### Introduction

The New Mexico Charter Schools Performance Frameworks support the Public Education Commission (PEC), state-authorized charter schools, and the Charter School Division (CSD) in answering a series of three questions posed by an approach called Results-Based Accountability™: How much did each charter school do? How well did they do it? Is anyone better off as a result?¹ This process resulted in measures that include both *school-specific indicators* that give schools flexibility in capturing how their mission is being operationalized and fulfilled and *universal indicators* applied across all state-authorized charter schools. These universal indicators capture the PEC's priorities surrounding standard quality processes and outcomes across all schools in its portfolio.

The Performance Frameworks provides a roadmap for an annual review of the performance of state-authorized charter schools and is a material term of the charter schools' contracts, as stated in NMSA §22-8B-9.1 (1978).

This document was drafted by a working group of the PEC with input from the CSD.

### How the Frameworks are Used

Traditionally, charter school authorizers use performance frameworks as tools for school monitoring and accountability. The PEC in collaboration with CSD has designed the New Mexico Performance Framework to be more than that. In addition to providing transparent criteria by which the PEC will make informed charter authorization decisions, the Framework is also intended to support all parties in:

- 1) Understanding where schools are strong and where they need support,
- 2) Supporting schools' internal continuous improvement efforts,
- 3) Identifying and celebrating promising practices and programs, and
- 4) Providing the PEC and individual schools with data and stories that help communicate a meaningful and positive narrative about New Mexican students, communities, and schools.

### **Statutory Requirements for Performance Frameworks**

According to New Mexico Statutes Annotated (NMSA) 1978, 22-8B-9 and 9.1, the following is required for a Performance Framework.

This document meets the statutory requirements and will allow the PEC and CSD to effectively monitor school performance in a transparent and clear manner.

22-8B-9.(11) the process and criteria that the chartering authority intends to use to annually monitor and evaluate the fiscal well-being, overall governance and student performance of the charter school, including the method that the chartering authority intends to use to conduct the evaluation as required by Section 22-8B-12 NMSA 1978.

#### 22-8B-9.1. Performance framework.

- A. The performance provisions in the charter contract shall be based on a framework that clearly sets forth the academic and operations performance indicators and performance targets that will guide the chartering authority's evaluation of each charter school. The performance framework shall be a material term of the charter school contract and shall include performance indicators and performance targets for, at a minimum:
  - (1) student academic performance:
  - (2) student academic growth;
  - (3) achievement gaps in both proficiency and growth between student subgroups;
  - (4) Attendance;
  - (5) recurrent enrollment from year to year;
  - (6) if the charter school is a high school, post-secondary readiness;

https://clearimpact.com/results-based-accountability/

- (7) if the charter school is a high school, graduation rate;
- (8) financial performance and sustainability; and
- (9) governing body performance, including compliance with all applicable laws, rules and terms of the charter contract.
- B. Annual performance targets shall be set by each chartering authority in consultation with its charter schools and shall be designed to help each charter school meet applicable federal, state and chartering authority expectations as set forth in the charter contracts to which the authority is a party.
- C. The performance framework shall allow for the inclusion of additional rigorous, valid and reliable indicators proposed by a charter school to augment external evaluations of its performance, provided that the chartering authority shall approve the quality and rigor of such proposed indicators and the indicators are consistent with the purposes of the Charter Schools Act.
- D. The performance framework shall require the disaggregation of all student performance data collected in compliance with this section by student subgroup, including gender, race, poverty status, special education or gifted status and English language learner.
- E. The chartering authority shall collect, analyze and report all data from state assessment tests in accordance with the performance framework set forth in the charter contract for each charter school overseen by that chartering authority.

For each Performance Area, the PEC has determined the Performance Measure and Performance Criteria. For a number of Performance Areas in the Academic Framework, the PEC has embedded choice of Performance Measures. This provides flexibility for schools to demonstrate their academic performance that is directly aligned to their mission and vision, academic program, and meets the needs of their families.

### **Annual Evaluation**

Schools will receive an annual evaluation based on performance on all three frameworks combined. The annual evaluation provides the school and public with information about the school's overall performance in the previous school year. It is one of the factors that is taken into consideration when a school's charter contract is up for renewal. The evaluations provide the school with useful information on their performance and transparency into their strengths and areas for improvement. The purpose of providing this evaluation is to set clear expectations and promote continuous improvement.

Overall Evaluation	Definition
On track for expedited renewal	The school earns <b>Meets or Exceeds</b> for all performance areas in all frameworks
On track for renewal without conditions	The school earns a <b>Meets or Exceeds</b> in all performance areas in the Academic Framework and earns <b>Working to Meet</b> or <b>Meets</b> for all performance areas in the financial and operational frameworks
On track for renewal with conditions	The school earns <b>Working to Meet</b> in one or more performance areas of the Academic Framework but does not meet the criteria for " <b>not on track for renewal</b> "
Not on track for renewal	The school earns <b>Does Not Meet</b> in three or more performance areas of the Academic Framework  OR
	The school earns <b>8</b> or more <b>Does Not Meets</b> in total across the Academic, Organizational, and Financial Frameworks.
Not Applicable	Schools in their first year of operation

# Part I: Academic Framework

The PEC and CSD is dedicated to providing a fair and equitable academic oversight process for the public charter schools within PEC's portfolio. Therefore, this revised framework embeds choice for each school in determining the assessments used. Each school will negotiate with the PEC to include mission-specific measures and optional assessments. Results for each performance area will be determined annually and included in an overall performance rating.

Category	Performance Area
	1.A. State Accountability System
State Accountability Indicators	1.B. Outcomes for Special Student Groups
	1.C. Participation Rate
School-Specific Educational Measures	2.A. Mission Goal
	2.B. Fidelity of Education Program Implementation
	2.C. Conducive Learning Culture

Each Performance Area will receive one of the following ratings based on the criteria established. Failure for the school to provide data will result in a Does not Meet Success Criteria.

Rating by Academic Performance Area	Definition
Exceeds Success Criteria	The school's outcomes are exemplary in this performance area
Meets Success Criteria	The school's outcomes meet expectations in this performance area
Working to Meet Success Criteria	The school is showing inconsistencies in the performance area that warrant oversight by the Commission to ensure outcomes are met
Does not Meet Success Criteria (Red Flag)	The school is not demonstrating in the performance area that warrant further oversight by the Commission to ensure outcomes are met
Not Applicable	For schools in their first year without sufficient data

### **Academic Performance Framework**

#### 1.A. State Accountability System

The school ensures students meet or exceed the expectations established by PED for all New Mexican students, including sufficient academic achievement and academic growth.

Option	Performance Measure	Performance Criteria
Option 1 - default option	The school's overall performance on the state accountability system using the state assessment rating as compared to other schools.	<ul> <li>Blue (Exceeds) = Among the top 25th Percentile of all schools</li> <li>Green (Meets) = Between the 50th and 25th Percentile of all schools</li> <li>Yellow (Working to Meet) = 26-50th Percentile of all schools</li> <li>Red (Does Not Meet) = Bottom 25th Percentile of all schools (Intervention category)</li> </ul>

Option	Performance Measure	Performance Criteria
Option 1: One Goal	Briefly, write what the school is doing to meet their mission and how it will be measured to demonstrate that students are better off as a result.	<b>Data:</b> The school and the authorizer set a performance scale indicating that the school is producing students who are better off using <u>four</u> ratings:  • Blue (Exceeds)
	<b>Supporting Narrative:</b> Using Results-	<ul><li>Blue (Exceeds)</li><li>Green (Meets)</li></ul>
	Based Accountability™(RBA) as a model, reflect your thinking about the following questions:	<ul> <li>Yellow (Working to Meet)</li> <li>Red (Does Not Meet)</li> </ul>
	How much did the school do? How well did the school do it?	The data must be able to be disaggregated by student groups.
	Is anyone better off as a result?4	Notes:
	How do you know?	The school must provide outcome data for 95% of the eligible students for the goal to be considered valid and reliable.
	Examples:	
	<ul> <li>Leadership: Performance Task</li> <li>Arts Integration: Portfolio</li> <li>Language acquisition:         Assessments (F&amp;P in Spanish;         ACCESS for English)     </li> </ul>	The data must be in the form of student outcomes, not school inputs, for example, it cannot be the number of students attending a class, but rather the number of students with a passing grade on the culminating portfolio assignment.
