09:31:45 From James Boshart to All panelists : In support of enrollment increase

09:32:05 From Patricia Willson to All panelists : I see many identical comments about support; I am sure none of those folks live in the neighborhood.

09:35:15 From Jana Cappadona : I wholeheartedly support MAS. I have 27 years teaching experience, and MAS is by far the best school I have ever worked with! Help us help more students!

09:35:37 From Patricia Willson to All panelists : Please Start working with the NA! Concerns about traffic problems have been ignored.

09:36:09 From Jennifer Prye to All panelists : Jennifer Prye. Mission Achievement and Success Charter School. Representing MAS. Parent and Staff Perspective. I intend to speak. I signed up right after cesear Rivas and have been skipped.

09:36:25 From kenia caballero : My name is Kenia Caballero and I am asking to NOT be denied the opportunity to speak. I ONLY submitted a letter because I was told I could NOT speak as comments must be in writing. This changed and is not denying me the opportunity to share my story.

09:37:39 From Tiffany Gutierrez : My Name is Tiffany Gutierrez, I support MAS

09:37:43 From Angel Garcia to All panelists : I AGREE WITH KENIA!!! I submitted a letter as well, but i really would like to speak!!!

09:37:58 From Tiffany Gutierrez : My name is Jason Ponce and I support MAS

09:38:11 From Jennifer Prye : Jennifer Prye. Mission Achievement and Success Charter School. Representing MAS. Parent and Staff Perspective. I intend to speak. I signed up right after cesear Rivas and have been skipped.

09:39:15 From William (BILL) Sharp to All panelists : Dr. Bill Sharp, Dean of Students, Old Coors MAS 2.0

09:40:05 From Kristina Squire : I would like to hear what Kenia has to say

09:40:19 From Kristina Squire : Please

09:40:38 From Allysha White to All panelists : Allysha White, MAS Charter School: I support the enrollment increase. I do not intend on speaking today.

09:41:03 From Patricia Willson to All panelists : No denying that MAS is a great school; the issue is infrastructure—there has been no attempt to deal with what this run-away growth has done to the neighborhood!

09:41:08 From Chairwoman Gipson to All panelists : Jennifer you are on the list to speak

09:41:18 From Jacqueline Serna : This is Jacqueline Serna, if its possible I'd personally like to hear what some of these letters say.

09:41:42 From Denise Vega to All panelists : Please let the letters be read to public

09:41:45 From Oum DuVall : Oum DuVall (MAS Charter School 1.0): I am here to support MAS additional enrollment; not planning on speaking. I would like to hear what Kenia Caballero has to say. Thank you.

09:41:51 From Diane Montoya to All panelists : I do not support the expansion of MAS. My son used the bathroom two times waiting for someone to take him. The water fausetts did not work half the time. I do believe the school is on tract education wise, and there is a need. They help families a lot. I just don't think they have the right solutions. The bathroom is going in the gym I was told. I tried e-mailing the principal and she was too busy to talk to me. The only person I spoke with was Rosa who always spoke politely but that system was not working. Other days other kids had also wet themselves. Maybe one more year to figure it all out.

09:41:53 From Essence Johnson : I think it is important that letters that were sent are read allowed or those authors be allowed to speak here in this forum

09:42:05 From Alina Hughes to All panelists : I would respectfully like to hear what the letters say in this public forum. There are some written by students from MAS and I think they should be read aloud for their voices to be heard in this forum. Thank you.

09:42:46 From Marty Murphy to All panelists : I am respectfully requesting that the letters are read. The public has not read or heard them. Thank you.

09:42:47 From Tennise Lucas to All panelists : Hello. I understand that the letters have been read by the commissioners. I respectfully request them to be heard in this forum. They take the place of verbal and everyone should be able to hear them. Thank you.

09:42:57 From Kathleen Falk to All panelists : Kathleen Falk. I am in support of MAS. I do not wish to speak. Thank you.

09:43:01 From Chairwoman Gipson to All panelists : The letters will be part of the transcript and will be available on line.

09:43:17 From Angela Salas to All panelists : I agree, I'm requesting that the letters be read.

09:43:21 From Rick Rood : I would respectfully request that we hear the letters - I understand that the esteemed commissioners have had the opportunity to read these... would be awesome if the public also were able to hear these as well. Thank you so much for your consideration.

09:43:39 From mary miller to All panelists : The letters need to be read to the public and not just by commissioners. Please let the authors speak to their letters.

09:43:50 From devon to All panelists : the work that we do at times goes unrecognized which is understandable. as a person whose been in the trenches for 8 years it's imperative that we consider a cap increase. the community needs options the community needs an environment conducive to learning

09:44:12 From Jacqueline Serna : I am particularly interested in Kenia Caballero's letter, please do read these letters out loud, the public would love to hear these letters.

09:44:14 From Michele Platis : I respectfully request that you read the letters aloud, especially from MAS students such as Kenia Caballero. The impact MAS has made in students lives should be heard. Thank you so much for your consideration.

09:44:40 From Angelica Felix : Please I respectfully request letters to be read. While the Commissioners have read them the Public has not read or heard them. Thank you for your consideration.

09:44:45 From Duncan MacIvor to All panelists : Duncan MacIvor, MAS Charter School; Please read the letters in a public forum here on this webinar. There were student letters submitted that should be heard. Thank you.

09:44:47 From frankie grady to All panelists : I Love Teaching at MAS, the Families that we serve are amazing and love our teachers and staff at MAS. We serve a great need for the community

09:44:49 From Neri Villarreal to All panelists : i personally and respectfully would like to hear some students reading those letters.

09:44:58 From Jessica Smith to All panelists : I respectfully ask that the letters be read aloud. Some are from MAS student and their voices should be heard. Kenia should have the opportunity to be heard as well. I know the commissioners have read the letters but the public have not heard them. Please give all the chance to share their thoughts. Thank you for your consideration and time.

09:45:11 From Pete to All panelists : I respectfully ask that the letters be read. It is important that their voices be heard.

09:45:12 From Tonikah Edwards to All panelists : I respectfully request to hear from Kenia Caballero's.

09:45:16 From Orese Fahey to All panelists : It was my understanding that a spokesperson should be selected to speak for a group so our Traffic Coalition selected one person as opposed to having everyone in our neighborhood take up your time voicing our opposition. Why isn't MAS required to have only one spokesperson instead of taking up your time with all of their students, parents, teachers reiterating the same thing?

09:45:23 From Sara Fitzgerald : Good morning, I'm Sara Fitzgerald and I'm here in support of MAS' request for an enrollment cap increase. Thank you for hearing us today.

09:45:23 From Tiffany Gutierrez : Please I respectfully request letters to be read
The public should hear them also

09:45:29 From Marty Murphy to All panelists : I respectfully request to hear what Kenia Caballero has to say.
Thank you.

09:45:36 From Joselyn Villalobos to All panelists : Joselyn Villalobos, in favor and support of increasing enrollment at MAS Charter School. I do not plan to speak but I respectfully ask that the letters are read as we, the public would like to hear them.

09:45:46 From Rosa Swonger : Also respectfully requesting we hear the letters read so that ALL participants can hear what our families, community members and students have to say.

09:46:08 From laura chavez to All panelists : In all my years of being a student at any school, college, and university have heard that education has a limit. Supporting the increase at MAS will offer students the opportunity to obtain the education they need and to help them transform their lives.

09:46:17 From Emily Smith : I respectfully request letters to be read so that the public may hear them as well. .

09:46:27 From Kristy Reale : I would respectfully request that we hear the letters. I understand that the esteemed commissioners have had the opportunity to read these. I believe the public should also hear these letters. Especially from students such as Kenia Caballero. Thank you so much for your consideration.

09:46:30 From Josh Harrelson : I am also respectfully requesting that we hear the letters read so that all the participants can hear what families have to say.

09:46:31 From Andrea Zamora to All panelists : I believe that the letters that have been submitted to the committee should be read to give proper voice to all people who have included their impacted experience in their attending of this school and how our students lives are changing for the better.

09:46:39 From Sarah Fielding to All panelists : I respectfully request all letters to be read so the public can hear them as well. Thank you.

09:47:10 From Natashya Nettleton : I would also like to respectfully request that the letters are read.

09:47:15 From Rebecca Raymer to All panelists : I would respectfully request that we hear the letters. I understand that the esteemed commissioners have had the opportunity to read these. I believe the public should also hear these letters. Especially from students such as Kenia Caballero. Thank you so much for your consideration.

09:47:15 From Beverly Trujillo : I would also like to respectfully request that we are able to hear the letters submitted today. I believe it is vital we address the voices of these authors.

09:47:19 From Jennifer Felix : I would respectfully request that we hear the letters. I understand that the commissioners have had the opportunity to read these. I believe the public should also hear these letters. Especially from students such as Kenia Caballero. Thank you so much for your consideration.

09:47:30 From Joshua Gurule to All panelists : I too respectfully requested to have letters be read!

09:47:34 From La'Shiya Madden : I second Mr. Harrelson's request!

09:47:36 From Pete to All panelists : I'd like to hear from Kenia. And please read the letters.

09:47:51 From Jennifer Prye : I need to be moved to panalist

09:48:08 From madison houghtaling to All panelists : Please let us hear the letters of those who weren't able to sign up to speak. Their voices NEED to be heard.

09:48:11 From MaKayla Valdez to All panelists : I also respectfully request that we hear the letters.

09:48:28 From William (BILL) Sharp to All panelists : Please read all letters from participants; Dr. Bill Sharp

09:48:43 From Essence Johnson : I firmly believe that the voices of the students like Kenia deserve a public forum be it by reading their letters or letting them speak.

09:49:06 From Viridiana Lopez- Fernandez : Good morning, I'm Viridiana Lopez, here in support to increase the enrollment cap.

09:49:08 From Charles (Natasha's husband) to All panelists : Charles Pfenning. Everyone in every school district deals with traffic issues. Special needs is seriously lacking. These kids are the ones who need help. Traffic is an adult problem.

09:49:47 From Jacqueline Serna : I do understand this meeting began a little late and that we might be short on time, however I feel it really is important for the public to hear what these letters have to say. Please Madam Chair.

09:50:57 From Jenna Culver to All panelists : I also agree with Mr. Harrelson.

09:50:58 From Lori Granado to All panelists : Lori Granado: I would request that the public be able to hear the letters read out loud as some of the them are from our students. These letters emphasize what a difference MAS has made in their lives and we want to give other students the same opportunity to succeed as well.

09:51:40 From Jenna Culver to All panelists : I am Jenna Culver and I support the increase.

09:51:48 From Katlen Briscoe to All panelists : I am also respectfully requesting that we hear the letters read so that all the participants can hear what families have to say.

09:52:05 From James Boshart : I would like to request the committee read some support letters aloud, particularly from students. Thank you.

09:52:42 From JAY RAKE to All panelists : Please I respectfully request letters to be read. While the Commissioners have read them the Public has not read or heard them. Thank you for your consideration.

09:53:01 From Fefe to All panelists : Feonia Chambers, teacher at MAS Charter School. In all my life I've never seen anything like MAS. I'm a transfer teacher from Jamaica and I wish I could just move this school to my own country to help those that need what MAS offers. I've never seen a school that develop teachers daily in staff meetings. I was wondering why a school need to use up so much of teacher's summer time for professional development, but I've found my answers after applying the knowledge garnered from these constant profession development sessions. I'm frightened that people in their right mind would oppose to enrolling more students. My son is a student at MAS and when I told him we will be moving in the future he asked me "Is there a MAS where we are going"?. I am a single mom gets no support from anyone. When I first learned that my son will get free uniforms, 3 meals a day and being in the same building I was thrilled!!!

09:53:03 From Orese Fahey to All panelists : The neighborhoods surrounding MAS are not questioning whether or not MAS is a good school. We understand and laud their success rate. The problem is that MAS has completely outgrown their physical site. If they have 1,000 students on a wait list and continue to recruit more students through billboard advertisement they need to relocate to a much larger site and occupy a school building that is designed to handle their student population and their traffic and parking.

09:53:06 From Patricia Willson to All panelists : I would also like to know the plan for dealing with more students in this era of Covid

09:53:29 From JAY RAKE to All panelists : I did not expect to speak, thank you

09:54:31 From Michele Platis : I understand that Kenia, is now present. Please, Madam Chair, consider allowing her to speak. Her story with MAS is powerful and the public deserves to hear her.

09:55:06 From Carrie Ortiz to All panelists : I would also like to respectfully request that the letters are read. The public should hear the voices of those who dedicated their time to drafting letters.

09:55:25 From Marty Murphy to All panelists : I would respectfully request that we hear the letters. I understand that commissioners have had the opportunity to read these. I believe the public should also hear these letters. Especially from students such as Kenia Caballero. Thank you.

09:56:14 From Elizabeth Harbour : It pains me to not be able to stay for the entirety of this meeting, but I do have to depart and teach my 9th grade English class for MAS. All I can say is thank you for all of the love and support for MAS. It changes lives. I hope for the best outcome for these students. If there is time, please read some of the letters and allow Kenia to speak. Her story captures MAS as a whole. Thank you.

09:57:12 From Orese Fahey to All panelists : MAS has an campus on the West Side which they call Old Coors - can the students who wish to enroll be sent to that campus?

09:58:05 From Shannon Richardson to All panelists : Please allow Kenia to speak. She is a recent MAS graduate.

09:58:13 From Melanie Conway to All panelists : Melanie Conway here in support of MAS enrollment increase. I have to leave for class, but thank you all for this consideration. I hope it is clear how passionate the entire MAS community is.

09:58:29 From Josh Harrelson : According to our insurance company and the PED department who came to observe our afternoon dismissal. They said it was one of the most organized, quickest and well run dismissals they have seen.

10:00:18 From Jordan Franco to All panelists : I request that we hear from Kenia and students in support of MAS

10:00:41 From Jordan Franco : I request that we hear from Kenia and students in support of MAS

10:00:54 From Jordan Franco : It is important to hear the story from students of MAS

10:01:07 From Andrea Boltwood to All panelists : Andrea Boltwood; MAS Charter School; I approve the enrollment increase and request that we hear from Kenia and other students from MAS

10:01:14 From Cindy Tran to All panelists : I respectfully ask that the student letters in support of MAS enrollment increase be read. Thank you!

10:01:37 From Shannon Richardson to All panelists : PED has come and observed our dismissal and said it was one of the most organized and safest and quickest he had ever seen. We have staff out there, we route kids to where they need to go safely.

10:01:58 From Charles (Natasha's husband) : Jordan Franco, would you like too hear from my kids?

10:02:51 From Alina Hughes to All panelists : I was a part of the dismissal when PED was there and, as a bus escort for after school duty, all was safe and quick as it always is. We have posted crosswalk attendants at Ross and Yale as well on Ross especially. We always ensure the safety of our students and teachers are posted all up and down Ross and Yale to ensure the safety of our students.

10:03:38 From mia monique to All panelists : i believe essence stated that she wished not to speak, although being in favor of MAS's expansion.

10:04:12 From Jacqueline Serna : i understand students themselves sent in letters exclusively to be read, please I ask respectfully for these to be read, or if it's possible to allow Kenia Caballero to speak she is a student at MAS her story is one that should be heard.

10:04:47 From Diane Montoya to All panelists : Please only elementary, and don't increase numbers. This is a high traffic area, and their planning needs work for special needs, bathrooms and water for our elementary children.

10:04:55 From Jennifer Prye : As Josh Harrelson mentioned, According to our insurance company and the PED department who came to observe our afternoon dismissal. They said it was one of the most organized, quickest and well run dismissals they have seen. In addition, we have had compliments from local police in the area for our visibility in before and after school.

10:05:03 From Carolina Anderson to All panelists : I respectfully request that the voices of all MAS students, like Kenia, be heard. Her story deserves a public forum. She submitted a letter because she was told that comments must be in writing. Please do not deny her voice and please allow her to share her story. Thank you.

10:05:18 From Rosa Swonger : We have so many voices that need to be heard, please read the letters out loud and allow our previous students who would like to speak as well.

10:06:00 From Bonnie Sumner to All panelists : Bonnie Sumner, Teacher/parent of MAS student. I would now like the opportunity to speak in favor of this issue, please and thank you.

10:06:03 From Josh Harrelson : The traffic is cleared in about 10 minutes every single day. I have not heard of any invite from the neighborhood association to the teachers or families.

10:06:08 From Diane Montoya to All panelists : Many people are having a problem with audio.

10:06:46 From Robert Moya to All panelists : My name is Robert Moya and I am employee here at M.A.S.From what I have witnessed here while I have been employed it looked like it is very well organized teachers seem to always be in too of there game as far as teaching goes.From what I have witnessed when the bell rings the kids seem to always go straight to there classes and get ready to learn.Teachers always again from what I have witnessed age very eager and ready to teach the kids.Me and my fiance are thinking if pulling her son out of cibola and enrolling him here at M.A.S.next year he will be a junior next semester and again from what I have witnessed I think he will do really well.

10:07:00 From Marty Murphy to All panelists : I understand that Kenia, is now present. I respectfully ask to consider allowing her to speak. Thank you.

10:08:26 From Rosa Swonger : Traffic is an unfortunate consequence of ALL schools. I live right next to an elementary school and the street is crowded and packed each day at arrival and dismissal. We can always do better but this is a reality all schools face.

10:08:32 From Leandra Cook-Woods to All panelists : here, here!

10:08:38 From Orese Fahey to All panelists : I will be happy to provide documentation regarding Loma Linda Traffic Coalition's attempts to work with MAS starting in 2016. Victory Hills NA can provide documentation re their attempts to work with MAS on traffic and parking.

10:08:38 From Patricia Willson to All panelists : Regarding Josh Harrelson's comment: at the mediated meeting Angela Vigil spoke about, I offered to the lawyer to prepare a map based on students' zip code locations to find bus pick up locations; in an effort to reduce individual pick-ups.

10:09:04 From Josh Harrelson : According to the PED, schools of the same size have much longer dismissals with worse traffic.

10:09:15 From Pete : I respectfully request that the voices from MAS students be heard. They are trying to be engaged in this process which is commendable and should be respected.

10:09:17 From angela vigil to All panelists : To Josh's/Rosa's statement - The traffic runs constant, it is not nonstop, and it is a huge safety issue!

10:09:38 From Charles (Natasha's husband) : Mas attempts and often succeeds in expelling and suspending these " trouble kids."

10:10:19 From Shana Anaya : Angel is his foster parent

10:10:37 From Belinda East to All panelists : this is Belinda East- if possible I would like an opportunity to speak again

10:10:39 From Joselyn Villalobos to All panelists : I would respectfully request that we hear the letters. I understand that the esteemed commissioners have had the opportunity to read these. I believe the public should also hear these letters. Thank you so much for your consideration.

10:11:09 From Josh Harrelson : We seek to help all students be successful. We only seek to suspend as a last resort when they are acting in an unsafe way. We look for creative ways to help all students succeed even if they have unique issues.

10:11:35 From Oum DuVall : Oum DuVall (MAS Charter School 1.0): I am here to support MAS additional enrollment; not planning on speaking. I would like to hear what Kenia Caballero has to say. Thank you Bonnie Sumner...It is all about supporting ALL students and helping them climb the social ladder.

10:12:03 From Marty Murphy : I am respectfully requesting that the letters are read. The public has not read or heard them. I understand that Kenia, is now present. I respectfully ask to consider allowing her to speak. Thank you.

10:12:15 From Charles (Natasha's husband) : Suspending a first grader over 25 times in a couple of months is not a last resort.

10:12:44 From Orese Fahey to All panelists : All of these testimonials are heartwarming and wonderful, but they are totally beside the point. The issue today is whether or not MAS' current physical site can safely accommodate an increase in enrollment.

10:13:10 From Andrea Boltwood : It is very important for MAS student voices to be heard. Please let them advocate for their school.

10:13:25 From Josh Harrelson : Again, like a said. It is when a student is being unsafe to other students.

10:13:27 From Carolina Anderson : I respectfully request that the voices of all MAS students, like Kenia, be heard. Her story deserves a public forum. She submitted a letter because she was told that comments must be in writing. Please do not deny her voice and please allow her to share her story. Thank you.

10:13:36 From Bonnie Sumner to All panelists : I Mr. Pfenning, I personally worked with your student. I was personally involved in trying to support your student. It would be fair of you to not only talk about your disappointments, but you also need to talk about everything positive that we tried with your student. I'm sorry that you felt that your student was "slighted," but his doesn't meant that you have the right to take away from other people's children getting to come to our school. It can't just be about you and your one student's experience. We all went above and beyond for him, and it's unfair of you to even acknowledge what we did try. It was a lot of work. Please do not discount what we do.

10:14:02 From Pete : It is amazing to hear from one student. Respectfully, if a student has the courage to use their voice, they should be heard. I implore you.

10:14:12 From Leandra Cook-Woods to All panelists : here, here

10:14:34 From Amber Pohl : Thank you Mr. Encino! Yes! Traffic is an issue for every school! Wonderfully put!

10:15:15 From Stephanie Johnston to All panelists : I'm joining late due to work commitments. I'd hoped to hear the AIMS portion. Will a recorded version be posted?

10:15:26 From Rick Rood : Thank you for letting young Mr. Enriquez speak. Students have such an important voice in this discussion. Commissioners, I really appreciate your support of Mr. Enriquez speaking, even though the Zoom names did not match!

10:16:20 From Joselyn Villalobos : I am respectfully requesting that the letters are read. The public has not read or heard them. I understand that Kenia, is now present. I respectfully ask to consider allowing her to speak. Thank you.

10:16:25 From Darryl Encino to All panelists : Thank you for letting Daniel Enriquez Speak. He is one of my students, and I have seen this young man grow so much both academically and emotionally.

10:16:48 From Patricia Willson : Yes, traffic is an issue at all schools; however, facilities planned as schools originally have drop off stacking, etc., planned. MAS has none of this. People refer to the traffic as an inconvenience; please go speak to neighbors who are unable to exit their driveways, have to pick up trash, etc etc.

10:16:54 From Rosa Swonger : Please let Kenia speak! She has an amazing story and she deserves to have her voice heard!

10:17:10 From Michele Platis : I respectfully request once again, please allow Kenia speak. Thank you

10:17:17 From Jessica Smith to All panelists : Please let Kenia speak she is present for this meeting and should be able to share as everyone else has. The public should hear her story.

10:17:30 From lucero to All panelists : Please allow Kenia to speak ! Her voice needs to be heard!

10:17:32 From Shannon Richardson to All panelists : Please allow Kenia to speak!

10:17:42 From Marty Murphy : I am respectfully requesting that the letters are read. The public has not read or heard them. Thank you.

10:17:49 From Amber Pohl : I respectfully ask that Kenia speak, thank you as well

10:17:51 From Beverly Trujillo : The story and voice of Kenia Caballero is so tremendous. Her testimony is beyond powerful and address many issues that NM teens face. Once more I am respectfully asking you let her speak, you will not regret it.

10:17:54 From Angelica Felix : Please I respectfully request for Kenia Caballero's story to be heard. She is in the audience and should be heard.

10:17:57 From janelle phommahasay to All panelists : I respectfully request to hear Kenia's story for the public to hear. Thank you.

10:17:59 From Darryl Encino to All panelists : Patricia - Please send me an invite. I would love to open discussion.

10:18:03 From Jennifer Felix : I respectfully request Kenia Caballero to speak! She has an amazing story and she deserves to have her voice heard!

10:18:21 From Andrea Boltwood : Please allow Kenia Caballero to be heard. This is very important.

10:18:22 From Pete : please allow Kenia to speak. She is a student from MAS and her voice should be heard.

10:18:40 From Marty Murphy : I respectfully request once again, please allow Kenia speak. She has an amazing story and she deserves to have her voice heard!

Thank you

- 10:18:42 From Adamaris Michel-Garcia to All panelists : Please allow Kenia Caballero to be heard. This is very important.
- 10:18:52 From Brett Petersen to All panelists : I wrote a letter, and am satisfied that the commission has read it. They are making the decision.
- 10:18:54 From Natashya Nettleton : Please Allow Kenia to speak
- 10:19:01 From Jennifer Prye : As you can hear from Mia:We are highly visible
We have designated duty stations everyday
We engage with the community and talk to people that are walking down the street
We take the safety of our students seriously
We direct the traffic off of the campus (th
- 10:19:09 From ROCIO HERNANDEZ : I would like to hear Kenia speak.
- 10:19:11 From Neri Villarreal to All panelists : we would love to hear Kenya.
- 10:19:16 From laura chavez to All panelists : Thats
- 10:19:24 From Kristy Reale : I respectfully request Kenia Caballero be allowed to speak. She also has an amazing story which shows how important MAS is to our students and community. Thank you
- 10:19:25 From angela vigil to All panelists : Unlike this traffic issue, it is unbelievable.! I teach at Albuquerque High and the traffic at AHS vs MAS is on a totally different level. AHS has 1700 students, yet the traffic is on the AHS campus and not in a neighborhood. I would encourage the PAC Members to please come visit the school to witness this traffic madness at any time!
- 10:19:28 From Patricia Willson : Thank you Mia, I hope you weren't seriously injured...
- 10:19:30 From laura chavez to All panelists : That'
- 10:19:42 From lucero to All panelists : Please we ask respectfully to hear Kenia's Voices she is as important as the first speaker who was allowed to speak longer than 2 minutes.
- 10:19:48 From Jacqueline Serna : Please allow Kenia to speak.
- 10:19:50 From Jacob Decimus to All panelists : Please Let Kenia Caballero speak!
- 10:19:56 From Beverly Trujillo : Great job Mia!
- 10:19:58 From Jennifer Prye : We cannot control speeding drivers. As Mias story indicates, I respectfully request Kenia to speak!
- 10:20:03 From Jonathan Ungaro : Good job Mia!
- 10:20:07 From laura chavez to All panelists : I'm proud to say that was my student in Spanish class :)
- 10:20:09 From Rosa Swonger : Great job Mia!
- 10:20:10 From Josh Harrelson : We hired traffic operators to assist with the traffic. Every single teacher has a duty post an are visible outside directing students and traffic. If a parent is parked illegally or a student is being unsafe, we address them immediately.
- 10:20:11 From Amber Pohl : Beautiful Mia! Good job!

10:20:22 From Jennifer Prye : Good Job Mia! Super proud of you!

10:20:35 From Bonnie Sumner to All panelists : I personally have outside, parent pick-up for our K-3 students EVERYDAY. The other teachers and I try our very best to move the cars as quickly and safely as possible. We have moved our traffic line to an alleyway, BEHIND the housing neighborhood.

10:20:38 From janelle phommahasay to All panelists : Good job Mia!

10:20:46 From Jennifer Prye : Kenia did sign up madam!

10:20:47 From Rick Rood : WTG Mia. Well put!

10:20:48 From Rebecca Raymer to All panelists : Awesome job, Mia! Proud of you!

10:20:52 From MaKayla Valdez : Amazing share Mia!!

10:20:57 From Jordan Franco : Great job, Mia!!!!

10:20:57 From lucero to All panelists : Amazing Job MIA!!!!!!

10:21:07 From mary miller to All panelists : You are amazing Mia!! Thank you.

10:21:09 From Paula Lopez to All panelists : Great job Mia. That took a lot of courage!!

10:21:11 From Kristina Squire to All panelists : Well said Mia!!

10:21:17 From Essence Johnson to All panelists : Please include our student letters that have been submitted to you. They deserve a public voice

10:21:20 From Pete : Respectfully, it is vital that young people's voices be heard. Good job Mia. Please allow Kenia to speak.

10:21:24 From Andrea Boltwood : Please include our student letters along with what you are reading.

10:21:26 From Ninfa Cabanero to All panelists : Great job Mia!

10:21:31 From Angelica Felix : No one could of said it better Mia! One of many examples of a great school.

10:21:35 From Marty Murphy : Please allow Kenia to speak.

10:21:37 From Beverly Trujillo : Traffic directors are exceptional. Always actively working to correct issues.

10:21:43 From Bonnie Sumner to All panelists : Also, the City of Albuquerque needs to step it up and help with this issue as well.

10:21:50 From mia monique to All panelists : sorry for the redundancy, i was very nervous and had little to no time to prepare a proper speech for this meeting beforehand.

10:21:56 From Josh Harrelson : Evaluation has already been done. We passed with flying colors.

10:22:25 From mary miller to All panelists : Thank you for reading these emails. I think it is only fair to read the letters as well.

10:22:46 From Alina Hughes to All panelists : As a mother and teacher, I can say, that my child, who is 7 years old and in the third grade, has been taught from kindergarten how to push herself and have a growth mindset. She is excelling in all areas and she loves the school in all ways! She is advanced in literacy, especially for her age, and has been given opportunities to help herself and others. As far as the traffic issues go, I stated that all students are monitored, we are highly visible to all students and other teachers, and we take the safety of our students seriously. I have been escorting students to busses for 5 years. Our students are being directed to remain safe and we have our

eyes on all kids up and down all blocks that our students y go. Please increase the cap of our school. The school has helped my child and I have food, high, rigorous education for us both, and we have been given many opportunities to advance in personal and educational areas of life. I know they will do the same for other families.

10:22:47 From janelle phommahasay to All panelists : I respectfully ask to read the letters not just the emails.

10:22:49 From Pete : Why are you reading these emails if you will not read the letters from MAS students and families?

10:22:54 From Jacob Decimus to All panelists : MAS is not the cause of the speeding traffic.

10:23:06 From kenia caballero to All panelists : please I respectfully ask that you let me speak on behalf of MAS

10:23:10 From Jacqueline Serna : I so sorry but it's not fair to read emails yet not the letters that we sent as well. PLEASE give them a voice in this meeting.

10:23:11 From angela vigil to All panelists : Exactly, you cannot control speeding drivers! Josh yes, you have 1 traffic person in a dark car with flashing lights to cross all of of your students. This is one of the thing that worries me so much! I don't want to see another death!

10:23:12 From Charles (Natasha's husband) : Charles Pfenning. For these people with traffic issues...get over it. There are many other reasons to deny an increase besides traffic.

10:23:13 From Michele Platis : Traffic is bad near every school and is a short time. We have been told that according to our insurance company and the PED department who came to observe our afternoon dismissal. They said it was one of the most organized, quickest and well run dismissals they have seen. In addition, we have had compliments from local police in the area for our visibility in before and after school. Speeding and theft is ALL over Albuquerque. This is not a result of MAS.

10:23:27 From Rosa Swonger : If we are reading emails out louds please also read the letters sent! Our students are here hoping their voices will be heard! MAS believes in building up our students voices and advocating for themselves! Please do not diminish this. show them their voices matter and deserve to be heard by all.

10:23:33 From Amber Pohl : Yes, please allow our students letters to be read!

10:23:33 From Diane Montoya to All panelists : With ore kids comes more parents who don't care and drive fast.

10:23:34 From Neri Villarreal to All panelists : I respectfully do not agree for those emails not to be read.

10:23:39 From Joshua Gurule : Respectfully, since we're reading emails, maybe we should read the letters from MAS student and families.

10:23:46 From janelle phommahasay to All panelists : PED came to see our dismissal and praised us because of how quick it was to get students in parents cars in pickup and buses leaving the school.

10:23:52 From Shannon Richardson to All panelists : PED has visited MAS and looked at the traffic situation and determined the measures we have in place - staff on duty, very organized routing of traffic off campus - are effective. We have made changes to be responsive to the neighborhood. I've picked my kid up from seven different schools over the years - and

10:23:59 From Michele Platis : We respectfully request you read ALL letters.

10:24:05 From Oum DuVall : Oum DuVall (MAS Charter School 1.0): I am here to support MAS additional enrollment; not planning on speaking. I would like to hear what Kenia Caballero has to say. Thank YOU, Bonnie

Sumner...It is all about supporting ALL students and helping them climb the social ladder... Thank YOU, Mia Sanchez...You have made my day!!! Stay blessed!

10:24:09 From Manuel Carranza : Respectfully, since we're reading emails, maybe we should read the letters from MAS student and families.

10:24:18 From lucero to All panelists : I think this is not fair... for emails to be read and not the student letters! The student letters are voices that need to be heard! These students are OUR FUTURE TO AMERICA, OUR FUTURE TO THE WORLD!

10:24:22 From Bonnie Sumner to All panelists : Do unto others as you would have them do unto you. You cannot complain about the state of our state/country and then stifle an opportunity to reach these children for the better. Who else is doing it? We don't waste time with bureaucracy at MAS. We see and need, we get it done, or at least try. Who else can say that

10:24:23 From Alina Hughes to All panelists : Please read the letters that our students have sent in as well. Their voices need to be heard because we are touching their lives in deep and meaningful ways.

10:24:26 From Essence Johnson to All panelists : It is my firm belief that allowing these letters to be read without including ours is suppressing the voices of our students.

10:24:39 From Marty Murphy : This is not fair to read the emails and not the letters of support.

10:24:41 From Josh Harrelson : Respectfully, since we're reading emails, maybe we should read the letters from MAS student and families.

10:24:42 From Michele Platis : If you are reading emails, you must read the letters sent.

10:24:51 From Denise Vega to All panelists : With all respect please read the letters

10:25:03 From Bonnie Sumner to All panelists : What is more important? A living breathing child or traffic?

10:25:04 From Ben Johnson MAS "Not Intending to speak" : I believe the MAS letters should be included in this portion. They deserve a Public voice

10:25:05 From angela vigil to All panelists : Deny! Wow!! Get over traffic! Wow! That really shows concern for the children who attend your school!

10:25:09 From Aurora Johnson to All panelists : yes, can we read letters from our students and parents.

10:25:10 From Amber Pohl : Please allow our students' voice to be heard, as these voices are also heard

10:25:11 From Shannon Richardson : Honestly, I've picked my kid up from 7 different schools in two different states - MAS is no different and, in fact, more efficient than student drop off / pick up at any school.

10:25:21 From frankie grady to All panelists : only emails that Oppose ?

10:25:22 From lucero to All panelists : Ma'am, may you please respectfully explain why these emails are being read and not MAS letters ?

10:25:25 From Tiffany Gutierrez : If emails are to be read the letter sent in should also be read

10:25:26 From Josh Harrelson : The traffic is busy from 4:10-4:30...

10:25:27 From kami hight to All panelists : Why aren't the letters being read, but the emails?

10:25:28 From Tennise to All panelists : regardless of the fact that the commissioners have read emails, I request you read the emails from our students

10:25:32 From Amber Pohl : Thank you Mrs. Richardson! EXACTLY!

10:25:36 From Tennise to All panelists : specifically Kenia C

10:25:38 From Bonnie Sumner to All panelists : Residential Alleys are public property

10:25:42 From Jessica Smith to All panelists : Please read all emails sent.

10:25:43 From Rebecca Raymer to All panelists : Respectfully, since we're hearing emails, we should absolutely hear the letters from MAS student and families.

10:25:57 From janelle phommahasay to All panelists : Complaining about feeding families in New Mexico is absurd. Where is the humanity in this community?

10:25:59 From Bonnie Sumner to All panelists : Are all of the people writing these letters white?

10:25:59 From devon to All panelists : why can't we read our emails

10:26:01 From Angel Garcia to All panelists : APS is the same way!!

10:26:05 From Aurora Johnson to All panelists : traffic is bad on the interstate as well during these hours but we can't blame that on MAS.

10:26:06 From ELENA FELIX to All panelists : I respectfully ask that the letters be read as well.

10:26:07 From Jacqueline Serna : Please give the "in favor" letters a shot!

10:26:10 From Leandra Cook-Woods to All panelists : I agree. Every school I worked at had traffic issues during drop off and pick up.

10:26:14 From Jennifer Prye : Please read MAS emails...

10:26:21 From Bonnie Sumner to All panelists : Are they upset about all of the children of color we serve?

10:26:21 From Jennifer Prye : We have a traffic plan...

10:26:31 From Charlotte Romero to All panelists : PEC please be fair to all involved and give MAS letters time to also be read!

10:26:32 From Kristina Squire to All panelists : Are we going to hear letters from those that are in support of MAS?

10:26:35 From Bonnie Sumner to All panelists : I am white by the way

10:26:39 From Alina Hughes to All panelists : Our school emails should be read as well!

10:26:44 From frankie grady : How is Traffic for Education an issue? As a Parent I do not understand.

10:26:46 From James Boshart : As a statistics teacher I would like to point out a bias being present when online communications are only read by an opposition opinion. I would like to request student letter be read, to include Kenia Caballero's.

10:26:52 From Denise Vega to All panelists : With all respect,..traffic is in every school not just in MAS ,..Please read the letters

10:26:52 From Amber Pohl : Please read MAS emails as well

- 10:26:53 From lucero to All panelists : If you can please read the letters from MAS , we would greatly appreciate it!
- 10:27:07 From Joselyn Villalobos : I respectfully ask that the letters from MAS are read this feels very unfair that neighborhood letters are read and not letters coming from MAS students and families.
- 10:27:17 From Andrea Boltwood : We respectfully request that all letters be read aloud. MAS students know MAS better than any one. Their testimonies deserve to be heard.
- 10:27:22 From Bonnie Sumner to All panelists : Yes, I am calling out "White Priviledge."
- 10:27:28 From Jordan Franco : I am confused why we are allowing this opposition to be read without allowing the supportive letters we have for the public.
- 10:27:33 From Tennise to All panelists : the pandemic has nothing to do opening more seats. we still need to serve more kids virtually
- 10:27:33 From ROCIO HERNANDEZ : Can you please also read the letters and emails from MAS, it is very unfai
- 10:27:36 From Paula Lopez to All panelists : Our future is in the hands of these young voices and they need to be heard, especially when we are living in an unsure and unpredictable future. Traffic will always be an issue in all schools, however MAS has done an excellent job in maintaining this issue.
- 10:27:38 From Kristina Squire to All panelists : As a statistics teacher I would like to point out a bias being present when online communications are only read by an opposition opinion. I would like to request student letter be read, to include Kenia Caballero's.
- 10:27:43 From Tennise to All panelists : we have cross walk duty
- 10:27:48 From Bonnie Sumner to All panelists : So traffic is more important than education?
- 10:27:52 From Amber Pohl : I also agree with Mr. Boshart, and would like to point out a bias being present when online communications are only read by an opposition opinion. I would like to request student letter be read, to include Kenia Caballero's
- 10:27:58 From Shannon Richardson : So we're supposed to march students across Yale with the speeding cars (that are not associated with the school)? Because that's where our lots are. We have a safe routing loop. Yes, it involves use of a public alley and we use a side street - Ross - to keep our students off Yale and keep them safe. We have privately hired security directing traffic on Yale. We do everything we can - we can't, unfortunately, reengineer the site or the location on Yale.
- 10:28:09 From Michele Platis : I used to live in front of a school. This is normal activity for all school neighborhoods. We should be looking at what MAS does for students and looking at MAS data. Students at MAS are thriving. More students deserve a high quality education.
- 10:28:11 From Ben Johnson MAS "Not Intending to speak" : I believe it is only fair to read aloud the MAS letters and emails if these are also being read allow.
- 10:28:33 From Ben Johnson MAS "Not Intending to speak" : aloud**
- 10:28:34 From Kristy Reale : By reading these emails and not the letters from students especially, this feels biased and unfair. Please read all the letters or allow more people to speak. Thank you.
- 10:28:35 From Shannon Richardson : I'd also like to point out we have a second campus with plenty of room. And this enrollment cap is restricting that site, as well.

10:28:35 From ROCIO HERNANDEZ : Can you please also read the letter and emails from MAS and the supporting community. It seems very unfair that our letters and emails are not being read. If you are allowing these emails to be read out loud you should allow the same for the letters and emails of support

10:28:40 From Angelica Felix : I hope you will also read the emails that SUPPORT our school because it is not fair that only their side is heard. How is TRAFFIC more important than EDUCATION. Traffic cause by school is not more dangerous than the traffic caused by residents in the neighborhood.

10:28:45 From Beverly Trujillo : I respectfully request that the letters from MAS supporters are read this feels very unfair that neighborhood letters are read and not letters coming from MAS students and families. Please keep in mind families are CHOOSING MAS. Our families and student deserve the opportunity to be heard.

10:28:52 From Carrie Ortiz to All panelists : I agree that MAS traffic is no worse than other Albuquerque schools. The difference is MAS is proactive in making traffic routines as efficient as possible. The time for dismiss is much lower than most schools and MAS utilizes traffic directors and staff support to ensure safety. Also, we do in fact have two parking lots for staff and students with ample space.

10:28:57 From Bonnie Sumner to All panelists : I also want to point out that the streets in front of the houses is also PUBLIC, not private.

10:29:02 From La'Shiya Madden : These same issues happen at state institutions...all of their complaints can be easily rectified.

10:29:09 From Bonnie Sumner to All panelists : As is with ANY neighborhood.

10:29:28 From ROCIO HERNANDEZ to All panelists : I hope you will also read the emails that SUPPORT our school because it is not fair that only their side is heard. How is TRAFFIC more important than EDUCATION. Traffic cause by school is not more dangerous than the traffic caused by residents in the neighborhood.

10:29:42 From ROCIO HERNANDEZ to All panelists : Can you please also read the letter and emails from MAS and the supporting community. It seems very unfair that our letters and emails are not being read. If you are allowing these emails to be read out loud you should allow the same for the letters and emails of support

10:29:44 From Amber Pohl : I also respectfully request that the letters from MAS supporters are read. this feels very unfair that neighborhood letters are read and not letters coming from MAS students and families. Our families and student deserve the opportunity to be heard.

10:29:55 From Jennifer Felix : The majority of those who are opposed are only opposed because of traffic. They are not thinking about our children's future and are not willing to give those students an opportunity at a great education. There will be traffic at every school you go to. MAS has an amazing arrival and dismissal plan. We have staff members assigned to be outside and guiding our students and parents. Students are supervised at every minute. We had a member from our insurance and a member from PED come and visit the school during our dismissal. They both said this was the best and fastest they have seen. Please consider increasing our enrollment so we could continue to change more lives.

10:29:57 From Bonnie Sumner to All panelists : Again, traffic and private property are MORE important than the education and intervention of low income students and families?

10:30:00 From Marty Murphy : Reading all the emails and not the letters feels very biased and unfair. I respectfully request that the letters from MAS supporters are read.

10:30:07 From Shannon Richardson : Please explain why neighborhood letters are being read, but not letters in favor of the school.

10:30:09 From Bonnie Sumner to All panelists : Cars are more important than human beings?

10:30:12 From Josh Harrelson : Well said Jennifer Felix

10:30:15 From Rick Rood : As a first-year teacher (having moved from California), I have yet to notice any neighborhood traffic issues... my departure times from the school have ranged from 4:30pm to 7:00pm - regardless of time, I have never experienced any dangerous or congested situations. Add to that the presence of traffic control officers, and MAS PM traffic is one of the best-run operations I have seen.

10:30:22 From Rosa Swonger : We all respectfully request supportive letters be read as well. I know it is not the intent of the committee to appear bias, so please read supportive letters in the public forum as well

10:31:01 From cesar rivas to All panelists : Commissioners, with all due respect, let's allow both sides to be heard.

10:31:04 From Tennise to All panelists : every neighborhood school has traffic issues

10:31:26 From Amber Pohl : We all respectfully request supportive letters be read as well. I know it is not the intent of the committee to appear bias, so please read supportive letters in the public forum as well

10:31:28 From Oum DuVall : Agreed, Mr. Rick Rood...And I was born in Paris, France!!! [Oum DuVall (MAS Charter School 1.0): I am here to support MAS additional enrollment; not planning on speaking. I would like to hear what Kenia Caballero has to say. Thank YOU, Bonnie Sumner...It is all about supporting ALL students and helping them climb the social ladder... Thank YOU, Mia Sanchez...You have made my day!!!]

10:31:35 From Essence Johnson to All panelists : It is imperative that MAS letters receive a public voice by being read, or please allow Kenia to speak.

10:31:36 From Carrie Ortiz to All panelists : Please explain why all letters of opposition are being read, but none of the letters of support. This is not a fair representation of the request. MAS and their supports need a voice in the letter reading.

10:31:48 From frankie grady : Respectfully are there no letters of support?

10:31:50 From Allysha White to All panelists : Only reading the emails that oppose the increase of the charter enrollment is unfair and biased. Please read the letters and emails that support the increase.

10:31:58 From mia monique to All panelists : imagine living in a low income residential and believing that the source of your discomfort comes from a 30 minute window of increased traffic.. it's called the "warzone" by locals for a reason. i also agree that the testimonials being read aloud are extremely biased and i believe that both sides must be heard effectively in order to reach a fair outcome.

10:32:00 From Jessica Smith to All panelists : As unbiased professionals I am sure you can all see the unintended bias that is occurring at this time. Please read the letters in support as well.

10:32:04 From MaKayla Valdez : I also respectfully request supportive letters be read. We should hear both sides of the issue.

10:32:11 From janelle phommahasay to All panelists : Please read the "in favor" letters.

10:32:12 From Tiffany Cunningham-Rivera to All panelists : Agreed, after living in NYC for 10 years, what traffic do they speak of?

10:32:26 From Betsy Bailey : Almost all of these complaints are about traffic. It is incredibly privileged for that to be your only worry. MAS provides food for kids that often do not get 3 meals a day, not to mention school supplies and uniforms. I lived in Norman, OK for the past 10 years and that city completely shuts down due to traffic on football

games. No one complains because they understand the benefit for the community. If kids can get quality education in a safe environment, any inconvenience is worth it. Kids are our future and they deserve the best.

10:32:32 From Bonnie Sumner to All panelists : If our state was first in education in the country, maybe, this might be a slight issue; however, we all know we are ranked close to last in our country. Tell me how picking cars and traffic over our most vulnerable children in this state is going to help correct this issue?

10:32:47 From Jennifer Felix : I respectfully request the letters sent in to be read. I understand the commissioners already read these letters, however the public has not heard these. It is not fair that they only get to hear these emails of those who oppose and not those who support us. I specifically request for our former student, Kenia Caballero to be heard. She has an amazing story and needs to be heard.

10:32:48 From mary miller to All panelists : Well said Betsy! I agree!

10:32:50 From Amber Pohl : Thank you for allowing our students' emails to be heard as well so that yes, we can hear both sides of the story

10:32:54 From Adamaris Michel-Garcia to All panelists : I strongly feel that any school district has traffic problems, and I believe that education is more important than the traffic problem because of the education we need to give our students an equal chance to succeed.

10:32:55 From Josh Harrelson : Any of the members of the neighborhood association are welcome to come and visit our school. Hopefully then they can see the positive impact our school has on students.

10:32:59 From Aurora Johnson to All panelists : Great job, Mia. It was very brave for you to speak for MAS

10:33:13 From Angel Garcia to All panelists : I don't this this is fair that you are reading these emails and not the letters of support!

10:33:40 From William (BILL) Sharp to All panelists : Dr. Sharp here; Please don't forget to mention that a lot of that traffic is the UNM traffic. Ms. Mitchell has gone above and beyond in trying to get the attention to the authorities but to no avail--Can't the PED help us with the proper authorities to have at least a traffic light between Ross and Yale?

10:33:49 From ROCIO HERNANDEZ : Is this neighborhood aware that MAS is expanding to another school on Old Coors?

10:33:58 From janelle phommahasay to All panelists : There are other public schools that have no parking and you would have to wait longer times. MAS traffic is very minimal.

10:34:18 From cesar rivas to All panelists : The public deserves to hear what multitude of supporters have to say. Please, please read some of our letters and emails.

10:34:26 From Denise Vega : please read the letters,..Its important how the students and the families feel about our school ,... our priority are the kids and that they can have a great education ,...we give everything to our students if they cant afford anything,..please lots of kids are waiting to come into our school . We have an A rating . We are a great school , please think of the kids ,...they need a great education,..we always support our kiddos and their families

10:34:30 From Essence Johnson to All panelists : I need to respectfully make this comment: All of our traffic guards and conductors are Adult staff members.

10:34:36 From Patricia Willson : Why can't the increased enrollment attend the Coors campus?

10:34:37 From Jacob Decimus to All panelists : Using students to direct traffic is not true.

10:34:37 From Paula Lopez to All panelists : I respectfully request to read ALL letters.

10:34:41 From Andrea Boltwood : How is social distancing going to be implemented at any school?

10:34:56 From Jennifer Prye : Alternate scheduling! We have a contingency plan for COVID 19 Safeguard.

10:35:22 From Emily van Dyck : We are ready for any situation next year, distant learning or in the building

10:35:35 From Josh Harrelson : We have never had children direct traffic.

10:35:44 From Michele Platis : Again, we respectfully request you read the letters of support. Let's focus on the positive impact MAS has had on student education. When PED gives us the social distancing requirements, our plan will be in compliance with the PED.

10:35:49 From cesar rivas to All panelists : Let's address this: different agencies that have said MAS traffic flow is the best they have seen.

10:35:53 From ROCIO HERNANDEZ : If they where in the "money business: they wouldn't offer free school supplies, give the students their uniforms. Provide so many meals for the students

10:36:01 From Jennifer Prye : HAVING LIVED THROUGH THE COLUMBINE SHOOTING - I can tell you it is the safest school I have every taught in.

10:36:09 From Alina Hughes to All panelists : Please, I understand that people have complaints, but for public record, read the support letters as well.

10:36:11 From MaKayla Valdez : Every school is having to adjust to COVID 19 and I would say that MAS is more prepared for this as our dismissal is extremely organized and therefore more easily adjusted.

10:36:21 From Rick Rood : Like every other school in New Mexico (public, charter, or private), we are actively developing plans based on our esteemed governor's social distancing policies (and those of NMPED).

10:36:30 From Shannon Richardson : I would respectfully note that neighborhood implying MAS can't enroll more students at our TWO sites because of COVID-19 is a thin ruse. There are a variety of ways in which we can accommodate our student needs -both academic and in terms of safety.

10:36:42 From Lori Granado to All panelists : Please allow supporting letters and emails from the parents/families of MAS to be read, so a balanced picture of MAS can be shown.

10:36:48 From ELENA FELIX to All panelists : I don't think it's fair that absolutely all letters from the neighborhood association are being read and our student and parent letters aren't being heard. In my opinion education is far more important than traffic that only last until 4:30 the latest. We have already had people from the State of New Mexico observe and there wasn't an issue.

10:36:50 From Andrea Boltwood : MAS students deserve the education they wouldn't get elsewhere.

10:36:54 From James Boshart : I would like to thank the panel for doing their part to provide an unbiased meeting by presenting communications from both sides of this debate. As such, I would like to request that the letters already submitted by those in support of MAS expansion be shared so that this meeting does not end only in negative comments.

10:36:56 From mia monique to All panelists : if i'd known earlier i could write a letter in support of this i would've wrote multiple. as someone who worked the afterschool program during the school year (specifically directing and allowing the flow of traffic) i can affirm that MAS is working to the absolute best of its abilities to maintain a quick and efficient pick-up route.

10:36:57 From Amber Pohl : I respectfully ask that the supportive emails are read as well

10:36:58 From Rosa Swonger : We are a public charter school, we have to follow all necessary guidelines that any other school does. We are not the enemy, all decisions are made in the best interest of the students.

- 10:37:01 From Bonnie Sumner to All panelists : I am in the trenches with these children EVERYDAY, day in and day out. They have no other advocate. What do you want for your future and the future of your families? Do we want a poor, ignorant state full of poverty and crime, or as we as an education department going to finally put our money where our mouths are and actually support systems that work and help these populations? 100% of our seniors graduate and go into the military or college to be FUNCTIONAL parts of society. This means employed adults who pay taxes to support your public education department jobs. Education is the last wave against our country and state turning to complete ignorance and want.
- 10:37:14 From cesar rivas to All panelists : Commissioners, do you realize how biased this sounds?
- 10:37:19 From Judy Pergola to All panelists : What a beautiful sight that each day promotes the business of parents bringing their students to be educated to improve our future. Come and join us in this mission. The traffic issues will fade into the background as you witness life long learning.
- 10:37:44 From mary miller to All panelists : I request that letters and emails from both sides be read. All voices have a right to be heard. thank you.
- 10:38:00 From Amber Pohl : I also would like to thank the panel for allowing an unbiased meeting by presenting communications from both sides of this debate.
- 10:38:22 From Marisol Vega : Goodmorning ,I am a mother of a Child in M^AS please read the letter of the students
- 10:38:29 From Josh Harrelson : Again, none of the writers of these letters have actually been to our school.
- 10:39:03 From janelle phommahasay to All panelists : MAS Charter has a plan in place during this COVID 19. We need to help more families in New Mexico which is rated low in education in the US.
- 10:39:24 From Carrie Ortiz to All panelists : All schools are facing contingency plans for COVID-19 response, but students still need to be served. Plans are prepared for the what-ifs of next year. The administrative team is highly competent and dedicated to ensuring student safety even when facing a pandemic.
- 10:39:50 From Amber Pohl : Thank you for reading the letters of support as well
- 10:39:52 From Leandra Cook-Woods to All panelists : I feel sad that so many feel that traffic concerns (which are understandable) but, at the expense of students' opportunity to make something of their lives.
- 10:40:03 From Jennifer Prye : Please allow Kenia to Speak immediately. This is bias reading of letters - you must allow the letters in support allowed to read. I look forward to those next.
- 10:40:06 From janelle phommahasay to All panelists : MAS has expanded due to the high need of GREAT EDUCATION!
- 10:40:16 From Bonnie Sumner to All panelists : As far as pandemic structures go, this is up to the NMPED to decide for ALL public schools, and not just MAS. How schools are to operate moving forward is not a concern for the "Neighborhood Association." This is way above their jurisdiction. This is straight up, "good ol'" prejudice against all of our students of color. WORDS LIE, ACTIONS SPEAK.
- 10:40:30 From Manuel Carranza : Please allow Kenia to Speak immediately. This is bias reading of letters - you must allow the letters in support allowed to read. I look forward to those next.
- 10:40:48 From MaKayla Valdez : Please allow all voices to be heard, including the voices of support!
- 10:40:51 From Shannon Richardson : I would respectfully ask the panel to consider the needs of the whole community - including those students who need the style of education MAS provides and who will be, in short order,

adults who either contribute great things to society or, if they cannot find the education they need, become a burden upon it. Please weigh that with the half hour in the morning and 20 minutes in the afternoon of truly heavy traffic.

10:41:01 From steven hill to All panelists : All neighborhood schools have traffic issues, Lincoln Middle School in rio rancho has similar issues and the residences have adjusted over the years

10:41:20 From mia monique : sorry for the redundancy, i was very nervous and had little to no time to prepare a proper speech for this meeting beforehand.

10:41:26 From Bonnie Sumner to All panelists : OLD COORS CAMPUS HAS NOTHING TO DO WITH YALE. TWO SEPERATE LOCATIONS.

10:41:37 From mia monique : imagine living in a low income residential and believing that the source of your discomfort comes from a 30 minute window of increased traffic.. it's called the "warzone" by locals for a reason. i also agree that the testimonials being read aloud are extremely biased and i believe that both sides must be heard effectively in order to reach a fair outcome.

10:41:40 From Rosa Swonger : Mia you did awesome! no apology needed! You are a Rockstar!

10:41:40 From Bonnie Sumner to All panelists : I work at Yale.

10:41:41 From MaKayla Valdez : Mia you did excellent!

10:41:48 From mia monique : if i'd known earlier i could write a letter in support of this i would've wrote multiple. as someone who worked the afterschool program during the school year (specifically directing and allowing the flow of traffic) i can affirm that MAS is working to the absolute best of its abilities to maintain a quick and efficient pick-up route.

10:42:01 From Jennifer Felix : You did great Mia!

10:42:03 From Andrea Boltwood : MAS is so much more than traffic. Please give MAS a voice that shows the positive effects we have on the community, the lives we change, the service we an underserved community.

10:43:03 From Andrea Boltwood : This family has already been allowed to speak.

10:43:12 From Bonnie Sumner to All panelists : I know who this student is, I work with him. We tried EVERYTHING. He would scream at "No!" At me when I would give him a simple direction. He was physically aggressive with the other students, including hitting, spitting, and cussing at other students.

10:43:22 From Josh Harrelson : Thank you Natasha for sharing a letter of how MAS tried unique ways to serve all students by trying a different location, the SAT process and accommodations.

10:43:34 From Aurora Johnson to All panelists : You did amazing Mia

10:43:38 From Rosa Swonger : I'm sorry but this parent also spoke previously. I agree all voices should be heard, but can we please also read the letters of support, even from the folks who have already spoke, it is only fair!

10:43:50 From ROCIO HERNANDEZ : The people who where allowed to speak where tied to a time of 2 minutes. I have timed many of these emails being read and they are longer than 3 minutes!! How is this fair for the process?? This current is email is already at 3 minutes and 20 seconds

10:43:51 From Angelica Felix : You are AWESOME Mia! Again a great example of one of many MAS Students and great EDUCATION. We need to focus on education and not traffic. We need to hear the support for MAS as well, this is a bit bias.

10:44:00 From Diane Montoya to All panelists : My son was picked on and unfortunately there is a huge problem with bullying, ESPECIALY I the south valley. I appreciated the help they gave us.

10:44:15 From Essence Johnson to All panelists : This line of reading is creating an implicit bias to the public against MAS. The letters submitted by MAS should be read allowed regardless of when they were submitted

10:44:15 From Ben Johnson MAS "Not Intending to speak" : Please allow the MAS emails and letters be read if these are also being read.

10:44:20 From Bonnie Sumner to All panelists : I love how she's leaving out all the POSITIVE things we tried with her student. And, she is not taking ANY responsibility for her inaction to implement the strategies at her home that we all gave.

10:44:22 From Jordan Franco : I am confused, I thought people that previously submitted letters could not speak. This letter was sent yesterday and we received confirmation that this was received yesterday.

10:44:23 From Darryl Encino to All panelists : Didn't we hear from her husband

10:44:26 From cesar rivas to All panelists : Ladies and gentlemen, let's keep this fair and balanced.

10:44:27 From Rosa Swonger : Our families have HUGE success, its not fair to discredit the success that our students have had, do not diminish that!

10:44:31 From Shannon Richardson : Please note Natasha V and Charles are both members of the Pfenning family - and I respect their perspective and right to speak, but this is one family. Please allow all our families to speak.

10:44:58 From Angela Murray : I would like to respectfully ask that we consider reading letters of support as well. It would be an honor to hear from MAS graduate Kenia Caballero.

10:45:14 From ELENA FELIX to All panelists : I believe it is very biased that Commissioner Gipson is reading all letters opposing to the enrollment cap increase but not our supporting letters.

10:45:21 From mary miller to All panelists : Please read letters and emails from both sides. The point of this meeting is to hear all voices. I would like to know why you are not allowing all to be heard?

10:45:57 From Amber Pohl : I would also like to respectfully ask that we consider reading letters of support as well. It would be an honor to hear from MAS graduate Kenia Caballero.

10:46:19 From Jessica Smith : Please read all letters. This is the only way to be sure this meeting is unbiased!!
Thank you

10:46:28 From Amber Pohl : Thank you for allowing the letters of support to be read as well and given the same time constraints

10:46:29 From Bonnie Sumner to All panelists : I live down the street from Ri Rancho High School, E.Stapleton Elementary School, and Eagle Ridge Middle school, three HUGE campuses, all on different schedules. Broadmoor is a small, two lane street with only one way in and out.

10:46:32 From janelle phommahasay to All panelists : Few minutes of traffic VS. Our Future Citizens?

10:46:42 From Bonnie Sumner to All panelists : You don't think I deal with traffic?

10:46:46 From Bonnie Sumner to All panelists : Whaaa Whaaa

10:47:00 From angela vigil to All panelists : I have. I met with Bruce about 3 years ago to express my concerns and help search for solutions. We are not against your school, we welcome your school. Yet, MAS Admin want to ignore the problem. I have tried numerous times to meet with your Admin. but have yet to hear from them, I am so very worried about your/our kids! Please someone listen to our traffic concerns, we don't want to read nor watch the news when it comes one of your children getting hurt because of a traffic solution that could be solved if we work together.

10:47:01 From Andrea Boltwood : It is biased and unfair that the commission would read neighborhood letters but the letters from MAS.

10:47:08 From Diane Montoya to All panelists : Everyone knows how fast and how many accidents are on coors. Between old coors and New Growing Coors. Wow something to consider

10:47:09 From kami hight to All panelists : Please read all letters. This is the only way to be sure this meeting is unbiased!! Thank you

10:47:10 From Adamaris Michel-Garcia to All panelists : Please read all letters. This is the only way to be sure this meeting is unbiased. Thank you for your time.

10:47:22 From Alina Hughes to All panelists : Please consider reading ALL emails. Not just those against our school. We need to hear all voices, especially those of families that attend our school happily. We reach so many people and families that I only wish were in place when I was a child. Please make this an equal reading of emails.

10:48:06 From Jennifer Prye : Per Panelists request - here is Kenias story.

10:48:17 From Jennifer Prye : Kenia Caballero

My Story

I was in fifth grade when my mom received a letter in the mail that she should enter my name into the drawing of the lottery for their school. Where I lived there was only one middle school that was in my district but it was known for kids ditching and fights and my mom didn't like it, Van Buren. So when she received this in the mail she immediately looked into it and put my name in for the drawing: and I was chosen. I was a little upset for all of my friends were going to van buren and I wanted to stay with them but that didn't happen. When I started at MAS it was the second year that it had been open it was a tiny school. It was only middle school and the classes were only about 20 kids and two teachers in every class. I absolutely hated it, I felt like my mom had sent me to some kind of reform school, and I didn't know anybody. But my mom she was fascinated with the school and I knew that the way things were g

10:48:31 From janelle phommahasay to All panelists : We have security as our crossing guard and most of the people speeding are not from the school but those heading to the airport.

10:48:42 From Aurora Johnson to All panelists : Traffic can be worked around but a good education is hard to find. MAS offers what other school do not.

10:48:43 From Bonnie Sumner to All panelists : Rio Rancho Elementary is SURROUNDED by a neighborhood, nicer and more affluent than this neighborhood association. They are no lawsuits or complaints that I know of. We are being unfairly targeted.

10:48:50 From Denise Vega : please let all voices be heard

10:48:52 From Leandra Cook-Woods to All panelists : We have off duty police officers direct traffic on Yale.

10:48:59 From cesar rivas to All panelists : Commissioner Gipson, ma'am with all due respect, you have read numerous letters of opposition. Take a moment to realize how biased this hearing has become. The public deserves to hear letters and emails of support.

10:49:01 From Josh Harrelson : We have trained crossing guards. This letter is full of uninformed information.

10:49:30 From Bonnie Sumner to All panelists : We as teachers have BEFORE AND AFTER SCHOOL DUTY to supervise our students.

10:49:36 From Bonnie Sumner to All panelists : I live this everyday

- 10:49:41 From ROCIO HERNANDEZ : When I go to pick up my children, there are always crossing guards, security and teachers making sure traffic flows and students are safe.
- 10:49:57 From Bonnie Sumner to All panelists : Don't accuse me of not doing my job.
- 10:50:05 From steven hill to All panelists : I was just typing that, we have a crossing guard and I believe the city refused to implement school zone signs
- 10:50:15 From Jennifer Prye : Part tw: my mom she was fascinated with the school and I knew that the way things were going I was going to be at this school for a very long time, and I was. 6ht grade, 7th grade, 8th grade, 9th grade, during my time here I realized there was a lot of good things that happened but also a lot of bad things (not with the school) but drama wise. The school had grown with me every year they added a grade or so, I met wonderful teachers, advisors, long life friends that I still talk to today when I am graduated from high school. The summer of ninth I had a lot of personal problems with my family, and on a trip we took to Mexico I put my stubborn mind to stay in Mexico and I started living with a boyfriend that I had (not the best decision I made). I took this decision without thinking about anything and I stopped going to school and got behind a lot. I missed school for about 6 months, and then I decided that I had made a wrong decision and I had to go back, but when I came back I found out that I was pregnant.
- 10:50:20 From mia monique : the school "set on monetizing students" is also the same school that offers countless opportunities for students to maximize educational potential and do nothing but benefit students... without charging them a dime. there are crossing guards posted as early as 7am everyday before school and of course afterschool as well.
- 10:50:25 From Jacob Decimus to All panelists : I ask that you read Kenia Caballero's letter.
- 10:50:27 From Bonnie Sumner to All panelists : Oh, does the neighborhood association have a problem with APS and Lowell Elementary?
- 10:50:48 From Jennifer Prye : Finding this out was truly a slap to the face and I though that I would no longer be able to do anything with my life. That I would just have to take care of my daughter and stop school and all my goals. For some time I believed this then I realized that no I could do whatever I want if I actually put my mind to it. My first choice was MAS but Ms Mitchell told me that MAS would not be a good fit for me at that moment because I was pregnant and they could not accomodate me and that kids were cruel and they would make fun of me, but she referred me to a great school that was fit for me and that moment: New Futures School for pregnant and parenting teens.
- 10:51:01 From Leandra Cook-Woods to All panelists : There is no turn lane there.
- 10:51:05 From Denise Vega : There is crossing guards please come visit us , you can watch us ,.. we always follow the rules
- 10:51:20 From Bonnie Sumner to All panelists : Let me guess; this is another older "white" person in the neighborhood, right? TYPICAL
- 10:51:28 From Jennifer Prye : At that moment this was the school that was the best fit for me and for my daughter. At this school I found the support I needed; free food for me and my daughter, help with clothing for myself and my daughter and a free daycare and a clinic on sight that held our WIC appointment that way we didn't have to miss school. I attended this school for about 2 years and although it helped me a lot as well it never guided towards college or talked about dual enrollment, scholarships, nothing like that wich is the path that I wanted. When my daughter turned one and I was more comfortable being away from her I decided that it was time to go back to the school that would help me become a successful student: MAS Charter School.
- 10:51:37 From Andrea Boltwood : These letters are hearsay. We pass our inspections with flying colors.

10:51:49 From mary miller to All panelists : So adults that are inconvenienced for a small bit of time find this issue is more important than supporting, taking care of, nurturing our future? As adults, it is our duty to make sure our future is educated and equipped. Please read all letters on both sides so we can work together on this.

10:51:53 From Amber Pohl : Thank you Mrs. Boltwood- yes

10:51:57 From Jennifer Prye : When I came back MAS received me with open arms and ready to push me to success, and I was also coming back to memories and old friendships, and most importantly to graduate with my class. Which was almost all of the kids that I had met when I started in 6th grade, MAS was a sort of family to me and to all of us there a lot of us left but something drew us back and we were all there to graduate together. Here I immediately got help from my college and career counselor Charlotte Romero and I enrolled in into Dual credit classes and started applying for colleges and scholarships.

10:52:01 From Jennifer Prye : The best part was I felt so supported because everybody there believed in me and supported me to the fullest. Even in the days where everything got difficult they were there for me specially Mr Myers, Ms Mitchell, Ms. Gallegos, and Ms Prye. I loved being in an environment where I got support from the teachers and also from my peers and friends and also a lot of love, for me and for my daughter. Thanks to MAS I got accepted to all the colleges that I applied to and am enrolled and registered at ENMU for the fall semester and am Majoring in Biology Pre Med and minoring in Business. I will do great things in life and one day my daughter will look up to me. I don't know where I would be with out MAS.

10:52:22 From Shannon Richardson : We have ASKED the city to give us a school crossing zone! We are doing what we can. We have used a security service to direct morning traffic and ensure safe crossing for faculty and students. We continue to look for solutions that ensure the safety of all in the neighborhood.

10:52:45 From Alina Hughes to All panelists : I live across from ABQ high and there are no traffic mandates or people out to protect the kids who are walking to the school at 6 am when I leave to MAS. We go above and beyond more than other schools do.

10:53:00 From Bonnie Sumner to All panelists : Some of the people writing these letters/emails are blaming us for ALL of these issues on our students and our campus. We are located close to downtown and the airport. We are surrounded by hotels, restaurants, and oh, yeah, an AIRPORT. How can ALL of the traffic be ours?

10:53:06 From Bonnie Sumner to All panelists : How is this possible?

10:53:26 From Bonnie Sumner to All panelists : That ALL of the traffic problems are due to us?

10:53:32 From Bonnie Sumner to All panelists : How?

10:53:48 From Bonnie Sumner to All panelists : I need to hear more facts and not just opinions

10:54:05 From Sandra Rivas to All panelists : Commissioners, we are confident you will do the right thing and also read from families and respectful members of our community who support this cap increase.

10:54:12 From Patricia Willson : Thank you Councilor Davis.

10:54:27 From Bonnie Sumner to All panelists : WE have a management plan; you have heard from other people that we have a plan.

10:54:38 From Bonnie Sumner to All panelists : Us not having a plan is a lie.

10:54:46 From William (BILL) Sharp to All panelists : So, are we now going to hear from the positive letters?

10:54:46 From Bonnie Sumner to All panelists : WE pre-plan

10:54:55 From angela vigil to All panelists : Yes, thank you Pat!

10:54:57 From Jessica Smith : Again, I know the panel is not a bias panel. Therefore, I plead that all letters be read. Opposed and in support, this is the only way this meeting is unbiased. Thank you.

10:54:58 From Bonnie Sumner to All panelists : False

10:55:24 From Steven Hill to All panelists : Students do not cross Ross to get on buses

10:55:31 From Bonnie Sumner to All panelists : We have two, huge parking lots. False.

10:55:49 From Marty Murphy : I would like to respectfully ask again that we consider reading letters of support as well. It would be an honor to hear from MAS graduate Kenia Caballero. Thank you

10:55:50 From Steven Hill to All panelists : Nor do they cross Yale to get to buses

10:55:59 From Bonnie Sumner to All panelists : They are marked with signs. False, we have parking.

10:56:00 From Manuel Carranza : I know the panel is not a bias panel. Therefore, I plead that all letters be read. Opposed and in support, this is the only way this meeting is unbiased. Thank you.

10:56:06 From Andrea Boltwood : MAS is a Title I school and therefore must and does comply with state standards.

10:56:29 From Bonnie Sumner to All panelists : This is above the Neighborhood Associations jurisdiction.

10:56:37 From Bonnie Sumner to All panelists : They are not a legal entity.

10:56:44 From Bonnie Sumner to All panelists : WE have a plan

10:56:54 From Bonnie Sumner to All panelists : Alleyways are PUBLIC PROPERTY

10:57:29 From Josh Harrelson : I agree with Patricia. Thanks Pat Davis for supporting us!

10:57:42 From Angela Salas to All panelists : love the city letter!!! thanks to the city of Albuquerque!

10:57:47 From Janelle Phommahasay to All panelists : Thank you Pat Davis for supporting MAS!

10:57:51 From Bonnie Sumner to All panelists : There is an open plot of land between the Loma Linda Community Center, which I respectfully use for my P.E. classes everyday. If the city will sell us this property, it would help.

10:58:09 From Patricia Willson : Yes, support—with conditions!

10:58:31 From Cesar Rivas : Madam Commissioner, please present both sides.

10:59:00 From Josh Harrelson : Yes we are willing to work on continuing to improve :)

10:59:54 From Bonnie Sumner to All panelists : You cannot put a price on a human soul. We cannot help that we outperform ALL of the public schools in NM. Jealousy isn't pretty.

11:00:07 From Katherine Cordova : My name is Katherine Cordova and I was born and raised in Albuquerque and am a teacher at MAS. I hope you will allow us to expand to meet the serious needs of our whole community for high quality education for more students. Thank you for your consideration.

11:00:54 From Cesar Rivas : The public hopes that as you go into recess you realize how unbiased this meeting has become, and allow supporters to be heard.

11:01:35 From Cesar Rivas : I meant to say biased.

- 11:02:35 From Bonnie Sumner to All panelists : If we are not allowed to enroll more students, I will make sure that the message gets out there that we were trying to service more needy, underserved children in our state, but were told "No," because inanimate objects, such as houses, cars, and money meant more than these human souls.
- 11:03:06 From Adamaris Michel-Garcia to All panelists : Hello, I am Adamaris Michel-Garcia. I am alum for the class of 2018, which is the first graduating class I have been attending MAS since the being of its charter I am part of the original 100 students I have dyslexia. I have gone further in my education than expected to be an I CNM student working on there associate. Without MAS, I would be a lost cause that fell in the crack in the system of APS. I was part of a Special education program. I got more the sulfonates accommodations that fit my case MAS has to help me more than I could put in words I am proud to be an alum as well as know a worker for this fantastic community that gave me the chance to succeed.
- 11:03:43 From Judy Pergola to All panelists : I support the increased enrollment request and believe the traffic issues can be resolved.
- 11:04:03 From Bonnie Sumner to All panelists : The EDUCATION OF OUR CHILDREN is more important than a house that will be gone someday, a car that will be traded for a new one and sit in a junk heap someday, and neighbors that are selfish. This is about so much more than traffic.
- 11:04:30 From Bonnie Sumner to All panelists : This is about the soul and future of our state.
- 11:04:47 From Bonnie Sumner to All panelists : What do we want our state to look like in 10, 20 years?
- 11:07:04 From Bonnie Sumner to All panelists : Do we want more homelessness? More drug use? More social workers quitting because they get no support or funding? What is going to make the difference to my future and yours? A quality education that prepares students for life beyond school. What are all the other high school drop outs doing right now? How will this effect our state and country? These are the issues we are trying to combat and fix at MAS. Who else is doing this?
- 11:07:48 From Bonnie Sumner to All panelists : No amount of money in the world is worth more than a child.
- 11:09:54 From Carrie Ortiz to All panelists : Can someone please explain the rationale for not reading the letters of support? It is typical for these type of meetings to alternate between for and opposed voices to ensure a fair representation. This does not seem to be happening today and ending with the negative means a skew that way when there is much support for the cap increase. I respectfully request again for the letters to be heard to prevent bias.
- 11:11:12 From Andrea Boltwood : MAS is an exemplar school. New Mexico needs exemplar schools.
- 11:11:43 From Leandra Cook-Woods to All panelists : MAS serves underprivileged and at-risk youth students that might not "make it". We help keep kids off the streets and out of jail because we offer opportunities for them. Please consider increasing our enrollment so we may "save" more students and offer them hope and opportunities for a better life.
- 11:12:51 From Patricia Willson : In order to see the full Traffic Report compiled by the neighborhood association (and referenced by Aly Sanchez), please go to <https://bit.ly/VHNARreports>
- 11:16:17 From ROCIO HERNANDEZ : To see MAS success numbers in reading and math proficiency please go to <https://www.maspublicschools.com/our-results>
- 11:16:32 From MaKayla Valdez : In order to see the important impact that MAS has on their students and their community at large, please read the letters of support.
- 11:16:47 From laura chavez to All panelists : Thank you Mr. Davis. Conditions lead to positive results.

11:18:09 From Diane Montoya to All panelists : So if most of the worst traffic is at Yale and it hasn't been resolved, and this meeting is about expanding old coors, also on new coors also high traffic. Expansion is not good, planning needs to be worked on and then expand.

11:18:55 From Jordan Franco : Here is Kenia's story

11:19:00 From Bonnie Sumner to All panelists : Instead of fighting with us, why is the neighborhood association not willing to partner with us? Oh, wait, we've tried that. They are not willing to achieve a workable compromise with us. So to me, the root of this issue. Also, some people from the neighborhood had a gun and threatened to shoot.

11:19:19 From Bonnie Sumner to All panelists : Why is this not being addressed? Hypocritical about safety much?

11:19:26 From laura chavez to All panelists : Laura Chavez: Thank you for providing Mr. Franco.

11:22:15 From Bonnie Sumner to All panelists : I was raised to believe that EVERYONE was my "neighbor."

11:22:50 From Bonnie Sumner to All panelists : Even people of color

11:22:54 From Bonnie Sumner to All panelists : And their children

11:23:45 From Bonnie Sumner to All panelists : Let's get to the root of the issue, come to a compromise, and not take away the education of these underserved children.

11:23:54 From Katherine Cordova : Will you please read the letters submitted in favor?

11:24:19 From Bonnie Sumner to All panelists : You, know, work together as civilized human beings with no hidden agendas.

11:24:44 From Aurora Johnson to All panelists : Please read.

11:27:17 From Bonnie Sumner to All panelists : Public education, is a right to all the children of New Mexico, regardless of race, religion, sex, sexual orientation, etc. I want to also add that these children should not be "punished" because they were born into a family experiencing poverty or a family of color.

11:27:36 From Bonnie Sumner to All panelists : Everyon

11:27:39 From Bonnie Sumner to All panelists : eveyone

11:27:42 From Bonnie Sumner to All panelists : To read

11:28:17 From Bonnie Sumner to All panelists : This is my life, calling, and career that all of this influences. I stand up for my right to free speech as a citizen of this country.

11:28:38 From Patricia Willson : Jordon Franco, thank you for your links but they come up 'access denied'. Do I need to request access from you?

11:28:38 From janelle phommahasay to All panelists : The neighborhood association has misinformation about traffic and how the school operates. Please consider the documents posted which have correct data about traffic.

11:28:55 From Bonnie Sumner to All panelists : If you all work for the Public Education Department, you all should be on the side of our students.

11:29:06 From Jordan Franco : I can add you if you would like to send me your email

11:29:36 From Patricia Willson : thanks, just sent request

11:31:14 From Josh Harrelson : Here is a link that is available to anyone

11:31:47 From cesar rivas : Commissioners, hundreds or more supporters are eager to have their voices be heard by the public. We all trust that letters and emails in support of MAS will be read.

11:34:07 From Bonnie Sumner to All panelists : I work with the youngest, and most vulnerable students at MAS in grades K-3. I am one of their only advocates. I have so many of them tell me I am one of the only adults in their lives who tell them that I love them and give them hugs when they need one. I treat them like they are my own children. My heart is for these children who do not have a voice. Let's all stop pretending that everything is "ok" with our educational systems in our state and country. It's time for the politics to stop, and the advocacy for our children to take precedence over ANYTHING else.

11:35:54 From Bonnie Sumner to All panelists : Article from ABQ Business Journal: bizjournals.com; NM is ranked LAST in K-12 education in the U.S.

11:36:11 From Bonnie Sumner to All panelists : We are hemorrhaging teachers.

11:37:18 From Bonnie Sumner to All panelists : We at MAS are part of the solution to this problem. We are not like other schools that throw up their hands and say, "Oh, well, we're doing what we can...." Are we really doing all that we can?

11:38:20 From Bonnie Sumner to All panelists : I was not this passionate about teaching and my role in helping to fight the educational disparity in NM UNTIL I started working at MAS.
