WIDA Screener	K–12		Testing Software Installation Guides	WIDA's Supported System Requirements for ACCESS for ELLs Online and WIDA Screener Online	<p>WIDA Client Services Center 1-866-276-7735 Email</p>
Avant assessment to earn the State Seal of Bilingualism-Biliteracy	12 th	AVANT STAMP	Online Tech Requirements	<p>Students will need to have an internet connected computer and a headset with a microphone like they would require if they were taking the test at school. Additionally, test takers will need to have a smart phone and a web cam on their computer for testing. The online proctoring will work on a PC or Mac computer, but it will not work on iPads or Chrome Books. Due to the comprehensiveness of the home proctoring solution, test takers can expect to encounter more steps when logging in to test than they do in the classroom setting. An ID check and facial scan will be required, along with showing the testing room to ensure no outside resources are at hand. For further details, please contact Bonnie Buck at bonnie.buck@avantassessment.com.</p>	<p>Avant Technical Support 1-888-713-7887 Contact Page</p>

Note: Reliable Internet connection wired or wireless required for all assessments and resources from school or remotely, including the ability to access those resources available in PDF formats.
