

## PEC Consent Agenda Notifications

February 21, 2025

The number of changes for the given position during the current fiscal year (FY2025) is given in parentheses after each school's name.

The number is calculated for changes that go into effect during the fiscal year, so a notification submitted to the PEC in June 2024 (FY2024) but effective July 1, 2024 (FY2025) is considered a FY2025 change. The number refers to changes for that position only, not total personnel changes. A resignation notification in one month followed by a designation the following month for the same position is considered **one** change, not two, and will be footnoted.
