of the seven and two flex periods in which she could be working throughout the day and work on assignments and gets help during the day at school, and not come home packed with homework and actually have family time is intriguing and exciting to her.

THE CHAIR: Thank you. Is -- do we have Armando?

MR. JUSTIN BAIARDO: Armando, are you there?

Page 142 1 TELEPHONIC SPEAKER: Yes. 1 and -- let's see -- place -- geez -- and a great 2 MR. JUSTIN BAIARDO: Armando is here. All 2 opportunity for smaller classes and more of 3 3 individualized attention for each of the students. right. Go for it. 4 TELEPHONIC SPEAKER: 60 seconds. Okay. 4 Las Cruces needs more choices because 5 5 Several of my opinions have already been spoken. everyone needs more diversity. And a lot of people 6 THE CHAIR: He's already hard to hear. 6 learn in different ways. Children do not learn in 7 7 MR. JUSTIN BAIARDO: Can you speak louder, the same way. As a city in Las Cruces, Las Cruces 8 8 please? needs schools that support families and students in 9 TELEPHONIC SPEAKER: Yes, yes. Is this 9 a non-traditional way. 10 10 better? THE CHAIR: Thank you. 11 MR. JUSTIN BAIARDO: Go ahead. 11 FROM THE FLOOR: Thank you. 12 12 TELEPHONIC SPEAKER: Yes. Several of my THE CHAIR: And finally is Karla Ayala. 13 13 MS. ELISHA VARELA: She had to leave. She opinions have been already said. We do need more 14 choice in Las Cruces. It does feel like we're sort 14 only had child care till 5:00 so she had to get back 15 15 of like the adopted child down in the south. to town. It's a long way back, four-and-a-half 16 16 But one thing that's really exciting is hours. 17 17 THE CHAIR: So that concludes everyone who the idea of choice and the idea of learning in signed up. Good luck with this. 18 something you're interested. And in my experience 18 19 and work after college, I learned so much more on 19 All right. Thank you. So now you've got 20 the job and doing things and getting my hands dirty. 20 15 minutes. 21 And it's when I was interested in the subject that I 21 MS. AMI JAEGER: Don't you want CSD to go 22 22 learned more about it than I ever did in high school first? 23 23 or college. THE CHAIR: I'm sorry. This took so long, 24 And being able to have that sort of style, 24 I've lost track of what we've done already. I 25 where I made the choice because I'm interested in a 25 apologize. You'll have your 15 minutes. Thanks. Page 143 Page 145 1 1 MS. KAREN WOERNER: Thank you, Madam Chair particular subject and the way it's taught is 2 appealing to me because it's a hobby and an 2 and Commissioners. And, of course, you've read all 3 interest. It's a much better way to do it. 3 this; so -- but for the sake of the audience and the 4 I think that the more the school succeeds 4 school, Madam Chair, Commissioners, applicant team 5 5 in Las Cruces, the more the public schools will have and guests, I'm going to go over the packet and 6 6 recommendation from the CSD, the score and a little to step up their game, or they'll start losing 7 7 students. So it's sort of a win-win for the explanation. 8 8 I think most of you were here when we 9 9 explained for the prior school and then the summary THE CHAIR: Thank you. 10 10 MR. JUSTIN BAIARDO: Time's up. Thank recommendations. 11 11 Commissioners, it's in your packet, of 12 12 THE CHAIR: And next is -- first name course another yellow sheet. But if you're looking 13 13 online it's on Page 327. It's the overall score Beverly. I'm sorry. I can't read the last name. 14 14 FROM THE FLOOR: That's all right. My -sheet for Explore Academy-Las Cruces seeking to 15 15 "Ms. Beverly" is what they all call me. So that serve students, obviously, in Las Cruces. 16 works. Beverly Blea. 16 The total points earned was 376 out of a 17 17 THE CHAIR: Can you wait till you get to total of 420 possible points, earning the school an 18 18 the -- so we can hear? 89.52 percent. And as was explained earlier, this 19 19 FROM THE FLOOR: Beverly Blea. And I am process is, to -- recap, this process is one done by 20 20 four peer reviewers. here in representation of a few other families also. 21 21 The team of -- external team of reviewers That would be the Roma Family, John Hill, Matthew 22 22 Wallace, Denise Lopez, Leticia Fritz, and Teresa is made up of a licensed New Mexico administrator, a 23 23 Ybarra. licensed New Mexico teacher, school business

But, however, on the score sheet, there's a score sheet in your packet. It got a little wet; but it looks like this. It's the list of all the questions on the application, the total possible points the school could have earned, the points earned, and then a score of Meets, Approaches or Falls Far Below.

Any of those in the first column that are written out rather than the numeric number are ones that were not included in this school's score.

Transportation and food service, the school did earn bonus points for their answers on trying to provide that.

Moving forward in the application, all the sections where they did not Meets are described in here. These are actual quotes from the peer review team's evaluation of the written application.

Moving over to Page 14 of this recommendation is the summary. And it says, "Overall, the application is complete and adequate.

And five responses were scored as Approaches in the financial section.

All responses to the capacity interview questions were rated as Meets the criteria, and the peer review team determined that the responses by the school during the capacity interview adequately addressed the concerns identified during the review of the written application.

The applicant team has clearly demonstrated their preparedness to open a high-quality charter school, and the CSD recommends approval of the application.

I just want to make sure on these numbers -- it's four in the academic section. It is eight in organizational, and five in finance. Something was repeated there that's incorrect.

Continuing, Page 338 is the cover sheet for the letters of support received from the Bureau. In those three days following the community input hearing, there were 17 in support and none received in opposition. Also, petitions that were provided, both handwritten and then an online petition with 101 signatures, are also provided in your packet.

After that, there's another yellow sheet, Commissioners, followed by -- and this, online, is

Page 147

During both the capacity interview and the community input hearing, the applicant team demonstrated the

3 capacity to implement the educational,

organizational, governance, and financial plans as

described in the application. The team is strong and represented by experts in the finance, legal,

and educational arenas with strong community support."

The minimum scoring expectation set by the Public Education Commission from Page 3 of the application are, "No scoring area received a score of Falls Far Below. No more than three responses were evaluated as Approaches the criteria in any one section. And the applicant must earn at least 80 percent of the available points to receive a positive recommendation by the independent reviewers."

As I said, this application scored 89.52 percent, received no Falls Far Below ratings. On the written application, five were scored as Approaches in the organizational section. Four were scored as Approaches in the academic section. Eight were scored -- how can that be? -- I'll have to go check -- why is that repeated? I have to check this. There's a mistake here.

Page 149

1 Page 362. That's the response from the school to 2 the CSD recommendation packet. Thank you. 3

THE CHAIR: Thank you. Whenever you're ready.

MR. JUSTIN BAIARDO: Oh, sorry. Didn't know if there was a segue there.

MS. ELISHA VARELA: We were waiting to unmute.

MR. JUSTIN BAIARDO: Thank you, members of the Commission. Thank you very much. We appreciate your consideration of the application for Explore Academy-Las Cruces. We appreciate the CSD staff recommendation, are humbled by the high application score awarded by the independent review team.

We would like to take today to provide greater insight as to the benefits that Explore Academy would provide to the community.

To begin, I'd actually like to discuss the genesis of this entire initiative, as I'm not sure we've mentioned that yet.

As a team, we've been approached by 22 Las Cruces parents for a few years, as relatives of students and families who are enrolled at our 24 Albuquerque campus, having seen the innovation and 25 student success within our learning model, they

haven't been shy, actually, about asking us if we could open a campus down south to allow them and other families to benefit from the particular innovative model.

Coinciding with this was a strategic forecasting initiative that we took part of that was paid through a grant from Excellent Schools New Mexico, where the Bellwether Education Partners group was contacted to help us investigate the potential for an expansion.

As a result of the initial interest previously mentioned, we added Las Cruces to the location within this analysis.

From the result of this study, which ran across several months, Bellwether reported Las Cruces as having a, quote, unquote, "high support for expansion based on their multifaceted analysis centered around fit, demand, and feasibility."

This prompted us to take it a step further and to expand our investigation and pursue a level of outreach to engage parents and to reach out to potential school leaders. We wanted this endeavor to be very much an organic enterprise -- and I want to emphasize that -- with local citizens leading the

member of the founding governing council. I am, in fact, located up here in Albuquerque. But a

Las Cruces campus would be an ideal way to return to old stomping grounds.

For a number of years, I was director of immunology and virology on the Primate Research Institute campus on Holloman Air Force Base and had a faculty appointment with New Mexico State University.

So this is something of a dream to be reconnected with Las Cruces and participate in the education of kiddos in the city. Thank you.

MR. JUSTIN BAIARDO: And, Claren, Ms. Wilson, is on --

Claren, are you there?

MS. CLAREN WILSON: Yes, I am. Can you hear me?

MR. JUSTIN BAIARDO: Can you speak a little louder?

MS. CLAREN WILSON: Yes, I can.

All right. Thank you all for having me.

My name is Claren Wilson. I am speaking in support
of Explore Academy here in Las Cruces, New Mexico.

I'm honored to be able [inaudible]. I

[inaudible] many years ago in support of Explore

Page 151

charge in bringing this campus into existence.

Our Albuquerque campus was pretty much the same, and we would want to see the same for a new school coming into existence. We spent over a year engaging with families and teachers in Las Cruces in order to better understand if Explore Academy could meet the demands that the families and teachers were outlining for us.

These discussions and requests are what led us to this application process and gave us the motivation to envision what may become Explore Academy-Las Cruces. We were also fortunate to have board members who joined our founding team early in the process.

Two of the members helped gather information and feedback from the community very early on. We are excited to have one board member who assisted in the entire writing process of the application. And we'd like to take a moment to allow Mr. Lou Loffredo and Ms. Claren Wilson to express their support for the school at this point.

MR. LOU LOFFREDO: I'll go first. You go first.

Good afternoon, Madam Chair and Commissioners. My name is Lou Loffredo. I am a

Academy in Albuquerque.

Before Justin Baiardo founded Explore Academy, he was a teacher. In fact, he was my teacher. Mr. Baiardo has always had the ability to tailor his teaching style and his message to gain greater interests and comprehension from his students.

He has been able to take his students' abilities from a single classroom to an entire class, with the focus of fitting an education system to a child, rather than the child to an education system.

As a small business operator here in Las Cruces, I am very excited about what this school can bring to this community. I am an active member of this community. I frequently have the opportunity to engage with a lot of youth. And I see where an academy like this could foster excitement and steepen advances in public knowledge and could catalyze students' untapped potential.

I hope you find this opportunity for Las Cruces as exciting as I do, and I hope that excitement is reflected in your votes today. Thank you.

MR. JUSTIN BAIARDO: As founders within

Page 153

Page 157

Page 154

this initiative, we felt it crucial to find a school leader who would believe in the cause as much as we would, as much as we once did. Without that, we felt there was no use proceeding, in all honesty, as we firmly believe the success of a new school is largely earned by the people who pull it into existence.

This led to the illustrious Dr. Toni Hull, who is seated to my right, who is an educational leader of innovative and creativity in Las Cruces, who inspires students and staff to think outside the box when it comes to the learning process. I think it's safe to say that her ideas for the different ways education can look and remain effective align our focus towards the same goal.

In our initial discussions, it was very exciting to hear Dr. Hull begin to adapt our model to her style of leadership, to her vision of a school community and culture, and to the Las Cruces students that she has come to know through her experience. It was fun to watch a new vision of Explore Academy come to light, as we've really only known the one we've been building for the last five years in Albuquerque.

And that's the point of what we are doing.

We're excited to see the personality of the school take shape as the founding team forms.

We merely seek to provide the clay.

With a diverse selection of choice for students in charting their own learning pathways from a near infinite set of choice combinations, a schedule that allows for tutoring and academic support on site during the school day, a level of accountability that promotes standards-based learning and course breakdown which focuses on fewer concepts at a given time, this educational model has the potential to provide a rich educational experience and something truly innovative and unique to Las Cruces students and their families.

As the founding team, we are simply providing this unique model so it can function as a sandbox in which a diverse curriculum can be built.

It's a different role for us. But we feel that through our experience and the systems that we've built over the last several years, many of which the CSD staff has seen in action in their site visits, we can provide a level of support that will ensure a smooth start and efficient operational success as the school gets up and running.

We're happy that our success in operating

Page 155

And I want to emphasize this. We seek to put an innovative model in the hands of a passionate school leader and let them run with it and build something that, in their vision, is best for their students.

The Explore learning model has a proven track record of success and has helped hundreds of students achieve unmatched levels of academic growth. Teachers are given the freedom and creative license to create customized curricula designed specifically for their own students. This curriculum brings the spark back into education for students and teachers alike.

And since teachers are able to create and teach through inventive and differentiated practices, students are more engaged than ever before. We've already received over a dozen resumes from teachers who want to join the founding teaching staff and help shape the school. And this level of enthusiasm in the teachers is a huge part of what has made, and hopefully will continue to make, the model successful.

And the customized curriculum designed by its own teachers is an integral component of the school's model. It is also what will make Explore Academy unlike any school in Las Cruces.

our Albuquerque campus will afford Explore

Academy-Las Cruces with the credit to earn a market

bond rating, allowing the school, through its

foundation, to design, construct, and own its own building from day one, thereby satisfying

6 requirements set forth in House Bill 283 and

allowing for property tax abatements and approval of
 a lease purchase agreement with the Public Education
 Department.

We are fortunate to have a board member who is the director of NAI First Valley, the largest commercial real estate group in Las Cruces, who has helped in allowing the school to choose from six prospective land sites throughout the four corners of the city. I wish we had had this in Albuquerque six years ago.

Ultimately, however, this school belongs to the Las Cruces community and will evolve its own personality and culture through the influence of its leadership staff and family. Starting today with your vote of approval, we begin the process of handing over the creative reins to the board, the staff, and, ultimately, the students.

Before I hand it over to Dr. Hull, I'd like to discuss the support we've received from the

In our time in meeting with Las Cruces families, we've held several family information events where we've focused on gauging interest in the community. After three community events, which had audience filling the venue to capacity with standing room only, I feel confident in saying that there is significant interest in our innovative model. In addition to the in-person turnout, we've received over 100 interest forms online from a diverse sampling of Las Cruces families, bringing together student interest from every corner of the city.

I want to express my appreciation for the parents, grandparents, and guardians who drove up from down south today, along with the dozens who pulled away from their jobs to call in and stay on the phone at some point throughout the day.

In meeting the parents, the one common theme you repeatedly heard were that there was not enough options for families. The options available are all very traditional in nature. In looking into this, we realized this to be true.

said, "Yeah. This is my first day as principal." 2 And he says, "Well, I heard you're a

pretty good principal."

I said, "Well, thanks." I said, "Can you tell me a little bit about your school?"

And he said, "Well, I don't know why you're here, because we're the bad kids. Why would you be here with us?"

And I said -- well, I didn't know what to say to him at that moment.

And I said, "What do you mean?" And I really wanted to know more.

And there are so many students that feel unconnected to their learning. They feel like they cannot achieve. Whether it be, you know, the environments, whether it be what they're learning about, whether it be peers, to how the instruction is being delivered, they feel that way.

That's my "why." That's why I start with that story and I -- you know, since that day, that student is who I think about every single day. And no matter what, in my school, I make sure that each student feels connected in some way. If they're not connected, I figure out how they're going to get connected.

Page 159

The analysis of this was included on Page 3 of the response we submitted to the Charter School Division recommendation, which is included in our final analysis.

In summary, Albuquerque and Santa Fe both have an almost equivalent number of charter schools per student within the local district. In contrast, Las Cruces has over twice as many students per charter, meaning that there are roughly half as many options for families proportionately when scaling to the size of the district.

We felt this in the massive sentiment that we heard from parents and teachers. With that, I'll turn it over to our school leader, Dr. Toni Hull.

DR. TONI HULL: Thank you, Justin. Thank you, members of the Commission, for allowing me to speak.

I just want to start off with a story.

When I first became a principal, my first day I walked down the hallway -- and this was a school I didn't know a lot about, and I was put

And I walked over to a student, and I said, "Hi." And I said, "Nice to meet you."

And he said, "Are you Dr. Hull?" And I

Page 161

I just want to tell you a little bit about myself before I continue. This is my 27th year as an educator. And I -- I knew I wanted to be a teacher from my -- my own teachers, my science teacher. You know, those students that don't connect to learning, I've always been connected; but there are so many that are not.

And so giving students the option is so critical, because they need to find their value in what they're learning and how it connects to their life. And that's what I feel the Explore Academy model does.

Now, of course, that student I'm talking about, you can't start without relationships. And so it was my mission to build relationship with students and to figure out how, if they like basketball, there might be a way that I can get them excited about learning math; because there's math in there.

And so over the last 12 years, I've served students in Southern New Mexico in the capacity of teacher, instructional specialist. I've served teachers in doing professional development in Deming and in Las Cruces. I currently am the principal of a school in Las Cruces that had 45 students that

felt like they didn't deserve a good education. And now there's 96 students that do deserve a good education. It's because we have built a culture.

When I met Explore Academy, and I saw their model, it was like a pair -- it was a pair. I am an expert when it comes to the culture and building relationships and students in Las Cruces. They are innovative; they're creative; they're outspoken; they're connected. They're very exuberant. They need a learning -- they need a learning facility that is like that to thrive.

Now, of course, the Explore model is the missing piece that I've been looking for. It's the missing piece that goes with the culture piece that I know Las Cruces students want. That's what they want. And we have built connections with them because of those qualities.

I want to end with this. I carry this note around from a student, and I carry it around, and I put it in this so it doesn't get messed up. It says, "To Dr. Hull. Thank you for giving me an opportunity to learn the way I learn."

Explore Academy will give them the opportunity to learn the way they learn.

Thank you.

level of research and a level of -- we've done our homework on the area and what facility needs we would need.

I would refer to sections L(1) and L(2) in that we scored perfectly and met all necessary objectives in the application in terms of what we needed to do for facilities up to this point.

That being said, we know that we need to do more than that to have a school open by next fall. And we have.

We currently have -- currently have six sites, three of which have letters of interest engaged with -- with the ownership of certain parcels of land. I can go over the exact areas if need be. We have purchase agreements drafted for them, and we have three as backup.

We have done our due diligence up to this point to an extent that we can afford, which is not much. Let's be honest, I think. As you go through this process, until we're official, we can't engage an architect or civil engineering to do it. But we've had folks who have engaged the city and looked at permitting and entitlements and the process of timelines behind those.

And it's going to be -- it'll be tight.

Page 163

THE CHAIR: Thanks. Are we good? Okay. Thank you so much.

And so as I start with everything, we appreciate all the time and effort and energy that you -- that you put into it and thank everyone who did travel and patience on the phone.

These are always difficult days, because people want to know what time; and it's just really difficult for us to figure that out.

So we also want to thank you for indulging us in our lack of flexibility in that sense. So I do appreciate that.

So any -- any questions?

(No response.)

THE CHAIR: I have -- well, I obviously still have a concern about facility; because there's -- there is that concern to just say, 'Well, we identified six spots" isn't really sufficient for us. It isn't. Sure.

MR. JUSTIN BAIARDO: Yeah. I can speak to that in a very specific sense and a general sense.

I think in terms of the application, I -- I'd like to start, I guess, with referring back to the application. We -- what's put in front of us as applicants is to provide, certainly, obviously, a

But given that approvals happen in mid-August, we have to deal with the timelines we're provided.

But considering that, with the three areas -- and I guess to back up a couple of steps -- we are intent on building a facility. We are. We feel like we have the -- the investment that we can make or the investment that we can be able to pull in to provide a brand new facility for students in Las Cruces, provide the best type of facility for students.

And I think all students deserve that. They deserve to come into a school and feel welcome and feel like their school looks like a school and functions like a school.

Granted, I think there's obviously financial compromises there. You have to be able to afford it. You can't build the Taj Mahal. But at the same time, we feel the phased approach that we were planning with our architect team looks at doing an initial phase, which will be ready by next fall, pending approval today, starting work tomorrow with a site plan that we've already mapped out, some of the preliminary work we've already done.

We move to a very, very specific site plan right away, which gets us into submitting for

entitlements and permits within the next five to six weeks. Dirt work begins first and permits come back just after the first of January, which gets us into the building right at the end of July.

It's obviously a very tight timeline. We do have a modular solution as a temporary option in case we have to put students in portables for what we feel like maybe for August and September. It's not ideal. But if -- I think if parents accept that a new facility is being built for their students, you know, six weeks in a portable, I feel like everyone can handle that.

So -- but I feel like, yes, we have done everything we need to fulfill the obligations set forth in the application for having this -- we don't have to have a facility identified or, obviously, any occupancy or lease signed until we into the planning year.

But more than just what we are required to have by the end of May when we submitted our application, we have what we feel are six pieces of land, three that, like I say, we've already gone through the steps of talking ownership, submitting letters of intent, negotiating on price per square foot, price per acre, making sure the civil

MR. JUSTIN BAIARDO: Rinconada one is still there, absolutely. There's one at Pioneer Place, which is on Burn Lane [verbatim] and Amador, about 10 acres, which is southern Las Cruces. Southern Las Cruces -- south and west is a lot of farmland, because that is one we felt as a -- you know, going north with the Rinconada one, we also wanted to find one that was somewhat in the opposite end of town.

And so between the Amador and the -sorry -- the Rinconada, which is a north and a south facility.

The other one is more the east side which is on Walnut and Lohman, more like the east-central part of Las Cruces.

Those are the ones that we have the purchase agreements drafted for at this point.

The other three are the far west part of Las Cruces, which is Motel and Bruin [verbatim] Lane.

There is one on the far east, which is near to the Sonoma golf course, Sonoma Ranch and Sonoma Springs.

And there is one that's north central on Northeast Street and Solano, which is also one, I

Page 167

engineers and the architects, to the degree that we can have them look at those sites, have done so and done their due diligence, and with purchase agreements drafted for all three ready to go for tomorrow.

And so with three as the backup -- and these six, we did feel like we wanted to make sure were representative of the community. So we did actually pick one that's far west Las Cruces, far east Las Cruces, east central, north central, and in southern Las Cruces as well, all of which are, we feel, based on the zoning, the size, price and the availability of utilities, all would be options.

We picked the best three that we felt like were -- would lead to the best sense of timeliness in terms of being able to open and be up and running by the end of July for next year.

But having six that we've worked and done due diligence on over the last two to three months, we feel like we are in a -- in a place where we can start moving very quickly pending your approval.

THE CHAIR: So where are your top three? MR. JUSTIN BAIARDO: The top three are, as mentioned, the --

THE CHAIR: The Rinconada one?

Page 169

believe, with the old golf course, which has since 2 gone belly-up.

So those are the six.

THE CHAIR: So you've talked to the property folks with the -- that's building the hospital there.

MR. JUSTIN BAIARDO: For the Sonoma Ranch and Sonoma Springs?

THE CHAIR: No, the North Main and Solano. That's where they're building -- that's the old golf course.

MR. JUSTIN BAIARDO: Correct. That's right. And there's -- that's one that is -- because it's a backup, because they are still trying to figure out where -- what part they would carve out for us.

THE CHAIR: It's been a mess, yeah.

MR. JUSTIN BAIARDO: We know the medical center is going up. We've asked for about eight acres. And, of course, if they're not willing to move at our speed, we can't afford to go at their speed, too; so, yeah.

23 THE CHAIR: Just because permitting has 24 been bad for them.

MR. JUSTIN BAIARDO: The architect firm

we're working with in Las Cruces has a Las Cruces branch. And so I think they have a good pulse on how entitlements and permitting, the timelines are going.

And there's no expedi- -- expediation. Like, in Albuquerque, there's a -- in Albuquerque, you can pay for an expedited permit. It doesn't happen in Las Cruces. So the times are the times. So I feel like that's our due diligence at this point.

COMMISSIONER CABALLERO: Madam Chair?
THE CHAIR: Commissioner Caballero?
COMMISSIONER CABALLERO: This is my

concern. This school is pretty much going to be a replica of what's here in Albuquerque. And I do remember looking at your -- the composition of the school and you being here before.

And you had some -- some proposed percentages, especially in Hispanic, which never materialized. You were -- you didn't have enough. And I do remember you were in one location here, and you moved to another location. And so I looked at the income in your new location, and you're the -- the charter school way, way north -- northeast.

And so I looked at the income around that

schools, assuming one can afford tuition and arrange

transportation. A large portion of our district is

impoverished and just barely scraping by. Private
 school is not a realistic option for us

school is not a realistic option for us.
Furthermore..." -- and so she goes on to say,

6 "Therefore, transportation..." -- transporting their children to school every day further limits their options.

And so what I've heard from you before and at the meeting is the whole notion of options. Your support is in Albuquerque. There's so many charter schools per child. In Santa Fe, there are so many charter schools per child. But I don't think it's just options alone. I don't think it's options alone.

I grew up in El Paso. And the only ones with options were the affluent folks, white and Hispanic. The rest of us had no options. We were relegated to the bottom with very little resources.

And so I believe that charter schools should provide options and also provide the options to those that need it the most. We have not talked about what are the targets, where is it lacking in Las Cruces, where the most need in Las Cruces. And you had targeted -- or you had mentioned that in

Page 171

area, and it is very high. And so I look at your -- at your breakdown. And my contention has been that there's charter schools amongst us that do whatever needs to with done to be well-balanced, so they're not heavy-laden with -- with the challenges of -- of kids at the very low end, kids that need a lot of people, kids that are bilingual only.

Those schools -- you can see them in downtown and in the minority areas, minority districts. And they're heavy-laden. And some of -- we've lost some of those charter schools.

But the schools in the more affluent -- and we can say that people can find us, can get to us. But it's not that real. That is not that real. Because I went through that. I was able to take my son to a magnet school. But not everybody else.

I had the means to do it. And so it became a school just for the affluent. I didn't have the money; but I sure had the time and energy and the flexibility for me and my wife to be taking him there.

I do have a letter here by one of your -your folks that says -- and this is from Devega [ph] Nelson -- that says that it isn't much of a choice at all. "There's, of course, several private Page 173

your meeting in Las Cruces. But then you decided that you were going to go elsewhere.

I don't know where all these other options are. But I'm concerned that families that really need it are not going to have a realistic option to go to your school because of transportation.

So the closer you are to them, the more satisfied we are going to be, to be able to offer options to the very, very poor. And those folks are the ones with limited resources, and those are the kids that really are going to need your new system of education.

If you do again what you did in Albuquerque, you're in a section of Albuquerque, they don't need it. Yes, you're providing options to those affluent families. It's fine, fine. And we look at your statistics, your breakdown, your scores. They're wonderful. They're wonderful scores.

And so I don't want a repeat of that. I want to be able to see somewhere close -- even if it's in the periphery of low income, where you're going to get slapped around with Spanish-only kids at a good percentage.

And I don't want to inundate your school

with just that, because I know that the schools that have 100 percent are having difficulty.

But it should be a school where kids with money and kids with no money, Anglo, Hispanic, Native, Black, all converge and learn from each other. Because the learning that kids have when they have other type of children is tremendous. You take it everywhere when you grow up.

So that's my main concern, Madam Chair. THE CHAIR: Okay. Thank you.

COMMISSIONER CABALLERO: I don't know if there's any solution to that.

THE CHAIR: Okay. Thank you, I appreciate it.

DR. TONI HULL: I'd like to speak to that. So currently, I'm the principal of a school in Las Cruces that is a school of choice; and, yes, we do have transportation. But half of the students --so out of that 96, about half get picked up.

And so our school is Title I. Everyone gets free lunch and breakfast and is a variety of backgrounds when it comes to ethnicity.

And so you're right. I mean, I definitely agree. We want kids to -- diversity is so important and actually is one of our tenets at the school.

compared to our Albuquerque campus when --.

THE CHAIR: Oh, I'm sorry. Could you introduce yourself?

MS. ELISHA VARELA: Elisha Varela. It's hard to keep getting compared or criticized about our Albuquerque campus when it's not the school we're talking about in this moment.

Our Albuquerque demographic, when compared to the schools directly around us, is strikingly different, because we do represent the district. We have kids from all corners of the city. We have eight buses. Sometimes kids come from 75 minutes away from the South Valley or from the pueblos.

We do not do anything that would discourage it. In fact, we promote it. Our technology is available, so that if technology is an issue, that is not an issue. And that's the same as what we will do for the Las Cruces campus.

Part of this did come from parents. Even some of the parents who actually talked today, their biggest concern is not transportation; it's supplies. They want to know, "Can you help us with the Chromebook? Can you get us uniforms?" Those are the things that are 90 percent of their concern.

They'll be happy to bring the kids to

Page 175

The problem is that -- the resources to grow that. I mean, right now we have 96 kids. I could have 296, but I can't because of -- you know, just lack of resources when it comes to what we need to expand and staffing and things like that. And there are just some limitations.

But the district has done everything they can, you know.

And so we do have that. And we've moved -- this is our third location. So I did want to speak to that, too. It's just -- so the third location. And kids are so resilient and parents have found us in all those locations. So that group of students that I'm the principal of kind of is in flux and finding different places. And that is the group, very diverse group. And they find us and they do get to us.

And I do have some students that we luckily have a bus stop right there. So that's kind of handy, too, that they can take the bus as well.

But I agree with you. We do want a mix, definitely.

MS. ELISHA VARELA: I guess -- I think I -- also, I want to start my response to this with -- it's really difficult to keep getting

Page 177

school, a lot of them. And we also mapped the addresses. We looked at all our interest forms from Las Cruces. And with Toni's help, we mapped them out and looked at where the families are coming from, and where the families -- where are the schools -- particularly in middle schools, where there is a big drop in proficiency between middle and high school, where are the more [inaudible] ones, and are those students needing more options.

And so a lot of thought goes into that.

And, yes, we are [inaudible] at facilities.

Everybody is, I think, to an extent. It's frustrating. But our goal, and our goal for Albuquerque, since, apparently, that's also called into question here, and Las Cruces, is always going to be, "Do you look like the district around you?"

Because -- and I think I said this at the community input hearing. Because if you don't represent the district around you, your demographic will look wildly different.

In that sense, we can't look at the Albuquerque school's demographic and then say, "That's what Las Cruces will look like," because Albuquerque and Las Cruces do not look alike. They don't have the same demographic.

So I think that that's important to look at is the facility that we have here and the campus we have going here is very different, because Albuquerque is very different than Las Cruces. They're not the same place.

But as far as diversity when looking at programming, actually inundates us with ELLs. This model is actually perfect for it. It can completely be tailored to a school that's 50 percent ELL. It's kind of the beauty of the model that attracted me in the first place six years ago, something that can really be tailored to meet the needs of the students that walk in the door and then change year to year if need be. You don't get that pretty much anywhere.

So that's one of the things that I think makes this model the most special and that Dr. Hull will be available to kind of run with, because the whole school should be tailored to the kids. And it should match the district around it.

If we come into a school and have 60 percent Caucasians students in Las Cruces, I would be wondering what's going on in the school, when Las Cruces is very different population-wise. But 40 or 50 percent Caucasian in Albuquerque, that about an Albuquerque expansion into Las Cruces. And I fail to see where that's organic.

And then your own words just a second ago stated that, "If we come in." And so it's hard -- you're expressing concern about being compared to Albuquerque and what goes on in Albuquerque; yet some of the things that -- even that you're communicating is expressing that, "if we come in." And I have a real concern with that.

MR. JUSTIN BAIARDO: Can I speak to that? THE CHAIR: Yes.

MR. JUSTIN BAIARDO: All right. I would like to address this, this fundamental misunderstanding. And I think it goes back to the specifics of our model, which were outlined in the application. Because our model is non-traditional, to say the least.

What Explore Academy -- or what we've called the Explore Learning Model -- is a framework. And I mentioned in my speech, it is sandbox in which a school can be built with its own personality.

I would echo the same sentiment for Dr. Hull. We feel like she is the perfect fit for a school leader in that community, and exactly the kind of culture that she envisions is one that we

Page 179

looks like the district schools around us.

And not everything in the center of town is affluent. If you walk down Montgomery, which the closest high school to us is Del Norte, not the same picture as La Cueva.

So it's definitely depending on where you're looking. Las Cruces is not Albuquerque. We're aware of it, and that is one of our biggest goals is representative population.

THE CHAIR: Thank you. Commissioner Chavez?

COMMISSIONER CHAVEZ: Madam Chair. Gosh, where do I start? Let me just start with I have the utmost respect for Dr. Toni Hull. And she's an incredible leader. I've known her for about 15 years now, and just a remarkable person. And so I have no doubt in her leadership ability and being able to run a successful school. I think her record shows that and speaks for itself.

However, I want to just kind of echo Commissioner Caballero's concerns, and with -- with the whole school. And I have a hard time understanding -- I've heard this before, even the community input hearing. This term about organic. This is an organic situation, and yet we're talking 1 feel would meet well with our model.

What exists in Albuquerque is a function of the teachers that teach in Albuquerque. And I want to be very, very clear about that. What the teachers have brought into existence in Albuquerque with the flavors and the community and the curriculum that they have built is all within a box. Our box just happens to be really big, where they have a lot of flexibility and latitude in what they teach, as long as they're anchoring to the standards.

This curriculum, the beauty of it, if you get down into the weeds -- and it does require -- our application does specify this -- in terms of what the curriculum is. We've had a couple of Commissioners visit the school. We have -- CSD comes every year. And it's something that it's cool to see in action; but at the same time, we are not replicating.

We are not replicating at all. This is a framework that can be applied to a novel environment with novel students, with a passionate leader, to make it what he, or she, in this case, feels is best for that community. And so filling in that box and filling that frame and that framework is going to be

Page 181

up to the staff and the leader and the teachers that bring it into existence.

What it's going to look like is going to be phenomenally different than what is in Albuquerque. The culture in Albuquerque is largely driven by our founding staff. The staff that came on that initial year largely created the personality of what is now the -- the school moving forward.

That is not what we're bringing to Las Cruces. What we're bringing is a framework that can be applied with an innovative and passionate leader and innovative and passionate teachers to fill in all of that information, to engage students and create a culture in that community that works for those students.

And so I want to be very clear on that, because that is not a replication in any sense. This is us -- we are experts on the framework. We are not experts on Las Cruces. Dr. Hull can create a community that we are excited to watch come into existence within that.

And what it gives her and her teachers the ability to do is to create again. What they create is going to be best for their students. And when you compare, let's say, five years down the road,

Page 184

COMMISSIONER CHAVEZ: One other concern I'd like to bring to the table is I appreciate your Spanish-speaking parents that you had on the phone, which you didn't have any during the community input session. But going back to the review sheet, it specifically states here, the response that you gave to letter C, "Bilingual, multicultural, Indian education and Hispanic education," "The response does not indicate where or how students' families will be involved or give an indication of the supports to be given to help students with the home language that is not English achieved at a high level."

And so we keep talking about -- you know, you're trying to make this some type of model or for success; yet -- yet it's even in the review here that it lacks in that area.

And so I'm thinking about the Spanish-speaking parents that you just -- that you had speaking in support. And yet my question is how are you going to meet the needs of those kids?

MR. JUSTIN BAIARDO: Give me a second. I will -- before Ms. Varela takes the microphone on this, I would like to at least point out that the application, in conjunction with our capacity

Page 183

you compare the two schools, ultimately, they should look different. They should be absolutely different, because they are tailored to two student populations.

And that's the beauty of the model. As Ms. Varela said, if it is 50 percent ELL, the model can support that. It can have a significant ELL component. We have the flex times built into the academic support, the different flavors of classes that can lend themselves to dual language; all of that is within a frame that can be filled in by those who bring the school into existence.

We are at the very, very infancy stage of creating the school. The framework is what it is. But what's going to happen over the next year is the creation of a brand new culture and personalities of a school that fits perfectly for the school leader, the staff, and the students who come to enroll in that model.

I do want to say that this is an application for Las Cruces. And I want to make sure that we do remain tethered to that in a sense. We're proposing a school -- yes, we have not touted our track record in Albuquerque, because this is a novel endeavor altogether; so...

Page 185

interview -- this was asked by our review team. It was one thing that was asked specifically of us, because it was an area in the application where obviously, there was some scoring deductions that took place.

But as in the final recommendation, the review team determined that the responses by us, the school, during the capacity interview adequately addressed the concerns in that section of the written application.

So, I mean, we did address it.

I'll let Ms. Varela address it again right now. But I did want to say that inclusion with the -- what was packaged as our final application with the -- with the capacity interview included, we feel like that was addressed.

And I'll let you address it some more.

MS. ELISHA VARELA: Yeah. During our capacity interview, some of the reviewers actually mentioned that the rubric in the section was identical to the rubric in another section, which is something that we always pointed out, because the rubric didn't 100 percent match what the section questions were.

But in talking with them, I think part of

Page 186

it had to do with when they read our application, there were certain things that they made assumptions on that when we -- they asked us directly, we were like, "Well, that was an assumption."

So one of them was the idea of input. So when reading it, they didn't take into account the PTO, or the parent organizations, or the teachers creating their flavors, and the surveying that we do for parents. They didn't take any of that into account when they read it. And then when we brought it, they were like, "Oh, yeah, we did see that."

And so the other part that I think either was not stated heavily enough, but then I -- at the community input hearing, I felt I was slightly criticized for really pounding it home that everything should be equitable -- the ELD component that works within our school and that can be expanded is really, really effective in getting students to not only develop academic English but simultaneously not lose content.

I think that is a misstep that I see in so many schools, where they focus so hard on developing the English language, they forget these are also children that are at grade level, and they deserve the science and the math and the social studies and quickly exit ELL, partially because we don't let them just kind of flail in an ELD class and get English language arts credit. They also need to know English language arts and grade-level biology and grade-level quadratics. All of those things are super-important.

That is part of the reason why, when we discussed this section and they looked at the different things that we had stated, I think that was some of the confusion. And it was one of the things I was most hurt about when I read the reviews, because I worked so hard on that section, and we did so much work together to make sure we were conveying what the school can do and what it can do in the population that we are anticipating.

But it is not something that is brushed off in any way. And I don't want that to be a perception. Because it's a focus. And our flex periods and our support work so well for it that it's one of the things actually, I'm the most proud of the school model.

COMMISSIONER CHAVEZ: You keep using the word "equitable." But there is a difference between being equitable and having equity.

MS. ELISHA VARELA: Correct.

Page 187

the language arts to be on par.

That takes a lot of finesse, really, because you have to look at their level of academic English, pair it with where they have to be grade-wise and not let those slip.

And I know that is definitely not a perfect science for anyone; but it's crucial and it's part of the thing that we've kind of woven into the model for our flex periods.

We don't like pulling students who are not sufficient in English from their content classes. Having a structure where we can accommodate and modify and make sure they're able to access the information, everything is accessible in their home language, which in Las Cruces, majority will be Spanish, and then simultaneously receive the English language development instruction; those two components are so crucial.

And maybe it was not stated clearly enough in the application section. But during the interview, when we were discussing this, it was one of the things that was kind of the most positive outcome.

We like that model for that reason. The students who enter Explore Academy-Albuquerque very

Page 189

COMMISSIONER CHAVEZ: I mentioned, even at the community hearing, that even Lau v. Nichols is all about "equitable" versus "equity". So I have a concern with still the focus on "equitable."

THE CHAIR: Commissioner Chavez, do you have a mic?

COMMISSIONER CHAVEZ: Yes, I do. Can you hear me now?

THE CHAIR: This gentleman is having great difficulty in hearing.

COMMISSIONER CHAVEZ: I'll just repeat my comment. There is a difference between being equitable and equity. That's what Lau v. Nichols is all about. And my concern is that we continue to use the word "equitable" as opposed to "equity."

MR. JUSTIN BAIARDO: I think the difference between equality and equity -Ms. Var- -- we do function to support students in a way that is suitable for -- which is focusing on equitable, yes, which -- giving every student the same level of support does not benefit students that some need more support than others. That is equity.

Equality means you give everyone the same thing.

We have mentioned, and she has mentioned

equity. That is our model; equity. Not every student needs the same level of support as another student, which is why our support systems are very personal to the student, okay?

THE CHAIR: Commissioner Caballero?
COMMISSIONER CABALLERO: Yes. I don't want you to misunderstand my -- my point that I'm trying to get across. I'm not making any negative judgments of your teaching methodology, your approach teaching children.

What I'm concerned about is -- and the comparison to Albuquerque, whether you resent it or not -- is that you had a goal to meet for -- the language learners, and you didn't meet that. You didn't have hardly any of those here in Albuquerque. And you lost a lot of those when you moved from one side to the other.

So my position was, these guys moved away from that population. And so when I was in Las Cruces, I expected targeting areas. And I brought it up a little while ago. "Where are you going to be located? How are you going to solve this? You're moving away? How can you be in the periphery of the very poor?"

And I didn't hear a word on how you're

El Paso got involved. They put a lot of money. It ended up a school for the affluent, because it was put into a place where nobody could reach it other than people that had cars.

And so 80 -- 60 percent were from Juarez, very, very affluent, the rest of us, middle class-ish from El Paso.

So I don't want that to happen again in Las Cruces. We're at an early stage where I can say no. I can say no, because I brought -- I brought it up in Las Cruces, that I don't hear anything about, "This is the area that needs, we're going to do it here," or, "This is our closest site to be -- to have a bigger impact on where the need is very great."

I don't hear that. I just hear options, options for the affluent, options for the rich. Options.

It's not all. Charter schools in this state was made to -- to offer options for those that really need it and offer the public schools an option to new methodology.

You're providing an option for new methodology. But at the same time, you've got to show that you can get kids that really need it and

Page 191

going to approach that. You have a bunch of sites. A bunch of those, I don't know if they're in there somewhere.

So my concern is really that when we finished the meeting, there were two ladies, Spanish-speaking ladies in the crowd that didn't speak. And I went over, and I said, "How do you think..." -- well, they were excited about the Explore. They understood it was coming to the community.

And so they were a little confused as to the discussion of -- that you were going to go somewhere, that they kind of understood that you wanted to buy.

So I don't know whether -- when you got support from parents, especially Hispanic parents, they were fully aware that you were going to be located in northeast Las Cruces or where.

And people get excited. But very poor, limited folks that -- that need your -- your type of charter school are not going to be able to -- to reach your school.

There's a lot of good intentions. My son went to a magnet school, and it was done with a lot of good intentions. Some of the key people in

Page 193 are at the bottom and bring them up to the top.

Those are real options. And then you prove it, and then our public schools can replicate.

Otherwise, we're just financing private schools for the affluent at public expense if we don't push for service to those that really need it.

You could have said -- are we going to provide transportation to 60 percent of the students? I don't know how you're going to do that. But that's about the only way, if you go into a very affluent part of Las Cruces. You managed it in Albuquerque. It's there. Nobody's put a stop to it. Nobody said anything.

But it's early enough in Las Cruces -- for me, I'm the only one of ten that can say no, this is not going to happen, unless you provide this option to those that really need it.

Thank you, Madam Chair.

COMMISSIONER ARMBRUSTER: Madam Chair? THE CHAIR: I'm going to be brief.

21 COMMISSIONER ARMBRUSTER: I wanted to ask 22 you a question. That's fine.

THE CHAIR: And I'm -- this is going to be quick. My concern has always been that in the application and at the community input hearing,

			50 (Pages 194 to 197)
	Page 194		Page 196
1	there was no indication that there truly was	1	tell them where to locate.
2	community participation in the application.	2	COMMISSIONER ARMBRUSTER: I just want to
3	And there obvious this school is the	3	know, are all of these in the super-rich part
4	first school whose community input hearing that I	4	THE CHAIR: They're not. They're not.
5	have participated in, that there was not the	5	But until we know that that's where they're going to
6	founding there wasn't anyone locally sitting	6	be, it's just pure conjecture.
7	there on the founding team that was part of the	7	COMMISSIONER ARMBRUSTER: Okay. Because I
8	community.	8	don't know anything about Las Cruces.
9	So that when Commissioner Chavez makes a	9	THE CHAIR: Right. And I understand that.
10	reference to this school being organically grown, I	10	But we're talking in what-ifs at because we don't
11	don't I absolutely did not see it in the	11	know where they're going to be. And that's the
12	application, and it certainly was not representative	12	concern that's being raised.
13	at that community input hearing. It was completely	13	COMMISSIONER ARMBRUSTER: So in
14	lacking.	14	Las Cruces, in general, I guess because it's not
15	And I'm sorry if I'm if I'm offending	15	every school what is the free and reduced lunch
16	you or anything at this point in time, but	16	kind of rate that Las Cruces, in general we're
17	DR. TONI HULL: No, no, no, definitely	17	talking about a community; right?
18	not.	18	THE CHAIR: It's high. It's high.
19	THE CHAIR: But it's just a statement.	19	COMMISSIONER ARMBRUSTER: High as in,
20	It's just a statement. It's a statement.	20	like, over 50? 60? 80?
21	DR. TONI HULL: Okay.	21	THE CHAIR: I can tell you that each one
22	THE CHAIR: Commissioner Armbruster?	22	of our charter schools has I think every one of
23	COMMISSIONER ARMBRUSTER: I just have a	23	our charters has 100. It is yeah. Yeah.
24	question to ask you, because I have no idea about	24	COMMISSIONER DAVIS: How many charter
25	Las Cruces.	25	schools are in Las Cruces?

2 3 4 5 6 7 8 9	THE CHAIR: Oh. I'm sorry. COMMISSIONER ARMBRUSTER: And my question is, these places that Mr. Baiardo just talked about, which I have no idea, are all of those upper income areas? THE CHAIR: Well, no. But I'll also say this. Until a site is absolutely identified, it's too hard to say and I'll agree. I have an issue with that, because we've had Las Cruces is	2 3 4 5 6 7 8 9	THE CHAIR: We have five. I always have to count them. We have La Academia Dolores Huerta which is a middle school. We have J. Paul Taylor which is K-through-8. We have Alma d'Arte, which is a high school. We have La Montañas, which is a high school. And we have New Americas, which is a high school. COMMISSIONER DAVIS: So is there COMMISSIONER CABALLERO: Raíces.
2 3 4 5 6 7 8 9	THE CHAIR: Oh. I'm sorry. COMMISSIONER ARMBRUSTER: And my question is, these places that Mr. Baiardo just talked about, which I have no idea, are all of those upper income areas? THE CHAIR: Well, no. But I'll also say this. Until a site is absolutely identified, it's too hard to say and I'll agree. I have an issue with that, because we've had Las Cruces is smaller. We get it. And it's not Albuquerque. And	2 3 4 5 6 7 8 9	THE CHAIR: We have five. I always have to count them. We have La Academia Dolores Huerta which is a middle school. We have J. Paul Taylor which is K-through-8. We have Alma d'Arte, which is a high school. We have La Montañas, which is a high school. And we have New Americas, which is a high school. COMMISSIONER DAVIS: So is there COMMISSIONER CABALLERO: Raíces. THE CHAIR: And Raíces, which just opened.
2 3 4 5 6 7 8 9 10	THE CHAIR: Oh. I'm sorry. COMMISSIONER ARMBRUSTER: And my question is, these places that Mr. Baiardo just talked about, which I have no idea, are all of those upper income areas? THE CHAIR: Well, no. But I'll also say this. Until a site is absolutely identified, it's too hard to say and I'll agree. I have an issue with that, because we've had Las Cruces is smaller. We get it. And it's not Albuquerque. And I am not comparing Albuquerque and Las Cruces.	2 3 4 5 6 7 8 9 10	THE CHAIR: We have five. I always have to count them. We have La Academia Dolores Huerta which is a middle school. We have J. Paul Taylor which is K-through-8. We have Alma d'Arte, which is a high school. We have La Montañas, which is a high school. And we have New Americas, which is a high school. COMMISSIONER DAVIS: So is there COMMISSIONER CABALLERO: Raíces. THE CHAIR: And Raíces, which just opened. I think they're opening. But they just currently
2 3 4 5 6 7 8 9 10 11	THE CHAIR: Oh. I'm sorry. COMMISSIONER ARMBRUSTER: And my question is, these places that Mr. Baiardo just talked about, which I have no idea, are all of those upper income areas? THE CHAIR: Well, no. But I'll also say this. Until a site is absolutely identified, it's too hard to say and I'll agree. I have an issue with that, because we've had Las Cruces is smaller. We get it. And it's not Albuquerque. And I am not comparing Albuquerque and Las Cruces. However, it's large enough that there	2 3 4 5 6 7 8 9 10 11	THE CHAIR: We have five. I always have to count them. We have La Academia Dolores Huerta which is a middle school. We have J. Paul Taylor which is K-through-8. We have Alma d'Arte, which is a high school. We have La Montañas, which is a high school. And we have New Americas, which is a high school. COMMISSIONER DAVIS: So is there COMMISSIONER CABALLERO: Raíces. THE CHAIR: And Raíces, which just opened. I think they're opening. But they just currently opened, which is an elementary.
2 3 4 5 6 7 8 9 10 11 12 13	THE CHAIR: Oh. I'm sorry. COMMISSIONER ARMBRUSTER: And my question is, these places that Mr. Baiardo just talked about, which I have no idea, are all of those upper income areas? THE CHAIR: Well, no. But I'll also say this. Until a site is absolutely identified, it's too hard to say and I'll agree. I have an issue with that, because we've had Las Cruces is smaller. We get it. And it's not Albuquerque. And I am not comparing Albuquerque and Las Cruces. However, it's large enough that there that there are certain communities that you would be	2 3 4 5 6 7 8 9 10 11 12 13	THE CHAIR: We have five. I always have to count them. We have La Academia Dolores Huerta which is a middle school. We have J. Paul Taylor which is K-through-8. We have Alma d'Arte, which is a high school. We have La Montañas, which is a high school. And we have New Americas, which is a high school. COMMISSIONER DAVIS: So is there COMMISSIONER CABALLERO: Raíces. THE CHAIR: And Raíces, which just opened. I think they're opening. But they just currently opened, which is an elementary. COMMISSIONER DAVIS: So is there a need
2 3 4 5 6 7 8 9 10 11 12 13 14	THE CHAIR: Oh. I'm sorry. COMMISSIONER ARMBRUSTER: And my question is, these places that Mr. Baiardo just talked about, which I have no idea, are all of those upper income areas? THE CHAIR: Well, no. But I'll also say this. Until a site is absolutely identified, it's too hard to say and I'll agree. I have an issue with that, because we've had Las Cruces is smaller. We get it. And it's not Albuquerque. And I am not comparing Albuquerque and Las Cruces. However, it's large enough that there that there are certain communities that you would be serving. And without knowing the location and we're dealing with schools, as Commissioner Caballero mentioned; not necessarily this school,	2 3 4 5 6 7 8 9 10 11 12 13	THE CHAIR: We have five. I always have to count them. We have La Academia Dolores Huerta which is a middle school. We have J. Paul Taylor which is K-through-8. We have Alma d'Arte, which is a high school. We have La Montañas, which is a high school. And we have New Americas, which is a high school. COMMISSIONER DAVIS: So is there COMMISSIONER CABALLERO: Raíces. THE CHAIR: And Raíces, which just opened. I think they're opening. But they just currently opened, which is an elementary. COMMISSIONER DAVIS: So is there a need for another charter school?
2 3 4 5 6 7 8 9 10 11 12 13 14 15	THE CHAIR: Oh. I'm sorry. COMMISSIONER ARMBRUSTER: And my question is, these places that Mr. Baiardo just talked about, which I have no idea, are all of those upper income areas? THE CHAIR: Well, no. But I'll also say this. Until a site is absolutely identified, it's too hard to say and I'll agree. I have an issue with that, because we've had Las Cruces is smaller. We get it. And it's not Albuquerque. And I am not comparing Albuquerque and Las Cruces. However, it's large enough that there that there are certain communities that you would be serving. And without knowing the location and we're dealing with schools, as Commissioner Caballero mentioned; not necessarily this school, but also other schools that might have moved.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	THE CHAIR: We have five. I always have to count them. We have La Academia Dolores Huerta which is a middle school. We have J. Paul Taylor which is K-through-8. We have Alma d'Arte, which is a high school. We have La Montañas, which is a high school. And we have New Americas, which is a high school. COMMISSIONER DAVIS: So is there COMMISSIONER CABALLERO: Raíces. THE CHAIR: And Raíces, which just opened. I think they're opening. But they just currently opened, which is an elementary. COMMISSIONER DAVIS: So is there a need for another charter school? THE CHAIR: That's a that's a question
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	THE CHAIR: Oh. I'm sorry. COMMISSIONER ARMBRUSTER: And my question is, these places that Mr. Baiardo just talked about, which I have no idea, are all of those upper income areas? THE CHAIR: Well, no. But I'll also say this. Until a site is absolutely identified, it's too hard to say and I'll agree. I have an issue with that, because we've had Las Cruces is smaller. We get it. And it's not Albuquerque. And I am not comparing Albuquerque and Las Cruces. However, it's large enough that there that there are certain communities that you would be serving. THE CHAIR: And Raíces, which just opened. I think they're opening. But they just currently opened, which is an elementary. COMMISSIONER DAVIS: So is there a need for another charter school? THE CHAIR: That's a that's a question to be answered.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	THE CHAIR: Oh. I'm sorry. COMMISSIONER ARMBRUSTER: And my question is, these places that Mr. Baiardo just talked about, which I have no idea, are all of those upper income areas? THE CHAIR: Well, no. But I'll also say this. Until a site is absolutely identified, it's too hard to say and I'll agree. I have an issue with that, because we've had Las Cruces is smaller. We get it. And it's not Albuquerque. And I am not comparing Albuquerque and Las Cruces. However, it's large enough that there that there are certain communities that you would be serving. And without knowing the location and we're dealing with schools, as Commissioner Caballero mentioned; not necessarily this school, but also other schools that might have moved.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	THE CHAIR: We have five. I always have to count them. We have La Academia Dolores Huerta which is a middle school. We have J. Paul Taylor which is K-through-8. We have Alma d'Arte, which is a high school. We have La Montañas, which is a high school. And we have New Americas, which is a high school. COMMISSIONER DAVIS: So is there COMMISSIONER CABALLERO: Raíces. THE CHAIR: And Raíces, which just opened. I think they're opening. But they just currently opened, which is an elementary. COMMISSIONER DAVIS: So is there a need for another charter school? THE CHAIR: That's a that's a question to be answered. COMMISSIONER DAVIS: To be determined?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	THE CHAIR: Oh. I'm sorry. COMMISSIONER ARMBRUSTER: And my question is, these places that Mr. Baiardo just talked about, which I have no idea, are all of those upper income areas? THE CHAIR: Well, no. But I'll also say this. Until a site is absolutely identified, it's too hard to say and I'll agree. I have an issue with that, because we've had Las Cruces is smaller. We get it. And it's not Albuquerque. And I am not comparing Albuquerque and Las Cruces. However, it's large enough that there that there are certain communities that you would be serving. And without knowing the location and we're dealing with schools, as Commissioner Caballero mentioned; not necessarily this school, but also other schools that might have moved. So without saying knowing the intention of where it's going to be built, it is impossible to say who they're going to be serving. But they're	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	THE CHAIR: We have five. I always have to count them. We have La Academia Dolores Huerta which is a middle school. We have J. Paul Taylor which is K-through-8. We have Alma d'Arte, which is a high school. We have La Montañas, which is a high school. And we have New Americas, which is a high school. COMMISSIONER DAVIS: So is there COMMISSIONER CABALLERO: Raíces. THE CHAIR: And Raíces, which just opened. I think they're opening. But they just currently opened, which is an elementary. COMMISSIONER DAVIS: So is there a need for another charter school? THE CHAIR: That's a that's a question to be answered. COMMISSIONER DAVIS: To be determined? THE CHAIR: Right. Right. Are there any other questions? If not okay.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	THE CHAIR: Oh. I'm sorry.
