

2022-23 Fact Sheet

New Mexico Measures of Student Success and Achievement

The New Mexico Measures of Student Success and Achievement is New Mexico’s statewide summative assessment for mathematics and English language arts, administered at the end of Grades 3-8. As the NM-MSSA is a single measure at the end of a grade band, interpretations and uses of NM-MSSA scores should be supplemented with additional measures, including information from classroom summative and formative assessments in mathematics and English language arts as well as interim assessments.

Who takes the NM-MSSA in 2022-23?

All students not designated for alternate assessment in Grades 3-8 take the NM-MSSA in ELA and math. Eligible English Learners in Grades 3-8 may be assigned the Spanish Language Arts version of the assessment.
