Participating in a Session

- Your microphone may have been muted by the Host. This is to prevent background noise and other unwanted sound.

- Microphone and camera controls are located in the lower left corner of the Zoom screen.

- In smaller meetings, you may wish to unmute your microphone (if allowed). If you do so, please mute yourself when done speaking.

- Chat is the preferred way to communicate with the Host in larger meetings, as it is less disruptive and allows you to post thoughts and questions as they arise, versus waiting for an opportune time to interrupt the speaker.

- The chat window can be accessed by clicking the Chat icon at the bottom of the Zoom screen.
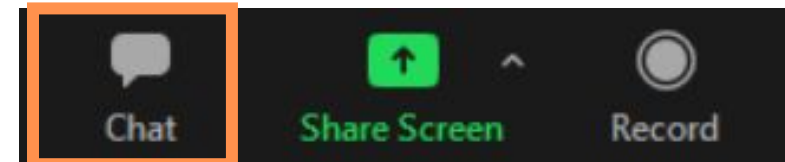

# Participating in a Session (cont.)

- The Participant icon allows non-verbal communication.
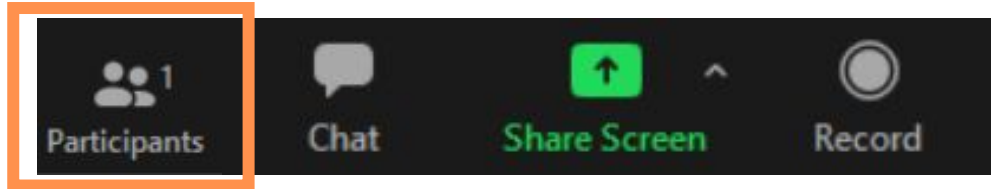

- Clicking the Participant icon opens the Participant window to see all participants and access these buttons at the bottom of the Zoom screen.

Child Abuse and Neglect Training

Welcome to Child Abuse and Neglect Training! This course will provide the viewer with information regarding the signs of abuse and neglect in the virtual classroom setting with a reminder of legal obligation to report suspected instances.

Dynamic Learning Maps - Instructionally Embedded Assessments
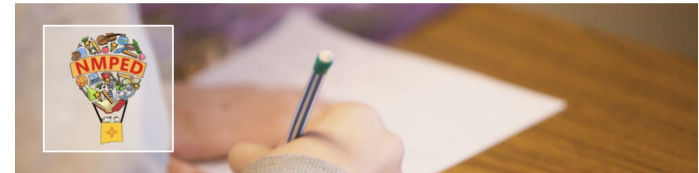

Welcome to Dynamic Learning Maps (DLM) - Instructionally Embedded Assessments!

This course focuses on understanding the purpose of the advantages and uses of the DLM Instructionally Embedded assessments and the administration process. This course is geared toward District Test Coordinators, Special Education Directors, Special Education coaches, and Special Education teachers.

After successful completion of this course, educators will obtain a badge that is recognized by PED as evidence of staff elected professional development as part of an educator's PDP and Domain IV criteria of Elevate NM.

Before beginning, please review the Course Overview.

NMPED Success Measures – Spring 2021

- The NMPED will have at least 10 core, teacher-created courses that have gone through SME and ID review process that have been shared via Commons Consortium.

Fall 2020 Progress Update

Several LEAs have offered courses, but none have gone through the review process yet.

NMPED Success Measures – Spring 2021

- All PED OER content will be reviewed and vetted by SMEs for quality and cultural sensitivity prior to being shared via Commons Consortium.

Offline Documentation for Canvas Admin

Canvas is a Learning Management System (LMS) designed to simplify teaching and learning by connecting all of the digital tools teachers and students use in one easy place. Although meant to be used online, there are features that allow for the downloading of materials for learning in an offline environment.

There are two main options through Canvas for viewing course content: ePub and HTML. You must choose one or the other in order to use one properly. **Both options may not be "turned on."** Here is the Canvas guide to enable and allow for exporting offline in Global Settings. If you choose to use ePub, use this Canvas guide to show you how to turn on this feature. There is a third option that involves use of google drive and folders solely. See that option here as well (this document was created by OCPS-VA and shared with their permission).
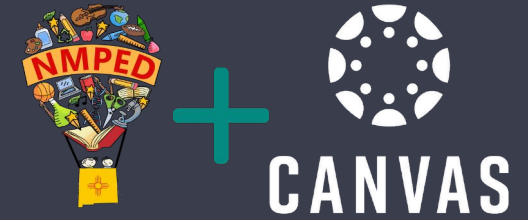

Admin Guides for Allowing Exported HTML Offline Content can be found here.
Admin Guides for Allowing Exported ePub Offline Content can be found here.

Canvas Structure Between PED & LEAs

Each LEA's Canvas Instance

- Teacher content creation
- Teacher-Student Interaction
- Parent tracking of assigned work

PED Consortium: allows PED vetted content to be made accessible to LEAs

PED's State Canvas Instance

- Creation of consortiums
- Creation of curricular content
- PED provided professional learning
- Tracking of participation
