

# Istation's Indicators of Progress (ISIP) 2023-24

ISIP Reading and ISIP Math measure and instruct students in the foundational skills known to be the most predictive of reading and mathematics success.

## Who takes the ISIP in 2023-24?

The ISIP early reading and early mathematics assessments, in English and in Spanish, for ELs and BMEP programs, are required for all students in Grades K-2. Additionally, ISIP early reading in English and Spanish, although not required statewide, is available to students in Grade 3.

## What does the test measure?

Istation's Indicators of Progress Reading in English and ISIP Reading in Spanish integrate computer-adaptive testing that accurately reflects the reading ability level of each student and measures growth over time. ISIP Reading can be used as a dyslexia screener for students receiving instruction in Spanish. ISIP Math utilizes computer-adaptive testing that accurately reflects the mathematical ability level of each student and measures growth over time. Monthly results can be used by teachers to monitor student progress and improve instruction.

## When is the test given?

Access the [2023-24 Assessment Calendar](#) for all pertinent dates related to this assessment.

## How is the test administered?

- Istation is administered online.
- The test is computer-adaptive, adjusting the level of difficulty of questions based on the student's previous responses.
- Accommodations are available for students with disabilities.
- IEP teams can determine whether students with the most significant cognitive disabilities should take the ISIP with accommodations or participate in an alternate assessment.

## What are the Proficiency Levels?

1 0-20th Percentile	2 21-40th Percentile	3 41-60th Percentile	4 61-80th Percentile	5 Above 80th Percentile
---------------------------	----------------------------	----------------------------	----------------------------	-------------------------------

## Where can I access reports?

Educators and parents can create an account to access student results at [Istation](#).

## Where can I access training as a classroom teacher?

Educators can access professional development opportunities at [Istation | Professional Learning Opportunities](#).
