Instructions

Please read the entire Charter School Renewal Application Kit before preparing documents. In an effort to help applicants understand the requirements of the Renewal Application, the CSD will hold a minimum of two technical assistance workshops. Applicants will be notified of the dates, times, and locations of the workshops.

Enter applicant responses in boxes below. Answer all questions unless the question indicates that applicants should answer only under certain conditions (e.g., rating on a Performance Framework indicator requires explanation, etc.). Narrative responses should be verifiable through documents submitted or observable evidence at the renewal site visit.

School Information

Name of School: School of Dreams Academy

Current Charter Term: 2019-2023

Financial Statement Narrative

The school must provide a financial statement that discloses the costs of administration, instruction, and other spending categories for the charter school. The financial statement must be understandable to the general public and must allow comparison of costs to other schools or comparable organizations. The school must use the templates included within Part C of the renewal kit for the financial report. For schools that were identified in the lowest 25% of all schools in the NM System of Support and Accountability for SY2018-19 or SY2021-22, the report should specifically address how the school has prioritized resources toward proven programs and methods linked to improved student achievement.

Enter applicant response in box below:

School response: The operational expenditures below show that majority of expenses are spent in the classroom. Not only are teachers paid from the direct instruction function but the instructional materials, curriculum and supplies are also purchased for student use and success.

Student Support Functions also see an increase percentage every year due to the school's continuous work on improving student success by providing support to student learning and mental health throughout the year. The schools' administrative costs have decreased over the years so the school can focus more on student success. The Maintenance operation function of the schools' expense consists mainly of the schools' utilities and maintenance costs to keep the school clean and safe for students.

Overall, the schools operational spending has increased due to an increase in student count, which has increased spending in the classroom.

Operational Expenditures Tables

For each fiscal year of the school’s current charter contract (Year 1 to Year 4 for a 5-year contract), complete the table specific to the school’s operational actual expenses and actual operational funding. Schools with contract terms shorter than five years may delete extra tables.
