		Notes
No response is needed.		Multi-ply cloth masks available and utilized by all staff and students, over the nose and mouth, secure under the chin, snug on face with no gaps
No response is needed.		Classrooms and commons areas are set up for 6 feet social distancing and less than 50% student class size in place
No response is needed.		If applicable, cafeteria (or other congregate feeding area) is set up for 6 feet social distancing and cohorts of students are not mixed
No response is needed.		Hand sanitizer that contains at least 60% alcohol is available across the school
No response is needed		School doors and windows are operable
No response is needed.		School ventilation systems are functional
No response is needed.		Evacuation Plan in place that maintains 6 feet social distancing
		Extra disposable masks on hand? Extra personal protective equipment is being kept by school nurse. All masks are being worn properly.
		No common areas are being used. Classroom are properly spaced for the 6ft social distance Classroom sizes are under the 50% occupancy load. Recess is broken into zones.
		The cafeteria is not in use, students are being fed in class rooms and have assigned outside eating areas weather permitting.
		Hand sanitizer ranging from 65% to 71% alcohol is available throughout the school.
		Optimal air flow in place in each classroom? All doors and windows are operable, dampers are set to 30%, to circulate fresh air at all times.
		What type of filtration is in place? Merv 8 and Merv 9 filters are installed.
		Each class room has an exit door and assigned area for evacuation. Students will be given verbal reminders during evacuation.
