

Tularosa Municipal School
Indian Education Status Report
2019

Tularosa Municipal Schools currently has 920 students in grades PreK-12. We have four schools:

Tularosa Elementary	Grades PreK-2
Tularosa Intermediate	Grades 3-6
Tularosa Middle School	Grades 7-8
Tularosa High School	Grades 9-12

Tularosa Municipal Schools District Mission is to create an environment where lifelong learning is *valued*, excellence is *expected*, and improvement is *continuous*. In order to accomplish this mission, our Board of Education identified three goals:

The first goal is to have High Student Achievement for all students. We primarily focus on the areas of reading and math, but if we improve academic achievement in these two areas, all core areas will improve. We want the percentage of students who meets or exceeds expectations as measured by the PARCC and the NMSBA Science from Pearson Access Next and Measured Progress. The overall goal of the New Mexico Every Student Succeeds Plan is to have 50% of the students meet or exceed expectations by 2020 and to have 80% of our students graduate in 4 years.

The second goal is to provide all students with a safe and welcoming learning environment. To accomplish this goal, each school in our district has an Approved Safe School Plan. These are updated annually to ensure that our students are in a safe school environment. All staff members participated in Active Shooter Training at the beginning of this year. This is an area that must be continuously evaluated to ensure that all staff respond appropriately. Working with the Tularosa Police Department, we have also completed a threat assessment for each school in our district. This assessment will help us identify areas that we need to address to keep our students safe.

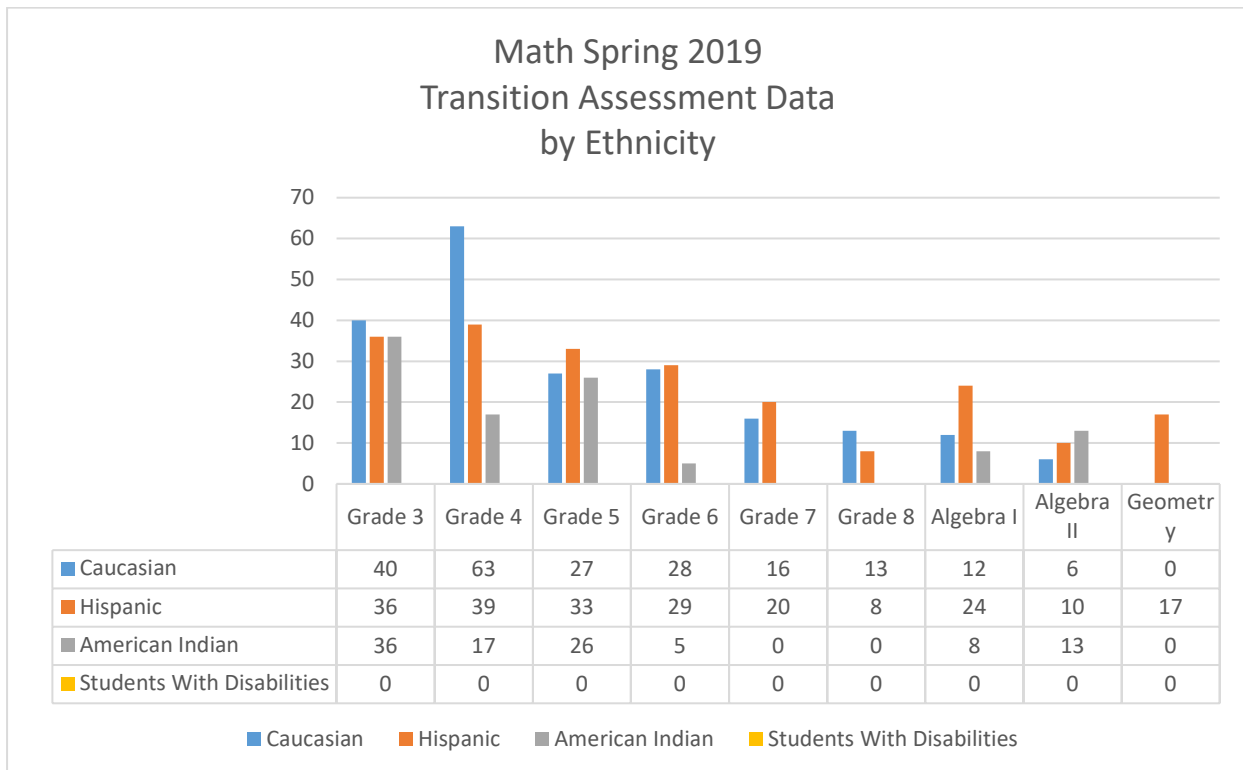

Part of keeping our school environments safe and welcoming is to by updating our Facilities Master Plan every 5 years, and updating our preventive maintenance plan annually. Our master plan was updated in 2018, and it provides a guiding document for all capital projects for the next five years. This plan also helps us focus on the schools most pressing needs. It allows us to focus our bond funds on improving those areas most in need as identified on the master plan.

As part of the safe and welcoming environment, we always want all members of our staff to welcome students, parents and visitors into our schools. We want them to always be respectful of all who enter our buildings and grounds.

The final goal is for our district and schools to have effective and efficient operations.

1. Student learning will be supported and enhanced by effective and efficient operation of support services as measured by improvement in one or more support areas.
2. All budget requests will be tied to the District Aims and Goals and the Educational Plan for Student Success and School Ninety Day Plans.

Student Achievement

School Safety

Each school within the district has developed a Safe Schools Plan, and it was approved by NMPED in 2019. These plans are reviewed annually by each school, and the plans are also reviewed with local law enforcement to allow for their input and assistance in developing and implementing the plan. Each school has a Safety Committee as well as a Non Violent Crisis Team.

Each school has a discipline policy that is implemented consistently for all students including American Indian students. All schools follow the Board Policy Manual which includes policies on bullying and harassment.

Tularosa Municipal Schools has a Wellness Policy that is reviewed and updated annually.

Tularosa Municipal Schools coordinates with all parents including American Indian parents in response to disasters and emergencies. Most emergencies that require parent involvement are related to weather especially for our American Indian students and parents.

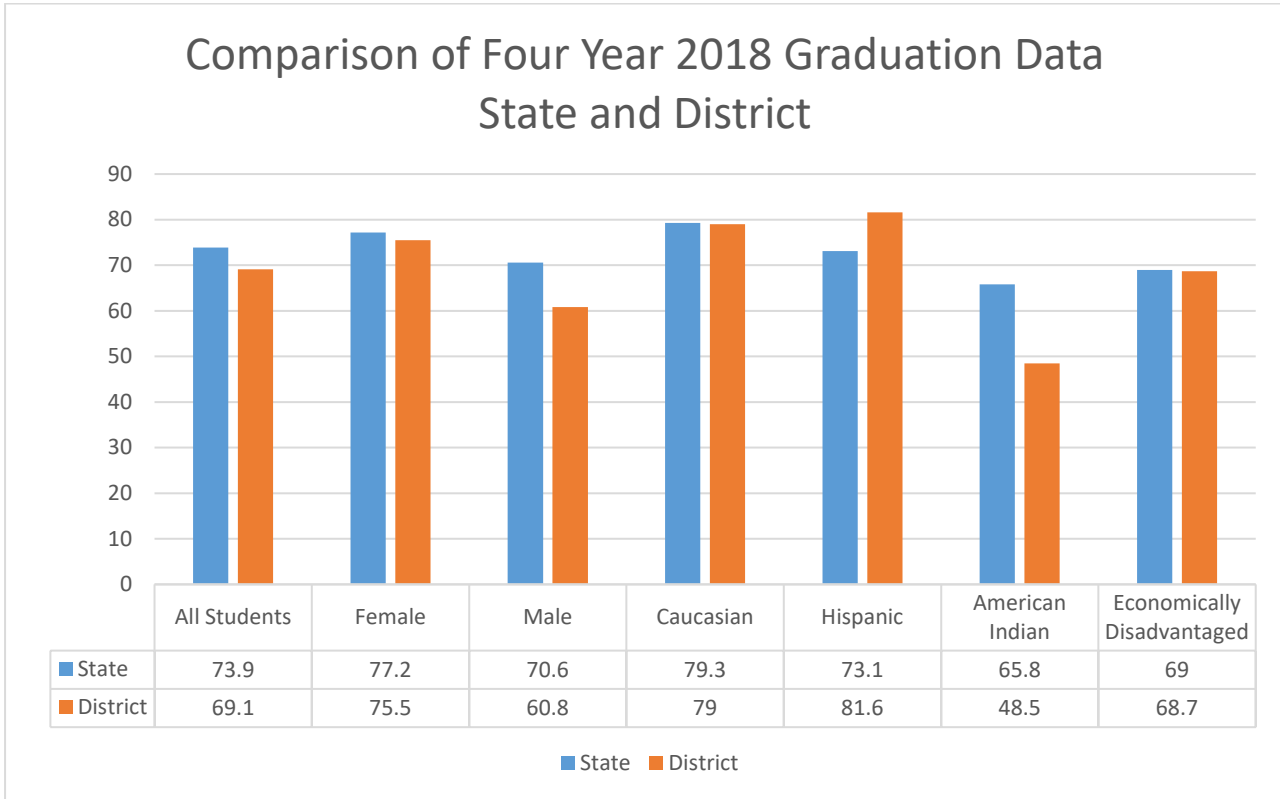

Attendance

The district is not aware of any communication services supporting the decrease of drop outs and/or increased attendance.

The district is not aware of the underlying causes of dropout rates targeting American Indian students.

Graduation Rate

Parent and Community Involvement

Tularosa Municipal Schools promotes parent and community involvement at all schools.

All schools have parent/teacher conferences twice per year. The elementary and intermediate school have two days for conferences in October and 2 days in March. The middle and high school have one day in October and one day in March.

Each school has an open house at the beginning of the year to provide an opportunity for parents to meet their student’s teacher or teachers. The dates of these are not scheduled on the same day to allow parents with students at different school sites to attend all meetings. Additionally, the high school schedules a special meeting for the ninth grade students at the beginning of their first semester. At this meeting, the principal and counselor review requirements for graduation, attendance, grading, credits and expectations for high school students. Information is provided about selecting courses, programs, and activities. The students meet the teachers and tour the campus. All parents of students participating in athletics are required to attend a meeting at the beginning of the year and prior to each individual sport to learn about the requirements for participation and the rules for specific athletic programs.

All schools have Parent Advisory Council meetings at their respective school sites. During those meetings parents provided with information that will help their students be successful in school. They receive clear information about

2018-2019 Tribal Education Status Report

report cards and how grades are earned. They are provided with information about state testing expectations and student test results. Schools also provide parents with information about volunteering in the schools.

During the year, it is also important to maintain regular two-way communication with parents. Each school uses an agenda to provide parents and teachers a method for communicating on a daily basis. Additionally, we use the Power School Parent Portal to give parents immediate access to their child's attendance, grades, and discipline. This also provides the parent access to their child's teacher through email. Individual schools and teachers also send newsletters to parents. Newsletters include information about curriculum, assessments, and standards-based instruction.

The Opportunity to Learn Survey is provided for students to give their input each year. This survey is administered to students after they complete assessments for each subject area. We also periodically send a Title VI Needs Assessment to the parents of Native American students to provide the district with information about the parent's perceptions of the school programs and processes.

Students are recognized for their work and accomplishments at each school site, and they are also recognized at board meetings.

Promoting Positive Parenting

Tularosa Municipal Schools Sponsors parent education workshops and other courses or training for all parents including Native American parents.

The district provides all families including Native American families with information on child or adolescent development.

The district provides all families including Native American families with strategies that support learning at home. Our family night activities provide parents with useful tools to support learning in the home.

The district sponsors home visiting programs or community meetings to help families understand schools and to help schools understand families as required.

Enhance Student Learning

Tularosa Municipal Schools provides Websites and learning resources for students and families. Our district website has links to many useful program.

We provide family-friendly information on New Mexico's Content Standards and Benchmarks and Common Core State Standards. The schools also provide information on how parents can monitor and discuss schoolwork with their child. Schools assist families in helping to set academic goals, select courses and programs and plan for college, their next grade level or work

2018-2019 Tribal Education Status Report

Educational Programs Targeting Tribal Students

Financial Reports

Tularosa Municipal Schools has a business office with a full time business manager and three additional full time equivalent positions to prepare and monitor our daily business operations. The business manager attends trainings conducted by PED to maintain and improve her skills. We receive state equalization guarantee which is the major part of our funding. This funding is based upon our student membership on the 80th and 120th day of the prior year. Additionally, we receive funding through Title I, Title II, Title VI, Title VIII, Rural Low Income, IDEA B and IDEA B Preschool. We utilize the general operational funds for all students including American Indian students in grades PreK-12. We also have funds that provide for personnel directly

2018-2019 Tribal Education Status Report

supporting and/or impacting American Indian Students. PED-IED, Title VI, Title VIII, Title I and Title II funds are used for these personnel:

---	------------------------------------

Variable School Calendars

Tularosa Municipal Schools does not follow a variable calendar. The district calendar committee develops two calendars based upon our testing schedule and other events. We then have each staff member vote on the calendar of their choice. We do share this calendar with Mescalero Apache School. Even though we do not have a variable calendar, we do work with Tribal members and Tribal entities to excuse American Indian students for cultural activities and events.

School District Consultations

During the school year, Tularosa Municipal Schools had consultations with municipal organizations. In the spring, we had one meeting with the Department of Health.

SY

2018-2019 Tribal Education Status Report

During the year we had two consultations with the Mescalero Tribe. We met once with the Mescalero Tribal Council to review attendance, dropout, achievement, Impact Aid, Title VI, and the Indian Policies and Procedures. We also met with the Indian Education Committee to review these items. The liaison met with the Indian Education Parent Committee to identify needs and provide information about the program.

We also meet with NMSUA as requested.

Indigenous Research, Evaluation, and Curricula

Tularosa Municipal Schools does not have any Indigenous Research, Evaluation, and Curricula. We have met with the Tribal Education Committee regarding the teaching of Apache in our schools.
