In creating the analysis contemplated in NMAC 6.2.9.15, the PEC has asked CSD to identify in each written analysis or recommendation the participating CSD staff members, peer reviewers, and members of the applicant team by name, position, and contact information. The list of peer reviewers is uploaded to the PEC drive for Commissioners to review, which is Folder 4-2024, New Applicant folder. Next year, the chart of this information will be included in the documents listed above. 4. To prepare for a possible appeal hearing, as outlined in NMAC 6.2.915, PEC has asked CSD to identify a team lead for each New School Application it is who is knowledgeable about the contents of the recommendations and reports regarding that application and who can provide witness testimony if needed. It is my understanding that this person is Director Chavez. So, good afternoon, once again. Thank you

1	charter schools. And we were and I am very proud	1	
2	of all the work that everyone does every day to	2	ir
3	uplift and support and grow the charter community.	3	b
4	And when facts if you look at a	4	b
5	newspaper, people are and I'm not denying that	5	to
6	those aren't facts nationally. I don't even know.	6	W
7	But they are not facts in New Mexico.	7	
8	The notion that a public charter school in	8	d
9	New Mexico is not financially accountable to the	9	ri
10	public is falsely representing charter schools in	10	
11	New Mexico, because our charter schools have that	11	c
12	double obligation. They have a financial framework	12	ri
13	with us, and they are obligated to the audit that	13	
14	every public school in New Mexico faces.	14	d
15	So it is I am just concerned that	15	I'
16	people who present themselves as the media and that	16	fa
17	facts are going to get out there. And there was no	17	0
18	attempt to at least to my knowledge, to anyone on	18	tł
19	this Commission, to ask for any information so that	19	c
20	they could present the facts fairly.	20	
21	We have we provide strict guidance for	21	tł

	-	1	

So it is a disappointing kind of dynamic in the charter community that, ideally, it gets better and better -- I know from -- it's gotten better over years. But, obviously -- and I do want to say, you know, you're in a new -- like, having -we talk a lot about charter deserts; right? And schools of choice. Like, choice deserts in New Mexico, you're in one. Absolutely; right? Commissioner Manis, this will be the only charter in your district if it were to be approved; right? So in that whole -- it's a massive district. For there to be none is -- those are --I'm looking for -- I'm, like, please give those families options. Please give those students options in these areas, too. This is -- for me, this is exactly what I am hoping for for a community. I'm going to -- and I imagine anytime there's the first charter in a new community, it's going to be more difficult on those -- on that proposing team than any to follow.

So apologies. But also, I mean, it does show the need for how you communicate, how to

2	And for the business community, that can	2	part of me on this side.
3	be detrimental; right? When you have people who are	3	When I was a teacher, my reaction to
4	looking at transferring to that Base, what are those	4	students copying and pasting was, "Oh, my God. You
5	parents looking at? The schools; right?	5	can't do that. You can't do that. That's
6	And I like, me getting that information	6	plagiarism."
7	of, like if we lose our if these families	7	When we're writing business plans, we copy
8	don't want to move to Alamogordo because we don't	8	and paste all the time, because we take what's

9 have great schools for their children, we lose our 10 base, then we lose our businesses, then we lose our 11 homes, you know.

12 Like, it is -- and the community cares so 13 deeply. And it made such an impression on me. 14 And I was so grateful that the business 15 community was so involved in education down there, 16 and has made impact in many different ways to --

17 because you want the bar high. You want those 18 schools to attract people to want to come to

19 Alamogordo; right? 20 Everyone succeeds when the education rigor

21 is high, and they're showing success, and you can 22 get people to come to your community.

23 And I know that's what the city wants. It 24 actually doesn't surprise me that this is kind of

25 where, to me, it almost feels full circle from me

successful, and we employ it, because we know that that start-up just got money based off of it. So we're 100 percent going to copy and paste that and

put it right in.

13 And that is not plagiarism. It's not. 14 It's not trademark; it's not patents. We do all the 15 right things to make sure we're not copying anything 16 that's proprietary information. But we, in the real 17 world, in the business world -- I know there's a lot 18 of business owners up there -- we do a lot of just 19 taking what's already working and just doing it. 20 So that's where my conflict is coming in 21 is -- my academic part of me feels like it's kind of

22 lazy to just have pieces that are just the exact 23 same. 24

So then I look -- I was grateful to see,

25 like, the pieces where it was -- like, this is

So, yeah, those are my big points that I just wanted to share. It doesn't take away from everything and the hard work that you've done. I wanted to give credit where credit is due. But that's the trepidation I'm feeling right now. MS. CYNTHIA STONG: Can I address a couple of things? So we did listen to everyone. We had those public meetings that I talked about. And I think, even in the application, I we summarized some of the feedback they gave us, the positive. And I think I asked for, "How can you where do you see improvement?" And then parking lot where we tried to give them answers back. So we did listen. And, in fact, one of the LULAC folks did join our board. And, of course, I did the deep dive, you know, just in all transparency, when we found out, because we didn't know. Again, this was piecemeal to subs. And so it was horrifying. It was absolutely horrifying to see that. And then so I thought, well, what did we say there? Can we own that or not? And we can own it, I mean, all of it. We would do it that way. So the proprietary piece of that is still good. It's still righteous. It still speaks to the larger need in our community and the larger empathy that we have for our kids in giving them what they need. So, I mean, it's emotional. It's really tough. 4	So budget is my deal. And the budget was	4	And so, yeah, I the cut and paste in
5	a major problem. I'm not going to beat that dead	5	the areas that we mostly talked about, what I got to
6	horse. We did that at the community input hearing.	6	tell you, Patty's concern with the special ed
7	But myself, it's totally incongruent with	7	program and having things in it that you clearly
8	what the narrative for the five-year plan was. And	8	weren't going to do, that's really problematic.
9	I pointed some of that stuff out when I was there.	9	Okay.
10	So as I said, we don't have to beat that	10	Is it so I'm under this gun to make a

3	And I would I really hope that we can,	3	And the school didn't respond adequately. They had
4	as a Commission and as CSD, that we can overcome	4	the opportunity today to say that.
5	these wonders they call them wonders.	5	COMMISSIONER BURT: Okay. Yeah, no. I
6	I note you guys come from a different	6	actually like I said, I was just, like, trying to
7	background. And that's why subbing that part out	7	come up with I'm solution-based. There's a
8	seemed natural to you. Very problematic.	8	problem. What's the solution?
9	And so you do own the whole thing. And so	9	So it was, like, coming up after hearing
10	to say, "I subbed it out and I didn't cover it, I	10	you. I'm actually okay. Like I said, I did a
11	didn't catch that," I think that's what you got to	11	review of everyone side by side.
12	say. "We screwed up. I didn't catch it. And	12	I don't have like, if everything was to
13	that's and it was a horrendous mistake."	13	be followed on the application, I would feel good
14	I still feel like I would rather err on	14	about where the school is heading in those ways.
15	the side of providing for kids. That's just my	15	So I think it was trying to address your
16	position. So I'm going to be praying for you guys.	16	concern. It wasn't necessarily my concern. And I
17	THE CHAIR: Commissioner Burt.	17	see where you're coming I actually, totally I
18	COMMISSIONER BURT: I guess I'll just ask	18	actually agree with that.
19	this out loud. Because I'm listening to	19	DR. MICHELLE PERRY: Commissioner Gipson,
20	Commissioner Ingham.	20	may I have a moment to respond?
21	So I do have a motion. And what I'm	21	COMMISSIONER BURT: No, you don't need to.
22	wondering is and I don't know if it's I'm open	22	You don't need to. Yeah. No, you're totally fine.
23	to if, like, others will even support it, and if	23	I do have a motion. All right.
24	it's legal, in addition, like, kind of two prongs,	24	I move that the Public Education
25	if it's even a good idea.	25	Commission approve the application for Sacramento

7	their school.	7	1. Negotiate a contract with the Public
8	And if it is incorrect, to make a revision	8	Education Commission.
9	to CSD as to why what their model would look like in	9	2. Obtain standing as an approved board
10	that way. And I don't know if that's appropriate or	10	of finance.
11	not.	11	3. Secure a facility that has
12	THE CHAIR: So I think the letter did	12	E-Occupancy.
13	that. The letter asked them to explain. So that	13	And, 4, complete the Planning Year
14	did that. For me, the concern is if we're if	14	Checklist. Sacramento School of Engineering and
15	we're giving this space to this school, then other	15	Science is approved on the condition that the school
16	schools that we've said no to, why aren't we giving	16	provide a plan for possible options for

19	That's where, you know, if we're looking	19	Once the school has provided the
20	at fairness and equity, if I'm an applicant that	20	documentation set forth above, the condition shall
21	someone has said no to, it's, like, "Well, they	21	be deemed to be met, and the information shall be

23	And I hear everyone with, "I think it can	23	COMMISSIONER TAYLOR: Second.

1	I'd like do you want to make a comment?	1	I can't support this, because at this
2	COMMISSIONER BURT: Yes.	2	moment in time, the supports for students not you
3	So I am this is I do think you put	3	were asked to come back to us and specifically,
4	us in a really bad situation, unnecessarily,	4	today, speak to how those areas, especially with the
5	completely unnecessarily.	5	special ed area, was going to best support the
6	Like I said, when I did the review, I	6	students in your school, and you failed to do that.
7	didn't see it was I didn't like it. But,	7	Not that you didn't do it at all. So
8	also, it wasn't your school. And I can	8	that is disappointing. The fact that you don't have
9	differentiate from that.	9	a plan, and it didn't appear to be even an
10	What I why I'm supporting this is	10	understanding of what interim assessments were and
11	because at the end of the day, I'm here to put	11	what you were going to do with them, to me, that's
12	New Mexico kids first. And I'm not going to punish	12	what grows a strong school.
13	the community of Alamogordo and every future	13	I'd be way more comfortable if the if
14	high-schooler that deserves this opportunity at a	14	there was a breath taken, and the applicant team
15	high-quality science and engineering school because	15	came back in a year and said, "We we heard you.
16	you hired the wrong person to do this.	16	We saw those things. And we can make this better."
17	I hope this is a lesson learned from any	17	But I think it's too heavy a lift,
18	applicant in the future. Like, when you don't have	18	especially when you're looking at a budget that
19	the expertise yourself or you hire out like, it's	19	doesn't support the school at this moment in time.
20	very difficult.	20	So I because of those areas that fail
21	But I am going to in my I feel very	21	to support students, and you missed that in hiring
22	good in my heart putting kids first. Alamogordo	22	whoever you did, the onus always it lands on you
23	deserves this. Alamogordo kids serve this.	23	to review it and say, "Yes, this is what we're going
24	Alamogordo families deserve this. And I'm not going	24	to do. No, this isn't what we're going to do. And
25	to punish them from this.	25	I'm going to put kids first. And the supports for
	111		113

2	with that at the back of my mind. Having the	2	time for me."
3	support of the community in the way you do, I	3	Commissioner Brauer, and then
4	expect I, actually, because I know the community	4	Commissioner
5	and how they hold folks accountable in education, I	5	COMMISSIONER BRAUER: Thank you,
6	expect this school to be held highly accountable,	6	Madam Chair. I always just love the concept. I
7	not just by us, but probably more so by your own	7	love doing this in a community like Alamogordo. I
8	community.	8	really love the support that you have received from
9	And I want I do support this school.	9	so many people.
10	And I would expect it to be, in the next by the	10	And, also, I want to put kids first, too.
11	next time you come for a charter contract, you	11	I really do. Here's the "but."
12	should be that in that Top 100 High Schools in the	12	Our process is in black and white. And I
13	United States. You should be in the Top Ten in	13	can I have I live in the gray areas of this
14	New Mexico. That's my expectation for this school.	14	world. But one of the things this is the easiest
15	And I think that's what your community is	15	decision I will make today, because it's right there
16	expecting as well, is that you are rivaling like,	16	in black and white, and also not just in our rubric,
17	AIMS has a rival for number one with this school in	17	but what I personally deem as ethical and unethical
18	Alamogordo.	18	is black and white for me in this situation.
19	And I can imagine the pride that	19	And I can't own holding kids back or,
20	Alamogordo will have when you can succeed in that	20	like, putting kids first right now. Like, I have to
21	way.	21	think about where I sit here. And it's in our
22	THE CHAIR: Commissioner Brauer.	22	processes.
23	So I support the concept of the school	23	And I think about how it's a lousy
24	1,000 percent. And I speak often about charter	24	situation. I don't blame either one of you for it,
25	deserts. And I know it's needed.	25	like, at all. But it is your responsibility to

30 (Pages 114 to 117)

	114		116
1	review the application, as it is for me to review	1	THE CHAIR: Commissioner Carrillo, and
2	grants that I write. And if I wanted to get a grant	2	then Commissioner Beck.
3	from somebody, and I saw that Corina wrote a grant,	3	VICE CHAIR CARRILLO: I always enjoy
4	and it worked well for her for the USDA, I'm going	4	hearing from you, Commissioner Brauer, the insights
5	to take that and take her work, you don't think that	5	you provide. Thank you.
6	USDA team is going to look at that and say, "What in	6	Something that (audio distortion) said
7	the world was Alan thinking?"	7	earlier, and you clarified something for me.
8	They probably wouldn't give me a single	8	Because I had asked I even probably said it to
9	dime. And they probably wouldn't allow me to even	9	you at one point when we were driving here why
10	apply for any other USDA funding.	10	wasn't anyone from Holloman at the community input
11	You have an opportunity to apply next	11	hearing? Why because of the partnership. And it
12	year. I think that would be good.	12	never even occurred to me, the Hatch Act.
13	I can't support this. It just comes down	13	And everyone working in government in that
14	to my own personal ethic on it. Like, I I'm not	14	position, taking that Act not that our former
15	going to and I don't normally get on a soapbox,	15	president ever did but taking that Act seriously.
16	as you all know. This is one that I feel like is	16	And that explained that to me. Why aren't they
17	going to be the easiest decision for me today, even	17	here, because it's an obvious partnership. So thank
18	though it weighs on my heart.	18	you for making that clear.
19	It's easy, plain and simple. We do this.	19	But Stewart, what you had said and I
20	There's words that we die from, being arbitrary and	20	you all I can hold two things at once, like
21	capricious. Every single lawsuit we get is	21	Commissioner Brauer said. I can hold what
22	arbitrary and capricious, and every single one of	22	Commissioner Brauer I can take that to heart.
23	those lawsuits, we lose when we do things like this.	23	But I can also say sometimes what's for kids, what's
24	We lose them.	24	for adults, how are we conflicting the two.
25	And so I think there's so much more at	25	And for me, it's always I believe, you
	115		117
1	stake.	1	know, giving kids an opportunity first. And I think
2	And, for me, I think, like, we like,	2	this in Alamogordo, specifically in Alamogordo, is a
3	sometimes, Commissioner Ingham, I know I'm not	3	great opportunity.

putting you on target, I promise you. But, like,
something you said in our previous review was, like,
"We are the voice of charters, we kind of represent

7 charters in some ways." I'm paraphrasing.
8 This is another example of, like, we

9 represent charters. We represent healthy chartering
10 practices across the state.

11 And we approve this? That is not healthy 12 authorizing practices.

13 And I just want to make sure we're seeing 14 that -- we're separating wheat from chaff in this 15 scenario. I love this school. I see it. But I can 16 hold two things at once in my head. Like, the 17 school has worked really hard for this. There's a 18 lot of good things there. Kids deserve an 19 opportunity to have a school that's STEM-based. We 20 deserve to have them work in the DoD and the DoE, 21 both down there in Alamogordo, as well as in Sandia

as well as Los Alamos Labs.
I can see that, such a beautiful thing.

24 We also have to hold ourselves to account on what we

we also have to hold ourselves to account on w
 care most about.

great opportunity. On the assessment thing, I feel like when I was hearing you guys talk, the conversation was

I was hearing you guys talk, the conversation was
going like this, you know, in terms of the
assessments. And -- I lost my pen over here.
And I don't care what assessment you use.
I care that you have assessments that measure growth
during -- at the beginning and during the semesters.

during -- at the beginning and during the semesters. And I actually like the idea -- I don't

care that you don't know right now. I like the idea that you're going to decide with staff what assessments are going to be best for you to show growth.

Now, clearly, like, you've got the PSAT and things like that; that's a one-time deal. But I just -- it was just interesting, as

I was thinking about that conversation, just somehow on completely different tracks, going (lost audio).

21 VICE CHAIR CARRILLO: Sorry about that.

22 Thank you. Schools that are operating. I

23 understand the difference -- clearly, I understand

24 the difference between the renewal process and the

25 new school process. But we use the word

31 (Pages 118 to 121)

			31 (Pages 118 to 121)
	118		120
1	"renewal" but there are also the schools that are	1	I just think there's too much that has
2	renewing their charter, but they're a new school	2	gone awry to protect our kids in the '26-'27 school
3	with us; right?	3	year. I think it needs one more year.
4	And so sometimes I think those terms get	4	And we talk about this all the time, is we
5	confused, because I consider the ones over these	5	would love you to come back, because we think the
6	years that have come to us, I look at them as being	6	idea is wonderful. We think the community is
7	new schools; right?	7	wonderful. The community is behind it.
8	And I look at past performance, like	8	But I just don't think from and, again,
9	it's, like, if you were a franchisee or something,	9	I attended I drove all the way down to
10	and you now have new operators and new management	10	Sacramento Albuquerque and I read the
11	and new staff; right? And that's what I'm going to	11	application twice. I just don't think it's prepared

16	This has been one Commissioner Brauer	16	COMMISSIONER TAYLOR: Yeah, thank you. I,
17	said this will be an easier one because it's more	17	too, am a (audio distortion) and have ethics. I

19	one.	19	But I don't I don't feel like this is
20	But I support these kids having this	20	necessarily I battled with whether this was an
21	opportunity. And I support giving you the	21	ethical issue.
22	opportunity to prove, and to really prove that	22	To me, it's not so much an ethical issue
23	you're up to this.	23	in this particular case, because I don't think
24	Because we take on any school, we take	24	it's I don't think it was a willful act of
25	a risk, even people that come with the best	25	defiance or or anything like that.
	119		121
1	applications ever. Sometimes their boards flail.	1	So I I do feel like the way that
2	And once a board flails, who knows what happens	2	Commissioner Burt characterized it, I think,
3	next; right?	3	earlier; maybe academic laziness, almost. And
4	So I want to thank you very much. Thank	4	that's a harsh term, kind of, because you guys have
5	you for your ongoing, over years, dedication to	5	worked your butts off to get to where you are with
6	kids, to your community, and good luck here today.	6	this process.
7	THE CHAIR: Can I just ask Commissioner	7	But there was a misstep in this particular
8	Manis, is your hand still up?	8	area, I believe.
9	COMMISSIONER MANIS: It's not up. But	9	But I don't think it's enough of an issue
10	whenever everyone else is finished speaking, I'd	10	to deny the kids of Alamogordo this opportunity.
11	like to make a comment.	11	If when is the last time a charter school was

15	I appreciate all the comments. I thank	15	So, to me, it's, like, let's give these
16	you for all the great work you've done.	16	let's give the kids this opportunity. So
17	I think, again, it's a really it's a	17	THE CHAIR: Commissioner Manis.
