

## 8<sup>TH</sup> GRADE INFORMATIONAL TEXT STANDARDS BREAKDOWN: KEY IDEAS AND DETAILS

**Anchor Standard/ Domain Name:** Reading: Informational Text

Key Ideas and Details R.1 Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.

**Standard Text:**

**RI.8.1 Cite the textual evidence that most strongly supports an analysis of what the text says explicitly as well as inferences drawn from the text.**

**Students who can demonstrate understanding can:**

- cite textual evidence to support an idea.
- respond to text-dependent questions using strong evidence.
- rank the strength of a set of examples of textual evidence and justify their rankings.

**Vertical Alignment to Previous Grades:**

RI.1.1, RI.2.1, RI.3.1, RI.4.1, RI.5.1, RI.6.1, RI.7.1

**Vertical Alignment to Future Grades:**

RI.9-10.1, RI.11-12.1

**Clarification Statement:** Students carefully choose evidence that best supports their analyses of what the text directly and indirectly states.

**Vocabulary for Teacher Development:**

- **analysis** – a detailed examination of the components of a subject to understand its meaning and/or nature as a whole
- **explicit, explicitly** – stated clearly and directly, leaving no room for confusion or interpretation
- **inference** – a conclusion derived from logical reasoning following an investigation of available evidence
- **text** – anything that students can read, write, view, listen to, or explore, including books, photographs, films, articles, music, art, and more
- **textual evidence** – evidence found within a particular text used to support or explain conclusions, opinions, and/or assertions about the text itself

**Anchor Standard/ Domain Name:** Reading: Informational Text

Key Ideas and Details R.2 Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.

**Standard Text:**

RI.8.2. Determine a central idea of a text and analyze its development over the course of the text, including its relationship to supporting ideas; provide an objective summary of the text.

**Students who can demonstrate understanding can:**

- analyze how a central idea is developed.
- cite textual evidence to support an idea.
- use graphs, such as line charts, to map out the development of the central idea of a text from beginning to end.
- read a summary containing personal opinions/judgments and eliminate any information that does not belong in an objective summary.

**Vertical Alignment to Previous Grades:**

RI.1.2, RI.2.2, RI.3.2, RI.4.2, RI.5.2, RI.6.2, RI.7.2

**Vertical Alignment to Future Grades:**

RI.9-10.2, RI.11-12.2

**Clarification Statement:** Students determine the central idea of a text and explain how it progresses throughout the text and note its connection to supporting ideas. Using the central idea and key details, students summarize the text without personal feelings and judgments.

**Vocabulary for Teacher Development:**

- **analyze** – to critically examine the components of a subject to understand its meaning and/or nature as a whole
- **central idea** – the unifying concept within an informational text to which other elements and ideas relate
- **objective summary** – a brief account of a text’s central or main points, themes, or ideas that is free of bias, prejudice,

	<p>and personal opinion and does not incorporate outside information</p> <ul style="list-style-type: none"> <li>• <b>text</b> – anything that students can read, write, view, listen to, or explore, including books, photographs, films, articles, music, art, and more</li> </ul>

<b>Task:</b>	<p>After reading two articles, “In our digital world, are young people losing their ability to read emotions?” by Stuart Wolpert, and “Study: Kids can learn as much from ‘Sesame Street’ as from preschool” by Jim Tankersley, and viewing the short video “This is how Cookie Monster Makes your Kid Smarter” students must answer:</p> <p>Based on the information in both of the texts and the video, is technology beneficial or harmful to children and teenagers? Use details from all three texts to support your ideas.</p> <p>A well supported argument would include some or all of the following ideas:</p> <p>Young people should have access to technology because it provides academic benefits, especially to children who are disadvantaged.</p> <ul style="list-style-type: none"> <li>• Though the author of Text 1 notes that teenagers may have negative social consequences due to using technology, they also note that “many people are looking at the benefits of digital media in education,” which implies that there are other benefits outside of the Sesame Street Study.</li> </ul>

	<ul style="list-style-type: none"> <li>• In Text 2, the author notes that Sesame Street has the same impact on young children as Head Start.</li> <li>• The authors of Text 2 describe the results of one study in detail, but they also note that this one study is supported by findings of studies dating back to the “Nixon-era.”</li> <li>• The video shows how research goes in to Sesame Street programming, which reveals the skills children are taught.</li> <li>• The video also shows how children can learn social skills through television. “The Biscotti Kid” is about learning how to listen, which is both an academic and social skill. The authors of Text 2 note that teens have trouble paying attention, but “The Biscotti Kid” is all about teaching kids how to actively listen and pay attention to someone who is speaking to them.</li> </ul> <p>Alternatively, a student may argue that:</p> <p>Young people should not have access to technology because it can have a negative impact on their ability to read emotions.</p> <ul style="list-style-type: none"> <li>• In Text 1, the author notes that teens have trouble reading the emotions of the people around them when they spend too much time using technology.</li> <li>• In Text 1, the author notes that the results of this particular study, while limited to a group of 105 students, are “significant,” because they occurred over 5 days.</li> <li>• The author of Text 2 indicates that “Sesame Street” cannot replace Head Start, because Head Start provides other benefits, including “...development of emotional skills that help kids in social settings.” In other words, the benefits of Sesame Street are more tied to academic, and not the social skills.</li> <li>• The author of Text 2 indicates that more research is needed to see if “Sesame Street” can continue to have benefits for children into their teen and young adult years. This means that the findings of the study in Text 1 are important because they show a negative impact of too much screen time in those later years. While the video shows how children can learn from television, the author explains that Sesame Street is well researched. As such, it can be inferred that the results are limited to this specific type of programming.</li> </ul> <p>Alternatively, a student may argue that:</p> <ul style="list-style-type: none"> <li>• Technology is beneficial for young children, because it provides academic benefits, but not teenagers, because it hinders their social skills.</li> <li>• In Text 1, the author notes that teenagers received benefits when they spent five days without access to cell phones or other devices. The author notes that the results of the study are “significant,” because they occurred over a minimal amount of time (5 days)</li> <li>• On the other hand, in Text 2, the author notes that “Sesame Street” has tremendous academic benefits, equal to that of Head Start. This shows that young children should have access to quality programming.</li> <li>• Additionally, the video shows how children learn from Sesame Street. It explains that children who watched “The Biscotti Kid” were able to mimic the listening skills described.</li> </ul> <p>These texts and video are worthy of students’ time to read/view and also meet the expectations for text complexity at Grade 8.
