

2021 Instructional Material Summer Review Institute

**Review Team Appraisal of Title
K-5 English Language Arts**

This appraisal form is provided for use by educators responsible for the selection of instructional materials for implementation with districts and charter schools across New Mexico to meet the need of their student populations.

This appraisal form should be used in conjunction with the publisher provided Form D: Research Based Effectiveness Determination that supports this reviewed material which can be found on the Instructional Material Bureau website.

Materials take into account cultural perspectives.

Statements of appraisal and supporting evidence (autofilled from All Content Appraisal tab):

Materials take into account cultural perspectives. Throughout the units and lessons, the trade books, big books, and readers take into account cultural perspectives and give students opportunities to experience other cultures and traditions.

Materials include a culturally responsive lens.

Statements of appraisal and supporting evidence (autofilled from All Content Appraisal tab):

Materials include a culturally responsive lens. The Social Justice Guide provides opportunities for students to experience or relate to other points of view/multiple perspectives.

Structured Literacy Recognition - *Materials are reviewed for relevant criteria pertaining to the support for teachers and students in the components of structured literacy. Those materials receiving a score of 90% or above on the structured literacy portion of the review are recognized as having high quality support for the components of structured literacy.*

Materials are informed by and based on the Science of Reading; reflect evidence-based teaching principles; and reflect evidence-based elements of structured literacy.

Statements of appraisal and supporting evidence (autofilled from Structured Literacy/ELA Content Appraisal tab):

Materials are informed by and based on the Science of Reading; reflect evidence-based teaching principles; and reflect evidence-based elements of structured literacy. In the online Teacher Resources Program Guide, Principles of Instruction on page 29, it states, "Designed around the following principles: explicit foundational skills and language instruction, maximizing vocabulary acquisition through contextualized content based and constant exposure, building background knowledge for comprehension, fostering wonderful conversationalists, and building analysis in expression in reading and writing." Each lesson in all units of this program systematically builds on the previous skills and concepts and clearly addresses the different strands of structured literacy.

Standards Review - Materials are reviewed for alignment with the state adopted content standards, benchmarks and performance standards.

Average Score

89%

Materials align with grade level ELA standards overall.

Statements of appraisal and supporting evidence:

Overall, the materials do align with the grade level ELA standards. The standards are stated on the primary focus page for each lesson in both the Knowledge and Skills components of the program. However, the Table of Contents page did not list the standards or in what lessons they could be found.

Materials align to reading standards.

Statements of appraisal and supporting evidence:

The materials align to the reading standards. Each standard is addressed throughout the lessons and units. However, the standards RL4, RL6, and RI6 are not fully addressed in the lessons. Without the standards being listed in the Table of Contents, it was difficult to locate these indicated standards.

Materials align to writing standards.

Statements of appraisal and supporting evidence:

The materials align to the writing standards. Each standard is addressed throughout the lessons and units. There are many opportunities for students to explore and practice the narrative and opinion writing standards. However, we did not find examples in this curriculum that addressed opportunities for students to explore and practice research based expository writing.

Materials align to speaking and listening standards.

Statements of appraisal and supporting evidence:

The materials aligned to the speaking and listening standards. These standards were clearly addressed throughout all the lessons and units.

Materials align to language standards.

Statements of appraisal and supporting evidence:

The materials were aligned to the language standards. Each standard was addressed throughout the lessons and units. However, the standards L1c, L4b, and L5b were only partially addressed and did not provide opportunities for mastery.

Structured Literacy Review - Materials are reviewed for relevant criteria pertaining to the support for teachers and students in the components of structured literacy.

Average Score

95%

Materials are informed by and based on the Science of Reading; reflect evidence-based teaching principles; and reflect evidence-based elements of structured literacy.

Statements of appraisal and supporting evidence:

Materials are informed by and based on the Science of Reading; reflect evidence-based teaching principles; and reflect evidence-based elements of structured literacy. In the online Teacher Resources Program Guide, Principles of Instruction on page 29, it states, "Designed around the following principles: explicit foundational skills and language instruction, maximizing vocabulary acquisition through contextualized content based and constant exposure, building background knowledge for comprehension, fostering wonderful conversationalists, and building analysis in expression in reading and writing." Each lesson in all units of this program systematically builds on the previous skills and concepts and clearly addresses the different strands of structured literacy.

ELA Content Review - Materials are reviewed for relevant criteria pertaining to the support for teachers and students in the specific content area reviewed.

Average Score

99%

Materials provide sequential, cumulative instruction and practice opportunities for a full range of foundational skills.

Statements of appraisal and supporting evidence:

Materials provide sequential, cumulative instruction and practice opportunities for a full range of foundational skills. All units and lessons build on the concepts and skills from the one before in a sequential and cumulative progression. These units and lessons provide practice opportunities for a full range of foundational skills.

Materials provide a selection and range of high-quality texts worthy of students' time and attention, exhibiting exceptional craft and thought and/or providing useful information.

Statements of appraisal and supporting evidence:

Materials provide a selection and range of high-quality texts worthy of students' time and attention, exhibiting exceptional craft and thought and/or providing useful information. This curriculum uses a selection and range of Trade Books, Read-Alouds, Big Books, Flip Books, Readers, E-Books, Audio Books, and Image Cards that are worthy of students' time and attention as well as providing useful information.

Questions in the materials are high-quality text-dependent and text-specific questions. The overwhelming majority of these questions are text-specific and draw student attention to the particulars in the text.

Statements of appraisal and supporting evidence:

Throughout the units and lessons, there are high-quality, text-dependent questions (literal, inferential, and evaluative) that are listed to guide the teacher during instruction. These questions are used with the anchor texts within and across the lessons and are text-specific and draw students attention to the particulars in the text.

Materials provide scaffolding and supports to enable students' learning of English language arts.

Statements of appraisal and supporting evidence:

Materials provide scaffolding and supports to enable students' learning of English Language Arts. In each Skills Unit, there is explicit systematic instruction with each new skill introduced with a warm-up and review. In the Knowledge Units, throughout the lessons there are many opportunities for I do, we do, you do - which scaffolds and supports students in their learning and acquisition of English Language Arts.

All Content Review - Materials are reviewed for relevant criteria pertaining to the support for teachers and students in the material regarding the progression of the standards, lesson structure, pacing, assessment, individual learners and cultural relevance.

Average Score

88%

Materials are coherent and consistent with the standards that all students should study in order to be college and career ready.

Statements of appraisal and supporting evidence:

Materials are coherent and consistent with the standards that all students should study in order to be college and career ready. This is evident in the Scope and Sequence and the way the Units and Lessons are laid out in the curriculum. However, many standards are minimally addressed and do not provide review opportunities for practice and mastery.

Materials are well designed and take into account effective lesson structure and pacing.

Statements of appraisal and supporting evidence:

Materials are well designed and take into account effective lesson structure and pacing. All the lessons have the same structure and give a timeframe of how long each lesson should take. However, there is no evidence of a glossary or footnotes anywhere in the curriculum.

Materials support teacher planning, learning, and understanding of the standards.

Statements of appraisal and supporting evidence:

Materials support teacher planning, learning, and understanding of the standards. The planning page and the list of materials needed for each lesson that is provided in the online resources is clear and concise. However, cross referencing of the standards is not listed in the Table of Contents throughout the entire program.

Materials offer teachers resources and tools to collect ongoing data about student progress on the standards.

Statements of appraisal and supporting evidence:

Materials offer teachers resources and tools to collect ongoing data about student progress on the standards. There are opportunities to formally and informally monitor students' progress throughout the units and lessons. However, materials to provide alternative assessment options for English learners, culturally and linguistically diverse students, advanced students, and special needs students are not evident.

Materials support effective use of technology to enhance student learning.

Statements of appraisal and supporting evidence:

Materials support effective use of technology to enhance student learning. Every Knowledge Unit has a Knowledge Builder video at the beginning to activate content knowledge. In addition, Skills Units 4 and 5 provide access to a Big Book; Units 6-10 provide E-Books and Audio Books; and there is also a sound library for Skills Units 1-5. In addition, there are online assessments and tasks, but we did not have access to them.

Materials can be easily customized for individual learners.

Statements of appraisal and supporting evidence:

Materials can be customized for individual learners. Throughout the units there are suggestions in the Teacher's Edition to differentiate and customize the lessons for individual learners. However, these suggestions are not always in the lessons but in the Pausing Points of the Units. There are not many suggestions for customizing and differentiating lessons for extending the thinking of advanced learners. It shows that you can customize and differentiate the assessments, checklists, quizzes, homework, etc., but we did not have access to it.

Materials give all students extensive opportunities and support to explore key concepts.

Statements of appraisal and supporting evidence:

Materials give some students extensive opportunities and support to explore key concepts. The lessons throughout the units do have opportunities to support and explore key concepts, but home language connections are limited to Spanish only.

Materials take into account cultural perspectives.

Statements of appraisal and supporting evidence:

Materials take into account cultural perspectives. Throughout the units and lessons, the trade books, big books, and readers take into account cultural perspectives and give students opportunities to experience other cultures and traditions.

Materials include a culturally responsive lens.

Statements of appraisal and supporting evidence:

Materials include a culturally responsive lens. The Social Justice Guide provides opportunities for students to experience or relate to other points of view/multiple perspectives.

Reviewers' Professional Summation - These materials are reviewed by Level II and Level III educators from across New Mexico. The reviewers have brought their knowledge, experience and expertise into the review of these materials. They offer here their individual summary of the material as a whole.

Reviewer #: 1

Background and experience:

I'm a Level III educator with 26 years teaching experience at the Elementary level. I've taught in NY, MA, NH, and NM.

Professional summary of material:

These materials are coherent and consistent with the Common Core Standards. This curriculum is divided into units that are either skills or knowledge based. I like how the lessons in each unit are laid out and are easy to follow. There are videos and video guides that teachers can use to build students' background and launch each of the knowledge units. There are a nice selection of Trade Books, Big Books, Readers, and digital components that support this curriculum. The one thing that I found frustrating with this curriculum is that the standards are not listed in the Table of Contents or Scope and Sequence, so it isn't easy to navigate what standards go with what lessons without looking through each lesson in each unit.

Reviewer #: 2

Background and experience:

I am a Level II teacher with endorsements in Reading and TESOL with over 20 years experience as a teacher and Title I Reading Specialist in CA and NM and as an Adjunct Professor/Student Teacher Supervisor at universities in NM, Australia, WI and PA. I hold an MS in Curriculum and Instruction with focus on Literacy, Language and Culture.

Professional summary of material:

This program is well-organized and easy to follow with many helpful suggestions for remediation built into the lessons. Texts/materials were appropriate and engaging for diverse kindergarten learners. The curriculum offers a strong sequential foundation based on the science of reading and instruction is explicit and systematic. A few of the standards could have been addressed more frequently which would allow for more practice and mastery. Including standards in either the table of contents or a scope and sequence guide would have made them easier to locate and reference.

Reviewer #: 3

Background and experience:

I am a Level II teacher with 22 years of experience. I have taught 7-8th grade math, kindergarten, first, second, and fifth grades, serving as a second-grade team lead. I have had the privilege of mentoring beginning teachers and student teachers. I also worked with NMSU and CORE in the SIP program.

Professional summary of material:

This program does an excellent job of structuring phonics lessons to foster beginning reading skills. There are many interesting topics within the program to hold students' interest and encourage active participation in their learning. Reading skills are well scaffolded with a great variety of texts and opportunities for writing about their reading. While each lesson is well laid out and easy to follow with predictable patterns and integrated remediation, there were not a lot of opportunities built in for advanced learners. Additionally, standards were missing from all Table of Contents pages, making locating the standards difficult, as there were 10 Skills TEs and 12 Knowledge TEs with 10-20 lessons per TE. This leaves the teacher having to look at each of those Lesson Focus pages to find the standard they are searching for.
