

## 22-8-27. Transportation equipment.

- A. The department shall establish a systematic program for the purchase of necessary school bus transportation equipment.
- B. In establishing a system for the replacement of school-district-owned buses, the department shall provide for the replacement of school buses on a twelve-year cycle. School districts requiring additional buses to accommodate growth in the school district or to meet other special needs may petition the department for additional buses. Under exceptional circumstances, school districts may also petition the department for permission to replace buses prior to the completion of a twelve-year cycle or to use buses in excess of twelve years contingent upon satisfactory annual safety inspections.
- C. In establishing a system for the use of contractor-owned buses by school districts or state-chartered charter schools, the department shall establish a schedule for the payment of rental fees for the use of contractor-owned buses. The department shall establish procedures to ensure the systematic replacement of buses on a twelve-year replacement cycle. School districts requiring additional buses to accommodate growth in the school district or to meet other special needs may petition the department for additional buses. Under exceptional circumstances, school districts may also petition the department for permission to replace buses prior to the completion of a twelve-year cycle or to use buses in excess of twelve years contingent upon satisfactory annual safety inspections.
- D. The school district shall file a lien on every contractor-owned school bus under the contract, which lien shall have priority second only to a lien securing a purchase-money obligation. The school district shall perfect its lien on each contractor-owned school bus by filing the lien with the motor vehicle division of the taxation and revenue department. The lien shall be recorded on the title of the school bus. A school bus contractor shall not refinance or use a school bus on which a school district has a lien as collateral for any other loan without prior written permission of the department. A school bus lien shall be collected and enforced as provided in Chapter [55](#), Article [9](#) NMSA 1978. The school district shall release its lien on a school bus:
  - 1) when the department authorizes a replacement of the school bus; or
  - 2) when the contractor has reimbursed the school district the amount calculated pursuant to Subsection E of this section if the school bus service contract is terminated or not renewed and the contractor owes the school district as provided in that subsection.
- E. No school district shall pay rental fees for any one bus for a period in excess of five years. In the event a school bus service contract is terminated or not renewed by either party, the department shall calculate the remaining number of years that a bus could be used based on a twelve-year replacement cycle and calculate a value reflecting that use. The school district shall deduct an amount equal to that value from any remaining amount due on the contract, or if no balance remains on the contract, the contractor shall reimburse the school district an amount equal to the value calculated.

- F. If the school district fails to take action to collect money owed to it when a school bus contract is terminated or not renewed, the department may deduct the amount from the school district's transportation distribution.
