INTRODUCTION

The Indian Education Act [22-23A-1 to 22-23A-8 NMSA 1978] states “a school district with tribal lands located within its boundaries shall provide a districtwide American Indian education status report to all tribes represented within the school district boundaries.” The NM Public Education Department’s Indian Education Division has designated 23 school districts as “on or near tribal lands”. The intent of the report is to inform the tribes of the education of native students within the 23 district using 12 required indicators.

This include revisions and input to the Title VI Impact Aid Indian Policies and Procedures.

Indigenous Research, Evaluation Measures and Results for Effective Curricula for Tribal Students

The Oral Diné Language Assessment is being utilized at six (6) Bloomfield schools. District data shows that high school students are at beginning proficiency levels while middle school students are lower in proficiency for the Navajo language. These courses are supplemental for students and not part of the core curriculum. For SY 2019-2020, BSD will continue implementing and refining the Navajo language and cultural curriculum for all schools.
