Materials are informed by and based on the Science of Reading.

1	Materials are grounded in a scientific understanding of the typical developmental progression of language skills and the relationship between the development of oral and written language skills. Instruction aims for fluent and accurate word recognition (automaticity), ultimately resulting in reading comprehension.							
2	Materials emphasize the relationship between oral language and written language in explicit instruction that progresses from speech to print by addressing phonetics and phonology, orthography (decoding and encoding based on predictable word patterns), syllables, morphology, semantics, syntax, and pragmatics.							

Materials reflect evidence-based teaching principles.

3	Materials provide systematic and cumulative reading instruction sequences that progress from prerequisite skills to more advanced skills.							
---	---	--	--	--	--	--	--	--

4	Materials include teacher modeling and direct and explicit instruction which explains each concept clearly. Materials provide opportunities for guided practice, teacher feedback, and independent practice of the skills taught.							
5	Materials allow teachers to engage in diagnostic teaching, using formal and informal assessment to continuously monitor progress and identify the skill level and needs of each student.							
6	Materials provide multisensory/multimodal methods of instruction that simultaneously activate the visual, auditory, kinesthetic, and tactile modes of learning.							
Materials include evidence-based structured literacy elements for grades 3-6.								
7	Materials provide opportunities to practice the six orthographic syllable types, syllabication patterns, and morphology (e.g., roots and affixes) in order to accurately read unfamiliar monosyllabic and multisyllabic words.							
8	Materials provide opportunities to practice identifying most common prefixes and suffixes appropriate for grade level.							
9	Materials provide opportunities to read grade-appropriate irregularly spelled words.

Key Criteria for Reading Foundations

Materials aligned with CCSS provide sequential, cumulative instruction and practice opportunities for a full range of foundational skills.

1	Materials allow for flexibility in meeting the needs of a wide range of students and offer extensive opportunities to encounter complex text within the grade-level band.							
2	Materials include effective instruction for all aspects of foundational reading (including distributed practice.)							
3	Fluency is a focus of instructional materials. Materials include routines and guidance to monitor the consolidation of skills as students are learning them.							
4	Materials offer assessment opportunities that measure progress in foundations in reading, writing, speaking, and listening.							

Fluency

5	Reading selections represent a balance of literature and informational texts that are high quality, authentic texts. Texts are worth reading and re-reading across multiple days and lessons, and can be used for addressing multiple content standards at grade level.							
---	---	--	--	--	--	--	--	--

6	Literature selections include a variety of grade appropriate full-length classic and contemporary readings (e.g., plays, novels, narratives, poetry, short stories...)							
7	Informational text selections include a variety of grade appropriate full-length readings. (e.g., speeches, scientific and historical documents, social and cultural studies).							
8	Materials include sufficient practice to achieve accuracy as well as a variety of specific fluency building techniques supported by research through reading, writing, listening and speaking.							

Text Selection and Range of Texts: Texts are worthy of students' time and attention (of quality, rigorous, and at the right text complexity for grade level, student, and task).

9	Materials reflect the genres and text characteristics that are specifically required by the standards at each grade level band (e.g., informational texts, narratives, poetry, plays, speeches, scientific and historical documents).							
10	Materials contain a sequence or collection of anchor texts of grade-level complexity that are selected for close reading and that build knowledge systematically through reading, writing, listening and speaking about the text. (Anchor texts provide opportunities for students to continuously return to the text(s) in order to conduct deep analyses and collect evidence for greater understanding of sources texts.)							

Text Selection – Quality of Texts: High-quality texts are worth reading closely and exhibit exceptional craft and thought and/or provide useful information.

11	Materials provide content-rich, well-crafted texts that represent the most authentic literature and informational texts of varied genres and subject matter, representing the best of what is available. (e.g., classics, contemporary, sciences, humanities, social studies, cultural studies, etc.)							
12	Informational texts offer a variety of informational text structures (e.g. headings, bold print) and provide a variety of text types (e.g., speeches, editorials, newspaper articles, essays, literary nonfiction, seminal US and foundational documents).							
13	Opportunities are provided to increase regular independent reading of texts that appeal to students' interests while developing independent reading skills.							

Text-Dependent and Text-Specific Questions: Questions in the materials are high-quality text-dependent and text-specific questions. The overwhelming majority of these questions are text-specific and draw student attention to the particulars in the text.

14	Materials provide text-dependent questions and tasks that require use of textual evidence, including supporting valid inferences from the text as required by the grade level standards.							
15	Materials contain a well sequenced set of text-dependent/ text-specific questions which integrate skills to demonstrate a deeper understanding of the text.							
16	Questions and tasks cultivate students' abilities to ask and answer questions based on the text.							
Scaffolding and Supports								
17	Materials provide all students, including those who read below grade level, with extensive opportunities to encounter and comprehend grade-level complex texts (either heard or read) as required by the standards (e.g., build background knowledge, sequence questions, structural supports, strategies that scaffold).							
18	Materials provide real-world activities for student practice with natural language (e.g. mock interviews, presentations).							
19	Materials assess students at a variety of knowledge levels (Bloom's, Depth of Knowledge, etc.) centered on grade level texts aligned and measured against the CCSS expectations.							
20	Materials provide writing opportunities for students that are prominent and varied. Writing activities include extensive opportunities to write in response to the publisher's content.							
21	Materials provide a design for whole-group, small-group, and individual instruction that cultivates student responsibility and independence.							
22	Materials provide word awareness introduced through the use of research based strategies (e.g., graphic organizers, word walls, use of context clues, and practice activities) that encourage deep processing and connecting word meaning to prior knowledge. Words are grade appropriate vocabulary and grade level academic language.
