

The purpose of this tool is to help educators understand each of the grade level standards and how those standards connect to the students' overall preparation for college and career readiness.

Standards are defined as the most critical prerequisite skills and knowledge. This document is color-coded to reflect both anchor and priority standards. Though previous emphasis was placed on priority standards to address lost learning due to COVID-19, New Mexico teachers should note that moving forward, while priority standards allow for acceleration of learning, all standards should be addressed in instruction throughout the school year.

In this guide you will find:

- A [breakdown](#) of each of the grade level standards within the Speaking & Listening strand, including:
 - Vertical alignment guidance
 - Essential vocabulary related to the standard
 - Identification of anchor standards as identified by the CCSS and priority standards as identified by NMPED

Key		
	<i>Anchor Standard</i>	Anchor standards, as identified by the Common Core, are denoted with an anchor icon. Anchor standards are the fundamental skills we want students to have when they graduate. The College and Career Ready (CCR) and grade-specific standards are necessary complements—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate. Anchor standards appear from Kindergarten to 12th grade and are aligned to what colleges and workplaces expect students to be able to do.
	<i>Priority Standard</i>	Priority standards, as identified by NMPED, are denoted with red highlighting. Priority standards are the most critical prerequisite skills and knowledge a student needs. This does not mean that these are only standards required to be taught, just these are the standards that will allow for the acceleration the students of New Mexico need during this time.

group, and teacher-led collaborative discussions with different topics, texts, and issues appropriate for Grades 11-12. To lead and contribute to these collaborative discussions, students clearly and convincingly communicate their own ideas as well as add on to other ideas by:

- Reading texts and researching information on the topic prior to and in preparation for discussion. Students draw on this preparation by referencing textual evidence and information they noted in order to support claims that are being made.
- Working with peers to encourage respectful discussion and shared decision, ensuring that every voice is included; outlining clear goals, due dates, and individual responsibilities as needed.
- Asking and answering questions that explore and challenge logic and evidence; guaranteeing all perspectives have been voiced; clarifying, confirming, or questioning ideas and conclusions; and encouraging differing and innovative views all in order to move the conversation forward.
- Responding, in a considerate manner, to others with differing opinions; connecting comments, claims, and evidence made from all perspectives of an issue; clearing up discrepancies when possible; discerning what information or research is needed to fully investigate the topic under study or accomplish the task at hand.

something, often a value statement; generally, an author uses evidence to support the assertion of truth

- **evidence** – facts and/or information (quotes, statistics, graphs, etc.) presented together as a body of support for a claim or value statement
- **explicit, explicitly** – stated clearly and directly, leaving no room for confusion or interpretation and using textual evidence to support those claims
- **open-ended questions** – questions that prompt the beginning of a longer conversation and require reference back to the text
- **perspective** – an attitude toward or outlook on something
- **range/range of tasks, purposes, and audiences** – the production of written and spoken works covers a variety of tasks (including, but not limited to, speaking, presenting, and writing), purposes (e.g., to persuade, to inform, to express, and/or to entertain), and audiences (which requires shifts in register)
- **reasons/reasoning** – an explanation or justification for a claim, action, or value statement; the process of thinking through an argument, forming judgments, and drawing conclusions using a process of logic
- **research (short or more sustained)** – an investigation into and study of relevant materials and resources for the purpose of identifying information, establishing facts, drawing conclusions, finding connections, etc.; students conduct short research investigations (e.g., reading a biography of a historical figure) in order to create context and foundations for learning; students conduct more sustained research (e.g., consulting a variety of sources on the ethics surrounding growth hormones) in order to gather and synthesize (either as evidence for claims or data to present/explain) information from a variety of sources
- **respond** – to say, show, and/or act in response to a prompt which may be a question, action or event, a claim or counterclaim, etc.
- **task** – (as part of the task, purpose, and audience relationship) – the specific product or type of product one is completing (e.g., editorial article,

	<p>friendly letter, etc.), which greatly influences the choices an author makes (e.g., one would likely adopt an informal register when writing a friendly letter)</p> <ul style="list-style-type: none"> ● text – anything that students can read, write, view, listen to, or explore, including books, photographs, films, articles, music, art, etc. ● topic – the subject or matter being discussed or written about in a text, speech, etc.

Students deliver presentations that communicate information, conclusions, and supporting evidence in a way that clearly defines their stance on a given topic and allows an audience to easily follow the logic and order in which the material is presented. Students also include other stances on the topic that are different from or contrary to their own. Students tailor their presentations' structure, development, content, and style to their purpose, audience, and task. Tasks range from formal presentations to informal discussions.		<ul style="list-style-type: none"> ● evidence – facts and/or information (quotes, statistics, graphs, etc.) presented together as a body of support for a claim or value statement ● formal English, style, task, and use of – English language usage that adheres to grammar and style conventions, are appropriate to task, purpose, and audience, and is objective and free of bias. When spoken, formal usage also generally consists of clear enunciation, consistent eye contact, and appropriate vocabulary. When written, formal usage also generally consists of coherent organization, complex grammatical and syntactic structures, and domain-specific vocabulary ● informal English, style, task, and use of – English language usage that is not generally held to grammar and style conventions and may not have a logical structure (e.g., dialogue may jump from one topic to another without transition). When spoken, informal usage may consist of slang terms and idioms; when written, informal usage may lack organization and ignore grammatical rules 		

- **line of reasoning** – a series of claims, points, and supporting pieces of evidence, each related to one another, delineated in such a manner as to show a connection between a claim or argument and the conclusion being drawn
- **perspective** – an attitude toward or outlook on something
- **purpose** – the reason for a particular action or creation (e.g., literary work or speech); the reason for which something exists (e.g., to persuade, to inform, to express, and/or to entertain)

- **style** – a particular manner of doing something (e.g., writing, painting, speaking, etc.) characteristic to an individual (e.g., author, singer, etc.), region, time, artistic/literary movement, etc.; in writing, the style includes word choice, fluency, voice, sentence structure, figurative language, and syntax

Students Who Demonstrate Understanding Can...

- present information and findings concisely with the information clearly rooted in the student's perspective/idea/topic.
- use visual representations to further support their findings (charts, graphs, pie charts, timelines, etc.).
- support their claim(s) with sound reasoning, research, and evidence such as facts, statistics, and quoted opinions from authorities on both sides of the argument.
- clearly define their stance on the given topic.
- create and deliver an organized presentation in such a manner that is easily followed by the audience.
