TEAM CCRB PROFILE Nicholas Claus

Education Administrator

Affectionately known as "Santa" by students, balances a unique dual role. As an Education Administrator in the North Pole School District, he champions innovative Career and Technical Education (CTE) programs, infusing magic and creativity into learning. Simultaneously, he upholds his centuries-old tradition of spreading joy worldwide as the beloved Santa Claus. His expertise in logistics from managing his global gift-delivery network benefits his educational initiatives, ensuring resources reach even the most remote schools. Santa's unwavering commitment to both education and holiday cheer makes him a cherished figure in both realms.

Contact: Santa.Claus@ped.nm.gov
505-629-7705

Please Contact any member of our [CCRB Staff](#) for questions about CTE programs, Career Technical Education funding, graduation requirements, CTSOs, dual credit, work-based learning, or with any questions or concerns you may have about programs in your region.

CTE Leadership Workshop 2024: A Comprehensive Learning Experience

Hosted by the College and Career Readiness Bureau (CCRB) & CNM Workforce Training Center

The College and Career Readiness Bureau (CCRB) is excited to invite you to the CTE Leadership Workshop, scheduled for January 17, 18 & 19, 2024, at the [Central New Mexico Community College \(CNM\) Workforce Training Center in Albuquerque](#) ([map link](#)). This year, we're proud to offer a hybrid format, accommodating both in-person and virtual attendees, ensuring a diverse and inclusive experience for all.

Innovative Workshop Sessions Tailored for Comprehensive Learning

The workshop has evolved significantly from its previous avatar as the CTE Applicant Workshop. This transformation is evident in the array of engaging and tailored breakout sessions planned for our attendees. These sessions include topics like CTE 101, Grant Application & Management, Supporting Documentation, Programs of Study & Career Cluster Guide, and Work-Based Learning. Each session is designed to cater to the unique needs and interests of our participants, offering in-depth insights into the multifaceted world of CTE.

Specialized Grant Management Training - Guidance by Brustein & Manasevit, PLLC

A key highlight of the workshop is the three-hour grant management training session conducted by the law firm Brustein & Manasevit, PLLC. This session will cover crucial topics like the Education Department General Administrative Regulations (EDGAR), the General Education Provisions Act (GEPA), and relevant Office of Management and Budget (OMB) Circulars. The training aims to provide attendees with a practical understanding of these regulations through real-life examples of compliant and noncompliant practices.

Mandatory CLNA Process Session Essential for Funding Applicants

Another critical component of the workshop is the mandatory session on the Comprehensive Local Needs Assessment (CLNA) process for CTE FY25 funding. This session is crucial for anyone applying for funding in the upcoming fiscal year, providing vital information and guidance on the application process.

TABLE OF CONTENTS

- [CTE LEADERSHIP WORKSHOP '24. 1-2](#)
- [P2C / C2C: Pg. 3](#)
- [WHAT'S HAPPENING WITH AP?: Pg. 4](#)
- [EARLY COLLEGE HIGH SCHOOL S: Pg. 5](#)

- [EVENTS & RESOURCES: Pg. 7](#)
- [SCHOLARSHIPS : Pg. 8](#)
- [CCRB STAFF: Pg. 9](#)

Networking and Best Practices at the CTE Leadership Workshop

The CTE Leadership Workshop places a strong emphasis on networking, offering structured lunches and breakfasts for attendees to build professional connections, share ideas, and plan future collaborations. These sessions are more than just social gatherings; they are a platform to foster a community committed to advancing Career Technical Education. Complementing these networking opportunities, the workshop will also feature guest presentations showcasing best practices from the field, providing attendees with valuable insights and real-world applications in CTE.

Who Should Attend? - A Call to Educators and Administrators

This workshop is an invaluable opportunity for anyone involved in secondary and postsecondary education. We specifically encourage participation from charter schools, Regional Education Cooperatives (RECs), and other educational entities. The workshop is tailored to meet the needs of both newcomers to CTE funding and those looking to deepen their understanding of the field.

Registration Details and Follow-Up Support

The registration deadline for the CTE Leadership Workshop, originally set for December 13, 2023, has been extended to accommodate more participants. We encourage interested individuals to seize this opportunity to register, as **we still have a few slots available for in-person attendance and no limit for online participation**. After the workshop, CCRB coaches will offer follow-up meetings with Local Education Agencies (LEAs) to provide additional support in preparing their applications for early spring submission, ensuring a continuum of assistance and guidance post-event.

Contact for Further Information

We're Here to Assist You.

For any additional information regarding the workshop, please do not hesitate to contact **Judith Cruz** at Judith.Cruz@ped.nm.gov or **Tiffany**

Walker at Tiffany.Walker@ped.nm.gov. Our team is ready to assist you with any inquiries you may have.

When you register to attend the event (link below) we ask that you select the break-out sessions that you would like to attend.

WHAT: CTE Leadership Workshop 2024 (HYBRID)

WHEN: January 17-19, 2024

WHERE: CNM Workforce Training Center, 5600 Eagle Rock Ave NE, Albuquerque, 87113

Also Zoom for online VIRTUAL PARTICIPANTS.

WHY: To support participants applying for federal and state funding to strengthen CTE programs in the 2023-2024 grant year. Also training on federal grant management requirements.

WHO SHOULD ATTEND:

- * CTE Administrators
- * Perkins Directors
- * Fiscal Managers
- * Data/STARS Coordinators
- * Staff members who help prepare the district/charter or postsecondary institution Application for CTE Funding.

3 Tips to Accelerate Math Learning

Educators can increase momentum and enhance learning opportunities to ensure positive outcomes yet this spring. **Because when education becomes relevant, students fully engage.**

As educators approach the holiday season and the halfway point of the school year, increasing momentum and enhancing learning opportunities are **crucial** to ensure positive outcomes.

[Learn more](#)

Here are 3 ways to drive math instruction this spring:

01

ENHANCE LEARNING

Use supplemental materials to engage students.

02

ANSWER THE WHY

Show students how math is used in careers.

03

PROFESSIONAL DEVELOPMENT

Provide quality resources for educators.

Urban Districts Embrace Career and Technical Education (CTE) Programs

The resurgence of CTE programs demonstrates the need for education to be more closely aligned with industry requirements and the labor market. As shared in [The Washington Post](#), urban districts are embracing and expanding CTE programs to provide students with tangible and direct pathways to high-value careers. The P2C Labor Market Navigator can effectively drive decision-making for educators, allowing all districts to build robust, well-aligned CTE programs to meet the needs of their communities.

[Read More](#)

Revitalizing Rural Communities

P2C experts delivered a webinar on the Comprehensive Local Needs Assessment and explored how [AESA](#) members can revitalize rural communities. During the webinar, P2C shared best practices and strategies to **effectively and efficiently drive regional success in CTE**. Explore how labor market analysis can drive change and connect with us to support your regional needs.

[Download the Presentation](#)

Want to learn more? Contact Tiffany.Walker@ped.nm.gov or call 505-695-8483. Ready to get started? [Click here!](#)

[Pathway2Careers](#) teaches math skills in the context of high-value careers. More than 500 online lessons cover all core secondary math courses, searchable by standard, skill, or career. This is achieved through providing effective, vested, engaging sole source solutions in customized labor market data, career exploration tools, and mathematics & career-connected learning curricula.

The [Careers2Communities \(C2C\)](#) program is designed to increase all New Mexico students' college and career readiness, ensuring that those students traditionally underrepresented in higher education and the workplace can equitably achieve high-value careers. C2C is funded by the federal *Expanding Access to Well-Rounded Courses Demonstration Grants Program*, and is **free** for all New Mexico students and teachers.

The College and Career Readiness Bureau is joined by several partners in the Careers2Communities program, including [NS4Ed](#), [MC²](#) and [High Plains REC](#). Learn more [here](#).

Pathway2Careers is a free, standards-aligned, HQIM resource for use by high school math and CTE teachers. Interested in learning more? Several upcoming opportunities are available. Schedule a virtual tour of the program or a "quick start" of any one of the resources. Email Alexandra.Lutz@ped.nm.gov or call 505-490-3648.

Pathway2Careers Curriculum is available to all New Mexico schools at no cost. [Click this link to learn more](#)

Advanced Placement (AP)[®] is a program of the College Board. Students in AP courses do college-level work in high school classes. At the end of the year, students can take the corresponding AP exam. When students earn a score of 3 or higher (on a 5-point scale), they may qualify for college credit.

NM AP Canvas Resource Center

This course aims to provide resources and professional learning to support New Mexico Advanced Placement programs. To access the course resources and professional learning. This course has enabled open enrollment. Students can self-enroll in the course once you share this with them.

Click [HERE](#) to Enroll in the AP CANVAS Resource Center

AP Classes

There are [38 different AP courses](#). AP classes are taught by high school teachers on high school campuses (or online) during the regular school day. Some schools may have pre-requisites for students who wish to enroll in AP classes, or requirements for teachers interested in teaching AP classes. Some schools offer students weighted GPA scores for AP classes, but the course work itself does not qualify for college credit.

AP Exams

All public colleges and universities in the state of New Mexico [guarantee college credit](#) to students who earn a 3, 4, or 5 on an AP exam. Thousands of institutions of higher education across the country and around the world also grant [college credit for AP exams](#).

AP exams take place in May. The courses are designed to prepare students to succeed on the exam, but students may take an AP exam without having completed the course. Most students take the AP exam at their own high school campus. The exams are scored on a scale from 1 to 5, last for two to three hours, and consist of both multiple choice and written questions.

Students must pay a fee to take an AP exam*. Some schools pay the cost of the exam. The College Board reduces the fee for students whose households qualify for free or reduced-price lunch, and the New Mexico Public Education Department pays an additional portion of their exam fee, so that qualified students only pay a nominal amount per exam. For more information, see the [Fee Reduction Program](#).

*Additional fees apply to AP Capstone, canceled exams, and exams requested after the ordering deadline.

Benefits of Taking an AP Course

Although students can expect that AP classes are more rigorous than regular high school classes in the same subject, they are worth the effort for those willing to try. Besides potentially earning college credit, just a few of the many reasons to take AP are:

- AP classes provide a challenging and engaging environment where students get a taste of college work, boost college skills and increase their confidence.
- AP students are more likely to be accepted by the college of their choice.
- AP students are more likely to graduate from college in four years.

To learn more about AP and access more links to resources, click [HERE](#)

The CCRB is pleased to welcome Tierney Roberts to the Team!

Tierney assumes the role of Education Administrator and College and Career Readiness Coach at the Public Education Department. Previously, she made a significant impact as a science educator and department head at [Sandia High School](#) and has a strong academic foundation in Biology and Chemistry from the [University of New Mexico](#).

In the College and Career Readiness Bureau, Tierney will draw from her rich background to mentor as a regional grant coach. She will also work to advance the International Baccalaureate program and support the *CTSO Family, Career and Community Leaders of America (FCCLA)* throughout New Mexico.

Her past work, notably in fieldwork and museums, has enlivened educational settings with authenticity. Tierney's skillful integration of educational technology and interactive teaching has propelled student achievement. These strengths are now the backbone of her coaching role at the College and Career Readiness Board, where she will bolster educators and students.

Tierney enters Career and Technical Education with infectious energy and deep knowledge. Her drive to motivate and lead students defines her as an essential member of the CCRB team. In her new capacity, Tierney stands as a steadfast mentor, equipping New Mexico's students to excel in tomorrow's dynamic world.

Securing Student Success:

Consider NM Early College High School Designation

Early College High Schools are an innovative approach that blends high school and college. These research-based programs allow students to graduate from high school while simultaneously earning college credits toward a degree and/or industry-recognized certification. Early College High Schools give students the launch pad they need to succeed while building the workforce and economy of the surrounding community.

New Mexico has committed resources to Early College High Schools across the state, supporting programs as they create pathways from high school to postsecondary experiences, to the workplace and careers. To learn more about New Mexico's Early College High Schools, visit the resource page at <https://www.echs-nm.com/>

Interested in learning more about becoming a designated Early College High School?

Join us for a **FREE webinar on Tuesday, January 9, 2024, at 1:00 p.m.** to learn more! Hear from experts in the field, including Seth Martinez, Principal at San Juan College High School. To register for the webinar, click [HERE](#).

If you have any questions, please reach out here: kelly.kennedy@p2c.org.

Early college high schools integrate college into high school, enabling students to earn a high school diploma alongside an associate degree or industry credential. These schools are tuition-free and provide rigorous academic and career technical education to all, emphasizing support for underrepresented groups such as low-income, first-generation, and ethnically diverse students. Through partnerships with colleges and community organizations, these schools ensure collective investment in student success. Their programs offer work-based learning aligned with New Mexico's economic sectors and a CTE sequence leading to industry-recognized credentials.

**A PARTNERSHIP
DELIVERING
THE BENEFITS
YOU NEED**

It takes a sisterhood to close the gender gap in tech.

INTRODUCING COMMUNITY PARTNERSHIPS

Girls Who Code is an international nonprofit leading the movement to close the gender gap in technology. Our programs spark computer science interest and support persistence in technical fields from early education through career.

Our **free Community Partnership Program** delivers expanded benefits and targeted support to communities through customized, thoughtful partnerships with state and local leaders, school districts, community organizations, library networks, and colleges/universities.

HOW TO BECOME A COMMUNITY PARTNER

STEP ONE

Scan the QR code and submit our Community Partnership Confirmation Form.

[LINK](#)

STEP TWO

We'll confirm our partnership and work together to launch impactful programs in your community.

QUESTIONS?

Email our team at communitypartnerships@girlswhocode.com

“ *The partnership with Girls Who Code...will help move the district forward and provide unique opportunities to engage [students] traditionally underrepresented in computer science courses.* ”

- Joshua K., Community Partner
Newark Public Schools

Opportunities for Educators

Teaching resources, including **lesson plans**, a powerful curriculum management system loaded with ready-to-use materials, a broad array of ethics education resources, videos, programs of study, and more.

Professional development, such as an annual conference, live and recorded webinars, and in-person custom training.

Assessment, including A*S*K Certifications, digital badging, end-of-course, and end-of-program exams.

High School of Business™ program, a complete, project-based program with accelerated courses and college credit options.

Student organization support for advisors of DECA, FBLA, and BPA.

Business engagement efforts to ensure that your students learn skills and knowledge in line with labor market needs.

Inspiring Materials Highlighting Women In Nontraditional Careers

Nontraditional careers are those where women comprise less than 25% of the workforce

Her Own Words® Women in Nontraditional Careers is an exclusive library of **Posters**, **Media Programs**, **Resource Guides**, and **Career Cards** effective for widening the scope of career choices for women and girls.

Sourced from nearly 200 extensive interviews and photo shoots conducted by **Producer Jocelyn Riley**, these materials offer a unique opportunity to see and hear about nontraditional careers directly from the women who work in these jobs. Learn more [HERE](#).

Not every woman will choose a nontraditional career, but every girl and woman should have the information so she can consider it.

New Mexico Scholarships and Grants

Calling all you high school seniors in New Mexico! You've worked hard, made your grades, and now it's time to think about college – seriously!!! A scholarship or a grant might be just what you need to make your college education possible. And, even if that's not the case, it never hurts to get some recognition – which is what a scholarship is – for hard work, well done. Scholarships and grants are bountiful in our state. There are some listed below, and your guidance counselor can probably tell you about a lot of others! Give it a whirl – you'll never know if you don't apply!

- [Scholarships For Women Over 40](#)
