CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

Thank you Ms. Chavez and Ms. Russell. I am pleased to hear the graduation data is being corrected, as we found significant errors in the embargoed data released a few weeks ago and have requested help in publishing accurate data.

Please note the Governing Council President is currently Michael Hamel, not Deborah Burns as stated on the first page of the report.

Thank you for the strong recommendation and your positive collaboration during our site visit. I look forward to our renewal hearing next month and continuing to work with you!

Sincerely,
Lisa Mora

Subject: Southwest Secondary Learning Center Preliminary Analysis and Recommendation

Dear, Ms. Mora and Mr. Hamel,

As you heard this morning, the PED is releasing 2022-23 proficiency and growth data at 5 pm today. PED's Research, Evaluation and Accountability (REA) Division has provided CSD with an embargoed data file so that we were able to include these data in the attached Preliminary Renewal Analysis and Recommendation.

Please note that the accountability calculations that REA has provided to CSD do not match the vendor-provided files that LEAs have because the vendors do not prepare the All-Valid Test file that REA provides to LEAs. The proficiency and growth data in the preliminary renewal reports are the ones that will be released in Vistas today. The reports do not contain overall Vistas scores, as these were not available to CSD, or Cohort 2022 graduation data, as CSD was advised that that graduation data on the PED website will be taken down and corrected. CSD will include graduation data in the Final Renewal Analysis if it has been corrected and made public by December 1.

Please let email charter.schools@ped.nm.gov if you have any questions.

Thank you,
