Demonstration of Competency
Industry-Recognized Credential and Certificate Option

The options available to students in the world of Career and Technical Education are constantly evolving and growing. However, with the exception of additions to the list of credentials and certificates below, the list will not be subject to change for the class of 2022.

The PED will continue to review and explore new certificates and credentials and welcomes petitions for the inclusion of new credentials and certificates. Those seeking to make a petition should email the College and Career Readiness Bureau at grad.questions@state.nm.us. Petitions should be supported by a rationale (e.g., XYZ certification is a rigorous assessment that is aligned with industry standards, is valued in the field among hiring managers, and assesses high levels of math that correspond with common core algebra I and geometry standards.)

Decisions of whether to accept petitions for additional credentials and certificates will be made by the PED on a case-by-case basis.

Content Area	Industry-Recognized Credentials and Certificates
Mathematics	Auto CAD Automotive Technician (ASE) National Center for Construction Education & Research (NCCER) Carpentry NCCER Electrical NCCER HVAC NCCER Industrial Maintenance NCCER Masonry NCCER Plumbing NCCER Sheet Metal NCCER Welding Welding Certification - AWS
Reading	Certified Landscape Technician (CLT) Certified Veterinary Assistant Floriculture Adobe Certified Professional
Writing	Adobe Certified Professional DECA School Based Enterprise Individual Certification
Social Studies	A*S*K Assessment of Skills and Knowledge for Business Certificate Film Production Certificate Child Development Associate Educational Assistant License Paraprofessional Certification NM Early Care Education and Family Support Police Explorer Certification

Content Area	Industry-Recognized Credentials and Certificates
Science	Automotive Service Technician (ASE)
