

Extension	
<i>Essential Question</i>	<i>Examples</i>
<p>What type of extension will offer additional challenges to 'broaden' your student's knowledge of the mathematics developed within your HQIM?</p>	<p>Some learners may benefit from an extension such as the application of and development of abstract thinking skills when visualizing relationships between two-dimensional and three-dimensional objects because students will deepen their understanding of the topic and they can use this in the real-world. Challenge the students to do a frustum of two-dimensional and three-dimensional objects.</p>
