Outcome

WHO IS BETTER OFF AS RESULT OF THIS GOAL ? HOW DO YOU KNOW THAT THE MISSION GOAL IS

WORKING?

Mission-goal creation questions for reflection. How much did the school do? How well did the school do it? Is anyone better off as a result? and How do you know?

What is the uniquely transformative aspect of your school?	
What are the ways that schools are experiencing your mission, including the activities, classes, certificates, credits and experiences?	
How many students will be performing at what levels?	
How is your approach uniquely transformative for your students? What skills do your students gain?	
Will anyone be better off? How will you know it is working?
