It's been a bit since I came to one of the meetings and spoke. My son attended Alma Arte (verbatim). While he was there, he was bullied by administration. His needs being a special education

He was mistreated with so many different things that he wasn't the only student. Even on a Corrective Action Plan, the school was still let off easy.

My husband -- my husband and myself privately had him tested, and those results were used for his IEP.

Right now, he's attending New America.

And since day one, they've been amazing. My son has passed classes that he couldn't pass at Alma Arte because he didn't have the support. Now he's outgoing. He talks way more. He's made friends. He's excited to go to school. He's a completely different child from when he attended Alma.

Not only did Alma Arte administration fail my son, but so did the governing board, and I'm sorry to say, so did the Commissioners sitting here today.

Parents spoke up, told you the problems. They still do to this day, and yet you fail to do anything.

The administration and governing board should have been replaced a long time ago.

I feel so blessed and so happy that my son does not attend that school anymore. Yet my heart

but also a direct violation of the charter and governing policies. Alma continues to violate its own bylaws, its charter with the PEC, and OMA, among others. When these violations are pointed out, complete with evidence, Alma denies accountability.

Despite numerous efforts to bring these challenges to light, Alma's misconduct persists unchecked, as no governing authority, including the PEC, has enforced the rules and statutes in place to ensure compliance.

At the October PEC meeting, Alma's preliminary annual report showed unsatisfactory performance with 11 out of 26 indicators in the red. Despite this, Alma was not issued a Notice of Concern, unlike the other two schools with only three indicators in the red each.

This non-issuance of a Notice of Concern violates the very rules and statutes the PEC is tasked to uphold as the authorizing and compliance body.

The PEC rule states that if a school is not rated as Satisfactory or Exemplary in performance, a Notice of Concern must be issued. While failing to document Alma's unsatisfactory performance, the PEC projects the false narrative

still breaks for the students and parents that do.

My son is doing amazing, because I advocated for him, because we support him. And now we're part of an amazing school that supports him.

We have never heard one parent -- a parent -- not a colleague, not a teacher -- defend the administration of the governing board at Alma Arte. Right there, that says it all.

Thank you.

MS. MELISSA BROWN: Thank you. Next we have Jana Holguin.

FROM THE PUBLIC: Good morning. My name is Jana Holguin. Last name, H-o-l-g-u-i-n.

Good morning, members of the PEC, PED, and CSD.

It was stated at a previous PEC meeting that its members are believers in checks and balances. However, it's glaringly evident that no such system exists at Alma.

Despite the contract's mandate for the governing body to adhere to rules and laws regarding conflicts of interest, Alma operates with blatant nepotism and cronyism, such as a husband and wife both serving on the board.

These conflicts are not only unethical,

that the school is performing adequately, which is -- couldn't be further from the truth.

Repeated unsatisfactory performance must be -- result in documented consequences. As per PEC rules, uncorrected unsatisfactory performance is defined as the failure to correct performance deficiencies over a two-or-more-year consecutive annual reports during the charter term.

The PEC must enforce this standard with Alma, which has clearly failed to meet the mark repeatedly.

The charter requires Alma to notify the PEC chair and Department within 15 days of any written complaints. Was the PEC notified of my complaint filed October 13th?

The response I received from Alma was riddled with lies and inaccuracies, claiming compliance despite clear evidence to the contrary.

The charter also mandates background checks for employees, volunteers, contractors, and their employees.

Has Alma complied with this requirement for the students under contract through the Innovation Zone grant, or for the DJs working with the students? If not, this presents a serious

safety legal violation that cannot be ignored.

Alma remains out of compliance with the State's webcasting mandate. Meetings are plagued by persistent video and audio issues. Webcasts lack submission options for public comments, and recordings and minutes are not posted within the required time frame.

For instance, the livestream listed for October 21st is really the meeting from September 16th. The webcast for November has yet to be posted despite my repeated requests for access.

This lack of transparency directly violates the mandate and obstructs public oversight.

It has been said the PEC is an authorizing and compliance body. Here again, I'm presenting numerous examples of Alma's repeated and consistent non-compliance with its charter, as well as state and federal laws, that indicate a systemic failure of oversight.

I would like to know how you all intend to address Alma's ongoing non-compliance. Ignoring these issues not only undermines the public trust in this institution, but also jeopardizes the students and families who depend on the PEC to enforce its own standards.

But the audio and video quality, because it is not being professionally done -- I don't know where the \$10,000 that they allotted for that went -- is so poor. It's only through the efforts of Mrs. Holguin that we actually can attend virtually the meetings.

There's no provision for us making public comment from -- from -- via Zoom as is this. And they recently changed the starting time so as to make it even more difficult for people to attend in person.

But what I know is that they continue to misrepresent the number of students they have, that -- and the students are spending a lot of time in the cafeteria again. They misrepresent who is actually teaching at the school on their website. The website is fairly useless.

And time and time again, it's as if -- how gullible is, particularly, CSD or PEC or the General Counsel? They all just take everything -- everything seems to be taken at face value when it comes from the administration, when it's -- it's blatantly obvious that nothing has been corrected.

Thank you for your time again.
 MS. MELISSA BROWN: Thank you, Janet.

Thank you.

MS. MELISSA BROWN: Finally, we have Janet van Coblijn.

FROM THE PUBLIC: My name is Janet van Coblijn. My last name is two words, v-a-n space C-o-b-l-i-j-n.

Good morning, everyone. Again, I would much rather be singing the praises, particularly, of New America. I can only second Michelle's comments on how fantastic they have been, not only on their own, but in accommodating Alma students -- or former Alma students.

But, alas, we're still going over the same thing that we've been going over for at least with the Public Education Commission and CSD now for well over a year, year and a half, two years.

I'm calling in from overseas again because I cannot be there in person. When there's a GC meeting in two weeks at Alma, I will not be able to do anything except maybe gain access, because the head administrator controls who can access. And if he doesn't like who it says it is, he won't let them in, which is interesting, to say the least. Not only that, it doesn't make it very much of an open meeting.

That concludes Public Comment.

THE CHAIR: We're done? Okay. Thanks. We're now on to No. 4, which is School

Highlights and Spotlights.

Commissioner Beck.

SECRETARY BECK: Thank you. I attended the Albuquerque School of Excellence Winter Cheers Festival on Saturday. And it was awesome. What it is is it's a celebration of their diversity and the cultures within the -- from the school.

So we were able to hear a -- a -- or see a wonderful African dance routine for about -- I want to say ten, twelve relatives of two of the students.

There was a Japanese, very loud drum performance, which was quite interesting.

Some songs and some poetry.

And it was really wonderful. So I want to say hats off to Mr. Alik [ph] and his great -- and also I want to say a shout-out to Gloria Ma (verbatim), who's the -- she's the eighth-grade teacher who organizes all this stuff. And it's really wonderful. So it was fun. My wife and I had a good time. Thank you.

COMMISSIONER BURT: Thanks. I have two things. First, ASK Academy, which we -- they just

came -- they talked to us about their robotics program, how it's -- they went yesterday. They were in Dallas, Texas, at a national robotics competition and got into the top ten in the nation. They got ninth place in the entire country.

2.

So big shout-out to ASK Academy, their sponsors, teachers who lead students, but those students who really do -- I mean, it's very project-based learning. Those students are doing the work. So congratulations to the ASK Academy robotics team for representing New Mexico in such a great way.

As well, I also have a -- the Albuquerque Business First every year puts out a Woman of Influence award. And this year, Jade Rivera from Albuquerque Collegiate received the Albuquerque -- she's one of the recipients of the Albuquerque Business First 2025 Women of Influence Award.

So congratulations to Jade for being recognized for the work she's doing, not at her school, but in the community at large. So congratulations to her as well.

THE CHAIR: So I want to say a big congratulations and big shout-out to Margarita Porter, who was the PCSNM's Charter Leader of the

So it's -- you know, I just want to say
she does just an incredible job. And it's all too
often those that are doing that great job, we just
kind of -- because we're focused on the issues. And
we don't get to say thank you, how much I appreciate
you.

So I just want to make sure -- and I've already told her that.

So thank you.

them.

Anyone else?

Okay. So we are on to item No. 5, which is our introduction of our new member.

So we want to say welcome to Sam and offer you an opportunity, if you want to tell folks a little bit about yourself or -- you know.

COMMISSIONER OBENSHAIN: Sure. So I was thinking yesterday what a kind of surreal experience it's been for me coming back to this community. I was on the other side of this table for a long time when I became the -- I think the first director of state charter schools in PED.

I have worked in public education for over 30 years, two-time retiree. I don't know if that means anything.

Year. She's the leader of New America - Las Cruces, and she is a force to be reckoned with.

And I hear -- I get feedback from staff, from her, and folks saying -- yeah -- I mean, she has, like, such high standards. Like, she has such a great relationship with her staff, they just want to do what makes her look good.

Because they just -- and she supports that school. And she has -- you know, they have a tiny-tots program that started out literally in a closet, because she was that committed to making sure that those students could get to school and be served.

And it has expanded, and I don't know how. She's like a budget wizard. Because what she does with the folks that are unfunded, you know, because she's got the -- it's a recovery school, by and large. So she's got a lot of aged-out that they have committed to continue to serve.

And she gets -- you know, she must be on the computer all the time looking for funding, because it's, like, there are the little kids. And it's -- and they've been able to purchase -- they're in a lease-purchase in their building now. So I'm hoping that the NMFA program might be able to help But the little bit of trivia -- so to tell you how full-circle this is, I was the principal at Harrison Middle School in Albuquerque Public Schools back in the day. And we were one of the four original conversion charter schools in New Mexico.

I worked with -- this name will maybe remind some people -- Dr. Michael Kaplan at the time was the director of charter schools. And we were the first school ever to rescind our charter, which was -- was just this crazy experience. No one had ever done it before.

I -- the reason I decided to rescind the charter was because I felt like we could do everything that we needed to do with stellar leadership and good teaching, and we didn't need another form of oversight. So that was kind of my introduction to charter schools and the charter community.

Corina was the person who interviewed me for the job as charter school director back in the day. I have since been a director of Cottonwood Classical Preparatory School after I left here. This is -- this is something for a historian to check. But I may still have the longest tenure of any charter school director in the history of that

VICE CHAIR CARRILLO: I would like to nominate Ms. Pattie Gipson for Vice Chair.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	thank you for all your efforts in being our Chair again for this last year and all the work that you've supported us in doing in good ways, in a way that our Commission is I've been talking to a lot of different folks here. The Commission is so I don't want to say functional, because that seems like that's it hasn't been functional in the past. And we I try not to be judgmental. But it's been really it's been really good to see how we interact and engage. And that comes from leadership, intentional leadership. And I just want to thank you for that. THE CHAIR: Thank you. COMMISSIONER BRAUER: I want to thank Steve for being the Vice Chair this past year. I know the extraordinary I mean, I don't know personally. But I know the extraordinary work we've put into the Vice Chair role, which it's a lot. And I know that Chair Gipson, you're well equipped to lead that and direct us to support the heavy lifting that's going to happen with our schools.

service of jumping in -- year two of your charter experience as a human, to jump into this, I think it's really great.

And so I wanted to share that all with you all. And I also -- just because of the world in which we live right now, I think that this is how normal is. And it feels extraordinarily abnormal that this is how we engage with one another.

But this is normal. And I feel like -- I know I've shared a lot about how wonderful it is to have five Ds and five Rs on this dais. And it's beautiful to see how we can transition in leadership without any blood-letting, but with love and kindness.

And I feel like -- I just think it's important for us to name that and call that out in the world where this is not normal anymore.

And the only way we can get back to normal is if we start to see, like, this is what it is. This is the full embrace about how politics ought to be done in our little spot that we care about in New Mexico.

I just applaud you all and all the work that we do together and that we continue to make this the "normal" of American politics. Pahl was the acting director, but he was doing
policy for PED, so he just didn't have -- so the
manager was running the show, and she really didn't
have the authority to do that.

So it was -- and, honestly, there might

have been three people on staff. That's the -- you know, we have more schools, but not that many more. So we've -- it's been a long, hard fight to get the -- to where we are today. And there was some blood-letting. There was. But thank you. Thank you, everyone.

SECRETARY BECK: Yeah. And I just wanted to say, Mike and I, speaking of blood-letting, looking forward to having a boxing match. We thought we were going to have a boxing match here. Unfortunately, that didn't turn out. But I want to thank Patty.

COMMISSIONER CLAHCHISCHILLIAGE: This is Sharon. I want to get a -- hello.

THE CHAIR: Sorry. CommissionerClahchischilliage.

COMMISSIONER CLAHCHISCHILLIAGE: Good morning, everybody. I want -- this is Sharon. I want to ditto everything that has been said. But I want to add that what really assisted me was the

1 confidence that I have and had in all three of you.
2 And listening to the conversation when we go into

the weeds has really been educational for me.

I especially appreciate that factor from

you-all. And I also appreciate the fact that yo

you-all. And I also appreciate the fact that you just instilled so much representation of our charter by the knowledge and experience that you-all have exhibited.

And, Tim, I want to congratulate you and tell you, you did an excellent job as a freshman, as a newbie, on our Commission. So great job. And I look forward to the next round. And I know I'll learn even more.

Thank you.

SECRETARY BECK: Yeah. I just wanted to finish up saying I appreciate working with Patty and Steve and Julia on the EC. I learned a ton on there. It educated me a lot in terms of what goes on here. So these guys are going to be awesome, all three of them. I know that they're going to be direct and to the point, and it should be a great year ahead.

THE CHAIR: We're now on to Item No. 6, which is Discussion and Possible Action to Approve the Open Meetings Act Resolution for 2025.

THE CHAIR: I want to say thanks to Tim. His voice has been really important. And I really look forward to moving forward.

You're right. I -- you know, I've always really appreciated and counted on Bekka's voice. So it's really important to be there.

So I really -- I think this is -- I mean, we are all on a good path. I tell folks all the time that work in politics, "You need to come to one of our meetings, and then I want you to tell me who's an R and who's a D., because you're not going to be able to do it."

And we work hard at that, and maybe to the (inaudible) of everyone else.

We have differences. And to me, differences are what get us to a better place. So -- and we respect the differences, and we respect the votes that we take at the end of the day and support whatever the group has decided.

And that's -- you know, that's what good governance is.

So we are -- we are in a far better place than when -- you know, there wasn't actually -- when I came on, there wasn't a director. So we had a manager that really didn't have that power. Matt

Update by CSD on the Submittal of Plans and Discussion and Possible Action to Complete the Conditions.

So we had three of the applicants that had conditions. So we're just looking to close these out, if -- and I -- and I think we -- we can do two. I don't know whether we have -- I don't think we have confirmation from --

(Off-mic discussion.)

2.

MS. MELISSA BROWN: So I'm taking this. You have our synopsis of the schools and the two plans that we have in your drive. I can share screen.

As of Tuesday, I believe, Equip Academy is still working to have multiple options. Nothing has been confirmed at this time.

Then we have Sacramento School of Engineering and Science. Their condition was to provide you guys with a possible plan -- a plan for possible transportation. They have submitted a comprehensive plan on how they would do that, and that is in your drive.

And if you have any questions we do have the board chair here present.

And then Sun Mountain Community School has

the school understands that. We understand that.

But when we went to look at the language to make sure it says that, it doesn't say that. It just says "west side." We're going to continue to have it be "west of the Rio Grande."

THE CHAIR: Yeah.

COMMISSIONER INGHAM: (Off-mic.)

Sorry. I was just suggesting that west of Broadway is the west side. So there is a significant area that's between Broadway and the river --

THE CHAIR: And the river, yeah.

COMMISSIONER INGHAM: -- that is potential. And I would hate to limit them in that role just because of that, if that's what they're -- if that's what they come across.

COMMISSIONER BURT: I think so. I've had conversations with Equip about it, because it's -- so the location that they're looking at, it's actually -- it still is -- like a kind of a complicated spot, because it's like -- and they're going to provide documentation to clarify this for us when they do it.

Like, it's actually right on the border of Rio Rancho and Albuquerque, like just south of

a condition to write a plan for possible transportation and a plan for outreach. And they have provided that. It's very comprehensive, and it's also in your folder.

THE CHAIR: Thank you. Hopefully, by next month, we can close out Equip, once they've signed the lease. That's the only thing that's hanging that up at this point in time.

They're close, but they just haven't signed on the dotted line. It's really -- yeah, it's -- it's -- you know, this is -- as anyone that's opened a school, this is the hardest -- to me this is the hardest of the Implementation Year, which is sometimes our people have said, "You know what? I think the..." -- it should be a year and a half or a two-year cycle, only because it's so hard to get a facility, that that consumes so much time that everything else -- so that, you know, we can't require them to have a facility before, because you can't get a lease on a hope and a promise, you know. So it's hard. So, okay. Thank you for that.

MS. JULIA BARNES: In looking at these conditions, I think we had said that Equip would open a location on the west side. We mean the west side of Albuquerque west of the Rio Grande. I think

Intel, just south of the car dealership. And it's, like, almost on the line there.

There's a big old college campus that's vacant. And it technically has a Rio Rancho address, but it's an APS boundary. So it's going to -- that's what -- I think, like, kind of a -- up the hill and across the street. Like, up -- yeah. So that's where their location that they're looking to start in. So I don't think it would be impacted by that.

COMMISSIONER INGHAM: That's actually farther away than the places that I was talking about. I mean, I thought they were looking for a more centrally located area of town. That's actually quite far north. That, to me, would not be ideal for what they described.

But to find a facility, they've got to do what they've got to do. So I'm not challenging that decision at all. I'm just saying that's kind of disappointing in my world, 'cause...

COMMISSIONER BURT: Yeah. I talked to her about that, too. I talked to her about that. Because I know that was something that was, like, part of that discussion. And her -- she did already start ramping up the idea of trying to get

2	have access to that area.	2	SECRETARY BECK: Commissioner
3	And, actually, when she looked at, like,	3	Clahchischilliage.
4	the Southwest quadrant, there's actually quite a few	4	COMMISSIONER CLAHCHISCHILLIAGE: Yes.
5	charter elementary charters in that area;	5	SECRETARY BECK: Commissioner Ingham.
6	whereas, that north side actually doesn't have any.	6	COMMISSIONER INGHAM: Yes.
7	And so she actually started looking more	7	SECRETARY BECK: Chair Gipson.

14	It wasn't her ideal area, either. But it	14	COMMISSIONER TAYLOR: Yes.
15	is what the facilities kind of led her to. But she	15	SECRETARY BECK: Commissioner Obenshain.

THE CHAIR: Item No. 12 (verbatim), which is Discussion and Possible Action Regarding Dream Diné Charter School.

And the first -- we have a number of concerns, the first being the Notification of Governing Board Members. Because, first, the school has --

VICE CHAIR CARRILLO: You meant 11; right?
THE CHAIR: Oh, I'm sorry. I did. I gave
it the wrong number. This is Item No. 11,
Discussion with Dream Diné Charter School regarding
the -- the status at the school.

And there are a number of concerns. We needed an update on the number of board members, because it -- they were below five. We did not know how -- it was unclear whether they were at one or whether they were at four or whether they were at three.

And a number of us went through board minutes, and still I had no idea. But they were definitely below five. They were when they came up. So we need an update as to where they are in terms of the numbers of the board and whether they are

THE CHAIR: Is there -- so just asking.

Is there anyone -- is there anyone from the board with you?

MS. NADINE CHATTO: Yes. I have two board members here with me. I'll let them introduce themselves.

8 THE CHAIR: Yes.

Charter School.

9 MS. NADINE CHATTO: And they spell their 10 last name: correct?

THE CHAIR: Yes.

MS. VERONICA TSO: Greetings. My name is Veronica Tso. Last name is spelled T-s-o, and I'm the board president.

MR. ADAM BEGAYE: Good morning, ladies and gentlemen. Adam J. Begaye. Last name, B-e-g-a-y-e.

THE CHAIR: So good morning. And as I mentioned, we'd like an update as to the status of your board, and then if we can get confirmation from Missy about notifications. And so maybe if you could give us that update on your board membership.

MS. NADINE CHATTO: Okay. As of today, we have four board members. We have Veronica Tso. We have Adam Begaye. We have Talibah Begay. And we also have Kerby Johnson.

still under five.

And then when we spoke with them last month, they had a student enrollment of 15. So we -- they did -- and so just to remind Commissioners, the school's budget concern is not as much this year, because they have a grant which will keep them afloat this year.

School Budget gave us a report that indicated that if they stay at this number for next year, they won't have that grant, and they'll be about \$205,000 less in their Operational.

So we ask -- the school said that they were working on a plan, an outreach plan to get students, and we asked them for an update on that. Yes. So are they here?

MS. MELISSA BROWN: Yes. The director, Nadine Chatto, is.

MS. NADINE CHATTO: Yes. Can you hear us? THE CHAIR: Yes, we can. Thank you. So good morning, Nadine. Just a reminder. Could you introduce yourself and spell your last name for the record?

MS. NADINE CHATTO: Yes. I'm Nadine Chatto -- my last name is spelled C-h-a-t-t-o.

I'm the head administrator at Dream Diné

We have a potential board member that is here with us today, Dr. Becenti. So right now, four on board, and possibly another one here in about a couple of more weeks. But she is here. Our potential member is here.

THE CHAIR: Thank you. So, Missy, we have confirmation of notification of all -- well, I think one was still -- so maybe three members, we needed notifications for?

MS. MELISSA BROWN: We do have -- I'm sharing a document that Bianca updated. So there were some late notices, but -- excuse me. I believe at this point, we have all of the documents for the four current members.

THE CHAIR: For the four current members. Thank you for that.

But there -- and I understand you indicated that hopefully you have a fifth board member coming aboard soon.

Please, if you could, try to get that documentation to us for the February meeting. So --because you still are sitting below five. Well, I -- because it's -- yes.

VICE CHAIR CARRILLO: (Off-mic.) COMMISSIONER BURT: So they can submit

before the meeting. Their submission, that's the 45 days. Not when we hear it.

VICE CHAIR CARRILLO: (Off-mic.) COMMISSIONER BURT: Yeah. They're probably pretty close. Oh. 11/26 is when it dropped below five? They're already way past, yeah. Yeah.

THE CHAIR: So, Nadine, it really is critical that we get that documentation for the fifth board member.

MS. NADINE CHATTO: Yes.

THE CHAIR: Thank you. So when we spoke last month, you had a -- you indicated that you had a current enrollment last month of 15. So we asked for an update on your enrollment.

MS. NADINE CHATTO: We have 17, actually. We have 17 students. Our 40th day was just confirmed, and we had 18 at that time. We're still working through our kinks for the 80th-day count. But right now we have 17.

THE CHAIR: So you had indicated that you were -- you had some plans for community outreach. So have you been able to do some? And I'm guessing you didn't get any students, then, as a result of that outreach?

reached out into our chapter houses, our local chapter houses that surround the Shiprock community -- there's three of them that are local -- and spoke at their -- their public comments to share out about the school.

I think the big feedback that we are receiving and the challenge is the transportation. So the families, as you guys are aware -- maybe not -- we don't offer transportation. So the parents have to make the commitment to drive their kids.

So I think that's one of the things that we are working with our families -- we're working with our team now is to figure out how we're going to go about, in the new year, to provide transportation to those families.

And we are also -- last night we actually hosted a Winter Wonderland. So we had a literacy night, and we opened our community up with our families in hopes of having -- encouraging other community members to come out, see our community, look into our classrooms.

We had Christmas lights set up, luminarias. It was something we wanted to do in December. We were just a little bit behind.

MS. NADINE CHATTO: Yes. We have -- hold on a minute. Let me have Andrea Thomas speak to that. Thank you.

MS. ANDREA THOMAS: Hi. Good morning, everyone. Andrea Thomas. Last name, T-h-o-m-a-s. So since last meeting, we did make some recruitment efforts at the end of December, in the middle of December.

So we went out into our communities. And we have an outreach community coordinator out -- who went out into the community, and along with a couple of our employees, to try to recruit some students prior to the winter break.

Unfortunately, we have people who were interested but did not enroll.

As you guys are aware, we have three elementary schools through CCSD and a tribally-controlled school in the community. So just kind of fighting for those students has been a challenge.

Middle of the year, families are kind of, you know, into wanting to stick to their schools unless something may have happened during the winter break.

So coming back into January, we have

It was a good turnout. We had our families and just other -- (audio silence) came in. We had kids that were curious about wanting to know where the community is located, what we're doing, and just meet the staff.

The other thing that we are working on, Nadine and I have really kind of reached out is to kind of think about the recruitment for next school year, the kindergarteners. So we at Dream Diné are located next to a New Mexico Head Start, a childcare facility.

And so we've been partnering -- we've been in conversations about going to their parent nights in hoping that their students who are ready to transition into this school next school year -- they're right in our backyard -- can start to look at Dream Diné as a possibility.

We are also using our network within Navajo Nation Head Start to work with them in figuring out how we can connect with them to get their -- to help to transition.

I think a lot of the families who have -who immediately are -- CCSD, Central Consolidated Schools, offers preschool. So when the families go in there, it's easier to transition their families

So, you know, since we don't offer preschool here at Dream Diné, utilizing these resources will be very beneficial for us.

Another person that we have spoken to and we are working with is San Juan Community College, which is located in Farmington. So they have families who are -- parents who attend the school there and live here in Shiprock.

So they've asked us and were curious about wanting to know how they can work with us to start having their kids maybe start thinking of childcare as kindergarteners -- I, mean kindergarteners in the next school year.

So those are some of the efforts that we've worked on within the past month. And this coming weekend, we are working -- we're going to have a -- gosh -- a board retreat with our incoming board members and our staff. And we are going to be working on our strategic plan, now that -- and to update our new board members onto our team.

So those are the efforts we have been doing within that time frame.

So any questions?

THE CHAIR: Commissioner Brauer. But

THE CHAIR: Okay. Got you.

Commissioner Brauer.

COMMISSIONER BRAUER: Great. Thank you, Madam Chair. Thank you, Dream Diné team, and NISN team that's there with you-all.

I think that -- I know that you-all are going to be working hard to get the assurances and the other documentation that we need to get everybody on-boarded.

I do think -- Ms. Thomas, thank you for giving the overview of what has been happening for getting the student enrollment up.

I know that less than two years ago, the school was around 45 kids, 40 kids, at the very least. And so I know that there's opportunity

I think that -- sorry. Excuse me. I think that it's important to kind of think about how do you get the numbers for students enrolled now. But we also know -- I mean, as an educator working in schools, it's hard to get students from one school to another at this time in the year.

So it's just kind of the way it is, unless families are moving or leaving CCSD or a BIE school for a certain reason.

55

before Commissioner Brauer, Missy has an update on the notifications; so...

MS. MELISSA BROWN: I want to apologize to the school. I want to apologize to the Commission, and I mostly want to apologize to Bianca. I did not notice the note at the bottom. So we are still missing assurances, affidavit, and a statement to consult for both Adam Begaye and Talibah Begay.

And I also just wanted to say that if the potential new member would like to sign up for board training before their being appointed to the board, we can set them up.

THE CHAIR: Okay. Thank you. So did you hear the two members and the documentation that still is needed for them?

MS. ANDREA THOMAS: Yes. Yes.

MS. NADINE CHATTO: Mr. Begaye is with us, and he is aware of it. He's sitting right here. So we're getting on it. We're doing what we need to do.

THE CHAIR: I'm sorry. I didn't quite get that.

MS. MELISSA BROWN: That Mr. Begay is there, and he knows that he has to -- they're working on it.

I do think -- this is a moment -- and I'm not going to -- I'm not asking -- this is just, like, a little bit of, like, suggestion, if I was in your shoes, to really start to put a full press on recruiting for next year. This is your moment to recruit for next year.

It's great to hear Ms. Thomas, how you all are thinking about the kindergarteners coming in. But I think you need to be doing K-5 recruitment. Like, we ought to be talking about how do we get the numbers up as they were just after COVID so that you have a lot of -- a lot of opportunities for young people, especially the Diné-centered -- the Diné-centered work that you all are doing.

That is an area, in my belief, that separates you from the other schools in the local community. And so my hope is that -- and I am concerned about hearing that we're at 17 students at the school. That's really hard to keep doors open. I don't have to tell any of you the hardship that that puts the school in.

But I hope, and I think that this is the challenge for the governing council and for the school to really take on and start to really hit -hit the recruitment for next year and having a

really robust plan to get K-5 students at the school.

2.

I also would say, like, Commissioners, I don't know anything about what's going on on the ground. But I imagine with a full governing council change, except for one person, oftentimes that comes in small towns. I know the small town that I grew up in and the small towns that I'm familiar with, including Shiprock, where the school is located, that may have happen- -- that may have hurt student enrollment. You know, some families might have been, "Hey, I need to leave if the whole GC is turning over."

So I just know that's a natural tendency. But now the school, this is your opportunity. This is your opportunity to get more young people at the school and engage more families and just really get this -- this on the right path.

So I am concerned to hear that we're a third of the student enrollment as we were a couple of years ago. That's hard. That's hard to hear. And I know that puts a lot of pressure on all aspects of running a school.

And so my hope is that we can start to really hit the ground running on that and to get our

Because this was really a tragic event that has occurred here, and we certainly don't want to see you guys falling below five again. That would be really tragic. So I just want to encourage you to get more than five, if you possibly can.

Thank you.

THE CHAIR: So, hopefully, next month we'll have the notification and all the additional documentation for the other board members so that we'll be in good standing with that. Yeah. Commissioner Clahchischilliage.

COMMISSIONER CLAHCHISCHILLIAGE: Yes. Thank you. I just want to add to some of the remarks that were being made. And I know that this is a very difficult task to fulfill, because of the community. I mean, we -- I looked at all the schools that are within Shiprock and then the surrounding communities, and we have a lot of the same members who are serving on the various boards unavailable.

So I guess it's time to dig in to maybe other pots, like teachers. And I know you've done this already.

But I think that, like CCSD, I'm looking at all the people who are members there, and then

1 sc

some of the other school districts.

So I know that it's really hard trying to recruit, serve on the boards. But in addition, what's made everything even more difficult is the departure of the plants. We've lost our populations because families have moved out of state, and then have moved into different parts of the state.

Children are -- are experiencing various school districts in one year. Within the community that I live in, we have, in fact -- in fact -- we have three families that have returned from Texas and are in the process of getting their children registered into three public schools there.

So we have that going on.

And then I suspect -- I suspect the same three will probably be moving out again. And they mentioned that they probably will move back to Texas.

So there's this -- there's a lot of transitioning going on within the Shiprock area, because I know the whole community is still adapting, adjusting to what is going on in terms of the re- -- the plants leaving, and then people moving out, seeking temporary employment.

So this impacts what you're trying to do

governing council on board and equipped for their work so that they can support the health of the school.

THE CHAIR: Commissioner Ingham.

COMMISSIONER INGHAM: Yeah. I also want to challenge you guys. You know, five members for a board is the minimum, and that I recognize that you've had a wrestling match to get up to that level. But I would ask you and challenge you to not let up on recruiting members in your community and engaging with your community to get more active people on your board so that you don't run into this situation again.

Because we don't -- you know, with a completely new board, that's a whole other level of people that have other issues in their lives. And so you really don't want to function on the bare minimum.

So I would say don't give up on recruiting board members and engaging with your -- your community there and challenging them to support your school by being a board member and looking for people that have a skill set that will really enable your board to be much more -- a much better functioning board.

in terms of getting people to serve on boards. And also what makes it really difficult, too, I know, is the difficulty of getting the people educated to charter schools.

2.

You have the -- you have -- not only do you have the public school, then you have the tribal schools, you have BIE schools, all of that clustered in Shiprock. And so getting the charter school concept across to the community is a lot of work.

But I know you're doing that, and I know you're doing it with a lot of effort, because I've seen it.

So maybe I could help in identifying some people who would be good at the -- at the board level and who are available. We have a lot of retirees that I'm sure wouldn't mind serving on a board.

So I can help that way in identifying some people. So I just wanted to add that, because I know that the community is really depressed because of the removal of the plants. And then we're up for another removal again soon.

So the main workers at these plants were Navajos; so, therefore, the families of the people who are without a job are impacted and falls back didn't have transportation, and it was up to the parents, and other places where we did. And that made a big difference in terms of our ability to recruit.

So I just was wondering if you had identified other obstacles to your student enrollment situation.

Thank you.

MS. NADINE CHATTO: This is Chatto again. Commissioner Crenshaw (verbatim), transportation is the main obstacle that we are facing right now. We did some parent/family surveys, and out of those surveys, we realized that a lot of them have issues with transportation, bringing their students to and from, which impacts, you know, attendance. It impacts our morning instruction.

So some students do -- when they get here, it's late, and they're always giving us -- telling us that they can't get here on time because car trouble, or, you know, they -- whoever was using the vehicle the night before didn't bring it back, you know, those kinds of things. So we're really looking at transportation.

I know this is one of the reasons why we brought NISN out here this weekend. They're going

(

So I definitely want to step up and help you all in identifying this -- the dilemma you're in. So I will be by, and I'll see how I can help in identifying people to serve on your board. And maybe I can talk to the three families that I know who have just moved back from Texas and see if they know about charter schools.

So that's what I can do. Thank you.

THE CHAIR: Thank you.

on -- on Dream Diné school.

Commissioner Obenshain.

COMMISSIONER OBENSHAIN: Yes. Thank you.

First of all, are those Blake's Lotaburger burritos that are on the table? It looks like that bag that I'm familiar with. They're making my mouth water.

But I know that you mentioned one of your big challenges was transportation. And I'm just wondering if you've identified any other obstacles that you feel like are impacting your student population that potentially could be, like, for lack of a better term, low-hanging fruit that you could look at and identify, "Here is what's keeping kids

I know transportation is a big one,

because I've worked in charter schools where we

to help us strategize in getting a bus, possibly just one. And with that, we also talked about maybe how we were going to take care of expenses on it.

So that is the biggest -- the biggest challenge that we have at this point. And we're going to really work hard on it, because I know next year, that is going to be the question again. "Do we have transportation?"

So, yeah, that's -- we don't see any other barriers. I mean, things that we can -- that we could control, things that we have control over, for instance, transportation and getting that is the only thing that we can really think of right now that would help us. So transportation, yeah, that's a big one.

Thank you for the comments, everyone.

And then -- I can't even think right now. Let me give the floor back to Ms. Thomas. She has also something that she wants to comment on.

Thank you.

MS. ANDREA THOMAS: So thank you for the question and comments, Commissioners. I think a lot of what everybody has said into the employment opportunities that have challenge for families, but, you know, kind of what we have and what's available

from coming."

2.

to us and what we see as challenges.

One of the other things where we have families come by and, you know, preview the school, look at it -- it is something that we're in the works of doing -- is getting a new facility.

I mean, the building's -- you know, you want to send your student -- you want to go to a school where it looks appealing. It looks exciting. You know, as much as we try to utilize what we have at our school, and, you know, what's surrounding our communities, we are in portables with limited space.

You know, we don't have a gym. We don't -- there's a lot of things that we're -- you know, we haven't had in the past. You know, when we transitioned into -- or we made the decision to go and become a state charter, some of the things that we, you know, talked about, you know, wanting to do and provide different opportunities for students, that that was going to be the start to the potential for what we could have for our students.

And so the facilities -- you have a facilities plan, you have somebody from NISN that's in the works. That has been a process in its own, where, over the years, you know, previously, it just -- it was there, but it wasn't -- nobody took

increasing the academic performance of our students.

And those -- you know, with the former governing council, with, you know, all of -- with our staff, with what we have and with our parents as well, I think that that was the shift that we've had since the beginning of the school year, which may have, you know, deter- -- like, detoured, like, some of the students and families from saying, "Wait a minute. Are you supposed to be language and culture? If that's your emphasis, should you focus on it while here, at the same time, focusing on the academics?"

And we're still trying, in our first year as a charter, to learn and understand what we're supposed to do as a state charter.

But, also, as -- you know, when we're focusing on the students and their outcomes, how are we going to, you know, have the -- the growth that is needed to show you guys, once we come in, to say, "We deserve to have -- you know, we deserve to be here, and this is our plan that we have for student outcomes."

So that's -- that's been -- that's interesting, that that has been something that we planned for. But now that we -- we put it in place

C

and we see it, it did -- it wasn't quite the

outcome, you know, that we were wanting to have, you know.

And I think, previously, when it talks about -- when we talked about the high enrollment at 4, that was when we were offering hybrid, you know. We had students who were still coming out of the pandemic who wanted the opportunity to be in person but also remote.

So when those things were happening, we were able to have that. But then, again, once we begin to up the vigor, the accountability, then those parents, families started to, like, "Oh, wait a minute. I don't know. Why are you calling about my child always being absent? Why is it that you're having my child, you know, have to maybe have some extended help or stay after school because of transportation issues that..." -- you know.

So those things are some of the challenges that we've had. And, unfortunately, we just -- we did what we could at the time. But as we move forward, those -- I'm not using those as excuses. I'm just explaining those are the things that I've noticed since I've been here at Dream Diné. And those are what we have thought of and are making

the initiative to really move on it.

Navajo Nation, getting land, all of those things have been a challenge. But we actually have a plan moving forward. So I think that that -- the transportation is the biggest issue.

But, again, going to a school that, you know, you have a library and all these resources that some of these schools are used to having -- and it's just something that I think that would help us to -- our students to get that recruitment. But that's in the future.

You know, I think that also when we came before you guys last year, you know, in wanting to become a charter, we knew that we were going to have to up the stakes. We looked at our student enrollment -- I mean, our growth, our student outcomes -- and we had to reimagine and, you know, kind of -- or re-envision what it is that we were going to do to hold our students and families accountable, to have -- you know, for the student accountability when it comes to their academics.

And I think that that has been the biggest -- the stress that I have seen as an educator myself within this community is the attention for how do we -- how do we focus on

plans for in our strategic planning. So
 transportation and facility.

So thank you.

COMMISSIONER OBENSHAIN: Thank you for that. I appreciate the comprehensive response.

THE CHAIR: So Item No. 12 is our discussion and the action.

Oh, sure.

COMMISSIONER BURT: Okay. Good morning. So I really do appreciate the group that came together to speak to us today. It's definitely helpful when I see a team, you know, together, working together, so that it -- that does give me hope for your future. And I hear, and I can empathize with where you're at and what you're going through.

That being said, I still -- I love this school. I want this school to succeed. I think it's in a -- one of those pivotal transitional moments. And I think sometimes those moments are healthy growing pains.

You know, I know that -- this being your first year under PEC and out of CCSD, there's probably going to be some transition; there's going to be some work that's different. And I totally

all start progressing and you go in the right path, we get to kind of move forward and move past this. And if this is part of your story of, "Yep, we made this transition, and it was hard, and we went through some really big struggles that first year, but it set us up for what we need in the future;" but I also want to protect ourselves, if, in that future it doesn't go well, that we do have, I think, just clear documentation of where the school is at right at this moment, so that if it is something that continues to happen over and over again, we don't have to kind of restart every time with, "Okay. Now something else, now something else."

So I am going to support a Letter of Concern going to the school for what has happened previously, just falling below that five.

I also -- I also saw that, in December at the meeting, there was only two members that were able to vote. And there were -- understandably, there are some action items that happened that were due to -- that were specific to adding and removing members, which we know -- that's what we talked about yesterday, that this is happening with boards, and they don't have bylaws to protect them.

And I think that's where, once again, this

understand, when those moments happen, some people who are used to an old system and a new system gets started, they don't really fall into the new system.

They don't want to be a part of a new system.

Things change. People move on. And I understand how that -- it seems to me that's kind of where the board ended up in.

My hope is that this is one of the healthy transitional times, that it's, like, the healthy growing pain that you have to get to to get to that solid board, doing the work, creating your plan. I'm hopeful for your time spent together this weekend creating that strategic plan moving forward.

I also think this is also a time that could be the nail in the coffin; right? So transitional times, they either -- it's the pain and it ends up for the best, or it's a pain, and it doesn't get better.

So I think where you are today is just -- I'm seeing the pain points. And where it's going to come from here, I'm very hopeful for you all. I am rooting for you all for all the success.

But because we're right now in the pain point, I think it's important just to have clear expectations and documentation of it so that if you school is an example of why we need to have schools protecting themselves when this happens. But also other action was taken with only two members voting, which is not appropriate, either.

So I did ask to include a provision in the motion about when you do get those five members, that those items that were only voted on by two members do get relooked at by a full board and get re- -- have another vote on those items, once you have all five members, to stave off OMA violations from having only two members present.

So I don't -- I see this as a way -- I actually think this -- I would support a Letter of Concern going out. But I also think this is something that I do think can be resolved within the next month. And, ideally, we can clear the school and have you continue moving forward with those corrections being made.

But I do want to make it clear what the expectations are, what we expect of the school, and how they can correct it. But I think we would be remiss to just give another opportunity and have it go without a Letter of Concern at this time.

But I do think -- I believe in your school. I believe in you-all. I'm grateful for the

So that's kind of where I'm standing with you all today, and, once again, hopeful that we can clear this out next month and that we really see that increase in enrollment next school year to where you're not only just educating kids in a way that's best for them, but also making your school fiscally viable to continue into the future.

You know, I hope you all really lean into what's making your school special, because that's what -- my concern is, you know, if you're going out and you're trying to recruit students, and you're not really getting the bites, it does make me concerned that the community is not seeing the value of your school.

So really leaning into, like, what your school is doing differently is probably going to be your best bet moving forward. And that's what -- I mean parents or families, they'll choose you for

that you come out of executive session in a vote and all these different procedures.

We're happy to help you. CSP and Missy are happy to help you with that if you need it. But it's a big deal. So just want to mention that. Thank you. Sure.

THE CHAIR: Commissioner Clahchischilliage.

> COMMISSIONER CLAHCHISCHILLIAGE: Commissioner Burt? Hello?

COMMISSIONER BURT: Yes.

COMMISSIONER CLAHCHISCHILLIAGE: I'd like

to give a point of understanding for us, as 13 14 Commissioners, just to help us understand, in addition to what Dream Diné has to, I guess, market 15 16 for themselves.

In choosing a board member -- and this is something that was triggered by what Commissioner Burt said. And I remembered that one big concern that I have in selecting board members for the charter school is this. They are competing with board members who earn up to \$500 to attend their board meetings.

And I don't think the charter school has, like, an amount that they pay. And this is how a

lot of the government -- the feds are doing it. And

even the -- I think the public -- I don't know if the public school does it. But a lot of the attendance is poor, because I'm sure it's poor

because the charter school does not give a stipend for attending their meetings.

And that's a -- that's a hefty amount to have to combat and get people to attend for the sake of, you know, the quality of the school, for helping their students, helping students in school and academics.

So that's just a point to think about.

I note that the highest I know that is paid in the way of a stipend in the area is \$500. And then it goes down, I don't know how low. But the highest I know of is \$500. So that's something to think about, too, in the attempt to get board members for the school.

Thank you.

THE CHAIR: Thank you. So, Commissioners, we did get an update. And we do, in fact, have to approve notifications.

So there was documentation that did come in completed. There's still some out that we do have a notification that we have to -- oh, it's on

what they're not getting at their school that

they're already in and where their kids already have friends.

So I really hope you all lean into that special mission of your school so that those students can receive that excellent education that I know that your school community can offer them.

THE CHAIR: Commissioner Carrillo, and then Commissioner Clahchischilliage.

VICE CHAIR CARRILLO: I echo the things that Commissioner Burt has said. And I was going over my notes from the November board meeting that I sat in on for y'all.

And I mentioned this earlier. You may have heard me say my concerns about the OMA and boards and governing councils adhering to the letter of the OMA. And I say that, in this particular case, because, as I was watching when the folks went into executive session, I mean, to me, listening to why -- how it was presented, why you were going in, it was just a complete violation of OMA.

You're so limited as to why you can go into executive session. Very limited. So you have to be, like, really, really clear, and you have to make sure that it's noticed. You have to make sure

78 1 the resignations? So -- okay. Any -- oh. I'm 1 yellow or red you can pilot some program in your 2 2 sorry. You did. school or whatever. COMMISSIONER BRAUER: Thank you, 3 3 I want you to think of this. I'm really 4 4 Madam Chair. Concern for the failure to maintain the minimum number of board members required by the Charter School Act. The school must have a complete board of at least five members by the February PEC meeting; and for the failure to timely review the contract, performance framework, condition, annual report, and annual notice, and execute the assurance form.

Once a full board of five is in place at the school, the new board is required to review the contract, annual reports, and annual report notices, and provide a second completed assurance form by the February PEC meeting.

Any action taken during the time that the board did not have sufficient membership should be confirmed by a full board of five members.

COMMISSIONER BURT: Is it an appropriate time to ask if I have a question about the report itself? Okay. Okay.

So my only question is in the demographic data of all of them, I notice that the numbers do not add up to 100 percent. So I was, like, first thinking it's an error. But maybe it's being calculated a different way, where students are allowed to pick two different designations or something.

So I'm wondering about the demographic data. So I would see schools that have, like, 89 percent Hispanic, 90 percent White, 7 percent -- so that kind of threw me off.

DR. BRIGETTE RUSSELL: Yes. Chair Gipson and Chair Burt, we use the data provided in the annual reports. And sometimes -- yes. The short answer is students are able to select multiple ethnicities. So it will be more than 100 percent.

COMMISSIONER BURT: So does that impact -when we're looking at, for example, like, the

VICE CHAIR CARRILLO: Thanks, Nadine.

24 Thanks, everybody.

MS. NADINE CHATTO: We're going to excuse

student group academic data, how does it impact the way student groups are being listed there?

DR. BRIGETTE RUSSELL: Great question, and one into which I am twisting myself into a pretzel over, because, really -- I mean, how -- so we don't want to double-count students. But if there is a student group that's under the Martinez-Yazzie lawsuit, and the student selects Native and White, there is a category that Nova reports for "any Native"; so not just exclusively, but any. So we can capture that. But it requires some fine-tuning on our end in terms of the business rules.

COMMISSIONER BURT: That might be something, especially, as we are calculating growth in the future, especially on those two- and three-day -- like, it seems like it's definitely going to make it more complicated.

I think it's more fair to the students. Because I know there's many students who feel very uncomfortable having to select one. And it's just inappropriate, like, as humans; right?

But I do get worried about, then, what that looks like when we're looking at achievement gaps. Like, how does that impact that?

So I know that makes it more complicated

COMMISSIONER BURT: So I do -- this is -this report, to me, is, like -- is one of those ones where it feels more like a struggle than maybe I should make it, because I do know, when we see these, we're looking in the rearview mirror. We're looking in hindsight.

This isn't a reflection of today at the school, by any means. It's not even a reflection of since July of last year at the school. You know, it's the -- like, the complete previous year. And so it's hard to, like, for me, always, to grapple with what I know the actions that are being taken currently, the oversight that's being taken currently, and then receiving reports that are basically, you know, outdated, but appropriate, still.

This is still appropriate for us to be doing this. But they are outdated, so it's always hard in my brain to coordinate the two.

So I do want to say I do congratulate the school for exiting the Priority Schools Bureau program. I actually -- like, that is a -- that's a

similar letter -- you know, the motion that's in, I do support, showing that it -- last school year, this school was not in the status that it wants to be itself, even, much less for us.

So I do support sending the Letter of Unsatisfactory -- any uncorrected, unsatisfactory, acknowledging that. And then, really, once again, going back to focus on the CAP, focus on the additional oversight from the school as being that primary letter of additional accountability, of additional oversight, and, hopefully, continuing progress moving forward.

So that's kind of where I'm standing is acknowledge it and kind of move on, and let's talk about where the CAP is, and how we need to -- do we need to adjust anything in the CAP, do we need to do anything different based off of the information we have from last year and the information the school has provided more recently.

THE CHAIR: I have a similar struggle, because you're looking at real-time information coming in. Now you're looking at this -- I do have concerns when someone goes from a green to a red. You know, that's -- those are big dips.

So -- but I agree. I think at this point

95

big deal for the school to have exited out of there. That, to me shows progress. And that's from a different accountability system outside of our own.

And so to see that does reinforce that, you know, there are -- there is progress getting made at the school. There is.

I think -- once again, this is, to me, documentation of kind of more of the chaos that was happening last school year and how that was -- how that, just, was -- it's that moment in time; right? Like, right when that was looked at, that's when that was happening. And it is accurate for what was happening then.

So I do -- even though I do want to continue seeing the progress from the school and acknowledge the progress of the school, this was accurate then.

And so I do think -- I -- I struggle a little bit with wondering, you know, the perception of the other -- like, of PSB working with them and seeing them in really high regards and being able to show the progress that the school has made. And I don't think we have that kind of view, which, also, once again, is a struggle.

But I do want to -- I do support sending a

in time with this document, I think we follow the course of what -- similar to what we did last year, and note any of the uncorrected, unsatisfactory, because it is, you know.

And we're never going to get out of this cycle where we're going to be able to do Annual Reports in July, you know. It's just not going to happen. We're in a better space than we have been. We have -- we're close to exactly the cycle we'll ever be in, because of the state accountability system.

So it's -- you know, it -- that's the world we live in right now. Or are we -- I'm just, quick, reading through it to make sure -- yeah, exactly.

Okay. Do you want me to do it? Or do you want to --

Okay. So I move that the PEC provide an Annual Report Notice for the '23-2024 school year to Alma d'Arte Charter High School, indicating a Notice of Unsatisfactory Performance, that the school is not on track for renewal, and identify the following:

That the school has continued to work on issues of concern at the school, as identified in

3	all students, staff credentialing, and 5.b., 5.c.,	3	COMMISSIONER BURT: So my question would
4	and 5.f. indicators related to fiscal management.	4	be is this where we kind of trigger that next month,
5	That the following items were identified	5	let's let the school come talk to us? Do some
6	as new, unsatisfactory performance related to 2.c.,	6	fact-finding? Figure out what's going on? And then

9	accessible to the public; and 5.e., staffing for	9	to be, like, Letter of Concern. You know, I do feel
10	fiscal management.	10	like that.
11	I further move that the uncorrected,	11	But, also, I wonder what the other side of
12	unsatisfactory performance be added to the	12	the story is. I do want to have all the
13	Corrective Action Plan to be remedied by the end of	13	information. I don't feel like I have all of it.
14	the '24-'25 school year.	14	And I do think it's appropriate to, once again, let
15	COMMISSIONER TAYLOR: Second.	15	a school come, give us information to the full body
16	THE CHAIR: There's a motion by	16	and then make a decision at that time.
17	Commissioner Gipson, a second by Commissioner	17	So I would say today, to trigger that
18	Taylor.	18	process being started to where we can then issue a
19	SECRETARY BECK: Commissioner Burt.	19	Letter of Concern the next on Friday, or, like
20	COMMISSIONER BURT: Yes.	20	say, Thursday to Friday, something along those
21	SECRETARY BECK: Commissioner Manis.	21	lines. Are we
22	(No response.)	22	VICE CHAIR CARRILLO: After 30 days, you
23	SECRETARY BECK: Commissioner Manis.	23	have to wait another 30. So that takes
24	COMMISSIONER MANIS: Yes.	24	COMMISSIONER BURT: I don't think we do.
25	SECRETARY BECK: Commissioner Brauer.	25	I think we can do actually so this was

something I forgot. This was in policy subcommittee, not in the real world. But maybe it's something that we can, like, consider -- I don't know.

But that's where -- I do not want to issue a Letter of Concern today until I'm able to speak to the school, have information from them, get the full breadth of knowledge from all sides. And today is just not an appropriate venue to do that.

THE CHAIR: Commissioner Taylor.

COMMISSIONER TAYLOR: I disagree. I feel like they -- they know what the deadlines are. If we issue a Letter of Concern, they can be here next month and explain why we issued their -- what the issue was with it.

THE CHAIR: So my memory, because, number one, they're on the Intervention Ladder already. So it's kind of cumbersome to -- a Letter of Concern, which triggers the Intervention Ladder, when they're already on the Intervention Ladder. So it's, like, we've got dual letters going on. So that gets a little --

COMMISSIONER TAYLOR: Well, for different issues.

THE CHAIR: I think --

they had not submitted yet.

They can come up next month and give us whatever rationalization or excuse they may have, and -- but there's a point at which it's, like, you know, the gavel has to fall, or whatever the metaphor -- I'm --

THE CHAIR: So I asked Julia to check to see if we've already identified it as a concern so that they would be coming up. And we've covered it, because it's been already identified as a concern.

MS. JULIA BARNES: So from the letter last year, you reported the school's condition of renewal as Unsatisfactory. They did give you a report, so you accepted that report.

Then proficiency -- the progress towards proficiency and growth of students was found to be insufficient. Compliance with the reporting on the condition was insufficient.

And the timing and information required to submit the condition in a timely and complete manner needed to be corrected. And that is in the letter that you sent out last year.

VICE CHAIR CARRILLO: When last year? This is January.

THE CHAIR: The Annual Report Letter from last year.

COMMISSIONER TAYLOR: Can we? THE CHAIR: If I remember correctly, part of the Intervention Ladder concern was their

of the Intervention Ladder concern was their condition document, if I remember correctly. I think we've already identified that from last school year -- the year before last school year -- that that -- so can you check that? I think that's already -- I know we've had discussions with them about it, because I -- I do -- I do remember that there was a point, for the '22-'23 school year, that

COMMISSIONER TAYLOR: My -- I guess the angst I have is that it wasn't submitted in a timely fashion, you know. I -- I agree that -- and it's not like this hasn't been a semi-pattern with Alma. So --

THE CHAIR: Commissioner Carrillo.
VICE CHAIR CARRILLO: I agree with
Michael. I don't care how -- if the school has
seven Letters of Concern, that's fine with me if
they're all for different issues.

It's just -- it's just so ongoing. And so, I mean, the fact that there has been plenty of time to be able to put in -- to respond, I think a Letter of Concern is absolutely warranted here.

MS. JULIA BARNES: It actually went out
April 26, with the Annual Report Notice for last
year.

VICE CHAIR CARRILLO: Bekka has her

VICE CHAIR CARRILLO: Bekka has her hand up.

THE CHAIR: Commissioner Burt.

COMMISSIONER BURT: I'm just going to take this as an opportunity to use the school as an example of how we're letting things go way too long.

The fact that the condition -- like, we're looking -- we need these issues brought to us sooner. We have to get these issues brought -- this is an inappropriate forum to do this work in. As an Annual Report from last year, and we're going to look at it eight months later? We could have addressed this last July, you know. Like, that's where I keep coming to.

I still -- and, once again, I'm completely open to ensuring this school -- like, information is documented on what's not working and what's not happening from the school side. But I will feel like a fool if we issue something today saying, "You didn't do this," and then they come up, and they have another side to the story that we didn't listen -- that we did not hear them out on first.

I don't want to keep doing this reverse thing. We send something out, "You did this wrong," then they come up and say, "Well, look at this, here's our side."

2.

Maybe there's something else that we don't know yet. And I would love to just have -- I would ask that they come next month, have this conversation with us that we would do anyway, and issue the notice at that time.

And maybe it's the next level. Maybe it's -- but I feel like just issuing Letters of Concern without ever having a conversation first when we're talking about it, like, we're discussing this without them -- we're not going to talk to them today. We do not talk to schools during this time.

It feels more appropriate to have a conversation with a school than issue something after. That's my only -- it's more of a process thing than it is -- and I think it's a respect thing. Like, we have one side of the story. And I would like -- the other side of the story may be insufficient. It may also be we might be wrong.

And so I don't want to keep making those mistakes over and over again, where we're jumping the gun, and then I feel foolish when a school comes

that the school does not have this done. I am very unhappy with it. Bud I do also, just, in general, I would like to stop sending letters and breaches out before we talk to schools, before we hear their side. That's all.

VICE CHAIR CARRILLO: So I -- I hear your impassioned plea, Commissioner Burt. And I think what I'm going to start referring to these situations as is the "bluebird" defense.

Yeah. You do. Geno Zamora with Tierra. "Is the bird alive or..." -- remember where he -- Oh, my God. It was -- all right.

Well, I'm going to refer to this as the "bluebird" defense. They've had ample time to do absolutely everything. And when you say this is not the venue, I don't actually understand -- maybe you're saying this is not the time. But this is the venue. Okay.

And -- but I think it's also the time. I think it's just time, time, time. It's -- and I think it's so important. And I'll use the example. The first time the bluebird defense came to us, it was with La Tierra. And one of the challenges that we've had over the years, or since I've -- actually, all four years now, pretty much -- but, anyway,

up and says, "Oh, actually, that's not the case."

So I would just ask that we start having the schools come up. And if it's an insufficient response, it's an insufficient response. We take action then.

But right know we don't have the response. I feel like it's okay to not have it today. Well, because we're not -- we're not in the venue to do it. I do -- I think if we -- once again, if this had come to us months ago that they weren't doing their condition stuff, then, yes, that would have been appropriate.

We're doing their Annual Report review. So that's why -- the way that we have set it up is that we do not talk to schools today.

That's why it's inappropriate. That's what I mean by that. But I think if we had gotten notice or known for several months ago, we should have done this a long time ago and had the -- done it. "Hey. Come talk to us. Why are you not doing this? What's going on? Let's get this fixed." And move on.

But we're just doing this so -- so late.

And to no forgiveness -- that's actually extra time the school had, to be fair. I am unhappy

since I've been on this Commission -- is the dotting of the i's and the crossing of the t's.

So if we ever have to take more severe action, did we give them ample notice? Is there a paper trail?

And that's why I think it's really necessary, that, once again -- I mean, you said we haven't given them a chance to say, "It's insufficient, but we didn't get the information." That, in and of itself, is the insufficiency. Their inability to be able to give us the information we need in a timely fashion or that we're asking for, that is a deficiency as well.

I would stress the wrong syllable there, but I'm sorry. So, anyway, I just -- I'm thinking a Letter of Concern is good here. And I wouldn't doubt it if, relatively soon, based on past performance, they're going to end up with a Letter of Breach, because they just can't seem to follow the rules.

COMMISSIONER CLAHCHISCHILLIAGE: Wow.

THE CHAIR: Just thinking. Is there any way we could send a letter to the school saying, "We have a concern" -- not a Notice of Concern -- but that we have identified a concern and that is the

lack of response -- 'cause if we give them the Notice of Concern, they're going to come up here next month, anyway, on that.

So that -- and perhaps the agenda get noted next month -- it's discussion and possible action, possible movement to the Intervention Ladder based on the response that the school gives.

So we've given the school notice. They're up here. We say, "We've got this concern."

They're already on the Intervention Ladder. And we've got the CAP. But we acknowledge that there is a concern that we're identifying.

Commissioner Brauer.

 $\begin{tabular}{ll} COMMISSIONER BRAUER: Oh, I'm sorry. \\ Go -- \end{tabular}$

THE CHAIR: I don't -- yeah, I've lost that screen, so I can't see. That's good. Sorry.

COMMISSIONER BRAUER: I like that idea, Chair. I think, for me -- and I don't know if this is -- I don't know if this is the right thing or the right logic. But I just want this school to start seeing progress.

And we could go -- like, we all know what's going to happen. We still hear from families, still. And I just want these families to

another letter. We are entitled, and we are able to do it, and it's within our control to do this.

I just think if we're in a position that we want to see a different action and a reaction from the school, and the leader, especially, of the school, I just don't see it happening if we go into this again. It's going to be, again, like, all the energy is going to be placed on, like, "You guys are terrible. You guys are picking on us. We're going to bring our attorney up."

It's just, like -- and what is going to happen in terms of the change? We all know.

So we are in -- we're stuck between a rock and a hard place, for sure. So I am really excited, Chair, about the idea of thinking a little bit creatively, and, "We have a concern."

This is not another notch on the ladder of wherever it's going to lead. But we're able to, hopefully, try something just a little bit different to see if we get a different reaction.

If we get the same reaction, then we have the backup plan, and we still have options to do this next month.

But if we really want to see change, we have to change our approach a little bit with that.

just, like -- I just want to find some health down there at this school for everyone involved.

So I think if we -- I think, just playing this out, we all know exactly what's going to happen if we send another notice of something to this school. "You're wrong. You're the problem."

Like, "You're not listening to us."

And then we're doing nothing again. This school is going to do nothing again, because they're going to be spending all their time putting their vitriol back at us. I know we all have big shoulders. We can take it.

But we're also in the business of seeing change for schools and for children.

And I -- you know, I'm kind of sick to my core to still hear families talking the way that they are and not figuring out a way to find their own health. Even with students who have moved on and they're at a different school, and they're finding it's a great fit, and we're still hearing, "You messed up, PEC. And this school is terrible, and you should burn it to the ground."

That's a little bit of a paraphrase. You understand what I'm saying. I'm feeling this is going to add more fuel to the fire to come in with

That's part of our values. Part of our values.

MS. JULIA BARNES: Yeah. I just wanted to put this -- and what you are talking about -- in the context of the rule.

So you are sending out a letter to this school today, you know, that will go out today. But the notice is going out -- the letter is going out today.

The rule anticipates that you can do a series of things. You can say a school's -- "Work on this over the next year." That is kind of the starting position.

You may put someone on the Intervention Ladder right now.

And then you did already say, in the last motion for this school, that the uncorrected, unsatisfactory performance, things that have gone on for two years now, are going to be added to that CAP.

So I think you have a range of options. And then I do want to flag for you the first good news. A lot of schools fixed their uncorrected -- their unsatisfactory performance from last year.

So when I was going through that, it's working.

There are several times you're going to see that you're going to hit this issue, where you have uncorrected, unsatisfactory performance. And actually, you'll see that it's blank each time, because I wasn't sure what you want to do.

So this conversation is the first of many, and it is within the rule. The rule doesn't dictate what you do. And you're hitting this one on no documentation.

So you are sending out just a letter. So when the Chair says, "Can we send out just the concern," that is exactly what you're doing under the rule.

THE CHAIR: I agree, that we have to look at our timing process, because they're supposed to report their conditions by, like, June 30th.

So that needs to be on the -- not maybe an analysis of it; but it needs to be on the July agenda. Did they or didn't they?

And then -- then there can be time. And maybe the August agenda, those conditions can be looked at, cleared out, maybe. Or it may be one of those ongoing that, "Great job, report back to us next year."

But we can't wait till January and say,

I feel like -- I hate the fact that it's been that long, and we -- you know, that -- and so we're kind of dealing with something that should have been done six months ago, or like you -- as you suggested.

But at the same time, I just feel like I don't want this administration -- I want them on their toes, you know. I want them on their toes responding to the things they need to do to come to a resolution in that community with that school.

THE CHAIR: Okay. K.T.?

COMMISSIONER MANIS: I just wanted to echo what Commissioner Taylor had mentioned. My thoughts on the matter are that we should send the -- send a letter. We have to go based off the information that we have and the information we have now.

And we should -- in my opinion, we should be doing that with all Annual Reports. That's why we take action.

And I understand Commissioner Brauer's standpoint as well. But I think we need to do right by these families and hold the school accountable as much as we can.

THE CHAIR: Commissioner Carrillo.

"Hey, how come you didn't do that back in June," you know, when this is something we could have done in real time.

COMMISSIONER TAYLOR: So just briefly and then I'll let it go.

Okay. So, just briefly, I feel like I appreciate -- I appreciate Commissioner Brauer's sensitivity to the fact that we do keep hearing from these families. And I think we're all distressed by that, you know. And we want resolution. We want resolution there.

I don't -- if -- I'm okay with sending a letter, as you suggested. I would make sure that it is strongly worded in a way that, "This is what we expect."

Because what message does it send to those families if we're, like, "Okay. You got some more time. You know, we'll work it out," whatever. I feel like we really need to stand up for those families as well in that community and let them know that we are concerned about this and we do want to take care of it. And we do want to come to a resolution.

So, yeah, that's where I'm at. I am okay with a letter, as long as it's strongly worded.

VICE CHAIR CARRILLO: Echo both.

Appreciate what Commissioner Brauer said.

You know, I am recollecting that we said we would be doing this, that when we had the Annual Reports, it was -- it wasn't going -- and I'm remembering, so I'm going to withdraw this idea of doing a Letter of Concern.

But we said that after we receive the Annual Report, we would send a more informal, I think was the word we used, "Hey, look. This red flag came up," for us to be kind of more gentle and invite them into the conversation, if you will, Commissioner Brauer.

The challenge I have -- so that's what I would like to do, and that's what Patty mentioned.

So the -- I don't mind saying this. So the challenge I have is sometimes I get the impression -- often, I would say I get the impression, especially when they're up here -- that they don't care. They're just thumbing their noses at us, and they just couldn't care less.

No?

I feel like they're just going to go on doing what they're doing. We can send as many letters as we want to, and we're going to keep

getting the people on public forum that don't even realize sometimes that we don't have control over some of these things. A charter is autonomous for a reason, so we're not going to intervene in those things.

And I understand, because we've been listening to the parents for a long time -- I understand and feel for their concern -- that it's not something that we can intervene with. That really is a matter for the board. And I know there are issues with the board, but we don't run boards. Yeah.

THE CHAIR: Commissioner Ingham.
COMMISSIONER INGHAM: Well, I just want to say, listening to the impassioned public comment month after month is really -- it's -- it's tragic; okay? And they point out a lot of important things.
I wish they would listen to the rest of the meeting and to hear that we are wrestling with this.

I would bet that nobody that is -- and I hope they will -- they will challenge me on this next month. But I bet you none of them are listening to the debate that we're having right now.

And they don't recognize that we're agonizing over this. They keep coming back to us

reports. So, currently, we

So, currently, we are still waiting for the Office of Special Ed to close out what we asked them to look at so that we can -- so that we can either close out -- we have closed out some items on the CAP. So we either close out additional items, or the Commission can make a determination about the insufficiency of items that are still open on the Intervention Ladder, and then -- this would be, now, they're going to report to.

So this could -- the Commission could decide to allow the school to continue to report on it if that's the case, or, because they are on the Intervention Ladder, the Commission could decide to issue a Notice of Breach based on that.

So those -- because they, right now, are at that Notice of Concern. So if we felt that there was still significant enough insufficiencies with the CAP and their work on the CAP, they could move to a Notice of Breach. They could.

Or we could close it out and say, "You're now back in good standing," depending on the information we'd get.

So there's a mult- -- there's multiple choices that we have with that. You can allow the

119 | 121

with --

(Off-mic comment.)

COMMISSIONER INGHAM: Are they?

Okay. Well, then, they need to hear that we're agonizing over this. And when they make accusations like they made today, they need to recognize that we're not just ignoring this. We're acting in the most deliberate manner that we can act.

And I -- I agree, you know, that we should not kick the can down the road any longer than we have to. But we have to act deliberately and do what we're charged to do in a manner that we've made reasonable; okay?

So for me, I would like to know what is the next -- the next month is the next -- and they -- I want to affirm, because Julia said they weren't on the Intervention Ladder. At least that's what I thought I heard. They are? Okay.

So what is the next step on the Intervention Ladder? Is that the Letter of Breach? And can we issue that next month if that's what needs to happen?

THE CHAIR: So they are on the Intervention Ladder. And we've been getting

school more time. If you feel that they've made -they've shown genuine progress and you're confident,
and you can say, "Okay. We'll get a report back in
two months." Or you could say, "No. Everything is
good. What you gave us is satisfactory, and we'll
send you a notice that you're back in good
standing." Or you could say, "We're going to move
to a Notice of Breach."

COMMISSIONER INGHAM: Okay. But they won't be able to -- they -- what Mike and the rest have articulated, the fact that they were negligent in responding to this -- the -- the condition, that can't be cured. I mean, they can't come in and say that they -- I mean, I know, Bekka, you mentioned some things that, well, what if.

Okay. To me, that's unsolvable. The fact that they didn't respond is still -- they had an obligation to respond to those conditions, and they did not do it. Whatever reason that has is -- is maybe -- it may have a -- it may be pertinent. But it won't fix the fact that they didn't respond to the -- to the condition in a timely manner.

So that one, to me, almost puts them in a category where the next meeting, they have -- how they can -- I don't think they can cure that.

COMMISSIONER BURT: But what I -- so I think that's a fair point. You can't go backward and -- so the timeliness, you can't go backwards and fix. I mean, once something is not timely, it's not timely. That happens.

So what I -- once again, I'm struggling with this, because I actually think it's more about the CAP than Annual Reports, number one. Annual Reports, we're doing the right thing with the letter, like, that process.

Now, when we go to the CAP, I'm seeing it as differently, because this is actually, like, the CAP is not being followed kind of thing.

I do think you're right. But I also -- I think because -- I do think this is a CAP issue. That -- that's where I think we have an obligation to -- to have a communication with them about it; right?

So -- and, like Chair Gipson said, July 1, I think we probably should have been, like, "Hey, this isn't ready. What's going on?" Talk to them at that point. And we didn't do that.

So that's why I don't like that it's, like, so -- our timeliness. Like, the school messed

They do know. They know. But, once again, we gave them 20 things to do. They also have 100 things that they're doing. This is one of many things on a list that this school has to do all the time.

For us, it's the biggest deal. For them, they have to keep their doors open. Like, he is struggling -- like, this school is struggling with facilities. They're struggling with personnel.

Like, this is -- I know for us it feels massive. For them, it's one of many things for them.

So I don't think it's that they don't care. It's that they are working through 100 things. They've made progress on, you know, 19 of the 20 things. But they're still missing; right?

So I think we can still -- this is where Commissioner Brauer, where he said, "Let's do this in a different way instead of just, 'You didn't do it, you're bad.""

Let's bring up, like, "What's going on? Where did this leave off? Like, this is important. This is important for us."

And I do think having the conversation is what is the mechanism to do that, to bring them up.

123

up; we also messed up. That's where my struggle is, is it's -- we should have made more action sooner as well.

And, yeah, I don't know where they dropped off of the CAP. I don't know where it kind of got lost.

But that's where, once again, like, if there's not clear communication, if we don't have the -- the clear communication on our side, we're -they're not getting clear communication then. There's no way they are. Like, if -- on their own. And we gave them a list of the -- what? -- 20, 30 things.

So for them, this is one of many things they have to do; right?

We're seeing it as, "That's the one thing you didn't do -- right? -- so that's it."

We gave them an enormous list that they had to follow and check off all the things. If that's one thing that dropped off the CAP and hasn't been reported to us, that's on us as much as -there's a little course correction we can do.

And we can do it in a collegial way. I fully support, like, having the letter say, "Hey, this should have happened."

Let's talk about it, figure out -- it's not a forgiveness, but it's, like, let's get on the same

3 page.

> Because I don't think from our side, I don't think we're on the same page. And that's what -- that's where my kind of mindset is coming.

But, once again, I see this more as a CAP issue for this topic than I do Annual Report.

And so I think -- I don't want to muddy the waters for the rest of the Annual Reports with this scenario. And I'm trying to keep them separated.

THE CHAIR: Yeah. And I'm speaking just about conditions; okay?

So we did drop the ball somewhere along the line with that, because we should have known -we should have checked to see where -- you know, yeah, it should have been in the CAP. But we were kind of trying to keep those separate. And, obviously, it didn't work. So you learn from your mistakes.

Hopefully, everyone does, both sides, you know.

So at the end of the day, you're absolutely right. Can't cure, "You are late. You

(Off-mic discussion).

COMMISSIONER BURT: All right. So I actually -- this is very exciting for me. And this is going to be a little geeky.

But this is, like, the first time that we are implementing the performance framework, the rule, the timing. And it's actually, like, coming to, like, boots on the ground now for the first time.

So I'm kind of geeking out about it a little bit. So bear with me.

But this is the -- this is, like, our first year where we could have uncorrected, unsatisfactory performance with a school.

So the whole point of us doing it is so that we can start having clearer communication with schools year over year -- right? -- instead of waiting for their renewal to have that communication.

So my suggestion, kind of like the idea of what we're -- the vision of what that could look like -- but I think there's lots of different ways to do it. But I think when we were looking at the rule and talking about what does this look like, it

decisions to start putting folks on Intervention Ladders. That way, we're not getting to two or three years down the road, this has been a problem, and now at renewal, now it's a huge problem.

This is where we actually get to start having that proactive communication. I do think of it as that. That's proactive communication. We're providing clarity to the schools. We're also providing them the opportunity -- like, now they know that they have time to, like, figure out what they're going to come and talk to us about this thing, and then, like, determine what this looks like after that, at that point.

So I don't know if it is going to be, like, every January and then February is just full of, you know, uncorrected, unsatisfactory performance reviews kind of thing. But it could end up being part of the cycle that we end up going through, that that's part of the process.

Once we get that unsatisfactory -uncorrected, unsatisfactory, that means, "Two years in a row, you've had the same issue. We gave schools two years to fix it on their own. Now you've got to come talk to us."

I feel like that's super appropriate.

139

really is looking at that record of performance, but putting pressure on schools to make those adjustments.

If they get the letter the first time, if they didn't do it in a year, yeah, we've got to take the next step now. We don't go another year. We don't go more. This is actually when we start the, "Actually, all right, what's going on?"

We've got to go in there and see what's happening.

I think for the school, seeing that uncorrected, unsatisfactory performance in the financials, I think that's one where I think it's appropriate to send a letter saying, "You had uncorrected, unsatisfactory performance."

I think we do need to have the school come to the PEC, talk to us about what their plan is, what are they doing about that indicator, about that uncorrected performance, give us their plan, what are they doing.

If they have evidence that they've already made more progress on it, they can do that at that time. But if they come and they don't have sufficient -- any plan, no progress, no anything happening, I think that's when we start making those

VICE CHAIR CARRILLO: So all right. There's someone that's on Zoom that texted me that they thought they were not allowed to speak on any of this.

THE CHAIR: They're not today.

VICE CHAIR CARRILLO: My question is, okay. Then why not? I just -- you know --

COMMISSIONER BURT: So the reason why we chose that -- and this is part of that rule process. It came up. 100 percent, you're not crazy for, like, "Why are we doing this?"

It's because if we saw that schools came up today, it would just be more infighting of them arguing against CSD; right? So we're not doing that. That's not what you're -- that's what the purpose of an Annual Report is, to come argue about what CSD wrote about them. That's why we don't allow schools to comment. They can write in their comments.

VICE CHAIR CARRILLO: Where is it codified?

COMMISSIONER BURT: In the rule. When we review their Annual Reports, that they can do a written submission. They're allowed to do written submissions that we review. Anything they would

If we give them the letter of whatever it looks like, that just goes into their record. There's no, like -- they just need to fix their stuff.

It's only when we're going to take action, adverse action. That's why I think we need to give -- that's when we need to have them come talk to us. They can talk to us and give us more context, only if we need to move toward further action to begin with.

VICE CHAIR CARRILLO: I understand what you're saying. But as a body that has constituents that want to be able to address us about whatever concern they may have, whatever it may be, I mean, the idea of us telling -- to me, anyway, the idea of us telling them no. If they want to come here -for instance, they know we're going over this, and they say, "You know what? This thing irked me," I just want to be able to let them know why.

COMMISSIONER BURT: They can do public comment as well. They're welcome to do public comment, reach out to somebody outside of the meeting. I think public comment is an appropriate proper forum for that.

The Charter School Division makes their best determination. If the school feels that it's still not correct, they then have the opportunity to put that -- as a record of their performance, as Sam helped us with -- put that in there.

We get to read it. But that's still -- we don't change that report. We identify concerns. And that conversation is better had at a separate time, so we're dealing with just that individual concern as opposed to, "Now, let's open up the whole Annual Report," when we don't -- it's not our report, and we don't have any capacity to change it. So...

VICE CHAIR CARRILLO: Please know that I really do understand what you're saying. I'm not --THE CHAIR: I know. But you keep asking.

VICE CHAIR CARRILLO: I ask these things, because, to me, anytime we're excluding someone's ability to come to us and comment, that just doesn't feel right to me, as a public deliberative body, that --

THE CHAIR: They can do it during public comment.

VICE CHAIR CARRILLO: They have public comment. But also if they're on the agenda, for

143

145

If they're upset about the process or want to make comment about a specific school, there's public comments available, two minutes to anybody who wants it at any time. But, also, the schools do get full reign to have as much written as we can read as possible. I mean, they should not be leaving anything on the table that they would come say. They should be writing it out to us so that we can review as well.

THE CHAIR: This is the CSD report. We don't have input to that report. We don't have capacity to change that report.

So if a school came now at this very moment, it would truly be a, "You were wrong. I want the rating changed."

And that's -- we don't engage in that conversation with the Charter School Division, on a report that they are responsible for. The school had numerous opportunities in the process to go back and forth with the Charter School Division about, "I've got different data." And there are changes that occur without us seeing it.

And then, at some point in time, it has to become final. There's a -- there's a -- there's a time when you can't go back and forth any longer. instance, any school that's on there -- Pecos Cyber Academy. They're not here. They're cyber, but would probably be online. But if somebody wanted to come and say, "I'm concerned about this particular finding or whatever..."

THE CHAIR: That's not our place. That is not our place to engage in that conversation.

VICE CHAIR CARRILLO: It's their place. THE CHAIR: They have, in the written comment.

VICE CHAIR CARRILLO: I believe it's their place to be able to come to us.

THE CHAIR: I hear you. We've established this process. And this is exactly what we did last year. Exactly.

VICE CHAIR CARRILLO: Okav.

THE CHAIR: Commissioner Obenshain.

COMMISSIONER OBENSHAIN: So just for my own clarity, when -- for example, let's take this one that's right in front of us -- a school does respond, then our responsibility is to take that into account and then determine what action we will take based on the report and their response.

So, for example, in this one, the motion, potentially, if I were to give a motion, I would

2.

take into consideration they're concern about the playground facility issue -- right? -- that that was brought up, and it's unsatisfactory according to whatever the CSD provided.

If I agree with the school's response, then I would make a motion that would not include -okay. All right. So I just wanted to be clear about that. Thank you.

DIRECTOR CORINA CHAVEZ: Just wanted to make sure that Commissioner Obenshain knows that -- and I think you've experienced -- that there is lots of back and forth between the CSD and the school before we get to the point where these reports are presented to you. We give them an opportunity to be really specific about each indicator and why it might be different and to provide evidence. And we do make changes when there is evidence.

THE CHAIR: I've already said that. I said that before. So -- but I want to acknowledge that -- I did -- so without engaging in -- I don't need the school to -- because I know what the school has identified. I did have a question as to -- because I know we have a lot of schools that are in strip malls; so -- and they just have a parking lot.

So I -- I was unaware. And maybe it's me,

was serious enough that it would rise to the level of bringing into this report.

And we're concerned about student safety. So that's where 5.a. comes in.

THE CHAIR: So here's my question. A parent calls and complains, says "I don't like the playground. It isn't..." -- okay.

I understand the concern and a complaint that a parent might have because, honestly, this school is a facility that had been an adult tech -- that had closed. So it's not a facility -- and their -- they actually came up to us with a big plan for the expansion of a playground and all of that.

I did not -- so it was not my understanding that if a parent called and made a complaint, that would get generated into the Annual Report.

And if there -- if there was a concern, I acknowledge it. I don't know what the expectation is when you're looking at, probably, Commissioner Ingham, tens of thousands of dollars to mediate a playground, what the expectation is for that to be fixed in what kind of time frame, when the concern comes out.

but I was unaware that we rated -- I thought maybe Poms would go in if they identified a concern or maybe NMPSIA, if that's what they do. But I was unaware that, through these -- because this is, honestly, I believe the first time I've ever seen identified in a report something about a safety issue with a playground.

And I did not know that that's something that we rated. And that was my only concern. Because I do -- I do recall a school that we closed that had enormous safety issues.

And it's, like, holy cow. How is anyone out there? And it was never identified in a report. So now this is here.

So I had that question.

DIRECTOR CORINA CHAVEZ: So the Charter Schools Division gets a lot of complaints, some of which we can do nothing about, because it's a personnel issue, and some of it which we can take to the school and -- and/or the appropriate entities to do a little bit more of a dive, deeper dive into it, if you will.

This was an issue that was noted, I think called to our attention, and we called it to the school's attention. And we felt like it was -- it

That's what -- I'm just -- I'm just concerned that we could be sending out a notice on an issue that we don't actually weigh in on, that it -- only if we got a notice from an official entity like Poms that said, "Children should not be -- should not be there," you know.

DIRECTOR CORINA CHAVEZ: So, Chair Gipson, the Las Cruces Fire Department was called.

THE CHAIR: To the playground. Not for the playground.

DIRECTOR CORINA CHAVEZ: Oh. I see you're wanting to separate out the playground with the safety of the doors?

THE CHAIR: I guess the fire department, also -- my understanding is the fire department also issued a "no concern." So that's where -- that's where I don't understand. So if -- if we're identifying a concern, a fire concern, if you want to do a building, and you say, "We couldn't get out of that -- no one could get out of that building," okay, then I get it. Notify the concern.

But if someone's going around a building and saying, "Oh, there's a deadbolt there," or something, but the fire department, as the official entity has not noted -- to me, when you're looking

at any health and safety issue like that, the fire department, fire marshal, Poms, NMPSIA, they generate a concern, and then we note that.

But I have a concern over our just -because I don't know -- 'cause if a parent hasn't issued a complaint at another school, but it's the exact same condition, what are we doing, you know?

So -- 'cause that was -- that was next on my list. Because it does raise to my level of -- I think we're -- I think we're weighing in in areas that only an expert should be weighing in on.

Commissioner Burt, and then Commissioner Ingham.

COMMISSIONER BURT: Yeah. That was where I was going to go is -- I didn't -- I couldn't tell for sure if it was only CSD that was, like, reviewing these things. So I was -- I was -- I don't -- I almost don't want to say this, because I don't want it to come across as catty. But who's the expert in CSD on these things to make the determin- -- where did you find that -- it is -- it feels a little off.

And I would expect, too, that if there's a serious enough concern, that CSD can report that to the appropriate organization that would go out and

sure they go out there? That's my only concern is there are playgrounds, as we witnessed, that were a hazard.

And I do feel like if you have a concern, then maybe it is appropriate to call Poms. But it seems like the school -- did they get the complaint? Somebody's got -- somebody's got to trigger that call to Poms to have an inspection done.

And I'm going to say, though, that almost every inspection of a playground is going to create an issue. I've built playgrounds at APS and spent upwards of a million dollars on a playground and still had a failing audit. So the reality is that's a -- that's a really tough nut to crack.

But what we need to find is a -- if there is a significant concern articulated by a constituent, that needs to somehow trigger that inspection, and I don't know how that is. I know how that goes in the districts, but I don't know how it goes with a charter school.

COMMISSIONER BURT: Generally, what happens, when a parent calls in a complaint, they should be directed to file a complaint with the appropriate area. The parent should be the one filing a complaint, not -- it shouldn't be us. It

do that in the future.

You don't have to answer that. Because now that I know it was CSD, that's -- I do think that's where I stand as well. Like, when there's a level of something that goes to a concern, I think the CSD should move that on to an expert in the future.

But the other thing that I will say is because of that Does Not Meet on facilities, that triggered the Does Not Meet overall. And so I would be supportive of sending a Satisfactory Letter of Notice, but then -- indicating just the uncorrected, unsatisfactory financial concerns, but doing a Satisfactory overall, because that does change the rating overall of the school.

DIRECTOR CORINA CHAVEZ: So is it a Meets or is it a Working to Meet?

THE CHAIR: Did you have -- did you have something -- Commissioner Ingham, Commissioner Obenshain, and then Commissioner Brauer.

COMMISSIONER INGHAM: I fully agree that CSD shouldn't be doing an evaluation of a playground.

I don't know who -- so if there was a complaint made, then who does call Poms and make

really should be -- that parent should be doing it themselves. That's what the direction should have been.

DIRECTOR CORINA CHAVEZ: So, Commissioners, I have the report right there. Because there are two issues. It's not just the playground. It is the locks. So I just want to make sure --

THE CHAIR: We understand that. But there was also -- the fire marshal came out and found no concern. So, to me, it's the fire marshal's report that we accept, not someone who's not a fire marshal determining that there's a safety concern.

You know, I fully understand that if there is an ADA ramp, and it's completely inaccessible, then I think an obvious, "Hey, you know what? You can't access that ramp."

But maybe -- but I will also think there's an appropriate entity that would also acknowledge that. But for us to say, "You've got a fire issue," and the fire marshals say, "No, you don't have a safety concern," that's where -- how do we override the expert in the field with that? That's -- you know.

But I do agree it shouldn't be us. But

Commissioner Burt is correct. It should be -- when -- if a parent calls and complains about a safety concern, whosever handling that here should say, "Here's the phone number of Poms & Associates. You can address this with them."

I'm sorry. Commissioner Obenshain. COMMISSIONER OBENSHAIN: Yeah. I guess

for me, the bigger question is with regard to the Annual Reports that we've already accepted, what happens with the school's response with regard to CSD's final report?

So with this, I'm -- it's -- and I haven't gone down to the school and looked at the doors or whatever, which I would never do. But it seems to me that they responded to all of the concerns, the financial as well.

They didn't say specifically what actions have been taken to address audit findings. But they did say they've changed business managers. They anticipate that this issue will be resolved, because they had the audit findings.

And the schools that I've worked at, when we get an audit finding, we address it immediately. We have to provide a response to the auditor saying, "This is how we plan to address it."

can.

COMMISSIONER OBENSHAIN: But it won't
 change our designation.

THE CHAIR: Until the next audit comes out, yeah.

COMMISSIONER OBENSHAIN: What we're saying is regardless of your response, any audit finding in this category shall -- if I were receiving that letter, I would say, "Well, okay, we're not going to -- we're doing stuff, because we had to, to the audit. But we're not going to respond to this from the PEC, because it's not relevant until the next audit comes out." Is that correct?

THE CHAIR: They can't show us they actually corrected it until the audit comes out.

COMMISSIONER OBENSHAIN: I guess that's my question. Then what is the -- right. What is the purpose of their audit -- their response to the auditor, then, if -- because, I mean, that was a big thing for us was, "Well, yeah. We have to demonstrate on our response to the audit that we've taken these specific steps to address this finding."

Not, "Well, wait till next year to see if we've fixed it."

THE CHAIR: I'm going to say schools that

schools get additional letters that address the
 audit findings. And in that response, they simply

have to show us the plan that they're taking, you

get -- so when the audit comes out, in addition,

know.

And, oftentimes, because they've done a detailed to the auditor, that is sufficient. They just have to say, "This is our plan."

Sometimes the plan -- the response to the auditor is way insufficient. So it's, like, no, we need to know -- yeah. Just saying, "Oh, we're creating new processes," you know, does that really fix it?

So we deal with audits at a later time and with separate communication, where the school is required to show us the plan, and then the following year, we clear it out with the audit.

COMMISSIONER OBENSHAIN: I'm not trying to be difficult. But I would say, in the same vein or the same way, are we relying on the expert on playgrounds the same way -- and fire facilities, fire code, the same way we are auditors?

And it sounds to me that they say, "We're putting processes in place," and we say, "No, that's not sufficient," are we now acting as the experts in

Does that mean that they've addressed it? Or does that mean no, because it's just their response, that it's still outstanding?

THE CHAIR: So I think with the audit finding, different than most of the others, because the audit finding, we rely on the actual audit. So we'll look at -- when we get the audit findings in February, we will look and see. So that's where the determination would be. They've corrected it.

So that's different than many of the other areas, because we actually have that expert -- the auditor has come in and said, "Yes, they've got a repeat finding." "No, they don't."

So that kind of sits by itself.

But the rest, that's where the concern is. You know, we haven't had any other, at this point, noted uncorrected, unsatisfactory that fell into this area, where we haven't had -- there should be another outside entity providing that information.

COMMISSIONER OBENSHAIN: So to follow up, then, that would mean that any financial issue that was identified based on an audit, we shouldn't expect any response from them until the next audit comes out, because they can't respond to it.

THE CHAIR: Well, if they want to, they

the auditing space?

THE CHAIR: We're not clearing them out. We're simply -- we ask them to provide us the plan. But we don't clear out that -- we don't clear it out. And we don't clear out the school's concern until we get the next audit finding, and then we clear it out.

Only based on -- do we clear it out only based on the auditor. But we would like to see -- we'd like to have the conversation with the school to see, you know, are you really doing something about this? But, otherwise, we do not clear that concern out until we get the following audit. Yeah. Julia? Oh, I'm sorry. Alan, you had your hand up?

COMMISSIONER BRAUER: Just one thought. My original thought was satisfied, because I was thinking about, when we were focusing on the merry-go-round, on the asphalt -- I don't know what it is -- that's what I'm thinking about. I'm thinking of Commissioner Ingham putting in these metal merry-go-rounds for people to get hurt on.

Those are not for just Gen Xers, that was good enough for me.

So I feel satisfied with the other -- the fire marshal coming out and obviously being the

others -- you have shared -- they'll have a chance to change this in the next round. But it's still there, you know.

And I can see, like, our schools who are all in that threshold, that could be something of, like -- that's a concern to me.

So if they've corrected it, I do wonder how we can give credit where credit is due. And we're having a good conversation about it and they're getting credit by the word that we're saying. But it's still a red on there and it meets that threshold, that's really important.

I'm just wondering how we like corrected that, or make sure schools feel, like, comfortable and clear that this is something that we're giving credit for, but it's still -- it's still a red on our framework.

COMMISSIONER BURT: Okay. So that's such a fair and valid point. Thank you for bringing it up. I think, in my head, when I was looking at it and how Commissioner Obenshain said, "Well, let's just leave it off..." -- I get it.

I wonder -- because that letter is part of the record of performance. All of this is part of the record of performance; right? And I do know how

expert.

My concern -- and maybe this isn't a top-line concern -- but I was just whispering to Commissioner Burt that since we have a threshold in our performance framework of, like, if you get a certain amount of Do Not Meets, that that matters.

And so this one right now is at a threshold of three Do Not Meets. And I believe that means something in terms of you being in danger or something.

So when I put my empathy hat on and think about the school, that -- if I was in their situation -- and I have been -- I would fight tooth and nail on getting that sucker changed, like, because that's now on the record. And I know we've talked about we don't change it.

But I think, for us, it's now going to be basically in stone. And we're going to -- we're going to not put it -- to your point, Commissioner -- we're not going to put the facilities as an Issue of Concern. But it's still -- it's still a big old red flag in there.

And for me, like, I don't know if that's necessarily aligned to what we hoped for this. And, yes, they will have a chance, Chair Gipson and

I see it for myself is I'm going to look at things with context; right?

So when that school comes to renew, when I review this Annual Report, I'm going to say they got this overall Does Not Meet -- and I can remember the context behind it and be able to make a decision with additional context -- right? -- which is what their written -- being able to allow them to write, that's literally the whole purpose; right?

I don't want to get in a space of changing CSD's reports ever; right? I don't want to get into that space.

What I'm wondering is, to your point -- because I think that's incredibly fair -- I wonder if we can, in our letter to them, include that we are not concerned by that indicator and by the overall Does Not Meet.

That way, they also have it in their record of performance -- right? -- of saying, the PEC is saying they're not going to be concerned about these things at renewal time, basically, that we're telling them we've considered the context, we have this concern, this concern. These other items, the PEC's determining that we are not of concern of these items, and have it written.

And that way it does give them that, like, okay. Like, we see it's red. They see it's red. If other Commissioners change by the time they get renewed, like, if half of us are gone, and there's new Commissioners at their renewal time, they'll be able to read that as well; right? Like, it follows with the school in their record of performance.

And I'm wondering if that's a good, like, kind of compromise to where it's respecting the process and what CSD is doing, and also respecting the context and the purpose of why we are -- we do the back-and-forth with us as well, and being able to have, like, a balance between that.

THE CHAIR: So here's my fairness lens. And I hear it.

But what if we had expedited renewal? And everything else was -- because they only have three other yellows. Let's say they have -- all those yellows were green, and they still had those reds, they still would not qualify for expedited renewal. So that's where we run into the --

COMMISSIONER BURT: We haven't determined expedited renewal. We can think about this in advance. Because if we're going to write into our letters that these items are not going to be --

school indicated in writing that they were upset about that. You are considering it, and you're being clear here. So I think that's consistent.

The second thing I wanted to raise -- and I'm not sure if Commissioner Obenshain was raising it or not. But they have uncorrected, unsatisfactory performance on accounting principles, but not on the audit finding.

So maybe you do bring them forward next month to talk about whether their audit response has taken care of their accounting principles or not. And maybe that's the way to do it. You can consider it next month.

But I already have in my mind we could have some kind of a chart of what you're going to do with uncorrected, unsatisfactory performance. That's just my thoughts within -- rolling out the rule.

THE CHAIR: Yeah. Because it is a struggle trying not to change this.

Commissioner Obenshain.

COMMISSIONER OBENSHAIN: Well -- and I hate to muddy the waters any more. But it seems -- I'm not -- I'm not necessarily in agreement with not messing with the reports, in the sense that if we,

"This will keep you on track for expedited renewal." Like, "The Commission sees it as you are still on track for that."

And we can make it --

THE CHAIR: That's the only thing that worries me. I'm fine with the letter, changing the letter identifying no concern. Great. But I don't want this as low-hanging fruit, if, later on, there's -- you know, there could be a big consequence.

Did you have your hand up? No.

MS. JULIA BARNES: I just wanted to go back to the record of performance, which is in the rule, and kind of confirm what you all are saying. And I think that what you just proposed is consistent with that.

The record of performance lets there be what CSD says. If a school is concerned with something, then they get to put that in the record. It's in -- that's in the record.

Then your annual notice is -- in my view, should correctly outline, as you were just saying, what you intend.

And I think this follows that. CSD knows that the school has been upset about that. The

right now, as a body, agree -- and I've heard pretty much consensus that we're not fire marshals, we're not playground experts -- would we, after seeing this, say, "I don't agree with that rating based on their response."

Therefore, I believe, as a Commissioner, that they should not be penalized with that red mark on their report. Right now, I would say I agree that they should not be penalized because of their playground and their fire egress.

So that's -- so in the bigger picture, I'm wondering, where does -- or does that happen? So I remember having conversations and sending letters to this body as a director saying, "We completely disagree with this. There was never any indication that we would be judged or rated on our playground or our locks on our doors."

So I -- and that, for me, was the issue about what is on record.

So I never got a satisfactory response to my concern as a director because I said, "That is not right. That rating is not right based on the information that I am providing to you."

The -- if I were this director right here, I would say the same thing. "Then why didn't you

166 168 1 change it? Why is that still part of the record 1 changed." 2 2 when I indicated to you there was no fire violation That's where I don't want to get into 3 from the fire marshal, and there was no -- there is that. And I don't think we want to get into that. 3 4 no..." -- I don't know -- what was it? 4 But, to me, that's the only cure right now 5 THE CHAIR: The locks. 5 for it is to make a motion to rescind the acceptance 6 COMMISSIONER OBENSHAIN: No. no. The --6 of Explore-Las Cruces and asking Charter School 7 7 THE CHAIR: The playground. Division and the school to meet and come to see --8 COMMISSIONER OBENSHAIN: "And I have never 8 see if they can come to some comprom- -- whatever --9 9 been told that the Consumer Product Safety with this, and we don't have to worry about all the 10 10 Commission would be coming out to review all of my wording of this motion right now and we put it off 11 playgrounds. If that is now a new requirement, then 11 to February. 12 I need to know that, and I need to then be able to 12 COMMISSIONER OBENSHAIN: The only thing I 13 respond appropriately. Either I'm going to put 13 would say is that I wasn't intending to throw this 14 rubber down on my asphalt, or I'm not, and then I'm 14 all under the bus. But I do -- I'm wondering if we 15 going to live with the consequences." 15 don't necessarily have to do that, and we can still 16 So I know it's a bigger conversation. But 16 send a Letter of Concern because of the financials, 17 I'm just -- that was the issue for me about what's 17 but just ignore the other one. 18 on record. 18 Then we can come ba- -- later, at a later 19 VICE CHAIR CARRILLO: I echo Commissioner 19 time, talk about how do we deal with Annual Reports 20 Obenshain's concern. And I'm wanting to move on 20 that we feel may not have been adjusted based on the 21 21 school feedback. from this issue. And I'm thinking that the motion, 22 22 as it's written, it doesn't -- there's two things. THE CHAIR: I think we want to find a cure 23 One, I agree -- I would not want anything 23 for this school right now. 24 like this to get in the way of a school getting an 24 COMMISSIONER OBENSHAIN: But wouldn't

the -- sending the letter with just that one

But it would feel as though we could have a motion here where there not be -- once the language was changed, that we're not attack- -- we're not holding the facility against them. That's how I read this. We're not holding it against them in the motion.

expedited renewal. So I mean that because -- right.

And then I think the bigger issue to look at is exactly what Commissioner Obenshain was speaking to.

THE CHAIR: So my only thought on what you have said -- because I hear it, you know, and not trying to change the system that we have in place, wanting to honor what schools are doing.

My only thought is -- because we've already accepted the report. We could -- right now, we could rescind that, and we -- this is my only -- I'm throwing the pasta on the wall right now -- is to say, "We rescind the accept and ask CSD to take a look and have a conversation with the school, and we move this to February to see if there's been any change. And then we deal with it if there is none."

I think that's the only thing, to me, that we're still honoring the relationship between CSD and the school and fixing this. And us, I don't want us to start getting in and saying, "I want this designation address the school?

THE CHAIR: No. We -- it still sits in their Annual Report without -- we can't change the Annual Report. We can't.

The only way we can -- the only thing we can do is ask for the school and CSD to see if there can be a reconsideration.

The letter, we said we may not consider it an issue. But it still stands in the Annual Report, you know, which is public record.

So if we want to do the real cure for it, to me, the only way we can do that is to rescind and then work on it in February. I think that's the fairest at this point in time.

MS. JULIA BARNES: So my only concern is that the process worked the way you said. CSD said something. The school said something. It's not like there's new information today.

They just disagree.

I think I -- I think what would stop any school from ever saying, "CSD said this, and I disagree." Because every school down here that submitted a letter disagrees.

So, therefore, I don't want to set a precedent that you're going to rescind every report

were they? So we don't have to -- right. We do have to note the uncorrected, unsatisfactory. That we do do. But I don't think we need to put everyone who cleared, because it wasn't a formal Letter of Concern. It's on the chart.

Are we ready?

MS. JULIA BARNES: I just want to raise one thing for you to consider that I didn't know how to address. The Annual Reports have indicated that there's no growth data. But then they've also said they -- this is a one-to-one year's growth. They gave you some information on growth.

Last year, on this school, you indicated a concern with English Language scores for Black students, and there wasn't -- that information was masked.

So you can -- what -- I was thinking you should address it. I'm not sure how you want to address it. But one of them -- one of the ways would be to somehow get information to CSD so that it could unmask that data or something.

So -- whatever. The -- well, they can provide you information, I think, on students' -- we're not asking to unmask Vistas data. I don't know how you want to address it. I'm just raising

THE CHAIR: I move that the PEC provide an Annual Report Notice to J. Paul Taylor Academy indicating a Notice of Satisfactory Performance and identify the uncorrected, unsatisfactory performance related to 2.b., Accounting Principles.

The school shall be placed on the PEC agenda for February to discuss how they will remedy the uncorrected, unsatisfactory performance, and the PEC may take action under the Intervention Ladder.

Continuing with the motion: ...and identify the unsatisfactory performance related to 4.c., Staff Credentialing, on Page 11.

The unsatisfactory performance should be corrected by the next Annual Report.

CSD is requested to provide a general report to PEC with regard to school improvement on growth related to ELA scores for Black students at the next PEC meeting.

SECRETARY BECK: Second.
THE CHAIR: There's a motion by

Commissioner Gipson and a second by Commissioner Beck.

 COMMISSIONER OBENSHAIN: Yes.
 SECRETARY BECK: Commissioner Brauer.

it.

COMMISSIONER BURT: I wonder if we can ask that the information be provided to CSD. They don't need it from the school. CSD can just talk to the Accountability folks and get it from them. They can say, "Yes, the school improved," or, "No, we're still concerned."

We can't get numbers. We can't get anything. But I do think we can take a recommendation from them as to, "Yes, the school improved in this area", or, "No, the school has not made..." -- or, "The school has -- is -- it still is an area of concern for the school."

And then without -- because we cannot -- we cannot put ourselves in the situation where we're unmasking the student data publicly in any way.

Maybe we can -- we can just -- yeah, we could make that request.

THE CHAIR: Yeah. Instead of the school providing it, CSD check with Accountability and indicate to us whether there is still an ongoing concern.

DR. BRIGETTE RUSSELL: Is that ELA scores or English Learner Progress? Sorry. ELA scores?

Unless it 10 10 THE CHAIR: So I'm going to remind you shows up on a report, I'm not going to extrapolate 11 that this is proficiency and not growth. 11 data that way. 12 VICE CHAIR CARRILLO: Yeah. I know. 12 VICE CHAIR CARRILLO: That's fine. Let's 13 THE CHAIR: But you don't know where they 13 go on. 14 started from to get them to here, to show growth. 14 SECRETARY BECK: We had a motion and a 15 So if they started five years behind, to get them to second, didn't we? Yeah. 15 16 proficiency, it's going to be challenging, that --16 Commissioner Brauer. 17 you know, I think in terms of the overall score on 17 COMMISSIONER BRAUER: Yes. 18 Vistas. They improved their score from last year. 18 SECRETARY BECK: Commissioner Manis. 19 And I challenge -- I am challenged with 19 COMMISSIONER MANIS: Yes. 20 holding the schools accountable to a proficiency 20 SECRETARY BECK: Commissioner Burt. 21 when we haven't other schools. 21 COMMISSIONER BURT: Yes. 22 VICE CHAIR CARRILLO: Well, this is one of SECRETARY BECK: Commissioner Obenshain. 22 23 those -- this is a rare combination where they're --23 COMMISSIONER OBENSHAIN: Yes. 24 you have a school -- I think there's, like -- go 24 SECRETARY BECK: Commissioner Ingham. 25 over there again -- there's three yellows and the 25 COMMISSIONER INGHAM: Yes. 187 189 1 rest greens. 1 SECRETARY BECK: Vice Chair Carrillo. 2 2 But then on the academic stuff, (audio VICE CHAIR CARRILLO: Yes. 3 distortion) on, like, the organizational and mission 3 SECRETARY BECK: Chair Gipson. 4 program. But on the academics, not. 4 THE CHAIR: Yes. 5 5 THE CHAIR: Look -- it's not real growth. SECRETARY BECK: Secretary Beck, yes. 6 If -- but I know it's not real growth. But if you 6 There are eight votes for, zero votes 7 7 against. The motion passes. look at their growth percentile, they're pretty 8 8 close to the district. THE CHAIR: We're on to "k.," McCurdy 9 VICE CHAIR CARRILLO: Okay. And I think 9 Charter School. 10 10 growth is very important. Don't get me wrong. I I move that the Public Education 11 11 want to acknowledge growth. Commission provide an Annual Report Notice to 12 12 If you're looking at, like, math. If McCurdy Charter School indicating a Notice of 13 13 someone grows from 10 to 13, that's great. If you Satisfactory Performance and reflect uncorrected, 14 14 take the -- if you take those three points of 10, unsatisfactory performance in mission-specific 15 you could say that's 30 percent growth, not even 15 goals 1 and 2. 16 just 3 percent. But is 13 anything to say 16 The school shall be placed on the PEC 17 17 Satisfactory? agenda for February to discuss how they will remedy 18 18 the uncorrected, unsatisfactory performance, and the THE CHAIR: This is a middle school. So 19 you are aware of the school, where the students came 19 PEC may take action under the Intervention Ladder. 20 20 in to get to that. COMMISSIONER BURT: Second. 21 21 So that's where, you know, we've heard THE CHAIR: There's a motion by 22 schools come in and say, "I've got a student that 22 Commissioner Gipson and a second by Commissioner 23 23 came in at kindergarten level." Burt. 24 24 And now they're in a middle school. So SECRETARY BECK: Vice Chair Carrillo. 25 25 how is that school going to get that in one year --VICE CHAIR CARRILLO: Yes.

6	COMMISSIONER BRAUER: Yes.	6	Reports. Are we going with MAS?
7	SECRETARY BECK: Commissioner Manis.	7	So I am going to move that the PEC provide
8	COMMISSIONER MANIS: Yes.	8	an Annual Report Notice to Mission Achievement and
9	SECRETARY BECK: Commissioner Burt.	9	Success Charter School, indicating a Notice of

16	Eight votes for and zero votes against.	16	So I just want to remind sure. About
17	The motion passes.	17	MAS?
18	THE CHAIR: Can we make this on the	18	COMMISSIONER INGHAM: Okay. So the report
19	shorter side, 'cause we'll be here till 8:00 or 9:00	19	references 3.c., which is Staff Credentialing, as

2	SECRETARY BECK: (Off-mic.)	2	SECRETARY BECK: Commissioner Brauer.
3	THE CHAIR: Oh. I got you. Yeah. 3.c.	3	COMMISSIONER BRAUER: Yes.
4	MAS has a Does Not Meet on Staff Credentialing,	4	SECRETARY BECK: Commissioner Obenshain.
5	3.c.	5	MR. OBENSHAIN: Yes.
6	But in the notes on the explanation, 3.c.	6	SECRETARY BECK: And Secretary Beck, yes.
7	says, "Attendance percentage, recurrent enrollment,	7	There are eight votes for, zero votes against. The

9	So there's no explanation for the "staff	9	THE CHAIR: Thanks for picking that up.
10	credentialing." I just looked at the chart.	10	And I'll just ask the Charter School Division to
11	DR. BRIGETTE RUSSELL: Chair Gipson,	11	have an update for February's meeting. Thanks.
12	you're absolutely right.	12	We are back to "m.," New America
13	THE CHAIR: Commissioner Ingham.	13	School-Las Cruces. So I'm not making excuses. But
14	DR. BRIGETTE RUSSELL: Thank you,	14	I just want to remind Commissioners that this is a
15	Commissioner Ingham.	15	school that deals with students that come in to them
16	THE CHAIR: Do you want us to push it to	16	already out of graduation cohort, that they are,
17	February, so we can	17	very often you know
18	DR. BRIGETTE RUSSELL: Yes, please, so we	18	COMMISSIONER INGHAM: (Off-mic).
19	can clarify that. Thank you.	19	THE CHAIR: They could be. I would
20	THE CHAIR: So we have to rescind our	20	anticipate yes. But, obviously, that's up to the
21	vote? We voted on MAS.	21	school. But you know. So the students that are
22	MS. JULIA BARNES: Although	22	coming in are challenging students to start with. I
23	THE CHAIR: You can rescind if it's the	23	mean, if you look at their growth percentiles, in
24	same day, and it's done by someone who's in the	24	reading, they exceed the district and the state; and
25	majority.	25	in math, they're pretty close.
	195		197
1	MS. JULIA BARNES: It's reconsider, not	1	I'm sorry. Yeah. Yeah. That, I know.
2	rescind.	2	Yeah. Right. And that's why I mentioned the
3	THE CHAIR: Yes. To reconsider.	3	graduation, that they end up I think it's almost
4	MS. JULIA BARNES: Yeah. Reconsider that	4	impossible for them to get out of CSI Grad. But,
5	vote, and move it to	5	you know, we still have to acknowledge it, and also
6	THE CHAIR: We can reconsider within	6	note that they are a school that actually is trying
7	the	7	to excuse me work on their attendance through
8	So you need to move to reconsider the vote	8	the Special Project award.
9	on Mission Achievement and Success.	9	COMMISSIONER INGHAM: Staff credentialing,
10	COMMISSIONER INGHAM: I move to reconsider	10	Does Not Meet two years in a row. So we have to

3	The school shall be placed on the PEC	3	think that's hold on. Let me just look at
4	agenda for February to discuss how they will remedy	4	COMMISSIONER BURT: So my motion would be
5	the uncorrected, unsatisfactory performance, and the	5	to have it to acknowledge an Exemplary Status for
6	PEC may take action under the Intervention Ladder.	6	this school. But before I make that motion, I'm
7	The following new areas of unsatisfactory	7	open to if anyone else does not think that that's
8	performance are identified as: 2.e., Staffing for	8	appropriate and it should be Satisfactory instead.
9	Fiscal Management; 3.a., Governance Requirements.	9	THE CHAIR: I mean, I when I look at
10	The unsatisfactory performance should be	10	the explanation for the attendance, I mean, they've
11	corrected by the next Annual Report.	11	got high retention. They've got they're
12	THE CHAIR: Second.	12	exceeding their target on recurrent. I know they're
13	A motion by Commissioner Burt and a second	13	just below the target for annual attendance.
14	by Commissioner Gipson.	14	So I think I can easily live with
15	SECRETARY BECK: Commissioner Burt.	15	Exemplary, especially considering how young the
16	COMMISSIONER BURT: Yes.	16	school is. I think this is pretty remarkable, once
17	SECRETARY BECK: Commissioner Obenshain.	17	again, that they've got all these greens.
18	MR. OBENSHAIN: Yes.	18	Commissioner Beck.
19	SECRETARY BECK: Commissioner Brauer.	19	SECRETARY BECK: The Vistas scores are
20	COMMISSIONER BRAUER: Yes.	20	47.1; is that right? Am I reading that do I have
21	SECRETARY BECK: Commissioner Manis.	21	the right one? Okay. Which is so rationalize to
22	COMMISSIONER MANIS: Yes.	22	me why it would be Exemplary.
23	SECRETARY BECK: Commissioner Ingham.	23	COMMISSIONER BURT: Well, because it's
24	COMMISSIONER INGHAM: Yes.	24	just a Traditional. I was looking at the overall

COMMISSIONER INGHAM: Can somebody explain that to me? How you can get that Spotlight designation when your state assessment is unable to rate, and you're --

COMMISSIONER BURT: That's why. So when there's -- anywhere -- and this is for a State Accountability model anywhere, any time; right? So they'll have the different indicators and then their points.

When a school cannot be scored on an indicator, they don't get penalized for that. It just gets removed. And so instead of it being, like -- let's say the whole system is out of 100 points. This school may actually only get -- they actually only have 10 points that they can even earn kind of thing. And so they're getting all the points that they have. It's so few because they have so few students.

I was telling Commissioner Brauer they probably only had six kids take the assessment last year. So they cannot make accountability decisions certainly.

COMMISSIONER BURT: That's relative to their business rules and how they work. They were able to be rated in probably two or three.

DR. BRIGETTE RUSSELL: Yeah. College and career readiness and attendance and things. So -and I've made this point to people in Accountability here at PED, that you should just not rate this school.

But that's not the way they do it. ESSER requires them to rate, and so they rate. And so even if proficiency numbers, because it's a high school and the numbers are so small and only eleventh-graders are tested, if this was a K-5 school that was small, the whole population of students would be enough to give them a proficiency rating. But with only a teeny-tiny high school with only eleventh-graders being tested, yeah.

COMMISSIONER INGHAM: I just feel like it degrades their whole system. When a school that has no data can be rated a Spotlight, why bother? Because a school that may not have anybody proficient -- anybody -- and not even -- unlikely that they don't have anybody proficient in eleventh grade, and they're rated as a Spotlight school just

223

off of six kids from the State Accountability model.

That goes against all the rules of masking,

accountability, all of those things.

So none of those things are included in their Accountability model. They're also on our old performance framework. When they move to the new performance framework, I imagine they can do something different in the future. But this is what -- that's exactly how it works.

THE CHAIR: Deputy Director.

DR. BRIGETTE RUSSELL: Yes. Thank you, Chair Gipson. Exactly what Commissioner Burt was saying.

I'm looking at the points feeding into Vistas. And, yes, the denominator for Walatowa is very low. It is nowhere near 100. So most of the indicators don't even feed into Vistas. And they're not in the numerator, and they're not in the denominator.

COMMISSIONER INGHAM: Okay. I understand. Are any kids proficient in -- I mean --

COMMISSIONER BURT: That information is masked.

COMMISSIONER INGHAM: It should not get a rating then. It should not get Spotlight,

blows my mind, and it makes the whole thing a farce. I'm sorry.

THE CHAIR: I hear you. I also -- SAT doesn't actually show proficiency, either. So it is -- you know, that's what we're hooking our wagon to, so -- but it doesn't show us.

Commissioner Carrillo.

VICE CHAIR CARRILLO: I would agree, and I would go so far as to say that if they're measuring just the eleventh grade, there's the very likelihood that there isn't one kid, not even one, that's proficient at this particular school; right?

COMMISSIONER INGHAM: Right. THE CHAIR: You can't make that --

VICE CHAIR CARRILLO: I can say whatever I feel like.

But the idea that -- and I agree with Commissioner Ingham completely. It's one thing -okay. We don't have any data at all, so we're going to put you in the middle as Traditional. But even the word Spotlight -- right? -- it means something to people that read these things, and they're looking for schools for their kids.

And it just -- it makes it meaningless. It makes the word "Spotlight" meaningless,

24	Action on the Bylaw Requirements Regarding Low Board
25	Membership.

members; PED will not take that. So it falls to the school, and the appropriate place is the bylaw.

So I am not sure you could place somebody on the Intervention Ladder and move towards revocation. But you still are requiring -- you're requiring that they submit bylaws. And I think that this is a reasonable provision to put in it.

I would suggest you say "require." But can you enforce your requirement? Maybe not.

But I just think that the schools that have come in front of us have either been in crisis or spent hundreds of dollars on attorneys' fees. And it's been very unclear. So it's happened numerous times. So I think it's a reasonable thing for this body to do.

THE CHAIR: Okay. Are we ready? I move that the PEC require schools to have a provision in their bylaws identifying the action that will be taken, if, a., board membership falls below the quorum, and, b., all board members have resigned.

Schools negotiating new contracts with the PEC have these provisions in their bylaws as part of the charter contract documentation. And all other schools are required to provide bylaws showing this

THE CHAIR: So -- okay. I just have one question. We're saying the August PEC meeting. But they don't do the assurances. So can we change it to September so that they can just do it with the -with that assurance? Okay?

MS. JULIA BARNES: Are you making a friendly amendment to your amendment?

THE CHAIR: I am making a friendly amendment to my amendment to change it to September PEC meeting.

Commissioner Brauer?

COMMISSIONER BRAUER: Madam Chair, just a real quick point of clarification, since this is something that's going to be asked of all schools to

It's probably -- it's not within -- I know it's not within the motion. But the one thing that I just think about -- it's an extra burden for schools to do -- is making sure we have very clear communication with the schools, give them ample time to -- to get this done.

And we have parsed this out fairly well yesterday, so I think we're ready. Sure.

MR. OBENSHAIN: I'm wondering -- and my memory may not serve just from yesterday. But did we say we are requiring or that we were asking? Because I think there was a conversation about whether we require it and mandate it or whether we say, "It's a good idea, and, if you choose to not do it, you run afoul of the PEC"?

I just -- I don't remember what our resolution was.

THE CHAIR: And we talked about the "can we." And that's kind of a tough answer.

I think -- and you're right. Because if we require it, and a school doesn't do it, we don't really have teeth to say, "shame on you."

So I think we might be better served saying "request" -- the PEC is requesting schools to have provisions in their bylaws.

We are -- because we are requiring the new schools with their new contracts. Okay.

MS. JULIA BARNES: I -- I think you are

requiring it. And the reason that I think that is that it's here after a long series of things, that PEC does not have any authority to appoint board

And then just make sure -- make sure we're paying attention. Because we know -- even when we're giving away, as Commissioner Carrillo says, free money, we still have two-thirds of the schools haven't gotten back to us. I'm making up a number, but maybe not right. I think about these kind of things.

It's not necessarily a burden. But we kind of own it to make sure they get it done. That's a point of clarification I just wanted to make.

COMMISSIONER BURT: I also am wondering, in bringing that up -- because I do -- like, my mindset shifted toward the school. I kind of mentioned this yesterday. But I still, like -- I don't know if we should be doing it by charter contract, because it's so fast.

Like, we're asking -- I still -- I -- we committed in the rule to not asking schools to do things in the middle of a school year. We told them we would not do that to them.

And not only are we going to ask them in the middle of the school year, but to do within a month. There are some of the schools that have to do it with the next month. They have to get their

1 saying. We're asking them to do it, like, really 2

early on top of all the other stuff they're doing.

3 I'd rather them focus on the performance framework,

4 on their Options 2, 3 that they're figuring out, on

5 their mission goals. That's a lot for them to be

6 preparing for right now. So to throw another thing 7 at them -- it may seem small to us, but we're

8 throwing another thing at them with a very quick 9

turnaround. 10

THE CHAIR: We can check with them at contract negotiations, to make sure you're on your way. Because I think -- because we also talked about the possibility of an entity like PCSNM creating the templates. Thank you. And I don't know if that would be done by next month. I think -- it makes sense.

So there's a friendly Amendment No. 2, which changes the date to: All schools are required to provide bylaws showing this provision by June 30th, 2025." CSD shall report on compliance with this motion at the September PEC meeting.

VICE CHAIR CARRILLO: Why September and not August?

THE CHAIR: Because they do -- their assurance document isn't due until September. And

239

governing board together, put it on their agenda, have their governing board understand it, their board has to get on board with it. And they have to do it this month for next month.

It feels averse to our values of transparency, that we made a commitment that we wouldn't be doing this kind of stuff to them of throwing things at them through mid-school year.

I would just make the suggestion that we have all schools do it by July 1.

THE CHAIR: Do what? We already have a motion so -- I made the motion.

VICE CHAIR CARRILLO: This is on the Special Projects Award.

THE CHAIR: No. It's on item No. 17.

COMMISSIONER BURT: I'm wondering if there's any adverse -- why could we also not just ask all schools to do it until July 1? Why is that contract negotiation so important if all the rest of the schools get till July 1 anyway?

THE CHAIR: Let me just ask. So if we made -- when we vote for the contract -- this actually won't be in June; it's going to be like May.

COMMISSIONER BURT: That's what I'm

that's when they would assure that they've got their bylaws, yada-yada-yada. So it just makes sense that the report comes when all the assurance --

VICE CHAIR CARRILLO: Wouldn't this be, like, an Epicenter thing, too, where they're checking --

THE CHAIR: They are. They are. SECRETARY BECK: You need a second.

COMMISSIONER BURT: It was already

seconded. I appreciate it. Thanks for -- thank you, Commissioner Brauer, for bringing it up first.

2.

DIRECTOR CORINA CHAVEZ: No staff updates. THE CHAIR: Okay. Thank you. We are on to Item No. 19, which is me. I actually reported out yesterday on that.

I just wanted to mention, I think we all received the thank you. But I did send that -- obviously, I sent that award out to former Commissioner Armijo. I did send an ask out. So I'd appreciate for those of you that haven't offered the \$10.00, that we -- huh? Oh, Zelle? You don't do Zelle? Oh, no, you don't do Zelle.

Yeah, I do still take cash. Thank you so much. I appreciate it. Oh, wait. Do you need change?

So, just -- it was a lovely award. So thank you.

And I passed on to -- and it was really inexpensive, considering what it looks like. It was. It was pretty.

I was just disappointed it didn't come in before the last meeting, so I could bring it in person and show everyone, because I was surprised when I saw it, you know. How big? Probably about that high (indicates). I got a medium.

VICE CHAIR CARRILLO: He's in Ukraine.

It's going to be an interesting February with all the schools coming up and all the discussion going with -- looking forward to that.

So, anyway I was going to -- I had like a 30 minute presentation planned, and I'm going to go through this very quickly.

First of all, the -- we have Charter Day at the Capitol. And that's going to be on February 10th that everybody is invited to. We will have a reception just right over here -- what is the name of the little restaurant? But there's going to be -- I'll send you out the information on the reception.

But we are going to have a reception afterwards, also, that everybody will be invited to.

And that is February 10th. So put that on your calendar. February 10th. That is PCSNM's Charter Day at the Capitol.

And I went through the legislative platform before, so I'm going to briefly go through it.

Our -- PCSNM's legislative platform is funding equity.

Local authorized schools as their own boards of finance. That's a big deal for charter

Supporting the arts in Ukraine.

THE CHAIR: I bought it off of Etsy. And I usually put the filter, "Only ship in the United States." And I just wasn't paying attention. And I realized this guy's in the Ukraine.

But honest to goodness, I got it so fast. I got it faster than if my neighbor had mailed me something. It was, like, hey, this is -- I'll show you a picture of it. It was really -- it's on a piece of burled wood.

And I picked blue acrylic.

And he'll do anything for you. You get a lot of letters in the -- for the price, you know. So it's very nice. So thank everyone for that.

So I told you New Mexico Academy for the Media Arts.

And I think that's all I have at this point in time.

So, gee. The rest of the audience has all left.

MR. WAYNE SHERWOOD: It's typical. THE CHAIR: Last, but not least.

MR. WAYNE SHERWOOD: Thank you

Madam Chair, Commissioners, and congratulations to the new officers we'll be seeing next month. schools still.

Additional funding for the charter school revolving loan fund. We like at least -- well, we're hoping for an extra \$30 million. Right now, it's \$10 million. So go up to \$40 million.

Authorizer independence.

Serving over-aged, under-credited students past the age of 22.

And we support the funds that -- student support staff for general student population, not just special ed population. So it's support the funds that student support staff for all students, instead of just the special ed students right now.

And then the last one, which is really shooting for the moon, is fully fund insurance costs. So we know that that's a big ask to fully fund that.

But when we look at the state of New Mexico, it really sounds like teachers are getting paid a lot of money. But then when you add in that insurance cost of how much that is, that's, like, 10 percent of their check right there just gone to insurance. So that's a big deal.

The, CSP grant is going good. Round 2 awards will be announced by the end of January. So

COMMISSIONER BURT: I'm thinking at this time, we probably need to do something to allow so the session starts Tuesday Tuesday? THE CHAIR: Oh, yeah. We should. COMMISSIONER BURT: We probably do need to

need to create something right now that's a clear guidance of what the Chair can speak on on behalf -- or what -- whoever is representing the PEC, exactly what they can represent the entire PEC on, versus us as individuals.

So I do think this is an appropriate time to come up with the transportation -- the things the Legislative Committee have been working on, I think we need to list them out to produce clarity. I can tell you right now. There's not a single thing I'm going over there and saying, "The PEC wants this." So we need to vote on this today.

THE CHAIR: We have the uncoupling, authorizer independence.

COMMISSIONER BURT: Anything to do with that.

THE CHAIR: Because it's going to show up in a variety of areas.

COMMISSIONER BURT: Anything to do with the State Board of Education.

THE CHAIR: State Board of Education, yes.

VICE CHAIR CARRILLO: And if it's impacting the PEC, its impact on the PEC.

Transportation related to charter schools.

VICE CHAIR CARRILLO: Well, also -- we're

probably not going to get involved in the LEAs.

MR. WAYNE SHERWOOD: But transportation is what --

COMMISSIONER BURT: Transportation. Was there anything else that was --

THE CHAIR: The age.

7 MR. WAYNE SHERWOOD: 22, yes. Right. 8 COMMISSIONER BURT: Okay. Thank you.

9 In addition, anything to do with 2 percent 10 funding and transparency? Is that on your guy's 11 list this year like last year?

MR. WAYNE SHERWOOD: I don't know if that's going to be --

COMMISSIONER BURT: You haven't heard anything. As a Commission, if anything were to come up.

VICE CHAIR CARRILLO: If we're not bringing it up and they're not bringing it up, I'd rather it just not come up, because it dilutes the whole thing.

COMMISSIONER BURT: Just to authorize, if something were to come up between this month and next month, that we could speak on behalf of the Commission for what we believe what the 2 percent -- that it should go directly to the PEC and charters.

piggybacking with NMSBA in terms of transportation being fully funded. So districts don't have to tap into their Operational, either.

COMMISSIONER BURT: Would it be appropriate to say transportation, specifically NMSBA's platform, supporting NMSBA's platform?

THE CHAIR: As long as it's public charter transportation, right. As long as it's covering all public schools and fully funding, then we're in there because our schools are in there.

VICE CHAIR CARRILLO: And I would also say funding first-year charters, if it's not -- so we have that as a separate.

COMMISSIONER BURT: Wayne, can you also help with, like, what other things you want us to be able to speak on on behalf of the PEC?

We can come up and do this individually any time. You can come up and say, "I'm a PEC Commissioner speaking for myself." But I do want to have the kind of on behalf of the entire Commission listed out as well.

MR. WAYNE SHERWOOD: Thank you so much, Commissioner Burt. That is something we kind of overlap already right on.

COMMISSIONER BURT: Transportation. We're

VICE CHAIR CARRILLO: So we don't have our own lobbyist. Who -- I think we should have someone -- and maybe it's Consuelo, since she's our liaison, that's just a legislative -- hold on -- a legislative tracker.

Because things -- I'm fortunate. I live 10 minutes away. So something that was going to be at 9:00 -- oh, my God -- now it's at 3:00. Well, I can then change my schedule to be here at 3:00 if I need to be. Or legislation that wasn't going to appear? Hey, you know what? It's going to be at 8:00 tomorrow. Somebody who's keeping track of where our specific bills are, so we can speak to them, I mean --

THE CHAIR: So you sign up for LegiScan alerts. LegiScan. L-e-g-i-S-c-a-n alerts. And that shows you. And you can put in key words. And you put in key boards like "charter," whatever it is. Of course, if you're just putting in "charter," your going to get a ton of bills, because it'll say "schools" and "all charters."

You can read, and you can think, "Oh, I don't have to pay attention to that."

They'll alert you when any bill is filed that deals with charter schools, and then you can

261

look at -- you can click on it, and you'll see who -- and then you can say "I want an alert when

the committee agendas the night before. And as someone who drove up at 3:00 in the morning and then got there, and between the time my driving and getting there, it's pulled off, often, because someone got pulled away to another committee, there is nothing you can do about that. It changes all the time.

And for -- they have no control over when -- oh, someone else's bill is being heard, so now they can't report to this committee, and it's delayed. So it just gets to be too bad, so sad.

But you do have to get to know -- LegiScan alerts will tell you what committee it's been assigned to. And then you have to, on your own, track the committees and look at the agendas that they usually post by the late afternoon of the day before.

And, you know, LegiScan. Correct. I -oh, I don't know. It's -- it's a -- no. Because it's a national program. It's a national thing. So

1 THE CHAIR: No. Our anticipation is we'll 2 pay for the audits that took place this year.

MR. WAYNE SHERWOOD: Wow. Okay. I wanted to make sure I'm clear on that. That's even better news.

VICE CHAIR CARRILLO: Remind them how great we are.

MR. WAYNE SHERWOOD: I'll say it was all Steven Carrillo's idea.

10 THE CHAIR: Tell them we can't take cash, 11 but we can take in-kind.

12 MR. WAYNE SHERWOOD: Yes. When I said 13 funding equity, that did include the transportation 14 funding, at risk that follows the school, and the 15 size adjustment. The size adjustment, I know it is 16 something that legislators don't want to hear.

17 Schools are dying because of that. And I don't know 18 what we're going to do in the future because they're 19 just not getting funded enough.

20 THE CHAIR: Yeah. Yeah. 21 MR. WAYNE SHERWOOD: Okay. Thank you.

you have to go on it, the website, and then tell them you're from New Mexico. And then you'll get the alerts from New Mexico.

But this -- that entity does it for legislatures across the country. I guess ".com." It's not a ".gov." When you go on it, you can set up your own settings.

And it's helpful, you know. Because it also has the analysis on it, as it starts to go through committees, impact and things like that.

But it's -- it's not helpful -- it'll tell you what committees it's been assigned to. But then you've got to get into our legislature to see the committees that it's been assigned to and then look at the schedule. It takes a village to -- you know, once this starts.

MR. WAYNE SHERWOOD: Okay. Thank you, Madam Chair, Commissioners. I also want to thank you guys for voting in your budget to pay the tuition for -- the \$10,000, first of all. But then also now for the audits.

That is such a big deal. And you've just made a lot of people very happy by putting that in your budget. So that will start in July; correct? Is that the July --

clarification. Authorizer independence.

Anything regarding the State Board of

Education that impacts the PEC.

Transportation related to charters.

And the New Mexico School Boards' legislation to fully fund transportation.

Funding first-year charter transportation.

Funding for students over 22.

And then I'm not clear what the others were. Maybe the size adjustment, at-risk funding

and --

THE CHAIR: NMFA.

MS. JULIA BARNES: NMFA facilities.

Is that part of the at-risk? Or was that --
